WEST WEBER SCHOOL TROUBLE

Adjudicated With Filing of Committee Report—Republicans Name Candidates.

HATCHERY TO BE INSTALLED.

Miller Says His Wife is Mean and Unsubtle to Him, Hence a Divorce is Desired.

At the meeting of the board of county commissioners, the committee appointed to investigate and report on the West Weber school district difficulty, which has arisen on account of the failure to pay Thomas Etherington \$112, which he is said to have loaned the district for the completion of a school building, made their report. After receiving the consideration of the West Weber district to school district No. 1, and its separation from the same subsequently, the committee reported as follows:

"At the time the trustees of District No. 1 took charge, the board learned that the trustees of the West Weber school district had not been paid for their services during the past year and they were accordingly paid the sum of \$1,244.75. The trustees of the county district also paid the interest accrued upon the bonds of the West Weber district, the interest amounting to \$175. During the latter part of the past summer they paid \$215 for whitewashing, repairs, etc., at the West Weber building, preparatory to opening the school in September, 1904. They paid the janitor's salary of \$14 for the month of September. This makes a total of \$1,559.75, which there are the following credits:

The trustees of district No. 1 are willing to relinquish any claim they may have because of the payment of the interest of \$175, are willing to pay the cost of \$14 of a book case which was taken from the West Weber building and used elsewhere in the district. As was stated, when the school year commenced, there was received in cash from the trustees from the former district, \$1,925.61. At the end of the year there was in the treasury \$1,244.75, a gain of \$333.90, which, if the district was to be segregated into its former districts, would be apportioned among such districts in the ratio that such school population in the consolidated district. There were 1,084 pupils in the district, and 151 in West Weber, which makes the amount coming to West Weber \$54.34. These latter three items aggregate \$233.95, which, subtracted from the \$333.95, leaves \$100. This is the amount which your committee believes the West Weber district should pay to the treasurer of district No. 1 as an adjustment of the property rights and burdens of the two districts. In addition thereto, the property now within the West Weber school district, which is the same property that prior to the consolidation embraced such West Weber school district, should be made subject to the bonded indebtedness of \$1,500, both for the principal and the interest accruing thereon. That no action be taken respecting the claim of Mr. Thomas Etherington of \$112. That is a matter which concerns the West Weber district.

REPUBLICAN CANDIDATES.
The Republican primaries for the nominating of school trustees of the West Weber district were held last evening. They were well attended, especially in the Fourth ward, where 163 people were present.

The principal contest was in the Fourth ward, where Dr. Coulter and Walter Richey were the candidates. The vote stood 85 to 79 in favor of Mr. Richey.

MILLER WANTS DIVORCE.
A suit for divorce has been commenced in the Second district court by John S. Miller, against Cornelia Miller. The complaint alleges that October, 1902, the plaintiff and defendant were married at Ogden City. Since said marriage they have lived at Plain City, Weber county; that the defendant has an ungovernable temper and unbecoming disposition; has called her husband abusive names; that she has beat plaintiff, and Sunday last threatened to poison him, and has in other ways been unkind to him. Wherefore plaintiff asks for a decree of divorce from his wife.

His wife and daughter and small boy seem very poorly in health and have the sympathy of the whole community in the severe loss of the head and professor of the family. He had been suffering for some time for him that could possibly be done, but all failed to restore him.

EVER HAVE IT?
If You Have, the Statement of This Salt Lake City Man Will Interest You.

Ever have a "low-down" pain in the back?
In the "small" right over the hips?
That's the home of backache.
It's caused by sick kidneys.
That's why Don's Kidney Pills cure it.

Salt Lake City people endorse this. Read a couple of it.
Mrs. Robert C. Kirkwood, wife of R. C. Kirkwood, contractor on the Oregon Short Line railroad, residence 424 West 64th South, says:

"An advertisement in a Salt Lake City paper about Don's Kidney Pills impressed me that I asked Mr. Kirkwood to call at the F. J. Hill Drug Co. store for a box because I wanted to try the preparation to see if it would act as other medicines had acted in the past or perform what it promised. After an attack of the grip my kidneys were weakened and easily affected. The pain centered in the small of the back and was particularly severe, rendering stooping or the act of lifting anything but pleasant. My physician told me to keep my back straight, but I had not the slightest doubt but that a remedy for the kidneys, if a remedy at all, should have some effect upon those organs. Don's Kidney Pills certainly did the work of a cure. I will be only too pleased to recommend the medicine when opportunities present themselves."
