DURYEAS' "SATIN GLOSS."—After the laundress has washed and cleansed, it is desirable, as a finish, to use the purest starch she can get. The best is snow white and easy to use. By asking the grocer for Duryeas' "Satin Gloss Starch," the laundress or housekeeper will be sure to get the best article.

WHAT THEY SAY. — Chicago *Journal of Commerce* says: Dr. Price's Flavoring Extracts are the finest, purest, and best to be found in this or any other city, only necessary to visite his Laboratory to be convinced that they are perfectly pure and superior in strength. The *Tribune* Review says: Although the company, Steele & Price, have enlarged their facilities for the production of Dr. Price's Cream Baking Powder and True Flavorings, they are hardly able to meet the rapidly increasing demand for them. In this age of adulteration, it is gratifying to find one honest effort to stick by the old path of honesty, and consumers owe it to themselves to patronize those making the effort. For natural flavorings none can compare with Dr. Price's, and to make the sweetest, most wholesome, and easily digested bread use Dr. Price's Cream Baking Powder.

SALT LAKE CITY, June 29.

Honey.—We saw some beautiful, pure honey to-day, produced at Mill Creek, by bees belonging to brother Cornwall, of that place.

About the Same.—We regret to have to state that the condition of Brother Paul A. Schettler does not appear to improve.

Recovering.—We are pleased to learn that Brother Alexander C. Pyper is recovering from the effects of the injuries received by accident the other day.

The List.—The list of names of the coming company of emigrants will be found in to-day's NEWS. The company will, in all probability, reach this city on Wednesday evening.

To Be Graded. — This morning Surveyor General Jesse W. Fox took the level of First South Street, from the National Bank of Deseret corner to the Theatre, preparatory to grading it so as to keep it free in future from stagnant pools in all kinds of weather. This will be an improvement that the people in that locality will appreciate.

The Immigrants.—The following dispatch was received by President B. Young yesterday:

"OMAHA, July 11, 1874,
3:10 p.m.

"*Brigham Young:*—P. C. Carstenson, in charge of five hundred and sixty emigrants; they leave here to-day for Utah.

"THOS. L. KIMBALL."

Good Prospects. — The rolling stock for the line of railroad which it is proposed to build from this City westward to Stockton and thence southward to Iron City, Iron County, has been secured, and it is probable that negotiations for all the balance of the material, including iron, are completed by this time. This railroad enterprise is the same as was mentioned some time since, as being very extensive in its character.

Lecture.—Between six and seven hundred people attended the lecture of Mr. Geo. B. Taylor, on the "Horrors of the Liquor Traffic," at the Old Tabernacle, last evening. The lecture was very able and was listened to with the strictest attention.

On Wednesday evening, at 8 o'clock, he will deliver another lecture, at the Institute. Subject—"Inconsistencies of the Liquor License Law." Admission free.

Seduction Case. — Yesterday a young man named Robert Greene, of Cottonwood, was arrested, in this City, on a charge of seduction and debauchery, and is now in jail, pending an examination before Judge S. W. Richards, who issued the warrant.

The brother of the young woman alleged to have been seduced by Greene took after the latter yesterday. He whipped out his pistol, but was prevented from shooting by officer Phillips.

Lost.—Left her home in the 20th Ward, on Saturday morning last, a girl named Harriett Winn, apparently between eleven and twelve years, of a very nervous temperament. She has light hair and blue eyes; had on a light calico dress, and was bareheaded and barefooted. Any person having seen the child or knowing of her whereabouts will confer a very great favor upon her mother by sending her, or information of her, to the residence of Mr. F. J. P. Pascoe, 17th Ward.

City papers, please copy.

Excursion to Cache.—We understand a cheap excursion, at an early day, from this City to Franklin, the present terminus of the Utah Northern Railroad, is under consideration. If three hundred or more tickets can be sold the trip can be taken for but a small amount, and if the excursion does come off doubtless considerably more than the number mentioned will avail themselves of the opportunity to visit Cache Valley, one of the most thriving and fruitful portions of Utah.

Marks and Brands.—We have had placed in our hands, for printing, by William Clayton, Esq., Recorder of marks and brands, the record of all the latter coming under the heading of A. B. & C. The record will be in alphabetical order, and those desiring to have their brands recorded under any of the letters following the three first should send them to Mr. Clayton immediately, for as soon as the record under the various letters goes into the hands of the printer it is so far closed down to applicants for record. This is a matter of considerable importance, and those interested should take the hint.

The Southwestern Stage Line.—We learn from Hugh White, Esq., that next week the stages of this line will run daily from Provo to Pioche, starting from the former place on the arrival of the train from this city, and making the trip in forty-eight hours. They also run to St. George *via* Fillmore and Beaver, making that trip in two and a half days.

A number of fine new coaches are on the way here, and the line, in every respect, will shortly be in such a condition that there will be no room for fault-finding, even from the most fastidious.

The Circus.—There was another crowded "house" at Montgomery Queen's circus on Saturday evening. Being the last night, the performance was put through with somewhat more of a rush than on the preceding night, but the various feats were accomplished with equal neatness and dexterity, the riding summersault, the boneless gymnastics, and the trapeze exercises being the most notable, and worthy of a place in any ring of the kind in the world.

Wheat.—Bro. W. H. Hocking brings into the office a number of stalks of ripe wheat, which he terms of the Taos variety, the seed originally from Holland six years ago. The wheat shown us was sown in the 12th Ward last Spring twelvemonths and mown last summer for hay. The first crop in this region weighed sixty-nine pounds to the bushel. The stalks as cut are about four feet six inches high, with good sized heads.

Bro. Hocking has not seen a single head of smut in any of this wheat he has grown.

From the Sandwich Islands.—Yesterday morning, Elder Harvey H. Cluff arrived in this city from the Sandwich Islands, where he had been on a mission for the last four years and seven months. He was twelve days on the journey home, including one day while he lay over at San Francisco.

When Elder Cluff went to the Sandwich Islands he had been but one year home from a mission to Europe, where he labored for about four years, a large portion of the time in Scotland. He is in good health, but the health of his wife who was with him on the Islands, has not been good for a considerable time. The two have gone to their home in Provo.

Creeping Mails.—A letter from Fayette, Sanpete County, posted July 3, reached us this morning—somewhat of a feat in these days of dispatch and hurry.

The Eureka, Nev. *Cupel*, similarly afflicted, thus gives vent to its feelings—

"Dwellers hereabouts are a patient people, a long suffering and patriotic people. They bear their crosses like Christians, and prove by their acts a lineal descent from Job. Eureka is the second town in Nevada in importance and population, and is furnished with facilities such as are not given to the veriest played out camp in the State. When letters arrive they are mouldy; when papers come they have a yellow and aged appearance, and public documents from Washington exhibit evidences of decomposition, and rottenness. The mail sacks gather moss during the trip, so long are they on the road, and so long a time elapses between the sending and arrival of letters that the recipients here very frequently cannot remember who the writer is. Drivers of the mail conveyance who leave Palisade in all the bloom, beauty and friskiness of youth, arrive here sober, rheumatic, and greybearded men. The second coming of the Redeemer is not much slower than the coming of the U. S. mail, and the trip of the children of Israel across the desert was "rapid transit" when compared with this new postal arrangement. We are not captious and do not ask the department to forward our mail with the speed of the comet, which is some 6,000 miles a second, but the contractor might put on the route a relay of bulls. Readers at a distance must not think that the above is an overdrawn picture. Alas! it is but too true. The resignation of Postmaster General Cresswell is now accounted for. He let this Eureka contract and then his conscience smote him; he quit his job in Washington and went into the country where he might hide his head and do penance for such an infamous act.

The Coal Question. — The coal question is an exceedingly important and somewhat of a vexed one to this community, and it still remains unsettled. The question, "What is going to be done about it?" is incessantly asked, but no one seems yet to be in a position to give a satisfactory answer. Some point hopefully to the proposed railroad between this City and Summit County. Indeed this seems to be the best means of defeating the imposition levied upon the people by the Union Pacific Railroad Company, which is little if anything short of an outrage. If the home line of railroads mentioned be not built before very long the people may be compelled to pay sufficient money out for coal, over that which there is any necessity for expending, to construct the road. It is a matter the importance of which can scarcely be overestimated for the people to be at the mercy of a whimsical and apparently unscrupulous railroad company for one of the necessaries of life, which, to a great extent, would be the case here in the winter season, when hauling by team would be occasionally, at least, simply impossible.

In the meantime there are hundreds of teams for which there is no other work in and around this City, and, we presume, also in Summit County. Those might be and should be hauling coal from the Weber coal-beds, and thus keeping money in the Territory that would otherwise be paid out to a railroad company which has no sympathy with nor interest in the community, besides making something individually for the owners of the teams. It is certainly time some definite steps were being taken upon the coal question.

The Tailors. — We understand that the tailors contemplate commencing business in the Constitution Buildings in a few days, in the United Order.

Downfall.—A thunder and rain storm as we go to press.

LUMBER.—I am now receiving lumber from the Park, good white pine, and well seasoned. Give me a call, examine and inquire prices. Utah lumber yard.

TO-DAY'S DISPATCHES.

EASTERN.

The Weehawken Fire—Catholic Conferences in Germany—Mitchell Going to Ireland.

NEW YORK, 13.—The fire at Weehawken destroyed all the oil in the tanks, and damaged greatly the Erie railroad tracks. 85,000 barrels of oil and 65,000 barrels of naptha were burned. Watson, bookkeeper of the Erie road, estimates the total loss at $2,000,000.

A frankfort letter says that two important congresses have recently been held, at Bonn and Mayence, on the union of the German Catholics. At Mayence resolutions were adopted directed against the constitution of the German empire, the national party, the Jesuit law, ut 1 tariapism, the guarantee of public instruction by the State, a liberal press, and the foreign policy of the German Empire, especially towards the Vatican. The speeches made created no little stir in German official circles. Loyal telegrams were received from all parts of Germany, and sent to Rome. The state is particularly exasperated by the Mayence assembly, and all the active members been summoned to appear at Anchen to answer the charge of producing excitement against the powers that be.

John Mitchell, the famous exile, is about to return to Ireland to become a delegate for the British Parliament. Nearly two thousand dollars have been collected in this country and Ireland to defray Mitchell's expenses.

The Cause of the Beecher-Tilton Trouble.

A special says that the members of the Beecher-Tilton investigating committee will express no opinion till the investigation is concluded. A story has prevailed in Plymouth Church that the whole trouble between Tilton and Beecher was owing to Beecher's attempts to induce Mrs. Tilton to leave her husband. Mrs. Tilton has not testified before the committee.

A Fatal Affray.

TOLEDO, 13.—Eight or nine German farmers got into a fight while returning from a saloon last night, and Michael Smith was killed, John Dwinnus mortally wounded; all the others were variously injured with knife thrusts.

THE HIGHEST PRIZE AWARDED THEM.

MASON & HAMLIN ORGANS also took the FIRST PRIZE at the PARIS EXPOSITION in 1867, and in America wherever exhibited. Send to us for *fac-simile* of Medals, and other numerous proofs, that these Organs are unequalled in America or Europe.

We have just received another shipment of the Grand New Styles, patented Jan., 1874, with their MAGNIFICENT CASES of SOLID WALNUT—no *papier-mache* nor sawdust ornamentations to be found in them. We will sell on Monthly Instalments, running from One to Four years, for $2.50 Monthly Payments.

Comparative prices with those of leading makers, offered for sale here:

	M. & H. Price.	Others. Price.
Style F.—Five Octave Double-Reed Organ, in plain case, unequalled in power, musical excellence and durability, by any double-reed organs made outside the Mason & Hamlin Factories.	$110.	325.
Style H.—Five Octave Double-Reed Organ, in Upright, Resonant Case, Five Stops, with Tremulant, Knee-Swell, etc. Case of beautiful design, graceful proportions, highly finished, and much more beautiful than it would be if covered with sawdust and glue mouldings.	$130.	375.
Style E.—The same, with Vox Humana and Automatic Swell.	$150.	385.
Style S.—Five Octave Organ. Three Sets of Reeds, in Upright Resonant Case, having Octave Coupler and Manual Sub-bass, Nine Stops, including the new Full Organ.	$190.	575.

☞ The above will serve to illustrate the difference between our prices and others as well, or better, than a larger list.
