The President's Picnic.

CAMP BISHOP, Fork of Wind River, Wyo., July 10.—The President and party were here today. The President and party are encamped at the Fork of Wind River, upon the same ground occupied last year by General Sheridan. The camp was then named Camp Bishop, in honor of Mr. H. B. Bishop, of New York, who was a member of the General's party, and the name has retained its place. At present camp, here we remount to day for the double purpose of affording an opportunity for the various members of the party to go back and forth to the city, and pack goods. This is our supply camp whence we have to take on the packs rationed for storage enroute to Yellowstone Park. At the present moment

in fine flesh and spirits, has gone on horseback with General Sherman and about three miles up the main fork of Wind river, wrongly called the upper river, to the mouth of De Nolt creek, where last evening the President caught several fine trout. The march, several miles from Camp Slinger to this point, was on the road through the beautiful scenery of the upper Wind river, where are gorgeously colored and fantastically shaped mountains, extended with those which are covered with grass and some small shrubs and ravines. The weather was beautiful and the march was thoroughly enjoyed by everybody.

The Iron Workers.
PHILADELPHIA, 14.—The Amalgamated ironworkers, at the instigation of the union men, the object of which is to amend the constitution and general laws, of which L. J. Milligan, of Ironton, O., is chairman. The proposed with the withdrawal from the steel workers have failed to receive support, there

the association is union and concentration. An attempt to separate the executive functions of the body and divide them into small portions would fall short of the prime object for which the amalgamated association was organized and which would trade unionism be thereby improved? The proposition was therefore a dead letter. There is to be no effort made to have men idle for sixty days during July and August, or to incorporate the project into the outstanding laws of the association. For their union interest, members will seek to curtail work during the summer season, in order to prevent

With the report that some of the men out at Bethlehem had returned to work on Monday, Jarrett said there was nothing to prevent them. The association directs its members to go to work where furnaces are still in operation, and there is no reason why they should stay out. He says all men are to be the Amalgamated Association employed at Bethlehem are at liberty to return to work if they choose.

The Wire War.

NEW YORK, 15.—The executive committee of the Western Union Telegraph Company met to-day. The three present were in

The executive board of the Telegraphers' Brotherhood has sent a communication to General Eckert stating: "Since all our attempts to effect a revision of the constitution have failed, we now desire to state that in view of the situation of the members

Immaturity and Carry on the Fight—with renewed vigor and determination, by every legitimate means in our power."

Depravity and Disaster.

Topeka, Kan., 15.—The Federal officers here claim to have advised that the Slade-Mitchell prize fight is to be fought just across the Indian Territory line south of Baxter Springs, Kansas, and efforts are being made to have United States officers on hand to stop it.

San Francisco, 15.—As showing the extent of leprosy in the Hawaiian Islands, figures received from Honolulu state that the number of

1878, and the year 1879, 683 were
of the "Indian" children. It is believed
that these figures do not represent
all the cases. In the more settled
parts of the Islands the disease
largely exists. In towns and settled
communities, under the influence
and example of American and
European settlers, the disease is de-
creasing.

Quebec, 15. - The Norwester,
Capt. Frederick & Agard from
St. Lawrence, the party is reported to
be coming up the river with yellow
fever on board. Two deaths have
already occurred and others of the
party are down with the disease.

Moreno is stationed with a small detachment of State troops, killing five Apaches, guards; at daylight the next morning Moreno marched with 25 men and found several Apaches. He ordered his men to surround and capture them. He was called to retreat. He made a stand and reconnaissance accompanied by armed villagers, but his ammunition being exhausted he was forced to retreat. Several Indians were killed and Moreno was slightly wounded. After the skirmish he

Milwaukee, 15.—William W. Williams, a veteran from Missouri, is present in the National Soldiers Home at this point, received a packet by express recently from N. A. Fitzgerald, of Washington, D. C.
