POUNDS, NOT BUSHELS, IN ARIZONA

James F. Johnson Tells of a Trade Practice There-Oranges and Lemons That Beat the World-Profitable Cattle and Hog Raising

country," said Mr. James F. Johnson of Mesa, Arizona, to a "News" man today. "Our farmers don't know what bushels are in the practical application of the term. For instance, we say an acre of ground produces two thousand pounds of wheat or sixteen hundred pounds of barley-that is about what the yield has been this year. The sea, son has been a very favorable one and we have raised large crops of all kinds including the two cereals just named. and big cuttings of alfalfa. This latter crop gives us about five tons per acre each year aside from pasturage.

"When it comes to oranges and lemons and other tropical fruits, we really beat the world. Our oranges and lemons ripen about a month earlier than they do in California or Florida, Our fruits are shipped now to eastern | mons" in Maricopa county

"Everything goes by pounds in our points over the Santa Fe and Southern Pacific, and are raised with profit. "But," continued Mr. Johnson." "the most profitable business our people now engage in is that of stock raising-cat tle and hogs. A great deal of hay is cut in the Salt River Valley and fea to cattle at small cost. Then we turn, our hogs into our lucern fields and let them shift for themselves until within live or six weeks of market time, when we feed them some grain, in addition, The result is that they grow large and fat and fine and give an extra good

quality of pork. Speaking of a market for the farmers of Maricopa Stake, Mr. Johnson sala that the mines consumed pretty much of everything and furnished as good a market as could reasonably be desided. At 'present the weather is very hot

there-averaging 110 degrees daily; the sir, however, is exceedingly dry and sunstrokes and heat prostrations are unknown. The health of the people is good and generally speaking, they are and have none of the pests that belon. to fruit in those districts, particularly nothing in the way of fungus growths.

Chin Chin Has Made a Contract With Officials of the Mexican Government to Get That Many of His Countrymen For Them.

Chinese merchant of this city, leaves tonight for a month's trip to Victoria. B. C., where he is going for the purpose of consulting a prominent Chinaman there with reference to the importation of Chinamen from the flowery kingdom.

It is customary for Chinamen when going away, to hunt up their friends to say good-bye and treat them, and this

Chin Chin, a prominent and nopular | aid in inducing 5,000 of his countrymen to leave their native land and go Mexico to work on farms and railroads there. It means a big thing for Chin. and he is confident of carrying out his part of the contract. The man he is going to see is Hong Wo, and he is in terested in the deal. He has engineered such projects before and understands all the business connected with the

hiatter. Before leaving Chin Chin called on Governor Wells, Chief Justice Miner and other prominent officials and seis what Chin Chin did last evening. He says that Mexican officials have written to him with the view to securing his Spokane, Tacoma, and Seattle.

FUT ON THE BRACELETS.

Hov Deputy Sheriff Arrested H. B. Kellet on a Street Car.

H. B. Kellett, foreman of a gang of vorkmen in the employ of the American Bridge company, who are engaged in putting up a structure at the Germania smelter, was arrested yesterday afternoon by Deputy Sheriffs Raleigh and Cummings on a charge of embezzlement. According to the complaint Kellett received \$500 to pay off the men working under him, but instead of doing so, he boarded a car for Salt Lake City. Deputy Sheriff Mauss telephoned from Murray that he believed Kellett was aboard of a car coming to the city and Deputies Raleigh and Cummings went out to meet the in-coming Murray car. When the two sheriffs boarded the car they could see no one who answered the description that had been telephoned in. Deputy Raleigh asked the conductor if all the men on board had got on the car at Murray and was told thy had.

"Who's that fellow with the black tiff hat?" asked the officer. "Why, that Kellett, the foreman of the American Bridge company," anwered the conductor

Then the deputy sheriff took a seat beside the man he wanted and got into fort from that they would better be getting it now, for the perpetuity of the injunction is, in my mind, a settled a conversation with him. is your Johnson?" he asked laying a trap for the unsuspecting fu-WHITTEMORE IS SATISFIED. gitive 'No," replied the man innocently, When Attorney Whittemore of the San Pedro, Los Angeles and Salt Lake was seen today he said that so far as was concerned the matter of further procedure it would of necessity be post-poned until after the arrival of the 'my name's Kellett.' "Then you're the man I want," replied the sheriff, deftly slipping the bracelets onto Rellett's wrists. "I've been expecting this," growled complete text of Judge Hawley's de-cision, which is expected to reach here

Successors are to be appointed to C. W. Bein,track manager of the Southern Pacific east to El Paso, who recently died, and Edwin Hawley, assistant gen eral traffic manager of the company in New York, who has resigned, and it is presumed that President Hays will consult with General Traffic Manager J. C. Stubbs before these places are filled.

A New Railway.

"it has when we come to consider that it was simply and purely a thieving Santa Fe, N. M., July 22 .- Pittsburg and New Mexico capitalists today inroposition from the first. If any com corporated the Santa Fe Central Raillaint was to come at all, on account of way company, capitalized at \$220,250,000, to build a road 120 miles long, from e idleness of the grade, the power and the idleness of the grade, the power and right to make such complaint would lie in the government. And if there were any forfeiture of the grade it would be to the government and not to these people. They had no more right to that roadbed than I have to Santa Fe to Pinos Wells, to connect the Denver & Rio Grande and the Rock Island systems, and the Albuquerque Eastern Rallway company, capitalized at \$1,500,000, to build a railroad fortyfive milese long from Albuquerque to the San Pedro coal fields, to connect unother man's coat. It was simply an effort to steal and while the injunction there with the Santa Fe Central. Both is but temporary pending a decision from the interior department, if the San Pedro people can derive any comlines have been surveyed. They will cross and connect with the Santa Fe system.

SPIKE AND RAIL.

today obtained a license to marry Lulu North, 23. of Mill Creek. Peter Christiansen, a native of Den-

mark, was today examined as to his sanity by Dr. H. A. Anderson and County Physician Mayo before Judge (pro tem.) James, who committed him to the State Insane asylum. The af-flicted man is 45 years of age, and is a widower with one married daughter,

Cella Snow, living at Evanston, Wyo. The land and water commissioner today turned over to City Treasurer Morris \$5,105.50, which is the 10 per cent collected by him on the city prop. erty and sold and confirmed by the Council at the auction sale last month. Matt Thomas left for Spanish Fork this evening, to be present at the Pio-neer Day celebration at that place to-morrow, Mr. Thomas will be the orator of the day, and the subject on which he will expatiate is, "The Founding of a Commonwealth."

TODAY'S REALTY TRANSFERS

.\$ 1.00

Lehi, Utah, July 23 .- Mr. George Austin and his daughter Emma returned home this morning from Canada where they have been for the past ten days looking over the country with Uncle Jesse Knight of Provo. Mr. Austin says he finds the country in a very prosperous condition from an agricultural standpoint, as the cereals and vegetables of all kinds are very thrifty. So far there has been no irrigation this season, but in some localities they will have to irrigate some of their late grain probably once, as some of the settlers have just arrived there this spring, making it quite late in planting their crops.

(Special to the "News.")

While there Mr. Austin says he saw quite a number of small patches of sugar beets in Stirling and Magrath, which are being raised in an experimental way all of which look very thrifty, almost without an exception. However, they are two weeks later than the Utah beet crop. Mr. Austin said in speaking of Canada as a beet growing country, that there is no ques-tion but the land will produce the requisite quantity of beets providing they had people enough to take care of the crop. but as yet the country is quite sparcely settled and how the season will be to mature the beets is some thing he could not say anything about but he said he thought it would take

is a great grass country and the cat-tle and sheep are very fat. The purpose of Mr. Austin's visit was give his opinion to Mr. Knight as to to give his opinion to Mr. Knight as to the adaptibility of the soils and the climatic conditions of this country for the sugar beet culture. Mr. Knight expeets to erect a sugar factory in that valley in the year 1905 if all conditions prove satisfactory. The location selected for the factory site is about four miles west of Stirling and 12 miles east of Magrath. Mr. Knight, Mr. Magrath and Apostle John W. Taylor are very busy now laying out a townsite to be

known as "Raymond" (named after one of Mr. Knight's sons,) the location of which is to be in close proximity to the factory site. The erection of a hotel ivery stable, mercantile establishment and dwelling houses will be commenced at once. Also Mr. Knight expects to pipe water from a spring in the hills a distance of four miles, for domestic purposes. The Northwestern Irrigation mpany has guaranteed to furnish Mr Knight at the factory, should it be built.

ample water for factory purposes from Sept. 1st to Feb. 1st in each and very year, and other concessions. Mr. Knight has also just started n big force of men and teams, who have just arrived from Utah, plowing up three thousand acres of land, 2,000 ef which will be put into small grain next spring and the other thousand to be ummer fallowed preparatory for beets the following season. While in that valley Mr. Austin met most of the or two seasons to demonstrate this | Utah people and found them all satisfact. Speaking of the country as a fled and in a prosperous condition.

BUTCHERS HOLD MEETING

Arrange For a Grand Outing on August 21 to Lagoon.

The Retail Butchers' association held a spirited session last evening in which most of the time was consumed in talk ing over the Wednesday afternoon clos. ing proposition and to arrange for a big excursion and barbecue at Lagoon on August 21. The reports indicate that all the butchers will cheerfully close their doors every Wednesday afternoon at 2 o'clock during the summer season. President Wood appointed a committee consisting of J. A. Eckman, O. K. McGraw and F. H. Weight to conter with the Federated Trades unlons to calist their moral support on the Wednesday closing rule.

It was decided to take the annual outing on August 21 at Lagoon and the matter was placed in the hands of several competent committees. The will include a barberue and athletic sports of all kinds. The Ogden meat icalers and those of other cities will be asked to join in the festivities so that it will be a state offair. On the day of the outing the shops will close

Ogden, July 23 .- The coroner's inquest was held today before Justice Joseph Hall over the remains of George Packard, who was killed yesterday morning by falling from an electric light pole. Six witnesses were examined, whose testimonies indicated that the fatality was accidental. The jury therefore brought in a verdict to that effect, attaching no blame to the company whatever. The jury was composed of W. M. Connell, T. C. Mor-rfs and W. A. Galbraith.

The funeral will be held from the Fifth ward meeting house at 10 o'clock tomorrow morning, under the auspices of the Woodmen of the World. The Woodmen are requested to meet at K. of P. hall at 9 s. m. tomorrow.

Obsequies Will be Held in the Fifth Ward (Ogden) Tomorrow Morning.

Word was received in this city today of the death of Mrs. Arthur Greaves

sible. Our fellows have had a mighty

sage received from Mr. Freed is al-

most too good to be true. It will cost us a big lot of money-not less than \$20,000-to entertain the visitors and a

proper pledge of that amount must be forthcoming at once. The grand lodge

officers are not chosen until tomorrow After that the official selection of the

next convention city will be made. That is why I do not quite understand

Mr. Freed's telegram. But I guess in

is all right or he never would have sent it. In the language of Mr. Freed, "old man, Sait Lake will win."

on the 16th inst. at Liberty, New York. No cause is given. Mrs. Greaves lived in this city for a number of years and established a musical studio here where she made many friends. Mrs. Greaves, when she lived in this city, was Miss Lillie Snyder. She came here from Nevada and taught vocal culture for one year. She then went to

New York and studied for two years under George Sweet, with Prof. H. S. Goddard and Miss Viola Pratt of this city. At the expiration of her two years' course in New York she returned to Salt Lake for a time but later went to Paris with a view to further

developing her splendid voice. Miss Snyder was also a newspaper woman of some note, and while here and in Nevada and also in Europe rep-resented the New York Sun, and other
