

THE EVENING NEWS.

Saturday, August 3, 1873.

PRICE OF GOLD.
Determined Daily by BANK OF DENVER.
Buying at 110; selling at 111.
SALT LAKE CITY, August 3, 1873.

COAL AND OTHER MATTERS.

Thermometer 94° in the shade at 2 p.m. to-day.

MEETINGS AT THE TABERNACLE to-morrow at ten and two o'clock and at the various ward meetings in the evening.

UNIVERSALISM.—Rev. Mr. Parker (Universalist) will preach in the Institute to-morrow evening, at 8 o'clock.

Subject of discourse: "What will best meet and satisfy the wants of the Spiritual nature of man?"

THEATRE.—Last night Marshall & Co's. Troupe of Japanese made their appearance in the Theatre before a large audience, who were highly pleased with the many wonderful feats of the troupe. A misadventure in the middle of the performance, whereby the new gas arrangements failed and left the theatre in darkness, somewhat marred the general satisfaction, but precautions will be taken to prevent such contingencies this evening. There will no doubt be a full house.

THE TROUPE PLAY ON Monday evening.

NOT THE FACT.—A letter from London to a contemporary says, "English habits of life are based on the assumption that the climate is cold and ungenial." That is not the fact. English habits of life are based on the knowledge that the climate is mild, moist, and genial. We do not know of any climate more congenial to steady, regular, persistent labor or active recreation, indoors or outdoors.

ORDINANCE.—An Ordinance Licensing and Regulating the Manufacture and Sale of Spirituous and Fermented Liquors, was passed by the City Council last night. All parties interested in matters to which the Ordinance relates should "read, mark, learn, and inwardly digest."

AN ELEGANT BOUQUET.—Mr. John Reading, nurseryman, of the 13th Ward of this city, sent to this office this morning, the most elegant bouquet we have seen this season, consisting of a very choice selection of double and single geraniums, verbena, pelargonium, carnations, fuschia, and ranunculus. The bouquet, of almost every shade of color from white to brilliant scarlet. Those who want to purchase beautiful flowers should visit Mr. Reading's nursery.

REV. MR. DIMMICK, a Presbyterian Minister, of Omaha, Nebraska, is here making a visit to this city and valley. He will remain until Monday. Mr. D. has resided in Nebraska for the past twelve years, and during that period has heard much concerning this Territory and its people, besides meeting many of our citizens; but he now comes up to see for himself, and we hope that his stay will be pleasant and his impressions favorable.

IN TOWN.—We had a very pleasant call this morning from Senator James K. Kelley, of Oregon, who was accompanied by Mr. Harris of that State and Col. May, who has recently returned from Oregon. Senator Kelley is a Pennsylvanian by birth, and is a fine physical representative of his native State. If we may judge by his record, his mental qualities are as robust as his physical. He moved to California in 1849, and from there to Oregon in 1851. He has filled various offices there, and was elected to the United States Senate to succeed Hon. Geo. H. Williams, in 1868. He has nearly five years yet to serve, and hopes that the last four years of his term will be under the administration of President Horace Greeley.

FINE PORTRAIT.—We are indebted to Ethan Allen, Esq., chairman of the National Committee of Liberal Republicans, for a life-sized, lithographic bust portrait of Horace Greeley. We give the following from a note accompanying the picture:

"The picture is the size of life, giving the head and bust, and is printed on a sheet 30 inches, with fac simile of Mr. Greeley's autograph. The original work of art, of which this is a copy, is in the possession of Mr. Theodore Tilton, Editor of The Golden Age, under whose personal superintendence this lithographic transcript was made for popular circulation during the campaign. No better representation of the intellectual, kindly, and honest face of the Farmer of Chappaqua has ever been made. As Mr. Greeley's fine and striking features are constantly and grossly caricatured, the Chairman of the Liberal Republican Committee hopes that this admirable likeness will be framed and hung where it can be seen."

Any body who has ever seen the "philosopher" cannot fail to remark the striking resemblance between the portrait and the original.

(Per Deseret Telegraph.)
PARIS, Aug. 24, Hon. Wm. Hooper left Soda Springs last night for Salt Lake City. Wm. BUDEN.

REQUESTED TO WITHDRAW.—It will be recollected that a reporter of a city contemporary was excluded from the meetings of the City Council for publishing false statements concerning matters pertaining to that body. The reporter in question and two other individuals connected with the paper alluded to, or, as the journal states it, a "reporter," a "manager," and a "gentleman," appeared in the Council Chamber last night, at the regular meeting. After the gentleman and the other two individuals had taken their seats, Marshal McAllister asked them whether they had any business to present to the Council, and, being answered in the negative and that the trio were present for the purpose of taking minutes, he stated that the reporter had been excluded from the meetings of the Council and such time as he corrected some false statements of his, and which correction had not yet appeared, and he then asked the Council if they had anything further to say concerning the reporter of the paper in question. There being no response to his question, he questioned them to withdraw, as the false statements made by the reporter, and for which the Council had moved to exclude him, had not been corrected, and also that since the statement which caused the Council to take action in the matter had been published others of a similar character, combined with threats against the Council, had appeared. Mayor Wells then ordered the Marshal to see that the three gentlemen left the room. One of the three, and who was denominated a gentleman, the paper, persisted in talking. The Marshal told them they had better leave quietly, and the three, "the reporter, the manager, and the gentleman," left, one of them protesting in the name of his employers, against the action of the Council.

WATER SOURCE.—A correspondent writing from St. George, July 24th, says a prospect difficulty in obtaining water there is a great cause of preventing the making of the needed improvements. Water is not in reality scarce, but there is not sufficient labor at command to take the water from the Virgin upon the lands. This scarcity of labor is caused by many of the young men of St. George temporarily leaving there for Pangloss and other places, where they expect to be able to raise ready money.

RESIGNATION AND APPOINTMENT.—At the regular meeting of the City Council, last night, communication from Mr. Alexander Major was read, in which he stated that his business was of such a nature as to cause him to be frequently absent from town, and consequently disabled him from doing justice to the office in the City Council, to which he had been elected by the people, and he consequently desired to tender his resignation of the position. On motion of Councilor Pyper the resignation of Mr. Major was accepted, and the office of Councilor declared vacant. On motion of Councilor J. F. Smith, President Brigham Young was appointed, by unanimous vote, to fill the vacancy thus made.

THE CIRCUS.—We had a call to-day from Messrs. John Wilson and E. D. Wenban, the former manager and the latter advance agent of the "Great San Francisco Circus and Hippodrome." The company gave a performance last night in Ogden, which was attended by a very large, orderly, but enthusiastic audience.

This circus has traveled more and farther than any company of the kind extant, having been three times round the world, and has never had to cease performances on account of non-success. The company have traveled extensively in the East Indies, Japan, China and in Europe, yet the only mishap, of any consequence, occurring to the company happened about two years and a half ago, between San Francisco and Portland, when, by an accident, all the horses were lost. Since that time they have bought out the animals of Dan Casello's, Lee, Lake & Company's and Bartholomew's circuses. The company have no particular specialty upon which to rest claims for public patronage, everything attempted being done in a way not to be surpassed by any other troupe, and consequently the whole performance constitutes their specialty. The owners of the concern are Messrs. Samuel Omar Kingsley, William Thomson and John Wilson, the latter, as before stated, being the manager.

The tent is a hundred and ten feet in diameter, and we do not know of any filled during the company's stay here. Notice will be given on Monday as to where the tent will be located.

MINING.—We hear encouraging reports concerning the Mammoth Copperopolis, Tintic District. Ten tons of ore are being shipped daily from this mine to Swansea. The ledge is forty-five feet wide; there are about sixty hands at work on it, and it is expected the number will shortly be increased to over one hundred. The mine is owned by an English company, of which Lord Claude Hamilton is president. The same company owns the Saturn smelting works, Sandy, and the Saturn mine in Bingham. Ten thousand dollars' worth of bullion was sold by the company to the Omaha smelting works on Wednesday.

PINK CENTER-PIECE.—A beautiful center-piece was put up on the ceiling of Mr. John Squires' barber shop this afternoon. It is painted in oil, on cloth, and is 6 feet and 6 inches in diameter. In its centre is a bee-hive, and the balance of the space is divided into four compartments by ornamental scroll work, and in the compartments are the advertising notices of each of the different departments of Z. C. M. I. The ground work of the ornamentation comprises the various colors of the rainbow, artistically blended from the centre outwards. In history there are in fact, the works of the most famous authors, including Prescott, Macaulay, Rollin, Bonapartes, Hume and Smollett, White, Loring, Abbott, Gibbon, Hallam, &c., all of which have a world-wide reputation. The reader of novels and poetry can also find the complete works of Dickens, Bulwer, Eliza Follen, Moore, Cowper, Coleridge, Alcott, G. P. R. James, Reynolds, Lever, Darnell, Mrs. Stephens, Marion Harland, and a host of others. The collection also includes a splendid assortment of the works of Fowler, Combe and others on chronology, physiology, and miscellaneous hand books for home improvement, Popper's science for boys, biography and travels; books for the girl and the housewife, full of information on crochetwork and everything pertaining to domestic economy. All kinds of beautiful reward books for children, and an elegant assortment of Bibles and other sacred books, all at a splendid binding and style, and offered at such prices as to defy competition. Now is the time to furnish your libraries. For further particulars read advertisement in another part of the paper.

Special Notices.
