

PARISIANS MAKE A DEMONSTRATION

Cause, the Escape of the "Monster Murderer" from the Guillotine.

FALLIERES PARDONED HIM.

His Crime Murder of Twelve-Year-Old Child—Sentence Commuted to Life Imprisonment.

Paris, Sept. 15.—The increasing indignation of the masses against the escape from the guillotine of Solleasant, known as "the monster murderer," whose sentence to death for the atrocious murder of a 12-year-old girl was commuted last week by President Fallieres to life imprisonment, was expressed today in a series of the most curious public manifestations that have occurred in France in a long time. The demonstration, despite the fact that several arrests were made, was almost entirely an orderly one.

Many women participated. It was organized not so much against Solleasant as to express the voice of the populace against the wave of unsplicable crimes committed on little girls, which had descended to all but among degrees, and which, it is feared, the commutation of the sentence of Solleasant will only stimulate.

Several thousands of people were engaged in demonstrations at various points of the city, and especially large was the crowd in the Place St. Ambroise near which lived little Maria Erbering. The women assembled this afternoon with their husbands and others of their sympathizers and were augmented in numbers by crowds of curiosons.

Their orderly cries for justice were punctuated by roars of "Death to Solleasant," and "Down with Fallieres," as the procession led by a woman who carried a little girl on her shoulders with the purpose of indicating the object of the manifestation, moved toward the Place de la Republique. Soon the streets were checked by a vast mob and the police reserves were called out to disperse it. The parade, however, assembled again, and several of the more violent demonstrators were arrested.

Monteith other parades had been organized in different quarters of the city. These also were led by a woman with a babe on her shoulder. The crowds shouted, "Death to violators."

At nightfall the parade was dispersed by the police, who found that with darkness disorder would break out.

Many of the French loudly condemned Fallieres for not allowing the law to take its course and all agreed that the commutation of this sentence betokens the passing forever of the guillotine from France.

The entire question of crime will be taken up at the approaching session of parliament, especially as Paris and other large cities are becoming infested with another type of criminal known as the "Apache," who the seceded sections almost daily main- tain and sometimes murder their victims. The weapon always is the knife, and gathering in bands they often wantonly stab pedestrians and frequently policemen merely for the sake of stabbing.

M. Tuohy, director of the Paris police, declared today that his force was entirely insufficient to cope with the situation. He recommends the adoption of corporal punishment for law-breakers as an offset to comfortable and inviting prisons.

VANCOUVER RIOTS.

Japanese Regret Them But Their Feeling is Favorable to Canada.

Ottawa, Ont., Sept. 15.—A cablegram from Tokyo to Japanese Consul General Nosse received today, referring to the oriental riots at Vancouver, said:

"The fighting spirit of the character of the disturbances being much greater than that of San Francisco, is favorable to Canada. While greatly regretting that this deplorable incident should occur within a dominion of the British empire, whose ally Japan is, the tone of the press is calm and the public shows no excitement. All are depending upon the justice, the people of Canada fully expecting that measures will be taken to protect Japanese lives and property."

Mr. Nosse does not say who is the author of the cabal. Mr. Ishii, Japanese representative, who will investigate the affair, arrived in Ottawa today. He will meet Premier Laurier and other Dominion officials at the home of Mr. Nosse on Tuesday evening. It is understood that W. D. Scott, Dominion minister of immigration, who is now on his way to Vancouver, will recommend that the immigration regulations be amended to require each entrant to possess a sum of money, as is required for entrance to the United States.

The mayor of Vancouver telegraphs the premier that the newly arrived immigrants are not paupers. He also permission to house them in government property because the area of immigrant dwellings available in Vancouver is limited.

Severe Pains

When a prominent nerve is affected, the pain is severe. It is called neuralgia. It may be in either the head or body. Relief comes only when this nerve trouble is overcome. By its soothing and strengthening influence upon the nervous system Dr. Miles' Nervine removes the cause.

"It was about two years ago that I was taken down with what the doctors called neuritis, and some called it lightning rheumatism. Sharp pains would go from one place to another, mostly in my head, and they were so severe or so sudden that I could get relief. During these spells I would be so nervous that I hardly knew what I was doing. The pains would come and go, and I would know that my husband would have to steady me when walking across the room. I would have fever, and my bear would feel bad. I would feel so bad that I could not sleep. Just as soon as I would expose myself the very least I was sure to have a spell of neuralgia. I have never had a doctor since. I am not going to just as well take water. My aunt kept writing me to just try Dr. Miles' Nervine, and I am thankful to her for doing so. She has written me that the Nervine has cured me, and has driven it out of my system."

Dublin, Sept. 15.—The police report of the attempt to blow up the hunting lodge of Lord Ashtown, Aug. 13, states that the explosion was caused by a bomb that was lighted from outside the house and that the bomb was prepared from a pot that had once been in the lodge. It was said that his activity in cattle grazing was indirectly responsible for the occurrence.

PASTEURIZED MILK.

Unsafe Unless Consumed Within Twenty-Four Hours.

Russia, Sept. 15.—Dr. Henry C. Coit of Newark, N. J., strongly opposed in an address to the International Milk Conference the compulsory pasteurization of milk as a means of effectively improving the supply of milk. Dr. Coit said that to employ pasteurization as anything more than a temporary expedient would be a mistake, as it would remove the incentive to the public to compel the producer to accomplish an improvement. Pasteurized milk in bulk is not only inexpensively produced, said Dr. Coit, but is actually unsafe unless it is consumed within 24 hours and is kept at or below 40 degrees centigrade (40 degrees Fahrenheit).

In Coit also said: "Two errors to the community pasteurization of the milk supply in large cities as a protection against tuberculosis. Instead of doing this, we should endeavor to eradicate from both herds would be protecting only those who live in these cities and expose those who live in the rural areas to the spread of tuberculosis."

The congress passed a resolution condemning the use of raw milk and advising mothers to use only milk that has been brought to the boiling point, pasteurized or sterilized.

NO MORAL CODE FOR THEOSOPHISTS

One Carrying Penalty for Infraction Voted Down by Large Majority

ANNIE BESANT OPPOSED IT.

Such a Code Would be a Denial of Brotherhood—Spirituality Proclaims the Unity of All.

Chicago, Ill., Sept. 15.—Opposition to the introduction into the Theosophists of a moral code carrying penalty for infraction was introduced by the American branch of that organization at its twenty-first annual convention here when a motion embodying such a code was voted down by a large majority and four members of the executive committee, all holding views in accord with those of Mrs. Annie Besant, the recently elected world president and the newly elected world president, and chief opponent of the code, were elected.

The question of the adoption of a moral code is one that has agitated Theosophists for some time past, and was the subject of Mrs. Besant's address today. It was made an issue when a resolution specifying a code for such members could be expelled from the society was proposed by a minor element in the meeting. It was lost by a vote of four to one of the delegates.

The members of the executive committee:

A. H. Warrington, Norfolk, Va.; Mrs. Mary Stebbins, of Los Angeles; J. C. W. Washington, D. C.; F. J. Kuntz, Portland, Ore.

Weber Van Hook of Chicago was elected general secretary for the American branch.

Mrs. Annie Besant of Adyar, India, the recently elected president of the Theosophical society, declares strongly against the adoption of such a code, and has urged the members to do likewise.

The question of the adoption of a moral code is one that has agitated Theosophists for some time past.

The question was debated at some length, but no definite action was taken. Mrs. Besant declared in the commencement of her address that all Theosophists are one in their earnestness to raise the moral tone of society. Where the members of the society do not share this, she added, it is not so strong as the one headed by Voliva, but it is said to have more influence among the crusaders.

"None of the great religions," said Mrs. Besant, "is a penal code enforcing its precepts by exclusion from its pale. On the contrary they regard it as a primary duty to try to improve their evil doers, and to help them to reform on spiritual grounds, but we presume that the theosophical societies do not wish to copy their examples. Religious leave to the civil power the punishment of offenses and strive to reform and purify rather than expel. Shall the Theosophical society descend below the level common to religious bodies and proclaim itself a moral code?

Aside from these infractions, the borough was closed up tight today. Ice-cream parlors, soda water fountains and restaurants are closed, as were the drug and cigar stores. The bakers disregarded the warning and did a big business, being patronized chiefly by people desirous of immigrating from South Park. Theborough authorities have decided to take action against the violators of the order, stating that the initiative must be taken by the crusaders.
