

## LOCAL AND OTHER MATTERS.

**THEATRE.**—Last night the elegant comedy of "Delicate Ground" was played well, but somewhat too slowly. The operatic concert by Miss Warden was well received. "Andy Blake" was played well and spiritedly. Mr. Lindsay and Miss Ward playing their respective roles in excellent style.

To-night is set for a benefit to that very popular actor, Mr. P. Margetta, on which occasion he will be very glad to see every body attend the Theatre. The bill of fare is most excellent. The entertainment commences with the "Gentleman in Black," to be followed by a grand operatic concert by Miss Geraldine Warden, then a recitation by Mr. D. McKenzle, the whole to conclude with that most laughable and spectacular farce, the "Illustrated Stranger."

There should, and we hope there will, be a full house. "Phil" is so well known to the theatre-going public that it would be quite superfluous to commend his praises here. Everybody likes him, and the best proof they can give of that fact is to go to the Theatre to-night and give him a benefit "as is a benefit."

**GRASSHOPPERS AT COTTONWOOD.**—Bro. W. J. Silver, who visited Cottonwood yesterday, informs us that the grasshoppers in any undesirable numbers are there, stripping the peach and other trees of their fruit, and destroying the corn. They are headed towards Salt Lake City.

**COALVILLE.**—Brother Edward Stevenson writing from Coalville, on the 28th instant, sends a short account of a few days' tour around that district of country. The citizens of Morgan county contemplate building a bridge across the Weber river, in order to avoid the risk of accidents and collisions to which they are now subjected in Weber canon, in one part of which the ordinary road and the railroad track are the same, for about a quarter of a mile. A bridge across the Weber in this vicinity will prevent the running of this risk.

At Weber City, Mountain Green, Morganville and Enterprise the 24th was celebrated with becoming honor. The grain in that section of country had promised to yield amply up to a very recent date; but the grasshoppers had made their appearance, a host of them coming together as usual, and at Crofton, Porterville and Hennessey, village damage had been wrought by the pests.

A few cases of small pox had occurred at Coalville, but the patients had been removed three miles up Chalk Creek, where they were attended by parties who had already had the disease.

Bro. Roswell Stevens, who reached Coalville on the 28th instant, from a short trip up Echo Canon, reports that on the evening before while there he found, washed down by a heavy rain to the road, from a side gulch, a boot with a leg in it, a skull with the back part blown off, a long thigh bone, and a coat, being the remains of some unfortunate, supposed to have been murdered close to the railroad track about four weeks before.

At Coalville the crops are first-rate and no "hoppers."

**CLOSING NIGHT AT THE THEATRE.**—The performance at the Theatre to-morrow evening will be the last performance of the season. The Management having resolved to close the establishment during the present excessively hot weather.

**APPOINTMENTS.**—By the Millennial Star of the 10th instant, we learn that Elder Geo. H. Knowlton and Alma Eldredge arrived at Liverpool on the 29th ult., and Elder Theodore Curtis on the 27th. They were all well. Bro. Knowlton has been appointed to travel in the London Conference, Bro. Eldredge in the Birmingham Conference and Bro. Curtis in the Norwich Conference.

**A FINE CUCUMBER.**—Bro. Atkins, of the 3rd Ward, left at this office this morning, a fine specimen of the "General Grant" variety of cucumber, grown in the open air, on his lot. It is clear and smooth, about twenty inches long and weighs about two pounds and a half.

**A SAD OCCURRENCE.**—We heard, to-day, of a sad event that occurred a few days ago at Tooele City, namely the untimely death of a bright intelligent boy, about thirteen years of age, the son of Brother Picketts of that city. Our informant stated that the boy, who was subject to fits, was engaged in digging a field only a few rods from the residence of his parents. Whether his prolonged absence caused alarm and led to a search being made for him we could not learn, but such is presumable, for when found he was in the irrigating ditch, dead, the supposition being that he fell there in a fit and was drowned.

**HOT WEATHER.**—The present spell of very hot weather is one of the longest known since the settlement of the Territory. The hot season generally commences towards the latter part of July, continuing on through August; but this year it commenced several weeks earlier, and has continued without intermission, not even a shower of rain to cool it off in the least. Some amongst us, who profess to be weather-wise, say the approaching total eclipse of the sun has some effect. It may be true, though past experience with weather prognosticators has not created much faith. If there is any truth in this saying, however, it may be that we shall have rather more temperate and pleasant weather shortly, as the eclipse takes place on the 7th proximo, that is a week to-morrow.

## Correspondence.

FILLMORE CITY, July 25, 1900.

**Editor Desert News.**—Dear Sir, The farmers here are very busy cutting their grain which is more than an average crop. Some three weeks ago the grasshoppers of black locusts came in myriads from the south, and it seemed for a time that they would destroy the entire crops; but they have passed off doing but little damage except to late crops; and in some instances they have stripped the entire leaves of wheat fields, but left the heads uninjured. The weather is very warm and dry. The health of the people generally is very good. The fruit crops are light owing to late frosts; as a general thing there is not one-fourth of a common yield. Our Indians are quiet as usual, and with some assistance from Col. Head, Indian Agent, are raising an excellent crop. Some six weeks ago the Chief Kanosh, started to Salt Lake City. The next day his wife Mary was missing, and could not be found, until last Friday, when her remains were found with her throat cut some three miles from Kanosh camp. For some time no clue could be got as to who the perpetrator of the deed was, causing great excitement and a grand pow-wow in the Indian camp; but finally another squaw member of his family, acknowledged that she was the murderer and that out of spite and jealousy she committed the horrible deed. What the result of this tragedy will be in our Indian tribe I know not. This squaw Mary was raised from a child by a white family in the city of Payson, Utah Co.

THOS. CALLISTER.

## MORNING DAILY PAPER.

At the request of many citizens and patrons of the Salt Lake Telegraph, the undersigned has concluded to publish the Telegraph in Salt Lake City, as a Morning Paper, commencing at the earliest possible date. It is proposed to furnish the Telegraph to subscribers by carriers, who will collect according to subscription, and whose interest it will be to deliver the paper with punctuality and regularity at the houses of their patrons. The credit system which has heretofore prevailed in publishing papers in this country has been very prejudicial to all concerned. It has been ruinous to the publisher and unsatisfactory to the patrons of the paper. Believing that the growth and advancement of the city demand it, we design, if the public will support us, to issue a paper that will contain the news of the whole world, and make such improvements in conducting it as our past experience will enable us to do; and to obviate the credit system we will receive subscriptions by the week, month, quarter, half-year and year. Subscriptions can now be handed in to the office of the Salt Lake Telegraph, in this city, at the following rates:

1 Year,	\$12 00
6 Months,	7 00
3 Months,	4 00
1 Week,	1 50
Single Copies,	10

MAILED TO ANY ADDRESS:  
1 Year, \$10 00  
6 Months, 6 00  
3 Months, 3 50

Any person sending the names of ten subscribers, with the money in advance, will receive a copy free; and proportionately for a larger number of subscriptions. d209-17 T. H. STENHOUSE.
