

DALTON STOCK IN GREAT DEMAND

Reported Bond on the Mine Causes a Sudden Rise.

WEIR SAID TO HAVE IT.

Ajax Shows an Improvement, but Deteriorates-Business Falling Off.

In the pit this morning business was very much improved, and with one stock contributing \$1,000 shares, the brokers succeeded in getting 1,000 shares which had a value of \$10,000. The feature of the cult, and the rock to make half the business, was Dalton, which struck a boom and sold with qualified freedom at figures ranging from 2% to 3% cents a share, while at the close there was a strong bid of 7% cents, with offerings of 1%. The sudden upturn in this security, was the cause of many speculations among the brokers as to why it stood in such good demand, and on inquiry it was learned, through unidentified, that Theo. Weir and Oscar Young had bought the entire lot for a share or so, and were holding it for a week or two. This, therefore, is doubtless the reason for the morning's stir. It must be said, however, that the market will be great thing for the Dalton, which may soon be opened up to a good gold production. It is not known whether the new management of Maypearl and made an inspection of the property.

The first seller on the salt was Ajax which was sold materially and sold at 41-42, while B. H. Stedman sold to good demand at 41-42. Dalton & Lark secured the services of a new manager, and the market was the same. The stock transferred at 22-23 and having a closing bid of 22-23.

THE WHOLE BUSINESS.
