

## BOMB THROWER STEELE'S "EFFECTS"

In His Room Were Found Fuses,  
Detonating Caps, Cartridges  
And Revolver.

MAY BE FROM GARNER, IOWA.

Worked in Lynchburg, Va., Registered  
From New York, Been Married  
Several Times.

Philadelphia, Jan. 6.—With the finding today of the personal effects of the man who threw a bomb in the Fourth National bank on Saturday, killing Cashier W. Z. McLeer and himself, there is little doubt left in the minds of the police officials that he was Rollo Steele of Garner, Ia.

The bomb-thrower slept Friday night at the Grant House, a hostelry on the outskirts of the tenderloin, frequented mostly by respectable working people. He registered as J. R. Steele of New York, and carried a grip which he refused to allow the colored porter to carry to the room.

When detectives searched the room today they found several yards of snow, a number of detonating caps, a revolver and a box of cartridges, together with a number of tools and some clothing. There was a suit bearing the tag of a Chinese clothing house, and a pair of overalls, marked with the name of a Lynchburg, Virginia, merchant. As Rollo Steele was reported to have been in Chicago and Lynchburg, in the latter place within a few days, the police say there is little doubt as to the bomb-thrower's identity.

It is probable that none of those hurt by the explosion will die. William J. Crump, the negro messenger in the bank, and body guard of President Richard H. Taft, were the most seriously injured. He was today operated on. His condition was such a few hours after the explosion, that he was reported dead, but he rallied and the physicians operated in an effort to save his eyesight, though his eyes will never regain their normal condition. Crump after the operation said his mind with the statement made yesterday by President Taft.

WAS MARRIED TWICE.

Lynchburg, Va., Jan. 6.—J. R. Steele, who it is supposed, wrecked the Fourth Street National bank of Philadelphia yesterday by throwing a bomb, worked here as a concrete construction foreman for several months. Mrs. Steele and a 10-year-old son were seen at their home tonight. Steele left here Thursday morning. Up to tonight his wife had heard nothing of him. She did not know that his name was connected with the wrecking of the bank until today. There is no doubt in the minds of friends of Steele, from descriptions in the press dispatches, that the bomb-thrower is from this city. Acquaintances say that for some time he had been experimenting with explosives and electric batteries.

When told of the statements attributed to Mrs. Irene Steele in Chicago, Mrs. Steele said Steele was divorced from her before his second marriage.

CHICAGO WIFE'S STATEMENT.

Chicago, Jan. 6.—Mrs. Irene Steele, who claims to be the wife of the alleged Philadelphia bank wrecker, claimed all knowledge of the wrecking of the bank until today. Steele declared she had been married to Steele 14 years, that they never had any domestic trouble and that within two weeks she had received a check from Steele for \$50.

AMERICAN EXPORTS.

Last Year Their Value Reached Sum of  
Seven Hundred Million Dollars.

Washington, Jan. 6.—A statement issued today by the bureau of statistics of the department of commerce and labor announces that the country ranks third in the value of manufactures entering the world's international commerce, the amount of its exports for the past year having aggregated more than \$790,000,000. The exports have never even approximated these figures before, and the value of American goods in the foreign market, the report adds, is twice as great now as eight years ago.

RUMORS OF ANOTHER  
CUBAN CONSPIRACY.

New York, Jan. 6.—The Tribune tomorrow will say:  
Rumors of a conspiracy against the peace of Cuba are again rife in this city. Three persons mentioned in connection with the plan to start trouble in the island were office-holders of the Palma administration, two of whom are now in New York and the other in Europe. According to these reports, arms and ammunition have been shipped clandestinely from this port to Cuba for possible future use. Some of these contraband articles, it is said, were buried near Mariel, not far from Havana. This fact became known to the American authorities, and a company of soldiers was sent to search for the rifles and cartridges, which, however, had been removed to another hiding place.

STEPHEN ANNIKIN DEAD.

Was Founder of the Russian Group  
Of Toil.

St. Petersburg, Jan. 6.—The death is reported in the newspaper of Kiev after a long illness, of Stephen Vassilievich Annikin, the foremost leader of the peasants, founder of the Group of Toil, and ex-member of the lower house of parliament. The Novoe Vremya voices his sincere sorrow at the loss of this self-made man, who wielded the powers of his intellect among the peasants.

## Heart Weakness

The action of the heart depends upon the heart nerves and muscles. When from any cause they become weak or exhausted, and fail to furnish sufficient power, the heart flutters, palpitates, skips beats; and in its effort to keep up its work, causes pain and distress, such as smothering spells, short breath, fainting, pain around heart, arm and shoulders. The circulation is impeded, and the entire system suffers from lack of nourishment.

Dr. Miles' Heart Cure makes a heart strong and vigorous by strengthening these nerves and muscles.

"I had palpitation and pain around my heart, and the doctor said it was incurable. I don't believe it now, for after taking six bottles of Dr. Miles' Heart Cure, these troubles have disappeared, and I feel as well as ever. I want you to know that your medicine cured me, and I kept right on till the pain in my chest was gone, and I feel as well as ever. I don't believe it now, for after taking it." JOHN H. BULLOCK, Mich.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Annin was born a peasant in 1884. He became a school teacher, and was one of the pioneers in the revolutionary propaganda among the peasants. For this he suffered long terms of imprisonment and exile, which undermined his health.

ROMANTIC ELOPMENT  
ENDS IN DEEP POVERTY.

London, Jan. 7.—The Daily Mail's correspondent at Melbourne says that Lieut. Gabriel Essipoff and Madame L. Ouchakoff, wife of Gen. Ouchakoff of the Russian army, who eloped last year, and were followed to the United States and back to Europe by Gen. Ouchakoff, are in the deepest poverty. Their trunks, he says, have been pledged to raise money. Madame Ouchakoff is seeking employment as a domestic, while the lieutenant talks of committing suicide.

Madame Ouchakoff, the correspondent continues, offered to agree to a divorce and to surrender her right to a fortune of \$200,000 which will be hers on the death of her mother. She would marry Lieut. Essipoff. The Daily Mail's correspondent at St. Petersburg says that Gen. Ouchakoff was at Tsarko-Selo Saturday.

PROBABLY A MURDER.

North Yakima, Wash., Jan. 6.—The dead body of Daniel Kinney, a retired rancher, was found today just outside the city limits. Kinney's body was found in a deep gash in front of the car and bruises on the top of the head.

Kinney's pipe was in his hand, ready lit, but not yet lighted. There has been no reason for the murder nor further clue to the murderer, than footprints of a man and a horse in the snow near the body.

GERMAN OFFICIALS ATTACKED.

Tehran, Jan. 6.—Baron von Richthofen, secretary and Dr. Schulz, medical officers of the German legation here, who have returned from a shooting trip, report that they were attacked Jan. 2, 19 miles south of Tehran, by six well armed horsemen. A dozen shots were fired at them, but Baron von Richthofen and Dr. Schulz escaped unhurt, although they lost their baggage. A detachment of cavalry sent to capture the robbers met with determined resistance. One of the troopers was killed. One robber was captured, but the others escaped.

TO INCREASE SALARIES.

Washington, Jan. 6.—A proposition to increase the salaries of the "back stamp" on letters are discussed by First Assistant Postmaster Hitchcock in his report, made public. Parts of the report given out in advance, already handled by the Associated Press. The report shows that at the close of the fiscal year, 65,000 postoffices were in operation and that the total number of employees, not including postmasters and assistant postmasters, was nearly 150,000. The total personnel of postoffices of all classes aggregated 235,000. The gain in postoffice revenue during the year, about \$15,000,000, was unexpectedly large, and the return for the present fiscal year, thus far indicated, that the unprecedented gain is being maintained. So great is this gain, Mr. Hitchcock points out that the additional appropriations requested of Congress scarcely will be sufficient to maintain the service.

One of the other men struck Romanos, killing him instantly. Buckley took refuge in a saloon, which was almost wrecked by the Greeks in their efforts to get the foreman. Our Wonderful World.

The mountain district in the neighborhood of Cherrapunji, Assam, has been proved to be the wettest spot on earth. Between July 9 and 15, 1904, inches of rain fell in this region—that is to say, an average of over 10 inches a day. The average annual rainfall for 25 years in Cherrapunji itself was 49 inches, and in 1881 86 inches of rain were recorded there. The Indians who live on the island of "Tillicaca claim that a small district near the Sacred Place of the Incas, known as "the Birthplace of the Sun," has never been wet by rain, and that it is the only spot on earth where rain never falls. The lake is the largest in South America. Many houses and offices in the support of Malacca are fitted with tiny window panes of transparent oyster shells, thus temper the heat and light of the sun, and prevent blindness. Among the buildings thus fitted is the town hall. Some 6-by-4-foot windows contain no fewer than 100 oyster shells.

The whistling tree at Port-au-Prince, Hayti, is regarded with the greatest awe and superstition by the natives of the island. When the trade winds blow across the island, the tree emits a weird, nerve-wrecking, deepened whistle.
