

Daweyville—The weather has been warm the past week with several cloudy days, considerable wind from the north at nights. Crops of all kinds doing well; the spring grain is headed out; farmers are busy cutting and hauling lucern.

Cainville—Weather very changeable, some very hot days. Crops growing fine; cutting lucern; bees swarming; plenty of bee food but bees cannot work on account of high winds.

Monroe—Warm every day; splendid for crops; lucern about ready to cut; second spraying of trees finished.

Joseph—Saturday very cold with a little frost but not enough to hurt. Crops are growing fine.

Richfield—Good week for crops; strawberries ripe; first crop of lucern cut.

Spring City—Weather fine; crops growing nicely; strawberries ripe; farmers irrigating grain; potatoes are up in field; 12th and 15th very warm; good growing weather.

Peaon—Frost on 9th and 10th; ice formed on morning of 11th; no great damage by frost so far; frost and ice on the 12th; frost on 13th, but very little damage was done; last part of week fine growing weather, crops looking well.

Center—It has been a little warmer the first of the week; no wind; a little frost on the 12th; a very bad wind storm on 13th from the west and a high wind from the south on the 14th. Grain and grass very backward; no rain during week.

Huntsville—Grain and grass growing slowly on account of cold weather; the last few days have been warm. The damage by frost is light.

Utah—The hot weather this week has greatly helped the vegetation; corn and potatoes are looking fine; everybody buying at present; lucern crop very short; winter wheat never promised a better return. In about a week strawberries will be all gone; cherry crop almost a failure; all other fruit crops will be very short.

Bear River City—The past week has been the warmest this season, although cloudy and considerable wind. First crop of alfalfa being out; grain looks well and irrigation has commenced generally.

Heber—Past week has been good growing weather but a little too cool at nights for tender vegetation. Killing frost on the morning of the 11th. Bright and clear weather, only 7 points less clear sunshine. Saturday eve wind blowing a gale from the north, mercury fell 25 degrees in two hours. Sunday quite cool all day. Wind north again quite strong, mercury falling 40 degrees by 9 p. m. Killing frost morning of the 17th, self-register 25 degrees above zero.

Payson—Weather gradually warmer, cool nights prevail; frost Sunday night. Lucern hay hauled every day; farmers busy taking care of hay crop. All crops doing well; corn much improved during the past week.

New Harmony—A week of continued sunshine. All crops progressing fine.

Mountain Green—Past week clear, windy and cool. Crops of all kinds are looking excellent; potatoes and peas just coming in bloom. On the 16th heavy frost but have not ascertained the extent of damage done; some things look bad.

Scipio—Very windy 13th, 14th and 15th. Cold night. Frost night of 16th, injured squash, beans, etc., Warm weather much needed. The 16th, a cold chilly day.

Pinto—Grain of all kinds looking fine; corn and potatoes that are up have been nipped by frost; some corn has to be replanted. Apples and plums will be a fair crop. Fine growing weather now.

Tooele—Rain and snow on the 15th. Sharp frost on the morning of the 17th, that is sure to kill tender vines in exposed places.

Croydon—Fair weather most of the week; snow and rain on the 16th. Some high wind and frosts. Some grain is a foot high; peas are in bloom; late potatoes are coming up. All tender plants damaged by frost this morning (17th). J. H. SMITH, Observer, Weather Bureau Director. SALT LAKE CITY, June 18, 1895.

INDUSTRIES OF SALT LAKE.

Chief Compiler Squire, of the Salt Lake county bureau of statistics, has completed the work of arranging the returns of his deputies and today filed the result with the territorial statistician, as follows:

Flour Mills—8; hands employed, 34; annual wages, \$27,700; value of raw material, \$122,880; value of product, \$237,680; value of plants, \$191,500; capital invested, \$191,500.

Plumbing Steam and Gas Fittings—11; hands employed, 122; wages, \$839.16; value of product, \$403,500; capital invested, \$87,160.

Contractors and Builders—6; hands employed, 284; wages, \$43,900; value of product, \$11,900; value of plants, \$182,000; steam horse power, 50; capital invested, \$30,700.

Shoe Manufacturers—3; hands, 125; wages paid, \$47,400; value of raw material, \$63,300; value of annual product, \$145,500. value of plant, \$35,500; steam horse power, 40; capital invested \$42,500.

Harness—8; employees, 32; wages, \$20,655; value of product, \$61,634; capital invested, \$49,060.

Machine and Repair Shops—17, employees, 341; wages, \$212,988; value of raw material, \$128,527; value of product, \$398,778; value of plant, \$270,725; steam horse power, 217; capital invested, \$224,125.

Tin Shops—4, employees, 13; wages, \$6,200; value of raw material, \$27,300; value of product, \$49,701; value of plants, \$4,400; capital invested, \$13,600.

Photographers—8, employees, 8; wages, \$4,483; value of product, \$14,650; capital invested, \$11,700.

Job Printers—13, employees, 197; wages, \$112,170; value of product, \$236,662; value of plants, \$146,600; steam horse power, 30; electric, 35½; capital invested, \$239,200.

Planing Mill—5, employees, 69; wages, \$44,400; value of raw material, \$147,000; value of product, \$205,000; value of plants, \$99,000; steam horse power, 140; capital invested, \$224,000.

Marble Works—4, employees, 6; wages, \$3,600; value of material, \$7,100; value of product, \$17,500; capital invested, \$7,450.

Salt Works—8; employees, 6; wages, \$22,200; value of raw material, \$72,400; value of product, \$217,325; value of

plant, \$55,000; steam horse power, 205; capital invested, \$500,000.

Lime and Cement—4; employees, 60; wages \$12,000; value of raw materials, \$8,500; value of annual product, \$71,497; value of plants, \$52,500; steam horse power, 200; capital invested, \$54,000.

Laundries, Steam—7; employees, 186; wages, \$76,000; value of product, \$155,600; value of plant, \$96,000; steam horse power, 161; capital invested, \$176,000.

Laundries, Hand—19; employees, 27; wages, \$6,020; value of product, \$16,220; capital invested, \$1,925.

Brick Manufacturing—6; employees, 133; wages, \$31,400; value of product, \$89,900; value of plant, \$75,810; steam horse power, 155; capital invested, \$75,810.

Cigar Manufacturers—9; employees, 26; wages, \$13,164; value of raw material, \$25,234; value of product, \$51,320; value of plant, \$22,272; capital, \$23,272.

Candy Manufacturers—6; employees, 23; wages, \$7,300; value raw material, \$31,240; value of product, \$71,400; value of plants, \$10,150; capital invested, \$13,550.

Breweries—4; employees, 72; wages \$61,300; value raw material, \$88,500; value of product, \$232,060; value of plants, \$75,300; horse power, 250; capital invested, \$680,000.

Newspapers—9; employees, 140; wages paid, \$131,700; value of raw material, \$200,200; value of plants, \$95,000; capital invested, \$207,500.

Blacksmith shops—35; employees, 28; wages, \$15,516; annual product, \$60,655; value of plants, \$13,895; capital invested, \$16,610.

Shoe shop—43; employees, 16; wages, \$6,315; value of product, \$32,406; capital invested, \$6,910.

Saw mills—4; employees, 3; wages, \$660; value raw material, \$3,630; annual product, \$4,900; value of plants, \$1,850; capital, \$1,850.

Bundries—137; employees, 635; wages, \$254,059; value raw material, \$319,500; product, \$803,200; plants, \$720,529; horse power, 1,797; capital, \$974,015.

Electric Light—1; employees, 54; wages, \$44,718; value of product, \$175,000; power, 1,500,000; capital invested, \$1,500,000.

BRIEF LOCAL PARAGRAPHS.

MOAB, Grand Co., Utah, June 16, 1895.—Haying is about over. The weather last week was warm, but Saturday the wind blew very strong, though Sunday was pleasant. Last night there was a light frost—no damage done. The prospects for what fruit there is are good; of early peaches there will be a full crop. The health of the people is good. A great many cattle are being sold at \$10, \$14, and \$17 for steers.

O. W. WARNER.

In spite of the united efforts of the members of the sportsman's club and the vigilance of our officer, the deadly dynamite continues his work of destroying fish by the use of explosives. One of the latest attempts in this direction nearly destroyed the plant of the Hercules Powder company in Logan canyon. One shot had been leached close to the headgates, loosening the cement surrounding them, and another one fired just inside the canal
