

of N. Y., have been examined and admitted as cadets. Admiral Porter's successor has not yet arrived, nor is he known.

Chicago, 25.—The Citizens' Committee, this morning, announce the people's ticket for county and city officers, in opposition to the ticket nominated by the Republican Convention on the 14th. It is nearly equally composed of Republicans and Democrats. Col. R. Mason, the celebrated engineer, is named for Mayor, D. A. Gage, City Treasurer; Judge Gary, for Judge of the Supreme Court; Alex. F. Stephenson, Clerk, do.; Gen. Wallace, formerly U. S. Assessor, Judge of the County Court; J. G. Gindele, former member of the Board of Public Works, County Clerk. This ticket is supported by all the papers in the city but the *Staats Zeitung* and *Evening Post*.

The *Times*' New York special says a crowd proceeded to the office of Smith, Gould, Martin & Co., during the Wall street excitement yesterday, and only the active efforts of the police prevented it being gutted. The crowd seized Fisk, jr., and threatened to hang him, but he was rescued with no other damage than a black eye. The crowd continued in the street till a late hour, the presence of a large body of police being necessary to preserve order. The same special says Boutwell is severely denounced in all strictly mercantile circles by both Republicans and Democrats for his refusal to sell gold last night; selling to-morrow, after the "bears" had been forced to settle and the market had begun to decline, is counted good evidence that he was in the "bull" clique, whose operations have brought the business of the whole country to a stand-still. It is probable that the whole matter will be investigated by the Chamber of Commerce. It was proposed to call a meeting of merchants to demand his removal, but other counsels prevailed. It was noted that when gold was the highest it was impossible to sell small amounts at the quoted rates. The highest price paid over the counter was 152, little was done over 148.

Another account of the movement is this. It was discovered that two or three members of the combination, which had been working for a rise, secretly sold gold in addition to large amounts on a speculative account count, thinking their defection would thwart the purposes of the remainder of the combination and that a decline would follow. For this defection the remainder of the combination determined to punish them, and the rise this morning was in pursuance of that determination. The *Tribune's* special, dated New York last night, thinks yesterday's transactions will reach five hundred millions. Many "bears" have refused to settle on the ground that the "bulls" knew the action of the government having conspired with Jay Cooke and others having influence at Washington; there will be much trouble growing out of this matter, and the "bears," who refuse settlement will lose their standing among the gold gamblers in future. A serious feature in the day's operations is that the losses are not confined to the "bear" side, though it is probable the "bears" are the heaviest sufferers.

The *Tribune* says the corner in gold was manipulated by Wm. S. Woodward, Jay Gould, James Fisk, Jr., Marvin Bros. & Co., Smith, Gould, Martin & Co., and other prominent operators. Smith, Gould and Martin suffered very heavily, and it is reported they have failed; but their names were not officially divulged in the gold room as having done so. Jay Gould and Jas. Fisk have probably lost largely, from having bought heavily when gold was above 150, which they had not sold before the price tumbled to about 130. Other failures are reported, but it is impossible to ascertain what houses have actually failed. Wm. Belden, A. Shippers, Gallo-way, Hunter & Co., and O. H. Williams were bought in the gold room; their failures were officially declared. The houses of Charles McClure & Co., Wm. Heath & Co., G. N. Walter, Galway, E. Hunt & Co., Mr. Gunberrot, and C. K. Williams are among the reported failures; they stand among prominent financiers. Baring Bros. telegraphed to Duncan, Sherman & Co. that they could use ten millions in speculation; the latter firm obtained that amount from the Assistant Treasurer on the strength of their credit and used it for breaking the strength of the "bull" clique. There was much confusion among the brokers for the reason that the Gold Exchange Bank was unable to settle the balances due from the bank to the brokers; several firms were thus forced into temporary suspension, who claim that they are perfectly solvent; but

some confess that they do not know how they stand, and they may not be able to meet their obligations to-morrow.

New York.—The day closed quietly in Wall and Broad street, everything now wears a calmer aspect. The run on the 10th national bank ended at 3.15 p.m., the bank having met all demands. It is presumed that the bank, on Monday, will cease to decline the acceptance of its checks. The ability of the bank to satisfy all claims materially checked the growing panic, and there is a recovery of confidence in the several departments of business from a disclosure of the closely kept secrets of the gold exchange bank. The tenth national bank had in deposits this morning one million one hundred thousand dollars, and had paid out during the day about a million. Mr. Callender, bank examinee, inspected the condition of the bank to-day, and pronounced it satisfactory. Many banks were, this evening, throwing out checks on the gold exchange bank. Some banks were served with injunctions and legal notifications against paying checks paid into the gold exchange bank yesterday; these checks, however, were certified, and came regularly through the clearing house this morning, and of course had to be recognized. The Secretary of the Treasury has instructed Gen. Butterfield, by telegraph, to limit the purchase of gold to-day, to two millions, unless the bids be over 34; and to reject all bids under 32. The amount was sold at from 32½ to 31½.

Norwich, Conn.—The whaling schooner, *Cornelia*, has arrived from Cumberland Inlet, bringing three men belonging to Dr. Hall's expedition in search of Sir John Franklin; Dr. Hall will arrive very shortly. At King William's land Dr. Hall found a native who claims to know all about the party. He says the ship was stove, and the crew went ashore and when their provisions were exhausted they died of starvation. Dr. Hall will return next summer, still further to prosecute the search.

New Bedford.—Dr. C. F. Hall, with Ebierburg and Loo Hoolita, two Esquimaux, and three daughters, arrived yesterday on the ship *Ansel Gibbs*, from Repulse Bay, August 23d. Dr. Hall brings, as the result of his five years' residence in the Arctic regions, interesting intelligence regarding the death of Sir John Franklin and companions, and has obtained conclusive proof that none of them ever reached Montreal

Island. He saw the natives who were the last to look upon Crozier and his party. The Dr. also brings the remains of a young man who belonged to that expedition, also various relics of its explorations. Dr. Hall proposes next spring to start again and push his journey to the north pole. He regards his experience of the last ten years as invaluable to him, as preparations and aid hereafter. Wherever he found Sir John Franklin's companions, who had died, he erected a monument, fired salutes and waved the star spangled banner over them in memory of the discovery of the northwest passage.

New York.—The Gold Exchange Bank has declared its intention of settling all claims on Friday's transactions at 10 o'clock to-day; those who fail to effect their clearances by half-past 10 will not be allowed to have any transactions with the Bank hereafter. It is believed that no well-known house failed by Friday's transactions.

Chicago.—The *Tribune's* special says opinions vary as to whether the "bulls" made or lost money by Friday's transaction. The amount of capital with which the combination was formed was about forty millions. The business conducted on this amounted to about a hundred and twenty millions. It was not the four millions offered by Boutwell that broke the combination, but the belief that he would sell an unlimited quantity and give out more gold than the "bulls" could possibly take. The broker firm of Livermore & Co. suffered severely; they positively declare that they have a written order from James Fisk to buy a million dollars up to 160, giving Heath & Co. as backers. This order, which was given in the presence of a member of the firm of Heath & Co., was repudiated by him yesterday. Livermore and partner have been trying to find Fisk since yesterday morning, but have no trace, though they believe he is still in the city. Other orders issued by prominent "bulls," for gold at high rates, are said to have been repudiated, and there is a prospect of considerable trouble. Belden has not been seen around Wall street since Friday, but his friends deny that he has absconded with several millions of gold checks, and say that he will appear all right to-morrow. Many financiers believe the statement that the Gold Exchange Bank will show a favorable condition of affairs and that there will be a renewal of speculation. In any event, Monday will be an exciting day. It has been ascertained that the Tenth National Bank was sustained by other banks, who thought it best to supply it with currency and keep its credit good, as its suspension would most likely cause a run upon the others. It is probable that there will be many withdrawals of money to-day from other banks.

New York.—The *World* states that the President of the Gold Exchange Bank announces the following firms as omitted from clearing: Zereiga and Graves; Galway, Hunter & Co.; B. H. Williams & Co.; Jas. Brown & Co.; Domen and Boocock; Chas. E. McClure & Co.; Wm. Belden & Co.; and Albert Speyers; Chas. W. Keep & Co. The President of the Bank announces that the clearing movement has been completed and that all balances will be settled to-day. On investigation the Bank was found to be as sound as a bell. The firms named have not actually failed, but have not cleared themselves with the Bank to their full account. Their affairs having become known to-day, several brokers attempted to obtain admission to the Bank this morning, but were refused, as it was said they intended to create a disturbance.

The election in Mississippi will commence Dec. 1st.
