DAVID O. CALDER,
EDITOR AND PUBLISHER.

San Francisco, August 7, 1878.

NEWS OF THE DAY.

Failure in New York.
Ashbury, of yachting fame, and Prof. Huxley have arrived in New York.
Vanderbilt is improving.
O'Leary commences a 500 mile walk.
Another heated term in New York.
Gen. Terry to march on the 10th inst.
Powder river supplies in possession of the Indians.
Capt. Thompson, 2nd cavalry, commits suicide.
An effort is to be made to stop the Indian war by stopping their appropriations unless they will give up their arms, etc.
Turkish-Serbian war news.
A man killed for defending himself in New York.
Gilmore's Garden proprietor and others arrested for violating the city laws.
The Indians at Cheyenne again want an armistice in the interest of peace.
Fire at Aurora, Canada, \$80,000.
Belgium besieged.
The Sultan's malady chronic, but there is no immediate danger.
Boston wool market.
More of the press on the Tilden and Hendricks letters.
Houses struck by lightning.
Evidence to impeach Judge Wyle.
Confessions.
Report on the War Department expenditures.
Majority and minority reports on the Department of Justice.
Newspaper amalgamation at Chicago.
Few Indians at the agencies yet.
Indiana Congressional nomination.
Stage attacked by Indians.
Indians attacked near Fort Laramie.
Troops for the Indian war.
Winchester's expedition stops in Washington in a few days. Rendezvous camp at Carson City.
Webfoot Woods invited to stump Ohio.
Centennial tourists in Washington, 500 daily.
Proposition for fast mail service certain to be adopted.
Oakland races.
Ten persons drowned by the exploding of a boat at Whitehall, N. Y.
Train of oil cars burned at Athens.
A father kills one son and fatally beats another at Oxy, Ohio.
Rouling match at Saratoga.
The Argentine government reduces the standard value of foreign gold and silver.
Pardon of a whiskey criminal.
Failure at Minneapolis.
Bluford Wilson cross-examined.
Investigation into the Bulgarian atrocities.
Horrible scenes at Butok, 7,000 bodies rotting on the sun. All sorts of crimes committed.
Moukhtar Pasha expected to surrender.

EDITORIAL NOTES.

Miss Lizzie Clapp, an operator at Readville Station, on the Boston and Providence Railroad in Hyde Park, Massachusetts, was recently struck by lightning and instantly killed, while sitting in her office, near the telegraph instruments, during the thunder storm. Miss Clapp had taken the usual precaution to "cut out" the office, but the electric fluid "jumped" from the wire to the ground, passing through her body on its way. The body was sitting only about ten inches from the "cut-out station" with her head leaning on the window sill, and the electric current, in "jumping" from the wire, went the most direct route to the ground, and she, being directly in its path, served as a conductor. Several other persons in the room were uninjured.

This is the first case on record where a telegraph operator on duty was fatally struck by lightning. The Journal of the Telegraph, in noticing the case, advises operators generally to avoid drafts and, as much as possible, all places where their bodies may become a part of the path of electrical discharges, and expresses the opinion that had Miss Clapp done so she would have escaped injury.

THE GRASSHOPPER BURDEN.

St. Paul, July 28.—The terrible devastation of the grasshopper in the northwestern and southwestern borders of this State has not been before alluded to in these dispatches. The damage done by these pests is incalculable, but the amount of crops destroyed is so far incalculable, counting a whole, though hundreds of thousands of hardworking settlers have lost their all, and have nothing to live upon. The Pioneer Press of today concludes an editorial article on the subject with saying that a great part of the region west of and including Jackson county to eastern Dakota, and north through northern Iowa, is covered with devouring hosts, and our reports indicate that the entire crops of the region are being swept away and that many of the discouraged settlers are temporarily leaving. We record the sad fact as a matter of news, which it would be a useless folly to attempt to conceal, for it might as well be understood now that the northwestern states have got to fight these grasshoppers to the death and get rid of them at any cost, or they will make a desert of the whole region west of Lake Michigan before many years.

From reading the above it seems that the people in the old northwestern States are beginning to be very much afraid of the grasshopper, and apprehensive that it will not rest until it has made large portions of the country a naked barren desert. We have had the grasshopper here, more than once, and know what kind of a visitor he is.

Last Night's Dispatches.

EASTERN.
Wheeler's Expedition—Vice Pres. C. P. R. R.—Woods Wanted in Ohio—Confirmation—Centennial Tourists in Washington.
WASHINGTON, 6.—The Wheeler expedition for an exploration and engineering survey of the territory west of one hundredth meridian, will leave Washington in a few days for another season's work. Lt. Wheeler will establish his rendezvous camp near Carson City, and four parties, one of them under his personal charge, are to make thorough surveys east and west of that point, and northwards in the Sierra Nevada, and southwards as far as possible this year toward the Oregon boundary line. The intention is to connect with the western line of Wheeler's former work. The southern line of the survey of this portion of country has never been scientifically explored and consequently no good map of it has been made. Two other parties of Wheeler's expedition are assigned work in New Mexico and Western Colorado.
Vice President Huntington, of the Central Pacific Railroad, intends to leave California as soon as Congress adjourns.
At the suggestion of Mitchell, an invitation has been extended to Gov. Woods, formerly of Oregon and Utah, now of San Francisco, by the republican executive committee of Ohio, to stump that State in the approaching campaign. It is not yet known whether he will accept.
Dr. Wm. H. Carpenter, of California, has been confirmed by the Senate for appointment as assistant surgeon in the army.
Centennial tourists are passing through Washington and seeing the sights here at the rate of about 500 daily. Among them this week have been the following Californians—Dr. Geo. Hewston and family, Mrs. Bandmann and family, Mrs. Ware, Geo. Rutherford, E. Pollard, T. H. Wheeler, and Isaac Lunkershen.
Changes in the Indian Service.
The commissioner of Indian affairs is of opinion that important changes in the Indian service for California and other Pacific states and territories will be necessary when the Indian appropriation bill is finally passed. Heretofore most of the expenses for California, Nevada, Oregon, and some other portions of the Pacific Coast service have been paid out of the incidental funds appropriated, instead of the sums for specific purposes. The necessities of the service have been such as to render it impossible to estimate the requirements in advance, and a large discretion therefore has been allowed to the department. One half of the five million dollars asked for by the Indian Bureau is required to fulfill the specific demands of treaties. The House of Representatives, in attempting to reduce Indian appropriations fifty per cent, has therefore been compelled to cut that amount out of the other half. The general theory of reduction was to refuse to recognize the claims of Indians exceeding those with whom there was a treaty ratified by Congress. The tribes which have been pacified without such treaties are not considered to have any claims for appropriations. The public bounty is therefore principally distributed in aid of those who have first been at war with the whites. The department has abolished the special agency for the Mission Indians of Southern California, because Congress refused appropriations to make it effective. An effort will be made in conference with the Senate to amend the Indian bill in other particulars, so as to maintain the established agency, but the department is not confident of success. All the agencies in California probably will be consolidated under one agent, with a central office in the valley. If the bill passes as it now stands, providing only \$30,000 for incidental expenses in California, and similar inadequate amounts for other parts of the Pacific Coast.

Fast Mail Service.
The proposition pending in the Senate to restore the fast mail between New York and Chicago will certainly be adopted by that body, and very probably by the House also, and thus again reduce the westward mail time between the two oceans to six days.

CANADA.
\$80,000 Fire.
TORONTO, Ont., 6.—A fire this morning destroyed Joseph Fleury's extensive agricultural and sewing machine works; loss about \$80,000, no insurance.

FOREIGN.
Fire and Loss of Life.
PARIS, 6.—The large sugar refinery in Nantes was destroyed by fire last Friday; one man was killed and several were injured; loss not exactly known, but will amount to several million francs.

TO-DAY'S DISPATCHES.
EASTERN.
A Fatal Stabbing Affair—Arrests for Violation of the Excise Law.
NEW YORK, 7.—John Lazarie, of Jersey Street, insulted some females last night, with a view to help. Patto Propriano, an Italian, responded and interfered, when Lazarie drew a knife and plunged it into Propriano's abdomen, from the effect of which the latter died shortly after. Lazarie then started to run through the crowd which had collected, slaying right and left, and wounding several persons, when he was knocked down by a blow from an unknown club, and secured and locked up.
It was reported that after midnight the police made a descent on the proprietors and twenty-four bar-tenders on charges of violating the excise law by selling liquor on Sundays.
Terry to March on the 10th Inst.—The Indians in Possession of the Supplies—Said.
A correspondent telegraphs that General Terry hopes to be able to begin his march on the tenth instant.
Under date of July 31st, the correspondent says, we have just met the steamer Paragon, on her way down to bring up the supplies left at Powder River, which we found in the possession of the Indians. We record the sad fact as a matter of news, which it would be a useless folly to attempt to conceal, for it might as well be understood now that the northwestern states have got to fight these grasshoppers to the death and get rid of them at any cost, or they will make a desert of the whole region west of Lake Michigan before many years.

Another Five Hundred Mile Walk—O'Leary, the pedestrian, commenced this morning at the American Institute building, corner of Third Avenue and 63rd St., his fifth attempt to walk 500 miles in 144 consecutive hours.
The thermometer yesterday was 88, another heated term probable.
Vanderbilt improving.
Commodore Vanderbilt is steadily improving. No immediate danger is now apprehended.

Merry Failure—Arrival of Ashbury and Huxley.

Max. Stadler & Co., clothiers, have failed; liabilities half a million dollars.
Jas. Ashbury, owner of the yacht *Leonia*, and Professor Huxley, arrived from Europe to-day.
Bluford Wilson Cross-Examined.
Bluford Wilson was cross-examined, to-day, by the whiskey fraud committee. He did not know the President was angry at the publication of the endorsement of the Barnard letter. "Let no guilty man escape." He testified that a man was required to procure such endorsement. He had been told that St. Louis parties had besought the President to make some declaration showing that he sympathized with the prosecution. Witness gave this reason for believing that he was not acting in accordance with the endorsement, and repeated that the discovery of the "Sympathy" telegram seemed to have changed the President's mind. The Kitchen, Cabinet & Boss ring, under A. R. Sheppard and Babcock, caused much trouble, their movements being against Bluford and Jewell.
A Conclusion Reached to Try and Stop the Indian War.
WASHINGTON, 7.—The *Inter-Ocean's* Washington special says the Secretary of War, General Sherman and the Commissioner of Indian Affairs have recently held consultations with the President on the Indian question, and have reached a conclusion which, if put into practice, will make Sitting Bull and his warriors surrender, and will make another Indian war impossible. They propose to prevent the Indians now in the field from procuring further supplies of ammunition and stores. At all agencies the trading posts will be confiscated, and a severe penalty inflicted on anyone who furnishes either the hostile or agency Indians with powder and ball. Through friendly Indians the authorities have recently discovered attempts to supply Sitting Bull with ammunition, and parties in communication with the Indians have been caught purchasing large quantities, but it is believed all attempts have now been prevented, and that the return of the Indians from Sitting Bull's camp to the agencies has been for peace but for fresh supplies of powder. An attempt will be made to deprive all the agency Indians of arms, and prevent them from procuring more. An Indian will be given no rations until he surrenders his arms.
A New Value Upon Foreign Gold.
WASHINGTON, 7.—Official information has reached the Treasury Department that the Argentine government has just issued a decree putting a new value upon foreign gold and silver coin. The British sovereign has been reduced in value from \$4.90 to \$4.88; the gold ounce or doubloon from \$10 to \$9.75; the Napoleon, French, from \$3.90 to \$3.87; twenty marks, Brazilian, from \$10 to \$9.50; the cordor, Chilean, from \$9.25 to \$9.15, etc. The American eagle, which was \$10, is now raised to \$10.03.

Loss of Life by the Capsize of a Boat.
WHITEHALL, N. Y., 7.—On Sunday afternoon ten persons were drowned while crossing Putnam's Pond. Thirteen persons were in a small row boat, and when about three rods from shore, in eight feet of water, a squall struck the boat, capsizing it with the result stated. The names of the drowned are Johnson and wife, John McCaulister and wife, John Burt and daughter, Peter, Ours, Adolph Tyvener, his son Holden, and Miss Thatcher. The bodies of all but Holden were recovered.

Made an Assignment.
MINNEAPOLIS, Minn., 7.—Gibson and Tyler, woolen manufacturers, have made an assignment; liabilities unknown.

A Train of Oil Cars Burned.
HUDSON, 7.—A train of fourteen cars, laden with oil, was burned at Athens depot last evening.

Scuttling Match.
SARATOGA, 7.—There was a sufficient breeze this morning to make many hesitate about leaving their hotels. The omnibuses started for the lake. The referee decided, however, that the regatta should take place, and at the appointed hour, those to participate in the race for juniors took their stations. The scullers were R. H. Robinson, Union Springs; E. Mann, Argonauts; F. Tompkins, Walworth; W. H. Roger, Atlanta; M. S. Cummings, Saratoga; J. A. Magor, Waverly. At 11:15 a start was made, Robinson first caught water and obtained the lead, keeping it until the second mile, when he pulled out and Tompkins got the second place, Mann third, time 15:10.
The eleven thirty-two oared combatants took position as follows: Neptunes, Argonauts, Atlantas, North Western, and Beaver Wych. The Argonauts took the first water with thirty-four strokes, the Atlantas with the same stroke, took the lead. At the half mile the Argonauts were second, North Western third, and the Neptunes out of the race. The North Western took the second place at the mile, where the Argonauts stopped, the Atlantas turned first in 11:20, the North Westerns close up, Beaver Wychs last. The North Westerns soon got the lead at the 3/4 mile, and despite wild steering, kept it, winning in 21:35; Atlantas 22:19; the Beaver Wychs last, postponed on account of the wind.

A Sinner Partially Pardoned.
CHICAGO, 7.—The pardon of Al. derman Cullerton, convicted of neglect of duty as gauger, and sentenced to six months' imprisonment and to pay a fine of \$100, arrived from Washington to-day. It remits the imprisonment only. It remits the imprisonment only.

A Brutal Father.
OXLEY, Ohio, 7.—Burrell Dudley, colored, shot and killed his son, aged 15, and fatally beat another son, yesterday, because the boys protected their mother from a brutal treatment.

GREAT BRITAIN.
War News.
LONDON, 7.—The *Standard's* Ragusa special announces that the Turks have abandoned Klek and destroyed all the fortifications. A letter to the *Daily News*, dated Philadelphia, July 31st, says the investigation into the recent atrocities in Bosnia is well advanced. It is reported that sixty villages have been burned and 1,500 persons killed.
There are horrible rumors at Bistok, seven thousand bodies have been lying there since May 12th, rotting in the sun. No crime, imputed by Turkish ferocity, has been left uncommitted. There is urgent need of assistance for the starving families.
A special says the capture of Gurgovitz was a splendid victory. Both sides fought desperately. The population fled to Parashin, while 300 wounded have been taken.
The *Daily Telegraph's* Vienna telegram says: Moukhtar Pasha is in a desperate situation. He is injured, and is expected to surrender. The Widin army is operating against the Servian Gen. Lescajari.

CONGRESSIONAL.

SENATE.
WASHINGTON, 7.—Boutwell, from the special committee on the Mississippi elections, submitted a report.
Rayard, of the committee, complained that the minority had not known of the report until this morning. He and McDonald would present the other side, but the testimony was not yet printed. After discussion it was agreed that both reports be made to-day and read to-morrow.
The House bill appropriating money for the payment of the claims reported allowed by the southern claims commission was passed with the committee amendments.
The motion made by Davis by which the Senate indefinitely postponed the vote on the bill to reimburse the Federal Government for property destroyed by the Federal troops during the late war, was reconsidered and the bill placed on the calendar.
The joint resolution in reference to the monitor *Tecumseh* in Mobile Bay, and to provide for the burial of the remains of persons carried down with her when she sank, was passed.
On motion of Sherman, the amendments of the House to the Senate bill for the redemption of lands sold by the United States for direct taxes was agreed to and the bill passed.
The House bill to repeal the re-emption act and the House joint resolution to provide for a commission to inquire into the change which has taken place relative to the value of gold and silver, the cause thereof, and the effect on trade, were read and reported to the finance committee.

HOUSE.
WASHINGTON, 7.—The committee on foreign affairs adopted a report prepared by Springer in relation to the Venezuela commission, after cutting out large portions, especially that part relating to Orin.
