

WILL STAND PAT ON THE TARIFF.

Prediction is that Dingley Law Will Remain Practically As It Is.

NOT STRONG FOR REVISION.

President Does Not Desire to Go Against Wishes of Congress In the Matter.

Special Correspondence.

Washington, Jan. 31.—Stand pat will win whenever an attempt is made to change the Dingley law. From the time the proposed revision of the tariff was suggested there has been vigorous opposition among members of Congress.

AVOIDING A DISPUTE.

Senator Dryden of New Jersey has introduced a bill granting a portion of the abandoned Redbank military reservation to Gloucester county, N. J., for a public park to commemorate the battle of Redbank.

BATE QUOTES SHAKESPEARE.

During the consideration of the statehood bill Senator Nelson sought to secure an amendment which changed the name of some of the state institutions to accord with the names they now have.

WANT THE JEFFERSON BIBLE.

A resolution was being considered in the house for the printing of a new edition of the Jefferson Bible, the Galilee of Tennessee said that he had a great many inquiries concerning the Jefferson Bible and understood that the publication had been stopped and wanted to know what had become of it.

DOLLIVER ON QUEER CLAIMS.

The senate was considering a bill to reduce the number of American vessels destroyed by this government while they were engaged in pelagic sealing in Bering sea contrary to the law of the United States.

Failed.

All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold.

SALUTE FROM THE PRIVATE.

Representative John Sharp Williams says that the wittiest utterance that ever he heard from "Private" John Allen, for so long the wit of the house, was delivered one evening in a hotel lobby in Washington during the period of Cleveland's second administration.

NARROWING THE ATLANTIC BY WIRELESS.

Coasting down the Atlantic coast has come to be almost like walking down a

street with a news bulletin on every corner. Under the businesslike arrangements made by the bureau of equipment of the navy department, the mariner who is equipped with a wireless-telegraph outfit may gossip his way from Portsmouth, N. H., to Hampton Roads without more intervals of

loneliness than may be caused by somebody else being "on the wire," and even then he can "listen in" like a neighbor on a barbed-wire telephone circuit. Passing the time of the day with the operator at Portsmouth, it will not be long before the Thatcher's Island operator can offer a bit of current news that will furnish a topic of conversation across Massachusetts bay until news

is received from the Highland Light station on Cape Cod. There can be a three-handed game of repartee with the Nantucket lightsman crew on the third corner, which may be continued with the Newport operator; whose parting word will be still ringing when the "crick" "ora-a-ek" of the Montauk Point station is heard. There will be lively work passing the time of day

with the New York navy yard and the Navesink Highlands stations, and then the mariner will have leisure to think and smile over the quips and sallies of the passage before he picks up the Cape Henry station and rounds into Hampton Roads in full conversational tide with that station and the one at the navy yard at Norfolk.—H. C. Gauss, in Harper's Weekly.

A Menace to Health. Kidney trouble is an insidious danger, and many people are victims of a serious ailment before the symptoms are perceived. Foley's Kidney Cure corrects the irregularities and strengthens and builds up the kidneys, and it should be taken at the first indication of kidney trouble, as it is impossible to have good health if the kidneys are deranged.
