LOCAL AND OTHER MATTERS.

THEATRICAL.—There was a very large attendance at the Theatre on Saturday night, to witness the "Last Ship" and the "The Witch or the Fossil Hand," both of which were well played, and elicited enthusiastic applause.

To night the renowned artist Mademoiselle Ravel will make her first appearance in the grand military spectacle "The French Spy, or the Fall of Algiers." She will be supported by Mr. George B. Waldron and the home company.

Mademoiselle Ravel is a danseuse, pantomime and light rope performer in second to none, and an entertainment of rare excellence may be confidently anticipated to-night. The terrific sword combat between Mlle Ravel and Mr. Waldron will be something unprecedented on the stage in this city, and it alone will be worth the price of admission. The performance will close with the farce "Make your Will."

MR. R. A. STEWART.—There is a message from you at the Office of the Western Union Telegraph Company in this city.

THEATRICAL NEWS.—The following was received per Western Telegraph.

Alphania, April 10.
 The new mill here was burned to the ground, last night, about 10 o'clock—causing much loss. The mill was a fine one, and will be replaced by a new one.

SAVES THEM RIGHT.—The Omaha Herald of the 10th instant says that Williams and Mannion, the parties who tore up a portion of track on the Union Pacific road a few weeks ago, causing an alarming accident, and sentenced to five years imprisonment.

GENERAL MOORE.—General Moore, the "indisputable" of the large organ, in the New Tabernacle, acquitted himself splendidly during the service, which closed last night. His "sermon" was appreciated by thousands.

THE TABERNALE CHORUS.—One of the most noticeable and pleasant features of the 1st Annual Conference, was the splendid vocal performance of the choir: we have heard them excelled, and the expressions of pleasure and delight in reference to the singing were wide spread among the people attending. This was more particularly the case yesterday, when there was a full attendance of the members of the choir. The singing of the anthems, morning and evening, was especially referred to the singing were wide spread among the people attending. This was more particularly the case yesterday, when there was a full attendance of the members of the choir. CONCERT IN PROVO.—We hear that Signor Farini and a number of the ladies and gentlemen who assisted him in his concert in this city will give a concert in Provo on Wednesday evening; the programme is very choice, including piano solo, sentimental songs, dramatic selections, etc., and the citizens of Provo will have a feast of good music on the occasion.

PINTO.—Br. Benjamin Platt, writing from Plano, Washington county, on the 2nd inst., says the settlers there are enjoying general good health and peace and union prevail. The co-operative store is doing a fair business for a small place; last quarter, ending in February, accounts were balanced and it was found that it was making at the rate of fifty per cent. per annum. The co-operative stock company is doing well, and we are starting a new one in the near future. Fifty miles north-west, across the big desert, where feed is abundant, and we have moved about three hundred head of cows and other stock out there. It is expected that it will take about eleven herdsmen, women and boys to run the dairy, and take care of the stock.

We have a good school in this place taught by Joseph Eldredge, and a good female choir taught by the same man. We have not planted any wheat yet, and we do not expect to plant until late; perhaps we shall plant corn and potatoes, barley and oats. As the grain-growers deposited their eggs abundantly last fall we thought we would plant late.

ACCIDENTALLY SHOT.—Yesterday forenoon while Patrick Burrows, a boy of fourteen, brother-in-law to Mr. Charles B. Taylor, of the 20th Ward, was handling a pistol it accidentally discharged, shooting off two fingers and a portion of the palm of his left hand. Doctors Anderson and Richards rendered him medical assistance and the mutilated hand is doing as well as could be expected.

REMEMBER.—Quartermen, stonecutters, masons and carpenters are reminded that they have been requested to meet to make arrangements to carry on a public work in that vicinity. The interest in the stock, pure thorough breeds, and one stallion, of the Morgan and Norman blood. The latter animal is for Green Taylor, of Ogden, the cattle are for Weber, Davis and Salt Lake counties.

During his absence Mr. Packard has travelled through Iowa, Ohio and Illinois, and with respect to his kindness and every where he has been well received. He has given considerable aid to the stock, pure thorough breeds, and one stallion, of the Morgan and Norman blood. The latter animal is for Green Taylor, of Ogden, the cattle are for Weber, Davis and Salt Lake counties.

Brother Packard reached the terminus at Ogden on the 15th, bringing with him sixteen head of cattle, including one stallion, of the Morgan and Norman blood. The latter animal is for Green Taylor, of Ogden, the cattle are for Weber, Davis and Salt Lake counties.

The Airline stock is very celebrated in Kentucky, at the late fair, also from the Kentucky stock, will show.

MR. COCHRAN.—The April number of the "The Evening News," published in Europe, and imported by S. T. Taylor, No. 301 Canal Street, New York, has been received, and we must confess it is one of the best and most reliable journals in this country. It gives some 1,000 illustrations, and 15 colored engravings yearly, and the price is so low that every lady can afford to subscribe for it—only \$1.00 per year, or \$1.00 for the single copy. Can be had of all news dealers, or of S. T. Taylor, No. 301 Canal Street, New York. Mr. Taylor has the entire agency of the English edition for this country, and will send specimen copies for 25 cents.

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is simple, compact, durable, beautiful, quiet, light-running, and of performing a range and variety of work never before attempted upon a single machine; using but one thread and needle, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachment for Hemming (any width) Straining, Embroidering, Magic Kuffling, Gathering and sewing on (at the same time) buttonholes, Cording, Tucking, Quilting, Piping, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.
