in land, for the Daly West has decided to employ while help only around its boarding house. This is a sudden, sweeping and welcome change, for while Chinamen have been employed as cooks, waiters and "bottle-washers" for years, the practise was never entirely satisfactory to the mines or their em-ployed The Daly West is one of the largest mines in Park City, and employes a large number of cooks and kitchen attend-ants, so its taking the initiative step in weeding out Mongolian help is sig-nificant and the experiment is being watched with interest by other mines. If a better service can be obtained by the employment of white help, other properties will fail in line and Park City's "Chink" population will be cut down to a few laundrymen. SKIDOO QUEEN ATTRACTIVE. S. A. King and A. J. Poulson of Richfield and others who form the Skidoo Queen Gold Mining company. are arranging to start development on the property in the Skidoo district. A. J. Poulson is in the city at the present

panies operating in that district, is in

this city. He brings with him several 14-pound bars of bullion from the Jen-

Daly West Decides to Employ White Help Around Boardinghouse.

Metals and bullion produced, \$14,747,. Skidoo for you. We want no more of 746; selling commission, shipping exyour old prune stew. Good bye, John.' penses, \$111,667; balance, \$14,636,079; ex-Several hundred miners subg these cess metals on hand December 31, 1906, words to a popular air several evenings ago as a number of Chinamen with packs on their backs pattered down the road from the Daly West towards town. It was the miners' farewell to the yellow-skinned sons of the walled-

of \$3,504,522 for dividends.

BIG FIGURES SHOWN.

STARTED IN UTAH.

time attending to the details. Work has not commenced on the property sooner because the camp lacked hauling conbecause the camp lacked haufing con-nections and water and supplies cost big sums. The original Skidoo company has overcome this difficulty by building a wagon road to the railroad and by a wagen road to the railroad and by piping water in from a peak convenient-ly close. The Skidoo Queen is two infles southeast of the Skidoo mine. A vein 12 feet wide has been traced 2,000 feet through the tertitory. Samples from the footwall side of this vein at 12 feet depth give values of \$73, while from the footwall side of this vein at 12 feet depth give values of \$73, while has \$489 a ton are obtained. At the sur-face assays from the hanging wall side gave values of \$66 a ton: three feet down they had increased to \$110 and at six feet they wer \$223. FIND ON WILD IRISH. Manager C. A. Short of Gold Springs, Utah, and head of a number of com-

penses, \$11,007; ballines, \$14,050,070; ex-cess metals on hand December 31, 1906, \$473,469; miscellaneous earnings, \$16,026; total gross, \$15,149,574; cost of produc-tion, including custom ores, matte pur-chased, \$11,575,550; balance, \$3,571,023, miscellaneous revenue, \$356,484; total, net, \$2,927,507; depreciation, \$244,743; ad-ministrative and legal expenses, \$148,-141; 6 per cent debentures, \$30,000; profit for year, \$3,504,522; paid in dividends, minority stock, subsidiaries, \$5,368; div-idends on preferred stock, \$1,508,581; surplus, \$1,990,572. The capitalization of the company shows \$37,500,000 worth of preferred stock and the same amount of common stock, a total of \$76,000,000. Of this amount there has been issued. \$17,535,550 worth of common and \$23,-484,818,50 worth of preferred stock, leav-ing a reserve of \$41,021,662,50. The com-pany holds stocks in a large number of other companies, running the totau amount represented by stocks held in this fashion up to \$42,561,537,50. The properties held in fils tremendous mer-ger represent a total cost of \$35,655,55,-16. These are staggering figures to the ordinary mind and show beyond ques-tion that the United States company is one of the strongest mining, the totau and milling concerns in the world.

got, syas 100 feet of retimbering, made ing and milling concerns in the world.

his father he came west and acquired control of several Bingham properties his facher he came west and acquired control of several Bingham properties. Mr. Sharpe was general manager of the Gould coal properties. The corporation began modestly enough under the title of the United States Mining company. It owned the old Telegraph and Jordan mines or ali-told, some 750 acres of ground in Bing-ham. After some time had clapsed the company took in the Niagara, another old mine in Bingham. The Centennial Euroka mine in Tintle was the next ac-quisition. By way of illustrating how each individual purchase of the com-pany has grown it might be explained here that the Centennial Euroka was purchased for \$1,000,000, and is now con-

The supreme court holds that the evidence was sufficient to warrant the judgment and it is therefore affirmed. Chief Jus-tice McCarty wrote the opinion of the court, which is concurred in by Jus-tices Straup and Frick. TO REWORK OLD MINE. Afetr remaining idle since June, 1905, After remaining idle since June, 1905, the Beaver Carbonate mine, formerly called the Carbonate Rattler, is to be reopened and reworked. Frank Har-ris and Supt, D. Sughan left for the property last night, and while there, will put the wheels of activity into motion. The mine was unwatered last spring, preparatory to the re-sumption of development. A shaft is now down in the ground 350 feet, and while it is now in the veln, it will be sunk to a depth of 700 feet. Two old workings in the property are down 650 and 875 feet, and in the old days over \$1,000,000 worth of silver-lead ore was taken. It is explained that work was discontinued by a preceding manage-ment because the ores at depth were showing copper and zine and at that time this promised to make treatment difficult. Nowadays this is all changed and the presence of copper in the sil-ver and lead formation means nothing less than a third profit from the mine's productions. M. M. Johnson, chief of the Newhouse staff of engineers will have charge of the work. the Beaver Carbonate mine, formerly KANSAS CITY. Kansas Clty, May 7.-Cattle-Receipts 5.000; market steady. PRODUCE.

got, syas 100 feet of retimbering, made necessary by a cave in, the shaft is completed, and while this has delayed matters somewhat, some work has been carried on. A cross-cut has been started south from the east drift on the 250-foot drift and within 100 feet of work, it is expected two hig veins running through the property will be cut. Later the company will devote attention to the 450-foot level. The King River gold property in Humbold apparently looks better to Mr. Dern every time he hears from it. He will make a second payment on the proper-ty today, and when details can be ar-ranged, systematic work will be com-CHICAGO. CHICAGO. Chicago, May 7.-Weather conditions again dominated the wheat trading at today's opening. The trading was active and prices easier. Much better weather for the crop was reported in the south-west and warmer temperatures prevailed in the northwest. These conditions were regarded as favorable for the present crop and for seeding. Both the July and September options were sold heavily. The Liverpool market was up more than 1d but this was offset by the weather in this country. July wheat opened ¹/₂ higher to ¹/₂ lower at S53 to S52 and sold at S4%. Corn was somewhat easier in sympathy with wheat. A firm market at Liverpool

BEGINS SMELTING. With properties at Tintic and Bing-

sepond dats of builton from the Jen-tie mill, and news of a strike on the Wild Irish. The builton is worth about \$400 a ton, and is the result of 400 days' work in the new mill. Two sets of plates have been found unsatisfactory, but as soon as the plant is settled into running shape, excellent results are ex-pected. The find on the Wild Irish came about in results a tory heads forsh With properties at Tintic and Bing-ham the company saw it needed a smeller, as the ores from the two camps would flux. A big smelter for this pur-pose was built at Bingham Junction and "and Smelting" was added to the fitle of the concern. An auxillary con-cern, the United States Lime company, was organized and quarries acquired at Topliff, Utah. Over 500 tons of Hime for smalling uses are taken from these pected. The find on the Wild Irish came about in regular story-book fash-ion. Steve Moore, the superintendent of the company, was riding along a road traversed a hundred times a day by the miners in the district, when he happened to notice a ledge of rock on one side of the road. While it was half hidden by trees and bushes, some-thing attracted him to the spot. Closer examination showed that a strong ledge rain back from the road for some dis-Topint, Otta, Over see tens of Hime for smalling uses are taken from these quarties every day in the year at the present time. To simplify the distri-bution of materials and supplies to the various properties being added from time to time to the growing company's holdings the United States Stores was organized. organized.

MOVES OUTSIDE STATE.

The corporation was now too big for tah and Kennett, California now be-time the scene of acquisition. The aumoth copper mine at this place as secured from the Guggenheims. A much copper mine at this place is secured from the Guggenheims. A ther was next built at Kennett to at the Mammoth's ore—the most uable found anywhere. The Eure-Con, and Richmond mines, new wow as the Richmond-Euroka and ated at Eureks, Nevada, were next in in. This property is shipping tons of fron-lead every day and itd ship more were if possible to se-e transportation. Capt De Lamar's erest in the refineries bearing his me and located at Chrome, New Jer-du capacity, a big smelter built in e vicinity and the whole operated der the title of the United States tals Refining company. A smelter is been built at Grassell, Ind., east Chicago, and is operating under the me title.

FROM MEXICO TO PERU.

FROM MENICO TO PERU. The game of acquisition shifted to Mexico, the company purchasing the old Real del Monte property near Pachuca. The company has 175 claims and 18 open mines at that plane and has just completed two of the larges, cyanide mills in the world at the prop-ertics. A similar will be added to the Mexico holdings as soon as materials can be bought and sent below the line. The naxi move was made towards Peru, where the company owns the Churraca mines in the vicibily of the Cerre de Pasco. It is equally as larges and valuable property as its neighbor and to handle its ores, the company has built a big smelter near Rio Elan-co. In order to handle all products of the various properties the Internation-

has built a Big smelter near Rio Blan-co. In order to handle all products of the various properties the Internation-al Metals Solling company was organ-ized to phote copper, lead, silver, gold and all other products upon the United States and foreign markets. The Unit-ed States directorate comprises outside of the Utahns the richest men in the cast and makes the board as strong as any in the world. any in the world.

MATTHEW CULLEN, President. L. H. FARNSWORTH, Treasurer. FRED T. M'GURRIN, Secretary.

This company is capitalized for one million dollars, divided into one million shares of the par value of one dollar each. The company owns the famous Burning Moscow group of mining claims, consisting of the Burning Moscow, the Local, Equinox, Uranus Fraction, Moscow Extension and Kremlin Fraction. The value of this property is known to every mining man who ever visited Beaver county.

The company is now extracting and shipping ore to the smelters. To at once equip the property with suitable machinery, one hundred thousand shares of the treasury stock of the company will be sold at fifty cents per share. When this amount has been subscribed, no more stock will be sold, and any subscription over this amount will be returned. Subscriptions for this stock may be made at the brokerage office of De Witt B. Lowe & Co., No. 12 West Second South, and at the office of W. H. Alexander, room 517 Atlas Block. The company courts an examination by prospective subscribers to verify the above state-Subscriptions will be received up to and including Saturday. May 11, 1907.
