dent and Secy. Root probably will be submitted to the senate at the next session.

It is understood the arrangement provides for the final settlement of the claims of Colombia upon Panama, for the assumption by the latter of part of the national debt of the parent state and for the restoration of the commercial relations between Colombia and Panama.

GEN. PALMER GATHERS VETERANS AROUND HIM

Philadelphia, Aug. 17.—A hundred survivors of the fifteenth regiment already left here today for Colorado Springs to be guests of former Commander Gen. William B. Palmer, a broken leg kept Gen. Palmer from the annual reunion of the regiment so he chartered a special train to take the veterans to the city. It is estimated that it will cost Palmer \$5,000. The train is due at Denver Tuesday.

ATTEMPT TO WRECK PASSENGER TRAIN.

Globe, Ariz., Aug. 17.—An attempt was made to wreck a passenger train on the Gila valley railroad last night. Large posts were driven upright across the tracks near San Carlos on the Indian reservation. The engineer did not see the posts until it was too late to stop the train, so dashed at them at full speed, striking them with such velocity that they were hurled out of the right of way without damaging the engine. Railroad men believe the attempt to wreck the train was a plot for revenge on the part of Apaches who had been ordered from the train by the engineer while riding on the engine tender according to their custom with trains crossing the reservation.

HAD "FRIENDS" WHEN RICH.

Los Angeles, Cal., Aug. 17.—Wm. Brouse, once wealthy and respected, said to have been cashier of a bank and worth \$100,000 by inheritance, hanged himself in the rear of 241 west Second street early today. He had climbed a stepladder, tied the noose around his neck and kicked the ladder from beneath him. He is said to have lost his money through false friends, and the result so effected him that he was unable to do his work and was finally taken to the hospital where he died and became a wreck. He was 40 years of age.

ZIMMER SENTENCE COMES TOMORROW.

San Francisco, Aug. 19.—Sentence of Vice President Zimmer of the Pacific Telephone & Telegraph company for contempt in refusing to answer questions in the first trial of the case has been deferred until Tuesday by request from his attorney, who was unprepared for argument on objection to passing sentence. The defense holds the verdict to be nullified by the further fact that the jury failed to find on the interposed plea of "once in jeopardy" all the "contempts." The law, as viewed by the defense, will be stated to the court on Tuesday, and a verdict will be made set aside the verdict and discharge the defendant. If this motion is denied, sentence will be pronounced on Zimmer at once be carried to the supreme superior court.

WAS FIERCE FIGHT.

Omaha, Neb., Aug. 18.—Walter Stanton of California, defeated the champion of Omaha, yesterday, in a fierce 20-round fight. Stanton was the aggressor throughout. Bunkie was in a bad way but Stanton was unable to follow up his advantages.

NEW YORK BIGAMIST MUST SUPPORT TWO.

New York, Aug.—Two wives pleaded the other day in general sessions for mercy upon Herman Keuhn, a hatmaker of 235 East Fourteenth street, whom a jury had found guilty of bigamy. Justice Foster, moved by the women's tears, set aside the sentence for the present, with the understanding that Keuhn should hereafter support both wives. Lillian Keuhn, who said she married the prisoner 15 years ago in Austria, and had several children, told the justice that she was the first wife. His second wife was Sadie Rotenberg, and he married her in November, last year. When a verdict of guilty was found, both women set up a plea for leniency. "I'll have to go to the poorhouse if you send him to jail," said Sadie. "So will I," said the other woman. Justice Foster remarked that Solomon himself would be puzzled what to do in such a case. That he released Keuhn on condition that he would provide for both wives. Keuhn left court with his wife, Sadie. Before doing so, however, he asked Justice Foster whether he could live with both wives as well as support them. The justice replied that he could not; and that he must live only with his legal wife.

AUTO MAKER KILLED IN AUTO ACCIDENT.

Great Barrington, Mass., Aug. 18.—Charles J. Root, an automobile manufacturer and his mother and sister, were killed today when their auto ran into a railroad train at Crossing, near here. Mr. Root's daughter and his niece were seriously injured.

Diarrhoea

When you want a quick cure without any loss of time, and one that is followed by no bad results, use Chamberlain's Colic, Cholera and Diarrhoea Remedy. It never fails and is pleasant to take. It is equally valuable for children. It is famous for its cures over a large part of the civilized world.

HOW SHAW SEES THE SITUATION

Confidence and Courage on the Part of People Necessary to Maintain Prosperity.

New York, Aug. 18.—Leslie M. Shaw, former secretary of the treasurer, authorized the following interview on the present financial and industrial conditions today: "Our farms produce more than \$6,500,000,000 per annum and the prospect is good for an average crop. Our mines yield more than \$1,500,000,000 and our forests more than \$1,000,000,000 and neither of these sources of wealth has been exhausted. The output of our factories in other questions our products amounted to \$12,000,000,000 and no fires have been extinguished. The railways earn more than \$2,000,000,000 and they are all in successful operation. The payrolls of our factories and railways aggregate approximately \$3,500,000,000 and the scale of wages has not been reduced. "In other words, the real sources of the people's wealth have not yet been affected and the ability of industrial concerns to pay dividends is not measured by the market price of their stocks. Logical reasons for serious conditions are therefore wanting. Psychological reasons are never wanting. "If I judge correctly, the people will have exactly what they expect. If those who have money in the banks withdraw it and lock it up; if the banks refuse to grant accommodations; if the consuming public decline to place orders, then we will very soon witness the effects. Let those who think that times are in our hands and that regular intervals bear in mind that this country never yet experienced a period of depression that was not traceable to financial or economic agitation or legislation and usually to both. "In 1893 the redemption of greenbacks in silver instead of gold was openly advocated. "The part in power was under promise to remove the protective tariff from our industries and the free coinage of silver at the ratio of 16 to 1 was championed by prominent members of both parties. The country might have survived any one of these sources of alarm, but it could not survive all three. At this time no one questions our financial system, and the tariff will not be touched for at least eighteen months. "Some check in the speed at which we are going is most desirable. The checking process has probably begun. It will require a fair measure of confidence and courage to prevent undue retardment in our industrial activities. Legislation cannot be forced into activity, but it can be forced out of activity. I have never seen the time when universal sanity was more essential to our well-being."

WIND-UP WEEK STARTS OFF WITH A BIG RUSH

Hundreds Pack the Rooms of the Boy Phenomenal to Accept the Final Offer of Treatment for Cost of Medicine.

SOME STARTLING CASES OF DEAFNESS CURED.

Mary Smith and William Robinson Made to Hear for the First Time in Years by the Great Doctor.

As a starter for the wind-up week of the great Boy Phenomenal's offer of treatment of any disease for cost of medicine, the great little doctor has some exceptionally sensational cures of deafness, rheumatism, gall stones, tumors, cancers, and other ailments. He started on the home stretch week yesterday, and did some great work. The week started with a phenomenal indication in favor of the greatest rush of any seven days since his arrival in Salt Lake City, more than three months ago. A very remarkable case Saturday was the relieving of a very bad attack of deafness. Mary Smith of 1155 Downington avenue was the victim of the affliction, and she had been totally deaf for over a year. Her case had been before the most prominent doctors of the west and east for the whole of the year with no result. She had been told to give up everything and had given up in vain. As the result of an inquiry as to why she did not try the Boy Phenomenal she decided to give it a try. The result is that she is now well and happy, and can hear perfectly. Both she and the doctor are jubilant over the case.

THE "SHENANDOGH" IS REPORTED WRECKED.

Charleston, S. C., Aug. 17.—The Shenandoah, with coal from Baltimore, Island navy-yard, is reported wrecked at Melbourne, Australia, due to heavy storms encountered while en route. For 64 days the men worked at the pumps before reaching harbor.

New York, Aug. 17.—The ship Shenandoah was last reported from Melbourne in Aug. 6, having put on a leak. As she had not been reported as sailing from Melbourne it may be that the report of her having sprung a leak gave rise to the wreck story.

PREPARATIONS FOR BALLOON RACES.

St. Louis, Aug. 17.—The committee from the St. Louis Aero club, which will have in charge the dirigible balloon races to be held here in conjunction with the international balloon races for the James Gordon Bennett cup Oct. 21, has Oct. 26 as the date for the contest and appropriated \$200 for the prizes. The prizes will be divided into two classes those using dirigible balloons only and those using aeroplanes and other heavier than air vehicles of any form which have no gas bag attachment. The prizes will be divided between the two classes.

SOCIALISTS IN SESSION.

Stuttgart, Aug. 18.—The International Socialist congress opened here today with over 300 delegates, representing 25 nationalities, present. Herr Bebel, the Socialist leader in the Reichstag, was the first speaker. He referred especially to the strident delegation from the United States. He spoke of what he termed the "scandalous" persecution in Idaho, "where the capitalist classes did everything possible to convict an innocent man who, after all, had been brilliantly acquitted." Herr Singer, a Socialist member of the Reichstag, was elected president of the congress. A mass meeting of 100,000 Socialists was held this afternoon at Cannstatt.

AFTER SOUTH POLE.

Paris, Aug. 18.—Dr. John Charcot, who headed the French Antarctic expedition of 1903, says that he is organizing another expedition and hopes to start in July, 1908, in an attempt to discover the south pole.

ADOPTING WIRELESS.

Washington, Aug. 18.—The army and navy departments have arranged to cooperate in maintaining wireless communication between Nome and St. Michaels, Alaska, and Seattle and San Francisco.

EARTHQUAKE AT LAIBACH.

Laibach, Austria, Aug. 18.—A violent distant earthquake was recorded in the observatory here last night, beginning at 6:58 and lasting 50 minutes. It is calculated that the earthquake was distant 500 miles from Laibach.

PLAGUE IN MANCHURIA.

Harbin, Manchuria, Aug. 17.—The Bubonic plague has broken out in south Manchuria. 16 deaths have been reported. Travelers into northern Manchuria are being examined at Kwang Ching Tsu.

SOME MORE CRIME BY A "PRACTICAL JOKER."

Los Angeles, Aug. 18.—Frightened out of his senses by coming in unexpected contact with the body of a snake, Charles Kelly, a conductor employed on the Edendale branch of the Pacific Electric railway, lies at his home on Gladys avenue, between Sixth and Seventh streets, a raving maniac. His entire mental system is deranged, and it is possible that he will never recover from what some person planned as a practical joke. Kelly has been running on the Edendale line for some time, and, as is customary, is forced to telephone to the dispatcher's office when his car reaches the Edendale end of the line. The telephone is inclosed in a little box and has no lock. Day before yesterday Kelly made the run from Los Angeles and arrived in Edendale about 10 o'clock. He switched the trolley on the car and then went to the telephone box to report. Since then he has been entirely demented. He opened the door to the telephone box, and here, its jaws pried open and its body coiled as though

about to strike, was the body of a snake. Kelly gave one shriek and fell to the ground. His reformer, knowing that something was wrong, rushed to the stricken man's side and found Kelly wild-eyed and raving and with the snake still in the box. The stricken man was immediately placed aboard his own car and rushed to Los Angeles. Dr. W. H. Stearns, one of the Pacific Electric physicians, was called in and did what he could to alleviate Kelly's sufferings. His peculiar hallucination is that there are snakes everywhere. Constantly muttering incoherent words, he points here and there at the reptiles which his distorted imagination conjures. Whether he will ever recover the complete use of his faculties is doubted by the doctors who have examined him, although they expect him to become fairly rational in a day or two.

GOLDFIELD POLICE CONFESS WEAKNESS.

San Francisco, Aug. 18.—The Western Union tonight reported that its office at Goldfield, Nev., was closed at 8 o'clock and would remain closed at night time hereafter until proper protection could be afforded its operators. The service to Goldfield was suddenly broken last night and it was reported that a delegation of miners had called upon Operator Shiveley and ordered him to leave town immediately. While the Western Union has not been definitely informed regarding Shiveley's movements, they believe that both the operator and his wife at once obeyed the order of the miners. It is said that the chief of police of Goldfield told Shiveley that he was powerless in the matter of giving him protection.
