FINE ORE IN DECKER.

(Special to the "News.")

Provo, April 24.-The Docker Mining

Fravo, April 24.—The Decker Mining company, composed thostly of Provomen, which property is located in Decker canyon, west of Charleston. Wasatch county, has had an amay, which shows 9.5 per cent lead, 1.80 concess silver and 92 of an ounce in gold. The property is an old one, which was abandoned because the original location missed the vein. A cave-in exposed the vein, and a little work is expected to open a good bady of are. The sample on which the above assay was made was not from

above assay was made was not from ore in the velo, but from dirt in the cave-in, and the ore in the velo is ex-pected to give much better returns.

# ORGANIZATION OF MINING EXCHANGE

New Stock Market Will be Organized Next Saturday Afternoon.

STRONG BOARD IS CHOSEN

Selecting of Committees Will Complete the Organization of Utah Exchange.

For the purpose of completing the organization of the Utah Stock and Mining Exchange, the members will meet at 2 o'clock, Saturday afternoon, May 1. in the Atlas block offices. The memhers of the board of governors have practically been selected, but the matter will rest in the hands of the mem-

The following have been named for the board: David Keith, David Evans, the board: David Keith, David Evans, Windsor V. Rice, Ezra Thompson, Frank J. Westcott, B. F. Grant and James Murdoch of Salt Lake City, and J. P. Creer of Spanish Fork and Joseph Berry of Provo. C. W. Hartley, who is promoting the exchange, said this morning that all the necessary committees will be appointed at this mestige. None excent those with membaring. None except those with member ship cards, signifying that their subscription has been paid in full, will be allowed to take part in the meeting. Organizing the exchange is considered the last preliminary necessary before active business can commence, and trading in the new quarters can be expected early next month. The sale of nemberships is reported to be pro-gressing entirely to the satisfaction of those who have the matter in hand.

### ANOTHER DROP IN STOCKS. Olrio and Sloux Hold Their Own

Against the Bearish Tendency. Stocks suffered again today at the hands of the bears, although in a few cases they were able to hold their own and come out a little higher than before. Beck Tunnel, which a few weeks ago was a ready seller at 75 cents, was slow at 45 and 46 cents today. Bingham Amagamated, which conved about ham Amalgamated, which soared about the 20-cent mark at the same time, sold rendly for 15 cents this morning. Such comparisons could be drawn from all the stocks this morning. Even those

that showed an improvement were much higher a few weeks ago. To listen to the various theories advanced by the judge's of prices bring out a varied assortment of reasons. By some it is believed that prices will remain low for at least two months yet. Those who contend that such is the case argue that the tariff question has changed interest in mining to other channels and until the money interests are again started toward the extraction of coin from the earth, mining

Many believe that the present depression of prices on the exchange is purely due to local conditions. Taking the case of Iron Blossom, it is argued that certain interests are looking to make ney faster than by receiving divi cal conditions have been brought to Carrying out this line of argunjent the self same brokers who advance it declare that there will soon be a wild scrumble for stocks by those who have sold out. There are others who contend that present prices are purely a manipulation and is due to the professionalism of the market, Colorado was low again today and

felt the effect of the low market. Co-lumbus Consolidated with as bright prospects in sight as any mine in the country, reached the \$2.40 mark this morni [1], but climbed up again be-

moral ]r. but elimbed up again before the class.
Iron Blessom, with close to 20,000
shares changing hands, was steadier
today than it has been in some time.
Before the close of the market the
stock was moving up and orders to huy
were more plentiful.
Sidux Consolidated selling at 31 and
\$1.025, and Ohio Copper at \$6.40, were
about the only stocks that showed any
improvement. They appeared fairly
strong at the price.

On the curb market, Montana sold at 15 cents. Ulntah Treasure Hill was of-fered at 18 cents and 17 cents was the TODAY'S OCCUPATIONS.

Citizens of Nevada Silver Camp Pleased With Proposed Visit Of Students.

MEANS MUCH TO DISTRICT.

Juntors Offered Great Inducements By Nevada People to Spend Month Or More Studying Camp.

Letters will be sent in a few days to the various persons interested in the Ploche district, in Nevada, annound ing that the Junior geological and sureying class of the University of Utah will visit the district this year and spend a month or more going over the formation of the district and preparing an elaborate report. Prof. Fred J. Pack, who is familiar with the district. baving made a report on it several years ago, will have charge of the 30 r more students who will make the rip. The students will also be under rof. F. C. French.

Owen A. Balley, president of the comijohn mine at Ploche, received a letter from Prof. Pack this morning accepting the offer of the citizens of Pioche to visit the camp. In the letter-it stated that the terms on which the students declared their intention of going was that access to the good minus of the camp be then then that of going was that access to the good mines of the camp be given them, that their fare be paid by Ploche, and that their board be made at the rate of 25 cents a meal. The last item is said to be due the generosity of E. E. Freudenthal, who declared that he would guarantee this price, where it is improved to the camp of the control of the control of the control of the camp of t impossible to get a good meal at any-thing less than twice the price.

The party of students will be about The party of students will be about 38 in number, accompanied by Prof. French and Prof. Pack. Of this number five will stay in the field about 10 days, while the remainder will climb the old hills of Picche for a month or more. About 10 days of the time will be suent in general geological field work, while the remainder of the time will be devoted to surveying and special mining work.

During the trip Prof. Pack and his students will prepare an elaborate

(Pollock Special Wire.)

Bostoc. April 24—Clah Copper made a new high record of production in March with its output being esituated at more than 5,000,000 pounds of copper, which is at the rate of 50,000,000 pounds annually. It handled an average of over 2,000 tone of ore daily, which is within 1,000 tone of its total present concentrator capacity. This company has just made a report to the New York stock exchange which states that it produced 43,373,318 pounds of copper last year, at a cost of 8.85 cents per pound and earned \$1,697,735 or better han \$2.30 per share Nearly all of its outstanding bonds have been converted into stock and retired. The company closed the year with surplus of guick assets amounting to nearly \$1,500,000. With its larger porduction, Utah Copper cost undoubtedly lower than the average of last year. It must be earning at present over \$1 a share on a 12% cent copper, it would be able to sam approximately \$5 per share. JESSUP TO HEAD PARTY. D. W. Jessup has resigned his posi-tion of assayer with the U. S. Mining tion of assayer with the U. S. Mining company at Bingham canyon, which he has satisfactorily held for the last eight months, to take charge of a surveying party running lines for the new railroad of the Consolidated Fuel company to its new coal mines from Price. Mr. Jessup expects to be away for the next six weeks or two months. His brother, Roger, recently a state been on the ground at work there for

CONCENTRATES. William J. Palmer, representing the brokerage firm of Tripp, Thompson & Co., New York City, arrived yester-day from Arizona.

Thomas F. Cole and John D. Ryan-two of the main factors of the Interna-tional Smelting and Refining company are in Butte examining their interests

Charles A. Stoneham, head of one of the largest brokerage firms in New York City, declares that after a visit to the Tintic district and the principal mines there, he is satisfied that physical conditions have nothing to do with the present low prices of stocks.

Alfred Fletcher of Keighley, Eng., president of the Nevada British Mining company of Cherry Creek, Nevada, is in the city, and with managing director J. W. Walker he will leave in a few days to inspect the work being done at the property. The shaft is being sent down to the 700 foot level. The 350 level has been reached.

Willard F. Snyder returned from inspecting the work being done at the Eureka Lilly yesterday. He declares that the formation in the properly is right for the finding of a large body of ore. He also inspected the Sloux ground and expressed himself as satisfied that the company has at least 700 feet of the Colorado ore body in its own ground.

James Phillips, Jr., president of the Nevada Consolidated Mining company, who is associated with the Guggenheims in many mining interests, registered at the Knutsford hotel yesterday with W. M. Briggs of Boston. Pope Yestman of Philadelphia and L. B. Sutton of Ocean Park, Cal. With S. W. Eccles the party left for Elylast night. last night.

last night.

The General Engineering company of Salt Lake City, is building a minature machine for the treatment and testing of ore to be used by the Transvaal Union college at Johannesburg South Africa. The plant occupies a space only three by ten feet but its equipment includes everything calculated to be of use in the treatment of ore. There are minature Wilfley tables, sizers, crushers, and all other paraphenalia.

other paraphenalia.

A strike of high grade ore in the Jackson lease of the Golden Bell property of the Chafey Mines company, is not only gratifying to the leasers but proves up the territory along the strike of the vein from the Black Hole mine for 2,300 feet. E. S. Chafey, manager of the company says that the Chafey Reduction company's new mill will not start until Monday on account of the delay in receiving part of the machinery late. Within the next week or ten days the Chafey mine will begin installing its new plant.

## MARKET SHOWS IMPROVEMENT

New York, April 24.-The favorable progress of events over-bore doubts inuced by the fear of a weakened technical position in the stock market and shaped the movement of prices upwards after a wavering tendency early in the week. The collapse of the wheat corner improved conditions, the growing demand for steel products, increase buying of refined oppper and the good showing or rathroad earnings served in combination to form confidence in the restorative

process at work. A settlement of the authracite wage question was believed to be imminent. Money rates grew firmer with the withdrawals of gold for export and the ex-

drawals of gold for export and the expansion of the ioan account incident to bond flotations.

The opening trading in stocks today, was gulet and offered no conspicuous feature, and some small gains and losses were quite squally divided. Reading and American Smelting advanced %.

A few stocks wavered slightly before the list began to more aggressively upward. Reading was a dominant factor, rising 1% to 14%. Wabash preferred and American Smelting also impreved 1% and Union Pacific. St. Louis & San Francisco second preferred, the Rock Island stock and United States Rubber 1. Westinghous Electric and American Bees Sugar were depressed a point.

The market closed strong and active. Prices receded a fraction but offerings promptly fell off and the trading became dull. Hocking Coni rose 2, National Biscuit fell 1% and Reading second preferred 2. Lats prices were bid up again, American Smelting advancing 1% and United States Steel, Republic Steel preferred and International Pump 1.

PRODUCE.

CHICAGO. Chicago. April 24.—Wheat prices broke to a still lower level at the opening of the market today on renewed liquidation.

On initial transactions prices showed losses of 1% to 1% compared with the lossing quotations of the preceding sussion. July opened at 1.07 to 1.03% and May at 1.19% to 1.03%. September delivery sold at 1945 to 1.03% at the start. The demoralized condition of the trade at the outlet was due to sensational declines at Liverpool, where prices were off from 2% to 3%d as a result of greatly increased whipments of wheat from all exporting countries. Favorable crop reports from this country and Europe also exerted a depressing effect. After the first burst of selling had subsided trade for a time was dull and prices held within the opening range. The corners was displayed the same demoralized condition as wheat at the start, opening auctations being down % to % to 1% compared with yesterday's opening. May opened at 5%4 and July at 56% to 3.

to 634, at opened weak owing to the break other grains, but ralled a trifle on ting by aborts. The opening on May soft to be at 64% and soid at 55%, revisions at the start were unchange to 50% by the compared with years of the compared w covisions at the compared was to 507 be lower compared was always closing quotations, after in the day the May delivery sold to 1.5%. Although slight rallies corred at various times throughout the sy the tone in general was heavy. At sections prices were 18 to 2% below he final quotations of the previous day, day being at 1.10%, July at 1.07% and september at 1.00%.

Corn—The market was weak the entire day. At the close May was off % of 50%.

at 68%. Close-Wheat-May, 1.19%; July, 1.07@; Sept., 1.00%; Dec., 39%; Corn-April, 68%; May, 68%; July, 66%; Sept., 68%; Dec., 57%.
