

ROSE IS GUILTY THE JURY SAYS.

Returned a Verdict and the Murderer is Entirely Satisfied With It.

THERE WILL BE NO APPEAL.

Will be Sentenced on Monday Next and Will Choose the Manner of Death At That Time.

After considering the case for seven hours and a half, the jury in the case of the state against Frank Rose, charged with murder in the first degree for the killing of his young wife in this city on last Christmas day, reached a verdict at about 11:30 o'clock last night, of guilty as charged in the indictment. When the verdict was read, the jury was composed of Judge Morris, by Deputy Clerk D. B. Davis, the defendant never stirred in his seat and was not concerned in the least about the verdict. After the jury had been polled and excused, Rose was asked what he thought about the verdict and he replied that it could have been worse. He said that a life sentence would have been worse in his opinion. It was after 12 o'clock before Judge Morris arrived in the courtroom. Rose and his attorneys, Kinney & Christensen, were already in the room, but when the jury was brought in, they went to the jury box and Anderson shortly after the arrival of Judge Morris. The foreman of the jury, John W. delivered the verdict to the judge who, after glancing over it, handed it to the clerk to read. Upon the suggestion of Attorney Christensen the jury was polled and each juror replied that such was his verdict. The jurors then presented to the court a set of resolutions thanking all those connected with the case for their kind consideration and treatment toward them.

The convicted man was then taken to a cell and hurried back to the courtroom where a verdict was reached. The jury returned to the jury room at 4 o'clock and shortly after that the first ballot was taken. It stood nine for guilty as charged in the indictment, two for guilty with a recommendation for mercy and seven for acquittal. On the next ballot the jury for acquittal voted for a verdict of guilty with a recommendation, while one of the others went with the majority for a verdict of guilty without recommendation. The jurors were then taken out to dinner and returned at about 7:45 o'clock. After discussing the case and balloting until 11:30 o'clock, they arrived at a unanimous verdict of guilty as charged in the indictment and the court, deputy clerk and attorneys were notified. A verdict had been reached and were soon present in the courtroom.

After the "News" report closed yesterday, Attorney Soren X. Christensen concluded his forcible and eloquent argument for the defense. District Attorney Eickner then made the closing argument for the state. He made one of his usual logical and convincing arguments. He argued that Rose killed his wife in cold blood because she refused to continue her life of shame and this threatened to cut off his income. "He says he wants to die," said Mr. Eickner, in conclusion, "but don't you believe it. A man who has been willing to live at the price of his wife's virtue is not so willing to give up his life. I ask you to do your duty and not evade inflicting the death penalty."

It was nearly 4 o'clock when Mr. Eickner concluded his argument. The court then read the instructions to the jury, after which it retired in charge of two deputy sheriffs.

WERE IN CAHOOTS.

Strange Affinity Between Patrol Horse and a Burglar.

If the capture of a bold burglar depends upon the running ability of the police patrol horses, then Mr. Burglar will stand a good chance to escape.

This much was proved yesterday morning between 1 and 4:30 o'clock. At that time a telephone message came into the police station from 860 West Second North street that a burglar was in the house. Demand was made for the patrol wagon and several officers hurried to the scene. On the next morning a patrol wagon and two or three officers hurried to the scene of the robbery that would culminate the famous Armstrong case to Forest Dale on the morning of the robbery.

But Armstrong had a balky horse that was worse than the one. David Harn sold to the police. The animal would not even stand without whipping. It wouldn't stand at all. It simply laid down and tried hard to die. Whipping, talking and coaxing had absolutely no effect. He wouldn't move an inch. They were then within several blocks of the robber, and of course the latter got tired of waiting and fled. It is presumed that he had another pressing engagement, because he was in such a hurry that he did not even leave his card.

In the meantime the officers tried vainly to get the stubborn beast to move, but they were unable to make. One of the officers declared that the animal actually grinned at them. This was done until 4:30, but all to no purpose. Finally Armstrong had to wake up a neighbor and borrow a "nag" to haul the patrol wagon back to the station. The burglar secured nothing, but the police are in hot pursuit.

HARDENED CRIMINALS.

Majors, Connors and Muller Enter Pleas Of Not Guilty.

Three of the toughest looking men that ever crossed the threshold of the police station, were before Judge Diehl yesterday to answer to criminal charges. They were Abe Majors, serving a life sentence for murder, Frank Connors, serving a similar sentence, and Edward Muller, serving three years and a half for postoffice robbery. They were brought to the station this morning by Acting Warden Wright, and guards Ore and Wilton, to plead to charges of assault with a deadly weapon and escaping from a state prison.

Muller wore shackles and handcuffs, and Majors and Connors were shackled together and were also handcuffed. The prisoners were not so boisterous to-

day as they were on the occasion of their last appearance before Judge Diehl. Connors and Muller looked sullen and defiant, but Majors seemed to be in pretty good spirits. He smiled continuously, and spoke in a contemptuous tone when pleading to the charge against him. All three of the men pleaded not guilty to the accusations, and their cases were set for next Wednesday morning at 10 o'clock for preliminary hearing.

While waiting at the car to convey them back to the state prison, the only home two of them will probably ever know, a careful watch was kept over them by the officers in charge. Acting Warden Wright and Guard Ore stood close to the prisoners and would permit no one to get close to them. Guard Hilton stood several paces away and kept a close lookout for any one who might approach the desperate men. Passersby, noting that the men were heavily ironed and under a strict watch, stopped and gazed at them in wonder. Soon a crowd of over 200 persons had collected and watched the prisoners' every movement.

DAVENPORT LECTURE.

Famous Cartoonist to Visit Salt Lake At the End of the Week.

Indications are that there will be a big house to hear Homer Davenport lecture at the Salt Lake Theater on Sunday evening. There are few men in public life today whom this famous cartoonist has not met. Statesmen, men of letters, artists, and capitalists in both this country and in England are his personal friends, and there is hardly one among them of whom he has not some anecdote to tell. Mr. Davenport's fame is world wide and since he has given an cartoon work for the Hearst papers and taken to the lecture platform people from all ranks of life have flocked to see the man in the flesh and hear him tell his quaint anecdotes as he darts sketches with a crayon for their edification.

The Nashville Banner to hand devotes nearly a column to the entertaining lecture by the great cartoonist. Among other things it says: "His repertoire includes both humor and pathos stories, and he tells the one as well as the other, with that peculiar effectiveness which seems to belong to him alone."

"Perhaps the best humorous story he tells is on Senator Spooner and his hair. While in Washington Mr. Davenport entered into a conspiracy with a senator to run a series of cartoons illustrative of Senator Spooner's hair, and then the conspirators watched the effect day by day. The earnest appeal Mr. Spooner made to have his hair let alone and then the climax, a cartoon of the senator and his hair, tickled the audience immensely."

A story of the speaker's mission to England especially to get a picture of Mr. Spooner, made to have his hair let alone and then the climax, a cartoon of the senator and his hair, tickled the audience immensely. The lecture is given under the auspices of the Press club, which has posted a stiff guarantee to secure the date. It is on the cards that Mr. Davenport will be introduced by Cartoonist Lovey in a unique manner.

IN HONOR OF PRELATE.

Admirer of Bishop Scanlan Dedicates A Poem to Him.

Bishop Scanlan of this city has an admirer in Chicago whom he has never met, but who has such a high appreciation of the prelate that he wrote a poem in the latter's honor. The poet is T. B. O'Hara, and the Irish Charitable society of Boston, Mass., has adopted it as a charter song. The verses will be sung at the St. Patrick's day celebration in the Salt Lake Theater on the evening of the 17th inst. The lines are as follows:

WE'RE IN IRELAND TONIGHT.

(Dedicated to Rt. Rev. Bishop Scanlan, Salt Lake City.)

Are we far from the land of our fathers tonight?

Are we far from his tear-laden skies?

Are we far from the valleys, the daisy-trod hills?

From the wrongs and the wallings and sighs?

Are we far from its music, the sweetest on earth?

Its legends and ballads and lore?

Have our fathers found homes in this beautiful west?

And their children forget thee, O'hara?

Are we far from the land of St. Patrick?

Are we far from its ruins and shrines?

Do we cling to the faith of our fathers through all?

With a love that embalms and enlivens?

Are we crushed with oppression and pain?

No: the Star Spangled Banner waves proudly aloft.

God bless it again and again.

The Star Spangled Banner is honored tonight

BOYS CAUGHT.

Youthful Salt Lake Burglars Are Held In Oakland, Cal.

The Oakland, Cal., chief of police wires Chief Lynch of this city as follows: "We have your boys—James Edgar, George Bates and Thomas Cosgrave. They state that the other two boys are at Salt Lake."

The boys owned up to being implicated in the robbing of the Fifth ward store and substitution of the postoffice. The boys will be returned to this state on a requisition.

IGNORANCE WAS BLISS.

Hazy Ideas on Divorce Productive of Embarrassing Situation.

Ignorance in regard to the divorce laws of this state is the cause of Mrs. Michael B. McGrath, now of Los Angeles, Cal., getting herself into a rather embarrassing matrimonial entanglement, and her husband is now attempting to straighten out the affair by asking the courts at Los Angeles to set aside their marriage, which was solemnized in this city on Nov. 6, 1896.

The facts in the case were brought to light by an investigation made in the county clerk's office yesterday, pursuant to a letter of inquiry concerning the matter received from C. S. McKelvey, attorney for Mr. McGrath. It seems that Mrs. McGrath was formerly Mrs. Retta Callahan and her maiden name was Miss Retta Helmer. On Nov. 6, 1896, she filed suit for divorce in the district court here against her husband, David Callahan, and evidently believing that that was all that was necessary to secure her divorce, she called at the county clerk's office the next day, Nov. 7, with Mr. McGrath and secured a marriage license, she giving her name as Retta Helmer. The couple was married the same day by Rev. S. E. Wishard, the ceremony being witnessed by Mrs. S. E. Wishard and Helen Wishard.

The court records disclose the fact that the woman was not granted a divorce from Callahan until Nov. 29, 1896, just 21 days after her marriage to McGrath. So for the past seven years she has been living with Mr. McGrath under the impression that she was his legal wife, when in fact her marriage to him was absolutely null and void because of the fact that she was legally incompetent to wed at the time of their marriage. From the time of the letter received by the county clerk it is evident that Mr. McGrath is seeking to have the marriage declared null and void.

TAX COLLECTIONS.

Those for 1903 Reported by the County Treasurer.

A report has been filed with the county commissioners by County Treasurer Carbis, showing the tax collections for 1903. A recapitulation of the report follows: Assessment as per recapitulation, \$1,385,947.36; Assessment as per appendix, 19,435.92; Assessment of car companies, \$36.00; Advertising and costs, 1,196.15; Transfers, special school tax, 23.09.

INDIAN HAS TURNED WHITE

And Kanosh Man Wants to Exhibit Him At the World's Fair.

The Utah commission of the Louisiana Purchase exposition held a meeting yesterday afternoon and had spread before it a communication from James A. George of Kanosh, asking that he be permitted to exhibit at the world's fair an Indian 110 years old, who, during the past ten years, has been turning white, until today his color is almost entirely changed.

In his letter Mr. George calls attention to the fact that about 30 years ago the Indian was converted to "Mormonism" and that he was promised at the time that if he would lead a religious life he would turn white and become intelligent. Continuing, the letter states:

"He commenced to turn white about ten years ago. Now his body, with the exception of some black spots, is as white as snow. His hands are the same. Around his eyes and mouth is the same. He never was sick a single day in his life as far as I can find out."

As the commission was very busy with other things, the communication was not acted upon, but probably something will be done at its next meeting. Judge Shurtliff, who has just returned from St. Louis, reported his labors relative to securing space for an educational exhibit, stating that he was inclined to the belief that sufficient space in the educational building would be granted.

On recommendation of Director General Whitaker, B. A. Perkins and William Thomas were employed by the commission, the gentlemen to go to St. Louis at once to assist in the arrangement of the displays. Mr. Perkins is a mining engineer and will place the mineral exhibit, while Mr. Thomas will be stationed in the agricultural building.

It is expected there will be another meeting of the board in a few days, when Mr. Newhouse will very likely be present.

GRIEF FOR ASSESSOR.

The Genuine Article Now Gets the Door Slammed in His Face.

As a result of the thieves so dexterously accomplished by the now famous fake assessor and collector, the real representatives of the municipal government are experiencing no end of difficulty. Everywhere they are viewed with suspicion by housewives and in some cases have the doors slammed in their faces. It is very annoying, of course, and yet the women have read so much about the smooth, easy-going thief that they can scarcely be blamed for exercising caution.

For the benefit of the genuine assessors, it may be said that they carry large books and maps, such as an impostor would not be likely to have, and they seldom find it necessary to go all through the house.

The 13th ballot for United States senator from Utah showed no change. The Legislature visited the Agricultural college.

Russian, which is not so. Most Russian words end in "ine" or "off," the words ending "ar" being for the most part of German origin. Words ending in "vitch" or "ski" are terminations of Polish proper names, and there is about the same difference between Russian and Polish as between Spanish and Portuguese. A Pole easily learns to speak Russian and a Russian learns with corresponding ease to speak Polish. Finnish, however, is an entirely different language, and belongs to the agglutinative family of which the Hungarian is also an example.

The rabbi was asked if he was not afraid that Russian emissaries in this country might ascertain his Russian name and by notifying the home government bring down the imperial wrath on the heads of his relatives. But the rabbi said that practically all of his relatives have escaped from the empire, and all that were left were a few very old men too far along in years to make it any special object for them to try to escape.

One of the most remarkable physical features of the globe is the deep and wide depression in the hollow of which stands the Caspian sea, and near to it the Sea of Aral. The Caspian is nearly as large as France, and its surface is 54 feet below the level of the Black sea. The sea of Aral is nearly as large as Ireland, and is very little over the sea level. Without recent geological times the vast expanse in which these lakes are found was sea. Its floor has been gradually raised, and the waters filling the depressions are all that is left of an ancient Mediterranean. A strange feature of both bodies of water is that, although they receive large rivers, especially the Caspian into which the Volga, the Ural river and scores of streams from its Caucasus flow, both have for many years been getting shallower. Evaporation, for they have no outlet, exceeded the inflow. But, for some climatic reason probably, Lake Aral and its neighbor, Lake Balkhash, have since 1851 been increasing in depth. Nature reports that M. Berg visited Lake Balkhash last summer and found that the level was rising with comparative rapidity. Whereas the Caspian, like the Dead sea, is very salt, owing to the rate of evaporation, Aral and Balkhash are brackish only. These remnants of what was once a great sea opening into the ocean, as the Mediterranean does now, still contain marine fish and seals. Some of the latter survive in the Aral and Balkhash lakes, having gradually become fitted for their habitat, though it is no longer salt, but merely brackish, and in the case of Balkhash, actually fresh water.

The Old Folks' committee invite all the aged people of this city, 70 years old and upwards, the widows of any age, the orphans, and the inmates of the county infirmary to come to the Salt Lake Theater on Tuesday next, March 8, 1904, at 2 o'clock p. m., and enjoy a presentation of the popular play entitled, "A Scrap of Paper," given by the University Dramatic club, as well as other features. Tickets will be distributed from Box 9, art bazar, 12 and 14 Main street, Monday, March 7, commencing at 10 a. m. Full particulars will be given in hand bills.

There is no discrimination in this invitation as to race, faith or color. It is free to all who are entitled to enjoy it.

HOW TO CLEAN JEWELS.

Every little while all brooches, rings and such things that are in constant use should be brushed with a toothbrush that has been dipped in eau de Cologne. If the setting is open it must be done from the back and be careful not to loosen the stones. Then lay the things in a box of jeweler's sawdust which has been slightly heated beforehand and leave them for an hour.

Gold chains may be washed in warm soapsuds, drying them on a soft towel by pulling back and forward. They may also be dried in sawdust, and the particles can be blown or dusted out afterward. Be sure and get them dry, as they will be apt to become worn between the links if any dampness remains.

PLEASANT FOR THE LANDLADY.

A cook at a cheap boarding house played a little game on a grumbling boarder, a newspaper humorist, by serving him with a piece of sole leather instead of beefsteak.

"You've changed your butcher, Mrs. Hascher?" said the boarder, looking up at the landlady after seeing two or three minutes at the leather.

"Same butcher as usual," replied the boarding mistress, with a patronizing smile. "Why?"

"Oh, nothing much," said the humorist, trying to make an impression on the steak with his knife and fork. "Only this piece of meat is the tenderest breakfast I have had in this house for some weeks."
