Monday morning. It is stated that Simon Bamberger's place will be filled by some other stockholder. Indeed Mr. Bamberger said today that he had no intention of accepting a place on the new board.

The office of the company will without doubt be changed to the Horn Sil-ver office, and the present secretary, ver W. J. Beatie, who has capably filled the w. 5. Beatle, who has capably liked the position for several years will likely be relieved by Secretary M. C. Morris of the Horn Sil-ver and other companies in which Mr. P. T. Parnsworth is inter-ested, he change w libe made in the interest of economy as the business of interest of economy as the business of all the companies can be conducted just as well and much more cheaply in one suite of rooms,

### NEW INCORPORATION.

The High Ore Company Organizes to Develop a Mercur Property.

The High Ore Mining Company has been incorporated to develop the High Ore group of claims in the Camp Floyd district. The capital stock is placed at \$100,000, divided into a like number of shares of the par value of \$1 each. Matt Jensen is president and treasurer: Tim Moriarity, vice president and treasurer. Tim Moriarity, vice president: John C. Casey, secretary, and the other direc-tors are Laura Jensen and F. W. Brock-meyer. With the exception of Messrs. Morlarity and Brockmeyer, who are residents of Manning and Salt Lake City, respectively, the incorporators are residents of St. Paul, Minn.

A good deal of development work has lately been done on the property and it is said the ore already blocked out is a fine cyaniding proposition.

### ACTIVITY IN THE SOUTH.

Will Resume Work on Copper Mountain Company's Property.

Special Correspondence. St. George, Feb. 28.-A party of men left here yesterday for the Copper Mountain Mining company's claim to

continue the work that was stopped by the fire. The mine is looking well and the fire. will soon be shipping ore again. Mr. Thos. Jennings is here from Salt

Lake, on his way down to the Grand Gulch mine, for the purpose of looking out a road to take the ore south across the Colorado river. The mine has made a good strike in the new shaft, and as a whole is looking very promising. A number of our honored citizens

have gone to Salt Lake as delegates to the Democratic convention. The weather is warm and very dusty. The smelter here in town, is making

fine run this time, turning out a lot of bullion Prospecting seems to be the rage here, at present.

### FIRE IN A COAL MINE

### May Result in Closing Down of Coke

Ovens at Cardiff, Colo. A disastrous fire is reported in the Spring Gulch coal mine near Glenwood, Colorado. From what was learned by Superintendent Paul Blount of the Colorado Fuel and Iron company, the fire originated on the 1400 level of the mine. In spite of the fact that all the air shaft and openings have been closed it is thought that much difficulty will be experienced in getting the fire under control, as it had gained considerable headway before it was discovered. If the railway companies do not agree upon freight rates on coal from the new Placita mines on Crystal River, it is likely that the coke ovens at Cardiff will be closed down. To supply the ovens with coal from the new mines at Placita, it will have to be hauled to Carbondale over the Crystal River rail.

way, thence to Glenwood by the Rio Grande company, and lastly to Cardiff by the Colorado Midland. IN MILLARD COUNTY.

### Preparations Being Made for a Sea-

son of Activity. Mr. S. A. Duggins, who was seen by a reporter of the Clear Lake Review is reported as follows regarding the min- Central, says that the effort that is be-

run over two ounces in the yellow met-al to the ton. One car was loaded on Thursday, and it is expected that two cars will reach the sampler on Monday. As the operating expenses only run between \$2,200 and \$2,300 a month, the present rate of shipping will soon enable the company to cut down the debt which it owes.

### PETRO SHIPMENT.

### Settled for Yesterday at Higher Prices than Any Lot Since 1891.

Two cars of ore from the Petro were settled for yesterday with Smelter Trust. The two cars netted the company \$32.35 a ton, which is the highest price per ton obtained for any ship ment since 1891. Shipments will short ly be made from the new strike. The zine ore will not be handled, but the lead ore will be sorted and marketed. Word was received yesterday by Col. S. B. Milner from the zinc smeller at Canyon City, Colo., which stated that the company will not be able to handle the zinc ores of the Petro until after next July, owing to the fact of its being loaded up with zinc ores from other camps.

#### CYANIDE SHIPMENTS.

#### Week Closes Well - Three Batches Amounting to Over 1,200 Pounds.

The week's receipts of gold cyanides at the sampling rooms of the Consoli-dated Kansas City Smelter and Refin-ery Company amount to 1.225 pounds. The Star, of Pine canyon, came forward with a batch of about twenty-five pounds, while the Sacramento reported with about 400 pounds. The Mercur closed the week with a consignment of 800 pounds of gold dust which will net the company something over \$20,000.

### NEW MILL AT SEARCHLIGHT.

a 20-Stamp Mill at Nevada Camp.

After two years and a half of legiti-

mate development work, the Search-light, (Nev.) camp is ready for a mill

and other mechanical appurtenances

respondent of the De La Mar Lode. They

are constructing a twenty-stamp mod-ern gold mill with concentrates and cy-

anide attachment, also sampling works

where a miner can sell from one sack to a thousand tons of any kinds of ores.

This plan will be located on the Color-
