

MINING, BUSINESS AND STOCKS.

BUSINESS WAS BETTER TODAY.

Phenomenal Activity Shown by May Day of Tintic.

THE STOCK KEPT UP WELL.

Joe Bowers Sells—Grand Central Lower—Xanthe Declining—Sacramento in Demand.

TODAY'S METALS:

SILVER 61 1/2
LEAD, \$9.37 1/2
CASTING COPPER 15 1/2

A decided improvement is noticeable today in the exchange business, which ran up to \$10.24 1/2, representing the sale of 22,350 shares. May Day was phenomenally active today. Nearly 9,000 shares changed hands during the call, but in spite of the fact that such a large amount of the stock was in evidence no strong decline was shown. At the outset a sale was made at 90 cents per share. From this figure the stock gradually fell off until the last sale, when 4,500 shares were let go at 87 1/2.

Joe Bowers continues very weak, with 2,000 shares going at 33 1/2. Xanthe Co. started to sell at 9, but declined to 8 1/2 before the call closed. Sacramento let its shares at 23 1/2, and immediately jumped to 25 1/2.

Lower Mammoth was traded in at 53, while 50 Grand Central was bought at 56.

Valero was a little weaker today, while Mammoth was held at \$10, ex-dividend.

Closing quotations were posted as follows:

HIGH GRADE ORE FROM THE UTAH.

A Carload Marketed Today Returns Over \$2,760.

RECEIVER FOR SUNSHINE.

George F. Sprague Appointed—At the West Argent—Blue Jacket Ore—Ogden Notes.

The richest car of ore which has been marketed from the Utah mine at Fish Springs for some time past, was sold by the company today on consignment showing 50 per cent lead and 182 ounces in silver per ton. The shipment netted the company \$2,760 or \$120 per ton. The values in the last few shipments show improvement and as they are coming in pretty regularly it is presumed that a nice surplus is being piled up in the treasury.

Another carload of similar ore will be on the market early next week. Meanwhile prospecting is still going forward from the new shaft on the 500 level, and at the same time sinking in being pushed, the object being to tap the rich chutes which have been followed from the surface, at lower levels.

SUNSHINE RECEIVER.

George F. Sprague Appointed to Act in that Position.

The property of the Sunshine Mining Company has passed into the hands of a receiver upon the petition of Chas. H. Jacobs, one of the incorporators. George F. Sprague of the Home Investment company will act as receiver. The complaint alleges that on December 7, 1899, a mortgage in the sum of \$25,000 was executed against the property of the company in favor of Schwartz and Wells, who were to place that amount in the hands of the treasurer of the company and then receive the instrument. It is alleged that \$25,000 of this amount was advanced when the mortgage was turned over to Schwartz and Wells.

It is also alleged that the company is insolvent, and its debts have grown since 1896 to \$38,446 or more, while nothing has been declared in dividends. It is further alleged that nothing has been done on the property since 1897 except in 1899 when a lease was given to Gil S. Peyton, who afterwards abandoned it.

Many other things are also alleged as to the use of the machinery, trucks, etc., by the Overland Mining company and the complainant prays that the receiver be appointed to take charge of the property and to sell the same as he may deem proper, and to deliver up to be cancelled and that the proceedings in the mortgage be enjoined. A biller fight is looked for.

NORTH MAMMOTH.

Work Being Pushed—Ancient Centennial Eureka Strike.

R. Christensen has charge of work on the North Mammoth claims at Tintic was in town today and reports the tunnel in about 475 feet with a very encouraging formation appearing in the face of the tunnel.

Referring to the strike at the Centennial-Eureka, Mr. Christensen says the sympathy of the people is with the men who have objected to the boarding house system, in so far as they do not overstep the bounds of prudence. A great many of the men could save money by boarding in Eureka. It is said the feeling appears general according to what Mr. Christensen says, that the boarding house is of no pecuniary benefit to the company, and that no restrictions should be placed upon the miner by the company as to where he should spend his money.

AT THE WEST ARGENT.

The Mill Will Not Be Built Until a Larger Water Flow is Obtained.

Manager Hall returned last evening from the West Argent of Stockton and reports that the company has decided to house sink in the shaft before starting upon the construction of the new mill. The contract has not yet been let and it will not be awarded until an increased water supply is tapped. The mill will need a supply of from 30 to 40 gallons per minute and with a 35-gallon pump already in place, Mr. Hall believes he will be able to sink at least 10 feet deeper before the water becomes very troublesome. Mr. Jones from Iowa, who went out yesterday, was much pleased with the property.

MINERS STRIKE.

About 50 Men Go Out at the Centennial-Eureka at Tintic.

News has been received here that between forty and fifty miners employed at the Centennial-Eureka mine walked out in a body last evening owing to trouble at the company's boarding house. The miners' cook is employed there and this fact may have had something to do with certain objections raised against the evening meal. Manager Allen discharged the complaining ones in the dining room and the trouble was made general by nearly fifty others taking sides with the discharged men. The crowd went to town and bought blue ribbons to show their standing in the matter. It is thought there will be some talk of using violence toward the Chinaman, who is a property owner of Eureka.

PROFITS IN MINING.

Show Most Favorably When Compared with Railroads.

A San Francisco paper, discussing the profits in mining, as compared with the returns from railroad and industrial stocks, says: The fact that incorporated mining companies in the country paid over \$60,000,000 in dividends during the first half of this calendar year will attract considerable attention in the East where investors will contrast such showing with the unprofitable 100,000 miles of railroad, with over \$10,000,000 liabilities. It is a most favorable showing and will go far toward substantiating the claim that the mining industry, compared with other industries, has paid more dividends than any other.

In the \$40,000,000 are only announced dividends of incorporated companies. That aggregate falls far short of the total, for there are many companies profitably engaged in mining who make no announcement. This is largely due to the old fear in all conservative industries that some competitor would find out how profitable the business was,

and so hurt him who proclaimed his prosperity by cutting into his profits. Such reticence is a survival of former fear in that regard. It is fear that should be dispensed in the one industry of all others that has least to dread from competition, and that depends for its progress largely upon the increase of the number devoting attention to it.

WILLARD MINES.

Improvements Going On in a Number of Properties.

Special Correspondence. Willard, Boxelder Co., July 25.—While not much noise is made about Willard mines, work is steadily going on in several of them. Mr. Don McIntire has a force of about twenty men making a tramway which is to be 2,000 feet long and on which the precious metals are to be carried from the mountain in buckets. At the head of the canyon is the "American" mine which has been steadily worked for years. At the "Superior" a tunnel extends into the mountain for upwards of 1,300 feet its terminus being over 500 feet below the surface, and farther north at the "Louisa" an engine has lately been stationed which is bringing to view some choice specimens of ore from the interior of the earth.

BLUE JACKET ORE.

This Seven Devils Property Sending Out a Steady Output.

Two more cars of high grade copper ore will be on the market in a day or two from the Blue Jacket mine in the Seven Devils country, Idaho. Several shipments have been made from this mine which is just beginning to market its ore. Something over 1,000 tons of ore have been marketed which run from 35 to 45 per cent in copper. The mine people contend that 7 per cent is not high to pay for two and three year money when the security is the note of a non-producing mine. It will be recalled, they say, that Boston and Montana, in the case of the active producer, sold its 7 per cent bonds at 91. People close to the management have been recent buyers of Blue Jacket, and the selling at 10 and under is thought to be for the account of a bear trader—Boston News Bureau.

Bingham Copper Company.

Friends of the Bingham Copper and Gold Mining company are increasing in confidence as to the future of the property. The underground developments, they say, are all that could be desired, and on the surface the 300-ton smelter is going up with marvelous rapidity. The expense of erecting this smelter will be paid from treasury cash, and from the proceeds of \$150,000 per cent debenture notes. These notes, it is understood, were sold at par to a few private individuals. Bingham people contend that 7 per cent is not high to pay for two and three year money when the security is the note of a non-producing mine. It will be recalled, they say, that Boston and Montana, in the case of the active producer, sold its 7 per cent bonds at 91. People close to the management have been recent buyers of Blue Jacket, and the selling at 10 and under is thought to be for the account of a bear trader—Boston News Bureau.

MINING NOTES.

H. Kohl is again active after being for some time past.

Six cars of concentrates were reported today from the Ophir Hill.

The Eureka Hill had 2 cars of concentrates on the market today.

A car of ore from the Nevada company's property was sampled today.

Three cars of ore were on the market today from the South Swansea of Tintic.

It is reported that the last chance mine at Bingham has been sold for \$75,000.

The Taylor-Brunton sampler reported 6 cars of ore from Tintic and 6 from Stockton today.

Judge Cherry is in Alta looking over the Nemo group of mining claims in which he is interested.

Samples from the Iowa claims in Park Valley show 27 per cent lead, 75.6 ounces silver and \$10.74 in gold per ton.

It is reported that the Chairman mine at Ely, Nevada, has been purchased by New York and Pennsylvania capitalists.

R. C. Chambers and O. A. Palmer, the well known mining engineer, have gone to Park City to examine the Daly property.

San Francisco Post: George Klingenberg, late of Cant. De La Mar's engineering staff, is back from Salt Lake, and will immediately make preparations for a trip to Mexico.

A seat with membership in the New York stock exchange has been sold last month for \$11,500. This is the highest price for such a seat ever been sold, says the Mining Review and Metallurgist.

Dayton (Nev.) Times: The cyanide works at Pine Grove, which have been working the Wilson tailings, made a final clean-up this week and closed down. The plant will be torn down and moved to Grass Valley, Cal., where the company has a large lot of ore to work on.

Winemucca Silver State: Articles of incorporation of the Bellmore Copper Mining and Smelting company were filed with County Clerk Dunn yesterday. The company's principal place of business is Lovelock, and it is organized for the purpose of working the Bellmore group of copper mines in Table Mountain mining district. The capital stock of the company is \$500,000, and the directors are: Al. Boyer of Boyer, Churchill county; O. W. Schweitzer of Lovelock; Morris Somner, James A. Williams and D. S. Truman of Salt Lake City.

MARKET WAS NOT HAPPY.

Slight Declines in a Majority of Wall Street Stocks.

Business Prevented Gains from Being Held—Live Stock and Produce Steady—Wool Dull.

New York, July 25.—Selling to realize was still in evidence this morning and added to sympathy with the London depression. This caused fractional declines in the majority of stocks. There were a few exceptions on the side of gains, and the offerings were in small volume. In some stocks there were further recessions from the opening figures. Metropolitan Street Ry. broke 24, but rallied strongly when sugar, tobacco and Brooklyn transit moved up to a few specialties, the bears made no effort to depress prices. Towards midday there was a substantial rise in sugar, tobacco and Brooklyn transit, but

it was poorly held. These stocks absorbed all the speculative interests of the forenoon.

Bonds were sluggish and unsettled.

RUSSIAN. Sugar—Raw, strong; fair refining 4 1/2; centrifugal 96 test 4 1/2; molasses sugar 4 1/2.

MONEY AND BONDS. Noon: Money on call nominally at 1 1/2 per cent. Prime mercantile paper 4 1/2 per cent.

Sterling exchange steady at 4 1/2 per cent for demand, and at 4 3/4 per cent for 60 days; posted rates 4 1/4 for 60 days and 4 1/2 for 90 days; commercial bills 4 1/2 per cent.

Government bonds strong: United States 4 1/2 per cent, when issued registered and coupon 104 1/2; 2s registered 105; 3s registered 104 1/2; 4s coupon 104 1/2; new 4s registered 104 1/2; new 4s coupon 104 1/2; old 4s registered 104 1/2; old 4s coupon 104 1/2.

CHICAGO MARKETS. LIVE STOCK. Cattle, July 25.—Cattle—Receipts, 3,000, including 1,400 Texas. Choice fat and heavy steers, steady to strong; light medium and common grades steady to slow. Butcher's stock slow; good to prime steers, 3.50 to 3.75; 100 lb. to medium, 4.00 to 4.25; stockers and feeders, active, steady, 3.00 to 3.25; calves, 2.00 to 2.25; bulls, 2.50 to 2.75; calves, 4.00 to 4.25; Texas fed steers, steady, strong for feed, 4.00 to 4.25; Texas grass steers, steady, 3.50 to 4.25; Texas bulls, firm, 2.50 to 3.00.

Hogs—Receipts today, 27,000; tomorrow, 14,000; left over, 3,000. Ten cents lower, closing weak, top, 5.30. Mixed and butchers, 4.50 to 4.75; good to choice heavy, 5.00 to 5.25; rough heavy, 4.00 to 4.25; light, 4.50 to 4.75; bulk of sales, 4.50 to 4.75.

Sheep—Receipts, 10,000. Sheep and lambs, active, higher. Good to choice wethers, 4.15 to 4.50; fair to choice mixed, 3.50 to 4.00; western sheep, 4.00 to 4.25; Texas sheep, 3.50 to 4.00; lambs, 4.00 to 4.25; western lambs, 4.00 to 4.25.

PRODUCE. Wheat, option, 4 1/2 to 4 3/4; higher at 7 1/2 to 7 3/4, and sold off steadily to 7 1/4.

Corn—Wheat—July, 74 1/2; Aug., 74 1/2; Sept., 75 1/2; Oct., 76 1/2; Nov., 77 1/2; Dec., 78 1/2; Jan., 79 1/2; Feb., 80 1/2; Mar., 81 1/2; Apr., 82 1/2; May, 83 1/2; June, 84 1/2; July, 85 1/2; Aug., 86 1/2; Sept., 87 1/2; Oct., 88 1/2; Nov., 89 1/2; Dec., 90 1/2; Jan., 91 1/2; Feb., 92 1/2; Mar., 93 1/2; Apr., 94 1/2; May, 95 1/2; June, 96 1/2; July, 97 1/2; Aug., 98 1/2; Sept., 99 1/2; Oct., 100 1/2; Nov., 101 1/2; Dec., 102 1/2; Jan., 103 1/2; Feb., 104 1/2; Mar., 105 1/2; Apr., 106 1/2; May, 107 1/2; June, 108 1/2; July, 109 1/2; Aug., 110 1/2; Sept., 111 1/2; Oct., 112 1/2; Nov., 113 1/2; Dec., 114 1/2; Jan., 115 1/2;
