

Missionaries.—Elders R. R. Lewellyn, Louis Andersen and James Woodward, of Fountain Green, and John Larsen, of Moroni, all missionaries, called at the late Conference, are in town, and expect to start for their fields of labor on the second of November.

Appreciative.—Messrs. Walker Brothers, whose liberality to the Fire Brigade is proverbial, yesterday sent to that organization, as a token of their appreciation of their efficient services at the fire, on Thursday night, a present of \$250. While the fire was in progress they also supplied the men with refreshments. Mr. George Romney also liberally testified his appreciation of the work done by the firemen by sending them a check for \$100.

Personal.—Mr. Edward S. Baker, representing the firm of E. J. Bowen, dealer in seeds, of San Francisco, made a pleasant call on us yesterday. He left San Francisco in May, but came from Montana here, having arrived the evening previous. He is going through the settlements as far as St. George, on the business of the firm. He had made a trip to the Yellowstone Park, which he describes as a wonderful country. August he thinks the best time to go there, avoiding the mosquitoes and the flies and also the snow and the cold frosty nights. He has a number of Montana mineral specimens with him, purple and white quartz, also silver ore from the Cornet and M. Davis lodes, some assaying \$1,600 to the ton.

Buried Alive.—Between nine and ten o'clock this morning, while William Affleck, of the 20th ward, and Theodore Branley, resident of the 17th ward, were at work in the excavation opposite C. R. Barratt's furniture store, corking the water-pipes, the earth, which is somewhat loose and gravelly at that point, caved in on them. Branley, who was lying on his side, putting the lead in the under side of the joint of the pipe, was completely buried, and Affleck, who was in a stooping posture, partially so. They were extricated as quickly as possible from their perilous situation, and taken to their respective homes. Branley, who was attended by Dr. S. B. Young, complained of severe pain in his chest and the other in his back and chest. It is not considered, however, that the injuries of either are dangerous.

The Contempt Case.—In accordance with his decision in the case of Young vs. Young, Judge Boreman made the following order yesterday—

The motion heretofore made in this cause that the defendant be committed until he comply with the order of this Court, made the 25th day of February, 1875, having been signed by Counsel and taken under advisement, now after due consideration of the law and premises, and it appearing to the satisfaction of this Court that the defendant has not complied with said order, and no lawful excuse being shown for his failure to comply therewith, it is ordered and adjudged that the said Brigham Young is guilty of a contempt of this Court, and it further appearing that the said Brigham Young has the ability to comply with the said order, and has willfully failed to comply with the same, and still refuses to do, it is further ordered that he be imprisoned by the United States Marshal until he shall have paid the plaintiff or to her order the sum of \$9,500, and the costs of this proceeding, taxed at \$5, or until the further order of this Court.

A Damaging Admission.—In the District Court yesterday, when Judge Boreman was connected by counsel on both sides in the case of Young vs. Young, in his impression that he had signed a warrant of attachment to have the defendant brought into Court, he made the damaging admission that he had placed his judicial signature to a paper which he did not sufficiently examine to enable him to determine its character, and supposed it was a warrant. What about a Judge who puts his official signature to a document without knowing whether it is an order to show cause, a warrant of attachment, a death warrant, an order for a suit of clothes, or a ton of coal, or anything else?

Relief for the Sufferers.

The call of Mayor Wells for a mass meeting at the City Hall, last evening, for the purpose of adopting measures with a view to collecting means to aid the sufferers by the late disastrous fire, at Virginia City, Nevada, was not as extensively responded to as might have been anticipated, from the character of the object. Those who did attend, however, showed that they were in earnest on the subject under consideration. Perhaps the

fire in our own city the night previous damped the ardor of some.

A motion, made by Major H. C. Goodspeed, that Mayor Wells be chairman of the meeting was carried unanimously; and, on motion, Messrs. Goodspeed and J. Nicholson were appointed secretaries.

Mayor Wells, in a brief and pointed address, explained the object of the meeting. He described the destitute and pitiable condition of many of the people of our sister city, of Virginia, Nevada, by the great disaster that had befallen them, and stated that their condition appealed to our strongest sympathies. It was our duty to extend the helping hand to the unfortunate, we being all liable to calamity.

Judge W. H. Haydon, after a few appropriate remarks on the subject under consideration, moved as the best means of accomplishing the object in view, that the chairman appoint a committee of ten, to solicit and obtain donations, and report the result of their efforts to the Mayor, that he might communicate with the Mayor of Virginia city regarding the forwarding of the means accumulated, &c. The motion was carried unanimously, after which remarks were made by Thomas Marshall, Hon. W. H. Hooper, P. H. Lannan and Major Goodspeed.

It appeared to be the sense of the meeting that the committee should not only accept donations of money, but also of provisions, clothing, or anything else that could be applied for the relief of the distressed people for whom the aid was designed.

The Mayor announced the names of the committee of ten as follows—

Wm. Jennings, John T. Caine, Wm. Haydon, John Sharp, H. W. Lawrence, W. H. Hooper, Thos. Marshall, J. R. Walker, P. H. Lannan, Jas. T. Little.

Mayor Wells said he would subscribe \$100 himself, which sum he laid upon the table, and \$500 in behalf of the City, subject to the approval of the Council, which announcement was received with applause. These and other donations from gentlemen present aggregated nearly \$1,000 as follows—

S. L. City Corporation.....	\$500
Mayor Wells.....	100
Wm. Jennings.....	100
W. H. Hooper.....	100
Thomas Marshall.....	50
A. C. Pyper.....	25
P. H. Lannan.....	25
W. Haydon.....	25
H. C. Goodspeed.....	25
J. R. Winder.....	10

A couple of donations from a poor man and woman, amounting to \$1.75, which had been left at the City Hall during the day, were also handed in.

The committee made an appointment to meet at the Bank of Deseret, at 10 o'clock this (Saturday) morning to organize and take the necessary steps in the premises, after which the meeting adjourned sine die.

FROM MONDAY'S DAILY, NOV. 1.

Fetch Your Overcoat.—The person who threw an overcoat from the roof of the White House into the crowd below on the night of the fire, will find it at the NEWS office.

The Coming Emigrants.—The coming company of emigrating Saints, numbering 180 souls, left Omaha on Saturday afternoon. They will probably be here by tomorrow night.

A Great Financier.—We understand that Baron Rothschild, of Paris, who wields probably the greatest moneyed influence of any other living man, is in town and staying at the Townsend House.

Lecture on Colorado.—This evening, under the auspices of the Ward Literary Association, Professor F. M. Bishop will deliver a lecture on Colorado, in the 14th Ward Assembly Rooms, commencing at half-past seven o'clock. The public are respectfully invited to attend.

Departure of Missionaries.—A large company of missionaries left this morning for their fields of labor, mostly in the eastern, and some in the southern states. A number of their friends were at the depot to see them off, and some accompanied them as far as Ogden.

At Colorado Ferry.—The following was received this morning—

"KANAB, Oct. 31, 1875.

"Editor Deseret News:

"D. W. Jones and party were at Colorado Ferry on the 27th, all in good health."

A Rough Customer.—On Saturday night, Joseph Reynolds, an old offender, was intoxicated and made an uproarious disturbance upon the street, and when the officers arrested him he kicked, struck and otherwise resisted them. For being drunk and disturbing the peace he was fined \$15, and for striking and abusing the officers \$50, the non-payment of which necessitated his laboring for the city sixty-five days.

Stole a Wagon.—A man named Robert Ferguson, was arrested and brought to town on Saturday evening, on a charge of endeavoring to make too much money out of one wagon. It appears he sold the article in question and then stole it from the person to whom he disposed of it, and took it into the mountains south, somewhere in the vicinity of Tintic. He lies in jail, awaiting a preliminary investigation.

Mortuary.—Sexton's Report for October. Males 44, females 31. Of these, adults 22, children 53. Causes of death as reported: Feething 20, inflammation of the bowels 12, typhoid fever 6, brain disease 4, child bed 4, lung disease 4, accidental 5, diphtheria 3, old age 2, convulsions (infantile) 2, general debility 2, still born 2, whooping cough 2, over dose of opium 1, abscess 1, cerebro-spinal meningitis 1, dropsy 1, not reported 3, total interments 75.

JOSEPH E. TAYLOR, Sexton.

The Reynolds Case Revived.—This afternoon Mr. George Reynolds was arrested on an indictment found by the grand jury of the present term, charging him with polygamy. It will be remembered that the proceedings against him at the last previous term of court were quashed, owing to the illegality of the grand jury that found the indictment.

He gave the necessary bonds this afternoon, and was released. The amount was fixed at \$2,500, and W. H. Rowe and Henry Grow were sureties.

Kanab.—Elder James L. Bunting writes from Kanab, Kane Co., Oct. 23, that Elder D. Jones and company arrived at this place Oct. 15 and left on the 20th, in good health and spirits.

Elder Bunting further says—

"The health of the people here is good, and the weather very fine, but dry, vines and vegetation in general remain green, as we have had no frost as yet this fall. Several good buildings, frame and brick, are going up. About 100 acres of fall wheat has been sown. Our grist mill is ready for 'Graham,' and our tannery is beginning to turn out a good article of leather."

Coalville.—Elder Geo. H. Peterson, of Coalville, called on us this morning. He states that the wheat crop in that section is moderate this season, much of it being frostbitten. Potatoes and other vegetables are very good, coal crop good, children plentiful and not frostbitten. Considerable building is going on at Coalville, good houses going up. The Co-operative Mill Company have bought the old grist mill of R. H. Porter, put it in repair, are making good flour, and are raising funds to obtain a first class grist-mill. Coalville has also a co-operative dairy, established at the head of Echo, near Cache Cave, with a good start, under the supervision of Henry Evans. There is a general spirit of reformation manifested in Coalville.

Third District Court.—His Hon. Chief Justice White, having been assigned, by the Governor, Judge of the Third Judicial District of Utah, took his place on the bench of the District Court this morning.

Judge Boreman was also present on the bench, having yet a number of decisions in cases which had already been argued and submitted, to deliver, the rendition of those decisions, however, being conditional upon the consent of counsel on each side, Judge Boreman being no longer judge of this District. All the decisions prepared were rendered excepting the last one, "Sarah Ann Cook vs. Hyrum S. Young" When that was reached, Mr. Williams, attorney for the defendant, said—

"Your Honor, does silence imply consent?"

"Yes."

"Then I object to your Honor rendering any decision in this case."

This, of course, necessitates a re-argument of the case, and its being heard by the present judge of the District.

Judge Boreman then thanked the bar for their kindness to him during his temporary occupation of the bench, which he then left. He sometimes gets a trifle confused. On Friday he admitted that he had signed an order to show cause without examining it sufficiently to distinguish it from a warrant of attachment, and this morning he inadvertently misquoted the title of the case of "Sarah Ann Cook vs. H. S. Young," calling it "Ann Eliza Young," etc.

Judge White ordered the names of the jurors for the term to be called, when it was discovered that a goodly number of them were absent, against each of whom he assessed a fine of \$25, and, after hearing excuses showing inability to serve, none of which he entertained, excepting from one, who was a practising physician, the jurors were dismissed till Wednesday morning.

Fire Limits.—The following is a copy of an important document sent to his honor, Mayor D. H. Wells, Oct. 30—

To the Honorable the Mayor and Council of Salt Lake City:

GENTLEMEN—The undersigned respectfully ask your honorable body, in view of the destructive fire of last night, (which has shown conclusively that immediate action on your part is necessary,) to establish fire limits in the business portion of the city, and respectfully request you to enact such ordinance in regard to erecting buildings as will conduce to the safety of life and property, and make it obligatory on property holders, in the future, to build all outside walls and roofs of fire-proof material; and would further ask that the city cause to be purchased another steam fire engine and equipage, suitable to be drawn by horses.

Very respectfully,

Salt Lake City, Oct. 29, 1875.

The Potatoe Crop.—This is a great potatoe year for Utah, this season's crop being decidedly the fullest and best ever raised in this region, and it is doubtful that the Utah tubers can be excelled, for quantity according to the breadth planted, or for quality either.

By the way we were informed on Saturday that some of the farmers are doing the next thing to throwing this excellent product away, by selling them at miserably low prices. Our informant asserted that Kamas Prairie "grangers" were delivering potatoes, of good quality, on the Union Pacific Rail-

road, at fifteen cents per bushel. Why, that is no more than it is worth to haul them anything like a long distance. Here again is seen the advantage of unity and co-operation among the people. Did the raisers of this useful product, instead of glutting distant markets at such inconsiderable prices, enter into a combination, go to work and find their own market, discarding middle men, where they could obtain a good price, they would make a good deal of money by it, and this policy applies equally to many other things.

Experienced potatoe raisers all over the Territory, who have experimented with the "Compton Surprise," appear to unite in a verdict in favor of that tuber being the most prolific of all the kinds that have been tried in Utah, besides being of good quality.

About big potatoes we may say that these mammoth "Peerless" ones, about a dozen to the bushel, that were on exhibition at this office a short time since, were raised by Brother George W. Beckstead, of West Jordan, and not T. W. Beckstead as previously and erroneously stated. Brother B. has about 50 bushels of them left, each particular tuber of which quantity weighs from two to four pounds. Altogether Utah "is no small potatoes."

BY TELEGRAPH.

FOREIGN.

LONDON, 30, 6 a.m.—A special from Vienna says it is reported there that Turks murdered sixty Christians in Bihacza, a fortified town near the Dalmatian frontier.

A dispatch from Berlin reports that Archbishop Ledochowski will be expelled from Germany as soon as his term of imprisonment expires.

A Vienna special says that Dr. Stroussberg's liabilities amount to 25,000,000 guilders.

The Leeds Mercury of to-day says that the large iron producers, I. Blockow, Naugham & Co., employing in the collieries, mines and works nearly ten thousand men, have notified their employees at Middlesborough, Wilton Park, and Eston works, in Warwickshire, that owing to the depression of trade their engagements must terminate on the 30th of November.

PARIS, 28.—The specie in the Bank of France has decreased 3,353,000 francs in the past week.

Gambetta has issued a manifesto, in which he says he is confident that the approaching election will show a great republican majority, he upholds the system of department voting, and says that the labors of the future Assembly must be the restoration of the control of education to the state. He trusts that an era of political reconciliation will supervene, and that then the participants in the commune will be amnestied.

LONDON, 28.—The Farmer newspaper, in an article on the cattle disease, says the number of cases for the quarter ending the 16th of October is as follows: in Somersetshire 83,000, Cheshire 50,000, Dorsetshire 48,000, Gloucestershire 33,000, Norfolk 31,000, Cumberland 23,000. Throughout England and Wales there were, for the same time, over 500,000 cases. The money damage is estimated at a million dollars.

The bullion in the Bank of England has decreased £173,000 the past week. The proportion of the bank reserve to liability is 41½ per cent.

Raffael Brothers, merchants of this city, have failed; their liabilities are three hundred thousand dollars.

St. PETERSBURG, 29.—Dr. Strasburger, a noted railway contractor and financier, has been arrested here and sent to Moscow; compromising documents in connection with his failure were found in his possession.

LONDON, 31.—The mail steamer African has arrived at Plymouth and landed eight seamen, part of the crew of the ship John Pascal, who were taken on board at Ascension Island. They assert that their vessel was on fire three hundred miles off St. Helena, that the crew were picked up by the ship Victoria, bound for Boston, but as she was short of provisions the eight men were sent ashore in an open boat at Ascension, while the captain, officers and the rest of the crew proceeded in the Victoria. As their stories conflict the men have been detained at Plymouth, and will be officially examined to-morrow. It is stated that they are suspected of mutiny and desertion, and possibly of the murder of the officers.
