SALT LAKE CITY, August 12, 1872.

LOCAL AND OTHER MATTERS.

Thermometer 85° in the shade at two o'clock to-day.

THEATRE—The play, entitled "Joseph and his Brethren," was presented at the theatre last night and passed off pleasantly, seeming to give pretty general satisfaction. Of the plot and character of the piece, we may say it very closely resembles the beautiful Scripture history of Jacob and his twelve sons, the home of the family being in Babylon instead of Canaan, and Isaac instead of Jacob is the name given to his head, while the number of the sons is seven instead of twelve. Joseph is the father's darling, his brothers are jealous of him and sell him for a slave. He is taken to Egypt and there passes through the adventures ascribed to the famous Joseph of the Scriptures, including the one with Madame Potiphar, called in the play Ullie, wife of Kapharia, for which he is cast into prison, is called thereon by the King, saves the land from the horrors of famine and finally becomes king himself.

The acting of Mr. Caspala as "Isaac" was excellent and was a touching and pathetic picture of the bereaved patriarch. Miss Clara Walters, in the role of "Joseph," gave another proof of being the possessor of histrionic ability of a high grade. Mr. Thomas played, with a good deal of ability, the part of Ullie, a good discontented and jealous member of Isaac's family, and the leader of the conspiracy against Joseph. As for the rest of the brethren they neither looked nor acted much like patriarchs, and they were a rather sorry looking lot. Miss Delia Clawson acted the part of "Zarah the Mountain Flower" in an able and graceful manner. Mr. Graham, as "Khossoo, Cook" was very quiet and unobtrusive, and made an amount of fun all the time he was before the footlights.

The piece will be repeated to night for the last time, and for a quiet, pleasant evening's entertainment, "Joseph and his Brethren" is just the thing.

MORE EMIGRANTS.—By courtesy of President Young we are enabled to publish the following telegram:

NEW YORK, August 12.
President Brigham Young:
Ward's company will leave to-night. All well. W. C. STAINES.

WANTED to know the whereabouts of George Gardner Fidler, by his brother, Henry Fidler, West Malvern, Herefordshire, England.—*Millennial Star.*

LEFT BEHIND.—As last evening's train from Sandy station was traveling towards this city, and when near Little Cottonwood the coupling attachment of the passenger car broke, the other part of the train, however, kept unobscured on its way, and the accident was not discovered by those having the train in charge until they were within a short distance of the city, when a return trip was made to bring in the car with the disconsolate passengers, the whole arriving at nine o'clock, instead of seven.

INFORMATION WANTED.—Any person knowing the whereabouts of Return R. Hill, who lived in the 10th Ward some years since, will confer a favor by communicating his address to Bishop John Proctor, 10th Ward.

AMERICAN FOLK.—A gentleman who visited this flourishing settlement a day or two since gives us the following concerning matters there:

The Co-operative Association has purchased the American Fork Flouring Mill, formerly owned by Bro. A. Adams. The mill has been under a thorough overhauling, and by the last of this week it is expected it will be ready for work, when it is the intention to put it out for second to none in the Territory.

The co-operative store is doing a first-class business and gives general satisfaction. A co-operative boot and shoe factory, in connection with the tannery, established some time since, will commence operations this week. A new frame building has been erected, and the company have from \$2,000 to \$3,000 worth of leather of their own manufacture. It is the intention to manufacture first-class goods and sell at Salt Lake prices.

Bishop Harrington has been very sick again, but is now recovering slowly.

INFORMATION WANTED.—Maggie Thomas, Box 454, East Bennington, Vermont, is desirous of learning something concerning her father, William Thomas. She states the latter is of French birth, and that he crossed the plains about fifteen years ago, in company with Elders Snow and Rogers. The letter states that all the family of William Thomas, whom he left in the tracks and who subsequently returned to Vermont, are alive, and that his youngest daughter is married to a butcher, and is living at Concord, Vermont. It appears that a legacy has come to the family and it is necessary, before a settlement can be effected, that it should be proved whether William Thomas be dead or alive should this meet the eye of the latter, he can obtain the letter referred to on application to this office. If any persons know anything concerning the individual in question, they will doubtless confer a great favor on the family by communicating with Maggie Thomas at the address at the beginning of this notice.

INDIAN RAID.—The following dispatch was received last evening:

FAIRVIEW, August 12.—Last Saturday night, as our cow herd was coming in, the Indians broke from the cedars upon it, shooting two of the herders, one having his right hand badly shattered, and several arrows sticking into him. The other had had arrow wounds. The boys turned out and recovered the herd and, overtaking the Indians four miles north, and a fight. The Indians then returned, driving off ten head of stolen horses. The boys then pushed on to Tumble Valley, to Savage's herd. The company of men were pouring in there all night, from other settlements, and the herds were safely brought in on Sunday. We are at a loss to know how much longer forbearance will continue to be a virtue. The recovery of one of the boys is doubtful.

"THE MAN OF DESTINY."—From the "Man of Destiny"—Mr. George Francis Train, candidate for the Presidency of the United States, we acknowledge the receipt of circulars and of a complimentary ticket, with portrait of the "next President," to that gentleman's lectures, which he is still delivering in every part of the country, to large and enthusiastic audiences.

MONROE.—Elder W. Warwick writes from Monroe, Sevier County, Aug. 7th. He says that settlement near about eighty families, and a better or more united people he has never been acquainted with. Every body is busy there at present, and he speaks glowingly of the general prospects of the county. He is of opinion that a few years of assiduous labor will transform it into the richest and most beautiful locality in the Territory, south of Salt Lake City.

Indians were not very troublesome at Monroe. They had paid two visits to the place, with pretensions of friendship, and each time a horse had been killed, but this had been the extent of their depredations.

Brother W. speaks in high terms of the progressive measures for the benefit of the people which were being inaugurated by Brother Joseph A. Young, President of the County.

BUSINESS DIRECTORY.—Messrs. E. Starr and Edward Hammons are getting up a business directory for this city, to contain, besides, a variety of other information of interest. A work of this kind will doubtless be acceptable to the business men of the community as well as to visitors and business men at a distance.

BEAR LAKE COUNTRY.—A gentleman just returned from Bear Lake informs us that the crops in that locality are unusually good, there being a prospect of an abundant harvest, though it was feared the late grain crops would suffer somewhat from the frost. Harvesting would commence generally in two or three weeks at farthest.

Mr. Bunyan Hunt, a brother of Bishop John Hunt, of St. Charles, had his thigh amputated on Thursday morning last by Dr. W. F. Anderson, who had been sent for to perform the operation. Brother Hunt has been a cripple for more than twenty years, and of late the limb had become so inflamed and painful, that it became necessary to remove it. Brother Hunt, though very much reduced and weakened from previous disease, bore the operation with fortitude, and at last accounts was doing well.

One of Gen. Chas. C. Rich's sons, while cutting plums for posts, with a hatchet, nearly severed his thumb from his hand. The wound, however, was sewed up, and it was supposed that he would recover the use of his thumb again.

The people about Bear Lake look happy and prosperous, no grasshoppers or locusts to molest or make them afraid.

EXTENSIVE DAMS.—Two very large dams have been lately built by this county at the head of Jordan rapids, near the point of the mountain south. The principal one is quite an extensive affair, having a sixty feet base, is 150 feet in length and fourteen feet high. Besides a large quantity of other materials, a thousand loads of rock were used in its construction. A gentleman who has visited the dams since they were completed states that they are as fine specimens of work of the kind as has ever been done in Utah. Bishop Archibald Gardner was the contractor, to whom credit is due for the really substantial character of the dams, and the fact that of almost incalculable benefit to the county, as it will be the means of converting into fruitful fields a large tract of land that has heretofore been a barren waste from 25,000 to 30,000 acres, to which water will be conveyed from the dams by means of a large canal. At the same point a bridge has been constructed, and a way made on each side of the river, enabling travelers to cross the Jordan without difficulty, instead of having to ford it as heretofore. The amount already expended on the work is \$9,000.

IN TOWN.—Professor Lyman Coleman, D. D., of Lafayette College, Easton, Pa., who completed the compilation of the book of the genealogy of the Lyman family in America, and Selden J. Coffin, Professor of Applied Mathematics, of the same college, are in the city on a passing visit, being on their way westward, Dr. Coleman designing to extend his journey to the Sandwich Islands, and Professor Coffin going as far as San Francisco, both on a tour of recreation. The Doctor is in feeble health, notwithstanding which and his advanced age, he is making a very pleasant old, he ascended Gray's Peak, Colorado, Aug. 2, an elevation of 14,450 feet. We trust their journey will be productive of much interest and pleasure to them and they will return to the sylvan State reinvigorated and renewed physically and intellectually, and with many agreeable recollections of their trip to the Pacific.

TELEGRAMS at the Deseret Telegraph office for Thos. D. Craddock, John Davis, Judge S. Haselden, Miss Klein, James Lynch, J. R. South, Wm. Theobald, Prof. J. H. T. Tuok and S. W. Downey.

KAT'S CEREAL, Aug. 10th, 1872.
Editor Deseret News:
Dear Sir—I was surprised to see my name published in your paper as having been signed to the petition for the admission of Utah as a State. I want here to declare that I never saw nor read any petition of the kind, nor signed it, nor authorized any one to sign my name to it. Respectfully,
JAS. K. GREEN.

ST. GEORGE.—Brother Henry Eyring, from St. George, reports leaving there two weeks since. The Canaan Co-operative Stock Company, of which he is Secretary, recently declared a dividend of 45 per cent. for twelve months. The small grain crops were good, although the drought had been severe, in consequence of which the corn and one crop were limited. The grape crop was promising, although on stiff clay soil, particularly in the valley. The peach crop was promising, although the peach crop is light this year, the apple crop very light, pears very promising.

The Indians had been troublesome all the spring, encamping in the fields and suffering their horses to run in the growing grain, which had annoyed the people until they had become impatient, but no serious trouble was apprehended.

WHERE THEY ARE GOING.—"Justice," in the Gold Hill News, denounces the Arizona diamond speculation as humbug, and deprecates the assumed fact of "the desire of getting up a rush to Arizona of all the d-d fools who are out of employment, or discontented with their condition." Why should he deprecate that movement? It is just the class that can well be spared to operate in the wilds of Arizona among the wilder Apaches. For our own part, there are a few ranting demagogues in this vicinity who thoroughly merit the distinguished degree of d d f, and whose departure for the diamond fields would be highly appropriate, and would save the country of that notorious class who in some countries are indecisively invited to "leave their country for their country's good."

REPAIRING DONE.
