rado river are faces of coal which indi-

Mr. Davis says that the new road to Mackay is doing a rushing business, and while tri-weekly trains are at present only running, as soon as the telegraph has been put through

daily trains will be put on. At present trains do not run by orders, and as there is but one train on the line at any one time, there is no danger of collisions, and the one train always has the right of way.

MINING NOTES.

Boston Con, moved up to \$4 on the Boston market yesterday.

George H. Robinson is down from Butte looking after his Utah interests. Rob Forrester left here for the East today. He is on an errand of business in a mining way.

After having spent yesterday in towa Fred Flindt last night returned to the May Day mill at Tintic.

Crestone, Colorado, reports an oli strike and a boom of some magnitude has already floated itself there. The Germania smelter has received

six carloads of lowgrade ore from the Swansea mine at Silver City, There is some talk of a proposed pur-

chase of the California mining prop-erty near Park City by a syndicate of easter ninvestors. Manager Jacobs of the Ben Butlei

received from the Hub

has returned from a visit to the East, where he reports having enjoyed himself very much. Good reports are sent out form the

Colorado Boss property of the Cripple Creek Consolidated company, located on Gold Hill, Cripple Creek.

Samples of ore brought from the King Bird at Milford by Mr. Robert S. Tiernan indicate a third value in copper and good results in sliver and gold, On account of the large percentage of lead contained in South American and Canadian ores the Omaha smelter has discontinued the smelting of them. That stock of the Yankee Con. mine

TOTALS.

ST. LOUIS.

St. Louis, Feb. 124-Wool firm; territory and western medliums, 16@18; fine, 12@17; coarse, 12@16. BOSTON.

Boston, Feb. 11.—The wool market at the present time is in excellent condi-tion. The demand is moderate but some fair sales have been made and full prices are commanded on all trans-

full prices are commanded on all trans-actions. The announcement was made today by the American Woolen compa-ny that the Providence. National, Riv-erside, Manton and Weybosset mills, which have been shut down because of labor troubles, would be reopened, caused general satisfaction. While no boom is expected, a steady trade is anticipated. Shipments since Jan. 1 show an increase of over 8,000,000 will be placed on the Boston stock ex-change seems now to be a certainty. Notice by wire to that effect has been A new stamp mill is to be erected on the old Winscott property, located near Helena, Mont, The plant is to cost \$75,-

show an increase of over 8,000.0 0, and work thereon is to begin at pounds over the same period of 1901, and about 11,000,000 pounds more than

The financial downfall of Frank C. he receipts since the beginning of the Andrews is causing considerable talk in mining circles, but that any evil rent year. Territory wools hold firm and the sults from the failure will be felt here ock of better wools has become considerably reduced. Holders of good woo's maintain full market rates, and

It is expected momentarily that the buyers in need of supplies readily pay figures, For fine territory the scoured basis is 47649 RIOON ents, with some choice lots up to 50

cents. For fine medium wools about 43,445 cents, scoured, is the range of sales, the latter being for good lots. The market for medium territory vools is quotable at 38@40 cents woolsclean and choice lines up to 42 cents

Oregon wools are steady on the basis of 44/046 cents for fine medium and fine, with valley at 36/049, and staple at 47 1950

SAN FRANCISCO.

The market for elaterite is extending San Francisco, Feb. 11 .-- Wool-Neand there is every prospect that the large beds of that mineral which exist in Utah may soon find a ready outlet of sufficient eapaciousness to justify an enormous output from the southeastern S; lambs, 668. vada, 10@12; eastern Oregon, 10@13; valley Oregon, 13@15; fall Humboldt and Mendocino, 10@12½; mountain, 9@ 9½; south plains and San Joaquin, 6@

a reconsideration was proper under the circumstances, referred to the city attorney's decision on the removal of Sheets, Janney and Brown. He said that the city recorder was somewhat in doubt as to whether or not they ere removed and asked the city attor ey's opinion on the matter who relied that until the motion for ideration is disposed of the matter is ot finally determined. Robertson fur her contended that in the United tates Congress such a notice is all that is necessary to secure a recon-sideration and he thought that it certainly should be the rule of this coun-cil. The appeal from the decision of the chair was then put to the house and by a vote of 7 to 7 Prest. Cottrell ruled that he was sustained.

OLD SCANDAL REVIVED.

Daveler then moved that a commitee of five, including the president, be appointed to investigate matters in he police department.

support of his motion he stated hat there were more ways than one of dent, by his decision, had refused them the right to discuss a matter of vital importance to the city he held that his motion would give hem that opportunity. He referred to he physical examination of three oung girls by the police department about 18 months ago, when the rights of a woman and her children were vioated by the chief of police; when the 'News'' said that no man's wife or daughter was safe on the streets when the law could be carried to such an extent as that, taking little children and examining them, by order of the chief of police, as to their diseased condition or virginity. He said: "Had that been tried in any civilized country in the world your chief of police would have been lying up there in the cemetery intead of coming to this council for an ndorsement. I say if I had a daughter

and any man violated that right in that way 1 would blow him to hell." DANGEROUS TALK.

Here Fernstrom objected to the lan-

adjourn.

guage of the speaker, saying that it was getting "dangerous," and he moved

The motion was lost and Daveler was allowed to continue his speech, string that he considered the chief a dangerous man to the community. He said that Sheets had been connected with the police force for twelve years and that no charges had ever been made against him.

Hewlett moved for the previous ques-tion but the motion was lost.

FERNSTROM TAKES THE FLOOR.

Fernstrom then took the floor and defended the chief by stating that the examination referred to was under the orders and at the instance of a certain detective and the chief was not responsible for it. He regretted very much that they had to wash over dirty liner He regretted very much that had been washed 18 months ago. He thought it best to let the matter of the last administration drop, and was not in favor of appointing a com-mittee to investigate matters that occurred then.

Hewlett again moved for the previous question and the motion was carried.

ROBINSON IS SORRY.

Robinson then got the floor on the original question and said that he was sorry that some of the members didn't have sense enough to keep their mouths shut when everything was moving along harmoniously. He stat-ed that the city committee had worked hard to settle the matter and they were successful, but two members had to oreak loose again and create a disturbance. He didn't think those mem-bers displayed good sense by their ac-tions. They were not, according to his view, good Republicans when, at a point when this matter was about to be settled, . they start up this fight

ne of the wonders of the great undertaking. our day such huge enterprises

us this excite far less surprise and atract much less attention than were bestowed in former times on works that are now every-day occurrences. Pro-bably the limit has not been reached. The next generation may see France England and Ireland connected by submarine tunnels, and Asia joined to North America by a railway bridge .--Youth's Companion.
