NOTICE.

The Forty-eighth Annual Conference of the Church of Jesus Christ of Latter-day Saints will convene at the Large Tabernacle in this City, at 10 o'clock A.M., April 24, 1873.

JOHN TAYLOR,
President of the Council of the Twelve Apostles.

EDITORIAL NOTE.

Burglars worked near on a safe at Tekamah, last week and when they succeeded in their nefarious and dastardly task they were rewarded with the magnificent sum of \$1,000.

The people in Trigg County, Kentucky, have become willing over a new phase of Miller's Anticipate the immediate day of judgment, quit business, turned loose, and go from house spending their time in prayer. Strong delusions signs of the latter times.

To-night the meeting is held in Salt Lake. Several cities are moving for the establishment of a mint in their respective capitals, but not one of them has had the legislative claims that Salt Lake can present. These points doubt, be fully discussed, even though argument on the part is superfluous.

Pueblo, Colorado, is rejoicing over its new iron works. On the 6th inst. the Pueblo Iron Company commenced rolling iron in the heating furnaces being in full order, and the work was pronounced a success. A full force of men employed, and the Denver and Rio Grande R. R. Co. are in full swing in re-rolling theirs. When is Ogden going to fix itself up? If Pueblo, Colorado, can succeed, surely Ogden, Utah, will much better natural advantages ought not to fail.

The "Law and Order" of St. Louis is pushing the law closing saloons on Sunday, and have succeeded in shutting up most of them. Now the saloon keepers are on the war path, and threaten to procure the enforcement of the letter of the law forbidding labor and traffic on the Sabbath. This would stop the street cars and the newspapers, and make the Law and Order people walk instead of ride to church on the Sabbath day. "What's sauce for the goose is sauce for the gander."

It is well known that all the married preachers are taught over-worked, so much so that spiritual troches are an absolute necessity, and summer vacations indispensable to their health and welfare. Here is a conversation between two of the hardworking clergymen of the Church of England "brought up by the London World." "These old married gentlemen, as it seems, were walking together at the corner of a public market place. 'Well,' said one, 'shooting six doves a week takes up a good deal of time.' 'Just so,' answered the other, "game with me—beaten duties and short days' sleep a couple of hours to look after birds! It fails to come out to-day!"

A terrible shooting case has recently been reported in Philadelphia. A boy twelve years old, named Robert McAdam, was playing with some of his companions and running a race of canary, when another boy of the same age, named Charles Parkman, demanded some of the canaries. Adams refused, when Parkman demanded he would shoot him if he didn't hand it over. The boy laughed and still refused, when Parkman drew a pistol, took it from his pocket, pulled the trigger, and fired; he dropped to the ground with a bullet in his brain, and the young murderer fled. Both belonged to respectable families. More fruits of juvenile blood—salvaged derelictives.

WASHINGTON, 21.—Harford submitted a preamble and resolution declaring that the House bill to re-establish special recompence had been referred to the Finance Committee on the 10th of November last; therefore,

"Be it resolved, That the committee be required to report said bill to the Senate within one week together with their opinion thereon, if any shall have been had. He asked for the present consideration of the resolution; but objectors were made by Morris, and it went over.

Chase called for the Senate bill to establish the Territory of Lincoln and to provide a temporary government thereon, which was discussed until the expiration of the morning hour, and then laid aside.

Consideration was then resumed of the Pacific railroad sinking fund bill.

Teller made a long speech in favor of the bill, when it was laid aside to be taken up again on the following day.

But each side has distinct positions and capabilities. The rights of the states are clearly defined, and the necessity of the right is indisputably established. man's rights are freely guaranteed, and man's rights are at all times maintained. No man can properly infringe upon the other; really they are mutual and equal. Woman is not viewed as the "Mormon" as an inferior being, but as a partner in the support. On the contrary, she is made one with the man, and of his heart, flesh of his flesh.

cally or mentally capable of filling is open to her, so far as the influence of the church can smooth the way. It is a significant fact that all the opposition to woman's occupation of any place in politics, comes from those who pretend that "Mormonism" is her tyrant. A "Mormon" Legislator gives her equal voting privileges with man; anti-"Mormon" agitators and Congressmen seek to deprive her of the suffrage. "Mormon" law-makers pass a bill to make woman eligible to certain offices for which they are competent, but a non-"Mormon" Governor, under anti-"Mormon" pressure, refuses to sign it.

The Church gives her the same right to vote as a male member, and such powers as a minister as are suited to her peculiar organization and qualities. But she is not placed at the head nor appointed to have a seat in the legislature up to date. Henry Hart, one of the directors, who was reported to have demanded a full account of the company's affairs, was unwell last night. Through his nephew, he told the director, "nothing was stormy." General, but a modified system was submitted, showing its financial operations up to February 23. The directors were much pleased to find the indebtedness of the company had been so materially reduced. The reports of the debt, including the outlay for the purchase of the "Utah Transcontinental," have been largely exaggerated. A special audit committee is appointed to examine the affairs of the company.

EASTERN.
The bill to employ temporary treasury clerks and to bring into market public lands, was passed into law. The debate in regard to timber depreciation was adjourned, and James of Fla., spoke in opposition to the measure, the Secretary of the Interior.
