TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

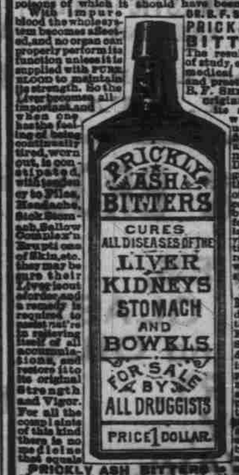
THE LIVER AND ITS FUNCTIONS.

It has become a well established fact that the largest portion of diseases to which the human family is subject arise in the blood from some derangement of the Liver. This organ is not only the largest, but at the same time the most important. The venous blood, on its return to the heart, passes through this organ, and in its passage the impurities, as also the secretions which are necessary for digestion as well as for a cathartic to assist in the removal of waste material &c. are eliminated. From this it is easily seen that the Liver is liable to get out of order to a greater or less extent, and when this occurs it is impossible for it to properly fulfil its office of removing all objectionable matter from the blood, but allows it to pass through, carrying with it the poisons of which it should have been relieved.



PRICKLY ASH BITTERS is a compound of very much, and more than that, it is a BLOOD PURIFIER, rushes about all other preparations. Ask your druggist for it, and give it a fair trial. If he has none on hand, ask that it be ordered for you.

EVENING NEWS.

Wednesday, - Dec 26, 1883.

MARICOPA STAKE CONFERENCE.

The Maricopa Stake Conference was held on Saturday and Sunday, December 15th and 16th, 1883.

Present on the stand: A. F. McDonald, H. C. Rodgers and C. I. Robson, of the Stake Presidency; the High Council, Bishops and the local Priesthood generally.

President A. F. McDonald asked that the Spirit of God may rest upon the Elders, that they might be led to speak upon such subjects as would be most beneficial to the Saints.

The Bishops reported their several wards, and the following brethren addressed the conference: L. Levitt, H. C. Rodgers, Bishops Saml. Openshaw, T. E. Jones and E. Pomeroy; President A. F. McDonald, Elders D. Le Barrow, B. F. Johnson, C. I. Robson, C. Hakes, C. S. Peterson, W. L. Brundridge and Daniel Collett.

The principle subjects spoken upon were the more strict observance of our every day duties; the necessity of cultivating the Spirit of God; our great work among the Lamanites; the predictions of ancient and modern prophets and their partial fulfilment; the Word of Wisdom; the persecutions of the Church and the necessity of union.

In addition to the regular meetings, Priesthood meeting was held on Saturday evening, when the necessity of co-operation was urged upon the brethren.

On Sunday sacrament was administered and the general and local authorities of the Church were presented and unanimously sustained, and the statistical report of the Stake read.

The following were sustained as missionaries to the Lamanites: H. C. Rodgers, D. P. Jones, David Savage, Elizabeth A. McDonald, Susana Brady, and Susan Savage.

The Spirit of God was poured out upon the people, and all felt blessed in attending the 2nd Quarterly Conference of the Maricopa Stake.

Many of our people have awakened to a sense of the folly of freighting to the neglect of their homes and farms, hence are putting in considerable grain this season.

The Maricopa Stake comprises three Wards, viz: Mesa, Jonesville and Temple, and numbers about 1,000 souls.

During the last quarter we laid eight of our number from small pox, but the general health of the people, is good.

GEO. PASSEY, Clerk of Stake.

LOGAN TEMPLE.

THE WIDOWS' MITE ASSISTS TO BUILD IT.

Editor Deseret News:

The subject of the Logan Temple is ever a pleasing one to the Saints, especially to those of this Temple District, who have so generously given of their means and labor towards its erection. As it approaches completion, the greatness of the undertaking appears more apparent, also the magnitude of its cost.

The total donations as reported at our last quarterly conference showed the interest taken by the Saints, and spoke loudly in their favor and of the devotion they possess in regard to the great latter-day work, manifesting an ardent desire for the redemption of their dead.

There is, however, a class of donors, whose donations are included in the total referred to, that I wish to draw attention to, who have aided to swell the amount of contributions—that of a number of widows, both in and out of the district, of our acquaintance, who have donated $2,108.23, which is truly the "Widows' Mite."

We have undertaken to compile a list of this class of donors, and thinking there may be others whose names we have not got, we wish through the medium of the press to call the attention of the Bishops and presidents of the Relief Societies, and ask them to aid us in ascertaining how many such individuals reside in their respective wards, and, if possible, the amounts each have donated, as we are unable in this office to determine these facts, on account of many donations being handed to us in bulk by these officers, for which we receipt to the ward thus contributing and not to individuals. More especially is this the case among the wards comprising the Temple district. An offering of the kind in question is peculiarly impressive from the fact that it is absolutely free from any affectation or desire on the part of the person donating to be seen of men for the purpose of obtaining their plaudits and approbation but proceeds from a pure desire to give to satisfy their consciences, superinduced by a strong feeling of duty to assist in such a laudable purpose. When taken in connection with the circumstance that ordinarily surround a person bearing the appellation of a widow, the act takes on the character of a sacrifice and makes it doubly sanctified. The many donations of this class are well worthy the admiration of the Saints and should arouse a spirit of zeal in their hearts to assist all in their power to complete the Temple, that while the widow gives her mite, sometimes all she hath, the Saints out of their abundance may give amply and have abundance left. Many visitors seem surprised at seeing the work so nearly finished and express themselves well paid for the interest they have taken in its erection, and look forward with anxiety to its completion and dedication which is in the near future.

Appreciating the generous acts of all who have contributed towards the erection of the House of the Lord, I remain

Yours respectfully,
C. O. CARD, Supt.

Logan, Dec. 20, 1883.

INTERESTING FROM THE SOUTH.

MINING DEVELOPMENTS—A BEAUTIFUL CAVE—INJURED HIS EYES—A GOOD CONFERENCE—FACTORY REVIVING.

ST. GEORGE, Dec. 20th, 1883.

Editor Deseret News:

Since our conference here, I have visited the Tusteegubet Mining district. The Black Warrior mining claim is opening up very extensively.

Since my last report they have drifted into the mountain seventy-five feet and struck the ledge, after which they ran a cut southerly and along the ledge for twenty-five feet, when they opened out into a large cave running along the ledge, three hundred feet in length, from ten to forty feet in width and two to fifteen in height, dipping from north to south about thirty degrees. It is presumed that the bottom or lower end of the cave is about two hundred feet from the surface. It is the most beautiful sight I ever beheld, the cave being covered all along the roof, sides and bottom with stalactites and land coral, in all imaginary shapes, spears hanging from the roof all sizes and pillars as large as six inches through, some being as long as fifteen feet. I brought samples to St. George that created quite an interest to many who visited the store to see them.

The cave has been formed by the sinking of the ledge, and thousands of tons of ore is in sight, the body of it extending from one end to the other, consisting of grey carbonate principally, with some red oxide of iron and copper. The last assays on the carbonate were 71 per cent. lead, and silver per ton $69.

The company intend to commence operations immediately, either in shipping the ore, or putting up smelters in the vicinity of the mines. They have some eight claims, all of which show up from the croppings nearly as large as the Black Warrior.

In returning we crossed the mountain on foot, to where we had left our horses, and visited the "Apex" mine, located by Mr. Brigham Jarvis and others. As yet it has not been developed, but is uncovered for about 25 feet in length, showing quite a ledge of green copper ore, assaying about 35 per cent. copper. This undoubtedly will yet be one of the richest districts in Utah.

Mr. W. P. Stevens, one of the miners of the Mountain Chief Company, and the one who first discovered the cave, had the misfortune to get his face and eyes badly injured last Monday. He was letting off a shot, when the tamping blew out into his face. It is hoped that he will not lose his sight, though the balls are badly hurt.

Our conference went off with a vim, and the people felt greatly blessed in having the society and instructions of four of the Twelve.

A meeting was held in Washington yesterday. Apostles E. Snow and F. M. Lyman; Prest. J. W. Crosby of Panguitch, Prest. Thompson of Millard Stake, and Judge E. G. Wooley being the speakers.

The Washington Factory is once more in full blast, they having their new machinery all in operation and doing well. There are abundant supplies of wool, grain, flour, etc., on hand. The factory is apparently in better condition than ever before.

Yours truly,
WAB.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, and found by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.
