Tanner, Judge J. E. Booth, President David John, President S. L. Chipman, W. H. Dusenberry, H. H. Cluff, L. Holbrook, and Mrs. Teele S. Taylor.

FOURTH DISTRICT COURT.
The case of Utah county vs. Thomas Boardman is now being heard before Judge Booth on an order for defendant to show cause why he should not be restrained from interfering with the use by the Utah county infirmary of the water of a certain spring situated east of the infirmary. About two years ago Mr. Boardman brought suit against the county for \$6,000 for the destruction of the spring, the waters of which had been conveyed to the infirmary by a tunnel being dug under the spring and the water piped to the building. The jury gave plaintiff a verdict for \$2,350, which has been paid. The county now claims the water in question, taking the position that the verdict for damages gave the county the water. Mr. Boardman's contention is that the water still belongs to him, and this spring and summer there has been more or less friction between the county commissioners and the Boardman in regard to the use of the water.

Judd, Frank T. Bennett, and Ethel Whitmore, provided S. R. Brown pass an examination in penmanship. The recommendations were adopted.
