

STATE RESTS IN SHEETS HEARING

Defense Professes Great Surprise at Predicted Non-Appeal of Bell.

"DR. JIM" TO TESTIFY AGAIN.

Severe Cross-Examination for Man Who Swore He Lied to Save Disgraced Chief.

The hearing of former Chief of Police Sheets, charged with accepting bribes, came to a sudden temporary termination this morning when the state announced it would rest. The defense made exhibitions of great surprise at this action, asserting as was expected, that it had rested assured Bell would be called to the stand to testify for the state. That Bell would not take the stand was announced in the "News" at the opening of the hearing. The "News" can repeat the declaration. Bell will not be called upon to take the stand at the present time no matter what demands the defense may launch. The state is confident it has enough evidence to convince the court George Sheets should be held to the district court to answer to the new charges filed against him.

"JIM" TO BE RECALLED.

The defense will put "Jim" Donaldson upon the stand this afternoon and subject him to a severe drilling to show numerous discrepancies in his testimony in this and other hearings. Donaldson swore while testifying before Judge Bishop day before yesterday that he (Donaldson) never saw the defense witness, because his counsel had advised him to protect Sheets no matter at what cost. "Jim" feels he has not been treated in the same way as he has treated others and is now ready to tell everything he knows. He started to tell of his dealings with Sheets in prize-fight matters but an objection by the defense was sustained and the story was not told. When Donaldson started telling about various big tricks turned in this city the defense side-tracked his flood of angry denials. This afternoon "Jim" will be put under cross-examination and the defense will not spare him in its attempt to destroy his credibility as a witness.

When the state announced shortly after 3:30 o'clock this morning that its case was finished, attorneys for the defense were on their feet instantly protesting great astonishment. Then it was asked that Donaldson be brought into the court-room upon the resumption of the hearing at 2 o'clock this afternoon. It is not thought the defense will consume considerable time with its portion of the examination of new witnesses.

STATE SCORES POINT.

An important feature brought out this morning was the state's meeting a contention raised yesterday morning by the defense and kept up during the rest of the day. Alex. McWhirter while on the stand said Sheets said to him, "Now you will require to keep this quiet because if it gets out it will go hard with me." During the cross-examination, Atty. Wedgewood and Thurman had the witness repeat this statement. Transcripts of former testimony rendered by McWhirter was read and the show that this statement was entirely new.

"You have testified five or six times, Mr. McWhirter," asked Judge Thurman yesterday afternoon. "Yes, sir," was the answer.

"Why have you never made this statement before then? Is it an afterthought?"

"I believe I have made it before." Then followed a long questioning to shake the witness on this point. The transcripts were brought out and long extracts read and while the afternoon was consumed by the defense in going over the records no such declaration could be found.

STATEMENT IS FOUND.

This morning, however, the state had a transcript of McWhirter's testimony before Judge Armstrong in a former Salt Lake hearing. The transcript was found, almost word for word. Sheets uttered this warning. McWhirter explained, after the thousand dollars was returned and the Scotts were leaving for the coast Judge Thurman took the manuscript from District Attorney Loofbourrow, read the page and paragraph several times and then passed it to his associates. Thus ended a long and tiresome contention and immediately after the incident was closed the state announced it would rest. A recess was then taken until 2 o'clock.

INTERNAL REVENUE REPORT.

Utah Shows Greater Increase of Business Than Montana and Idaho.

The report of the internal revenue collector for the district comprising Montana, Idaho and Utah, for the fiscal year ending June 30, 1907, has just been published, and contains some interesting figures. The receipts of the states, for the year is as follows:

Montana	\$328,112.81
Idaho	193,230.49
Utah	247,731.55
Total	\$569,074.85

The gain in receipts over the previous year is shown by the report to be as follows:

Montana	\$14,084.07
Idaho	16,713.83
Utah	18,552.52
Total	\$49,350.42

Of the total increase, Montana has 22.79 per cent for the year; Idaho has 26.85 per cent, while Utah shows a gain of 50.6 per cent, or a greater increase than both the other states combined. These collections show greater growth has taken place in Utah than in both the other states of the district; also that Idaho is ahead of Montana in the percentage of collections shown.

TEN YEARS IN BED.
"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the best of the medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me. For sale by F. J. Hill Drug Co., 'The never substitutes.'"

THE INSIDE OF SAN FRANCISCO

News of Gotham's Wickedness Brings Relief to Suffering Pacific Coast City.

EUROPEAN TRIPS UNPOPULAR

Stony Hearted Chauffeur Insists on Being Paid for Working All Night Just a Difference.

Special Correspondence.

San Francisco, Aug. 4.—The cheering news was waited from the Atlantic coast that New York is the wickedest city in the world has relieved us immensely and with the aid of the big stick we propose to relieve ourselves of any unjust suspicions of competing with Gotham for its unenviable reputation. The English government in deporting a New York convict has seriously embarrassed quite a few of our once leading citizens who were contemplating a European trip. This action would seem to discourage men of brains from acquiring wealth via the penitentiary route.

DRIVES THEM TO DRINK.

The charge of cowardice conspicuously printed in the dailies under glaring headlines has driven insane an officer of the ill-fated Columbia and the untimely resignation from office of several popular officials has driven them to drink. Despite the awful example of the evils attendant on bribing and bribe-taking, a strike breaker names Jones attempted to debase one of our patrolmen by offering him a paltry dollar to release him after the officer had valiantly arrested him in the very act of buying a pistol in a pawn shop.

HARD HEARTED CHAUFFEUR.

A cruel district attorney, unmindful of the ordinary amenities of life, has made an official resign from office while he was in bed suffering from a nervous attack and nursing a black eye given him by a hard-hearted chauffeur who insisted on being paid for driving the official and a detective friend around all night. The police chief, who has cut one notch in the butt of his revolver by the removal of Capt. Mooney, is investigating the connection of the detective with the matter. For this reason other detectives wish to be independent of the chief and are circulating a petition for an increase of pay and a rank higher than that of lieutenants.

THERE IS A DIFFERENCE.

A prominent physician of this city is greatly agitated over a little social attention given by the Olympic club to Patrick Calhoun, president of the United railroads. The worthy doctor's mental unrest goes so far that he is reported to have said that there is no difference between George D. Collins and Calhoun. In this of course he is mistaken because everyone knows there is a difference inasmuch as 12 men have passed on one and not on the other in a few days the Olympic club will open its swimming tank and the doctor need have no fear of being spoiled by venturing in because the railroad man is not a member of the club.

JUST A CAFFUL OF WIND.

Member Pistoles of the San Francisco Yacht club has his war on directors of that swell organization who brought his fair fame in question by first expelling him and then reinstating him. He has taken time to write a book about why he should not be expelled. It appears that the club officials assert that Pistoles publicly charged the club with giving an indecent exhibition two years ago when it was his duty as a member to have reported the matter to them. The offending member does not admit the sacredness of this spirit of corps obligation and he proposes to defend himself with damage suits against the directors of the club.

ACTOR LOTHARIO.

A learned justice of the peace of a neighboring county has decided that a police chief did not intend to murder one of our actors who spent a week in his hospital after a physical interview with the defendant. The chief had accused the actor of being too attentive to his daughter, and the actor alleged that the club was brought into play to enforce the remonstrance. The basis of the decision of the court was that the chief offered some bruised knuckles in evidence and proved not only that the actor was a married man with a daughter three years old, but that he had also been a co-respondent in a divorce suit.

DOES NOT OWE HIS TAILOR.

"Andy" Wilson triumphantly elected by the people to the important office of state railroad commissioner desires but once unfortunate connection with our

late lamented board of supervisors is indignant at two base canards circulated about him. One was that he was going to Europe to give Gov. Gillett a chance to fire him from office and the other was that he owed his tailor. He does not propose to go to Europe and he does not owe his tailor. If sufficient pressure is brought to bear he may resign his office but as to the tailor he promptly paid him as soon as he brought suit for the debt.

AWAY WITH THE OLD ONES.

Every time the Kaiser visits Danzig all the old warships in the harbor are towed to a position in which he cannot see them. The process was recently gone through in view of a visit now pending.

MAKER OF MODERN EGYPT.

Lord Cromer, who after forty-nine years of continuous labor in the British public service made up his mind to retire, is one of the most successful empire builders England has produced.

He has brought Egypt to its present prosperity and is responsible for the building of the great Assuan dam, which has made of the Nile region the garden spot of the world.

ABOUT EARTHQUAKES.

Thirty to forty thousand earthquakes yearly disturb the surface of our globe, but of these not more than sixty are heavy enough to do any serious damage.

A RUSSIAN HEADRESS.

The curious article of headwear shown herewith is the kokochnik, at one time worn universally by the married women of Russia. It is now seen only occasionally and in only a few

remote districts. It was used by rich and poor alike and was varied in richness of ornament and material according to the rank and wealth of the wearer. The one pictured is decorated with pearls.

COAL AS AN ORNAMENT.

Coal as an ornament in jewelry is being used in Japan. According to the Horological Journal only the hardest and most perfect of the bits are used, and the workers in coal from whom the jewelers obtain their supply make a practice of saving for them certain pieces, often not more than two or three of the required quality being found each day. Of course this black diamond jewelry is very inexpensive, but at the same time it is pretty and a novelty as well.

The picture of King Edward and King Alfonso shown herewith was taken during the visit of the British sovereign and Queen Alexandra to Spain. Such a friendly pose would have seemed impossible before the young king of Spain chose the English king's niece for his wife. For the first time in centuries there seems to be real intimacy between the royal families of Great Britain and Spain, a state of affairs that affords the world considerable satisfaction and a little amusement—that is, the world that has read history.
