

EXPERIENCES OF THE NELSON

Struck by a Hurricane and Thrown
On Her Beam Ends.

ALL SAILS SWEEP AWAY.

Taken in Tow by Tug, Hawser Parts
and Vessel Left to Drift—Narrow
Escape From Wreck on Shore.

Seattle, Wash., Dec. 6.—The British ship Nelson, which was reported to have turned turtle off the mouth of the Columbia river Tuesday night was towed into Elliott Bay last evening by the tug Holyoke. The Nelson first encountered bad weather a week ago about 135 miles west of Astoria. She struck a hurricane which threw the ship on her beam ends, tore away every sail and shifted the cargo until she had at least a three-foot list to starboard. That the ship managed to live in the hurricane is due entirely to the fact that the storm did not last long.

The next morning under the supervision of Capt. George Perham, the master of the vessel, a new set of sails were set and the ship started on its course to Astoria, arriving outside the bar last Tuesday morning. It happened that the tug Tattush was the only tug available and it was late in the afternoon before she tied on to the Nelson.

At first it was attempted to get the vessel inside the harbor at Astoria, but this had to be abandoned. The tug then changed its course towards Puget Sound in an endeavor to bring the ship into shelter.

After the tug was well under way for Puget Sound, Capt. Perham, of the ship, went to his cabin to get a little rest, thinking that the tug would not encounter any trouble in getting the ship into shelter. It was about ten o'clock in the evening that his second mate came rushing into the cabin and said that the ship did not seem to be moving forward and that for some time she had not been making any headway. Capt. Perham immediately went upon deck and found that the hawser connecting the tug and the ship had parted and that the ship was rapidly drifting towards the shore.

At this time the vessel was off Shoalwater Bay and the wind was blowing a furious gale. The captain immediately set all of the sail he could and got the vessel away from the shore for the ship had been rapidly approaching it and the lights from the bay could be easily seen. In the meantime Capt. Perham had had shot off several rockets in an endeavor to let the tug know of his whereabouts, but his efforts did not meet with any success. But the ship was under fair control and the tug succeeded in living through the night.

By morning the Nelson had made her way a considerable distance north of Puget Sound, having been sent along by the terrific force of the wind. It was not long before the steamship Walla Walla was sighted and Capt. Perham had shot off several rockets in an endeavor to let the tug know of his whereabouts, but his efforts did not meet with any success. But the ship was under fair control and the tug succeeded in living through the night.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Send for Swamp-Root free also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmor & Co., Binghamton, N. Y.

an appendix for preservation. The late convention, while it praised the scholarship of its commission, did not place their work upon the same level as that of the scholars and who had spent many years at the work, besides being far larger in numbers. The new Bible insures the very latest renderings although the revision is in a permissive only, not obligatory.

AMERICAN CONSUL ARRESTED.

German Authorities Mistook Him for Another Man.

Berlin, Dec. 6.—Paul R. Schilling, the American vice consul at Selttau, Germany, who was arrested last month by the German authorities in mistake for the German spy, was released today. He had addressed a letter to the press in which he set forth the indignities he suffered at the hands of the Selttau authorities. He says the course was taken from him by force, that he was confined in a cold cell, and that when he was released the authorities in no way expressed regret or apologized for their action.

It is announced here that the divorce of the Grand Duke and Grand Duchess of Hesse will be decreed by a special tribunal of the Dutch court.

Technical Journalists' Attention.

The London Times and the New York Times, all trace of friction between Vienna and St. Petersburg has disappeared.

Kharpoor is Tranquil.

New York, Dec. 6.—Missionary ad- views, says the London Times, Kharpoor is tranquil but the adjoining villages of Enzenau, Durbach and Bittis have been ravaged by Kurds, against whom the authorities are powerless.

Booker Washington at Smith College.

Northampton, Mass., Dec. 6.—Booker T. Washington was given an enthusiastic reception by Smith college students upon the occasion of his address here. President Seeley presided and Dr. Washington spoke of the negro problem. Earlier he addressed the closing session of the state board of agriculture, upon "The Colored Race and its Relation to the Productive Industries of the Country."

Arizona Forest Reserves.

Santa Fe, N. M., Dec. 6.—In accordance with an order of the department of the interior, the forest reserves of Arizona have been taken from the jurisdiction of the superintendent of forest reserves. L. D. Hanna, who in the future will devote all of his time to the Gila and the Pecos river reserves of New Mexico. The supervisors of the Arizona forest reserves will report directly to the interior department and no superintendent for Arizona will be appointed. This is done to lessen the red tape in dealing with forest reserve affairs.

Young Lady Burned to Death.

Holland, Texas, Dec. 6.—Miss Maud Nicholson was burned to death in the explosion of a coal lamp. Robert Stafford and son Walker were badly burned in the hands in trying to extinguish the fire.

UNITED STATES' FOREIGN CREDIT MUNYON'S DYSPEPSIA CURE

London Times Pats Uncle Sam on
The Head.

TREATS HIM AS A BIG BOY.

Article on American Finances Has a
Very Patronizing Tone—Not a
Great Banker Nation Yet.

New York, Dec. 6.—Another article by the financial editor of the London Times on the credit relations of the United States and Europe has again appeared. It has been cabled to the New York Times and is printed here. The financial editor of the London Times infers that the views he expressed last Wednesday are not disputed by the best judges in the United States.

In the opinion of the editor the United States is in the position of a young, vigorous, able and honest manufacturer, who has also had great success as a farmer, and who is able to command first class credit at his bankers. He makes a great deal out of his income, but he does not spend in extending his business. He has occasional fits of exuberant energy and enthusiasm, when he borrows money to construct works which do not immediately yield a return. Thus, periodically, he looks up more than his wise in bricks and mortar and steel. Even in his prudent mood he does not keep much actual cash. He does not believe in gift certificates, except for insurance companies and savings banks. His capital does not increase fast enough in 3 per cent stuff. His admirers have been asserting that he is going to be a great banker, but he is not one. Probably he will be, some time, but that time is distant.

The writer assumes that Secy. Gage did not perfectly understand his (the editor's) argument in the interview he gave, which was cabled here, but he affirms that the secretary accepts his view that the United States is a great manufacturer, but not yet a great banker. However, not all the London financial experts by any means support the views of the Times in regard to the foreign credit of the United States. On the contrary, some of the shrewdest men believe that any such purely theoretical reasoning is misleading and that the actual great, long continued and obviously growing prosperity of the United States is the important factor in the case.

"America may be a debtor nation," said a well known financier, "but the amount of American capital invested here and elsewhere in Europe is enormous and increasing."

London, Dec. 6.—The Times in its financial article this morning discusses the question of credit relations between the United States and Europe. The Times regards the time as still distant when the United States will become a great banker nation, and compliments Mr. Gage as the best secretary of the treasury for many years past.

The paper says it remains to be seen whether all the big American schemes which European capitalists are directly or indirectly financing at the present moment will prove profitable as soon as sanguine people expect.

"We think that under the last year American energy and optimism have to some extent outrun discretion," says the Times, "and some of the best qualified judges in the United States seem to agree with us."

To Admit Cuban Sugar Free.

Washington, Dec. 5.—In compliance with the suggestion of Senator Platt of Connecticut, chairman of the committee

NERVOUS DYSPEPSIA.

A CURE FOR IT.

Not a Patent Cure-All, Nor a Modern Miracle, But Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they are advertised as cures for every disease under the sun. And they never think

of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure.

They go no farther than this and any man or woman suffering from indigestion, chronic or nervous dyspepsia, who will give the remedy a trial will find that nothing is claimed for it, that the facts will not fully sustain it.

It is a modern discovery, composed of harmless vegetable ingredients acceptable to the weakest or most delicate stomach. Its great success in curing stomach troubles is due to the fact that the medicinal properties are such that it will digest whatever wholesome food is taken into the stomach, no matter whether the stomach is in good working order or not. It rests the overworked organ and replenishes the body, the blood, the nerves, creating a healthy appetite, gives refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food.

In using Stuart's Dyspepsia Tablets no dieting is required. Simply eat plenty of wholesome food, and take these tablets at each meal, thus assisting and resting the stomach which rapidly regains its proper digestive power, when the Tablets will be no longer required.

Nervous Dyspepsia is simply a condition in which some portion or portions of the nervous system are not properly nourished. Good digestion invigorates the nervous system and every organ in the body.

Any druggist will tell you Stuart's Dyspepsia Tablets give universal satisfaction.

When Prof. Munyon says his Dyspepsia Cure will cure indigestion and all forms of stomach trouble he simply states the truth. It will cure a stomach that has been abused by over-eating and over-drinking. It will cure a stomach that has been weakened by old style drugs. It will do much toward making an old stomach act like a sound one. At all druggists, 25 cents. Fifty-six other cures. Munyon's Inhaler Cures Catarrh.

on Cuban relations, the Cuban commissioners now in this city have prepared the draft of a bill designed to carry out their views for remedial tariff legislation for the islands.

This provides for the admission to the United States free of duty after January 1st next of Cuban molasses and raw sugar, up to the admission of all other Cuban products to the United States on payment of half the prevailing duty.

In return for this favor the bill provides that the Cubans must first agree to admit to the islands for half the duty charged all other nations the products of the United States.

Sent Obscene Matter Through Mails.

Seattle, Wash., Dec. 6.—The United States grand jury completed its session at this city last evening. Among the indictments returned were two for sending alleged obscene letters through the mails. W. A. Deeds, and Herndon Lambert were arrested on this charge. Each of the men is alleged to have written unprintable language abusing a woman. H. J. Fleischner, a well known Seattle physician, is under arrest as a result of an indictment charging him with using the mails to advertise the sale of drugs for illegal purposes. He claims the charges are trumped up by enemies.

J. P. Sweze, who runs a collection agency, was indicted on the charge of sending dunning letters in envelopes which were usually marked with the purpose of the massive they enclosed.

More Land for Fort Worden.

Seattle, Wash., Dec. 6.—Condemnation proceedings, the object of which is to secure for the United States government a new day the Fort Worden, were commenced yesterday in the United States district court. Two hundred property owners are defendants and the land in question is situated on the outskirts of Fort Worden and will probably cost \$50,000. The jury will view this city on a government tug and leave the premises.

Cape Rebels Loyal to Boers.

New York, Dec. 6.—A correspondent of the London Times and New York Times wiring from Pietermaritzburg, Natal, says the Boer generals would probably have thrown in the sponge long ago but for the loyalty of the Cape rebels to the Boer cause.

MUNYON'S DYSPEPSIA CURE

When Prof. Munyon says his Dyspepsia Cure will cure indigestion and all forms of stomach trouble he simply states the
