

## Special Business Notices.

Geo. Goddard announces some excellent chances to obtain various kinds of real estate. See advt.

JOHN W. ENELL will take old iron and tin at the Depot on Tuesday and Wednesday. See advt.

If you want dry goods at cost, read the advt. of the Schwartz Store.

SAFELY and Certainly that great external remedy, Glenn's Sulphur Soap, removes cutaneous eruptions by opening the pores whose obstruction was the cause of the difficulty. Test and you will endorse it.

PARTIES out of business, or in business for that matter, desiring an opportunity for valuable investment, should read the advertisement of Mr. George Goddard in to-day's issue.

## THE FAIR.

In honor of the memorable Fourth of July, 1876.

the glorious Birthday of our Nation, the Women's Centennial Territorial Fair will open on the Fourth of July.

1876.

at 12 m., in the "OLD CONSTITUTION" Building, a few doors South of C. R. Savage's Art Gallery.

It will probably continue four weeks, opening at 10 a. m., and closing at 8 p. m.

PRICES OF ADMISSION.

For adults, 25 cts.  
For children, 10 cts.  
Except on Saturdays, when each admission will be 10 cts.

E. R. ESKOW, Pres.  
L. A. ASHBY, Sec'y.

MOWING MACHINES.—All those who want to buy a first-class Mowing Machine should by all means call and see W. Anson Woods' improved, at Naylor Bros.

We have also the largest stock of seasoned wagon material in the Territory, as cheap as the cheapest.

AGENCY.—Brother John G. Coltrin is authorized agent for selling the work entitled *Correspondence of Palestine Tourists*, in all the settlements South of Salt Lake County.

HAGAN'S MAGNOLIA BALM is an unfailing prescription for a faultless complexion. Sallowness, roughness, sunburn, moth patches, freckles, discoloration, dark spots, unwholesome paleness, tan, pimples, eruptions, redness and every other kind of blemish disappear like magic by the use of Hagan's Magnolia Balm. A few applications applied with a soft linen cloth will leave the delicate hues of refined beauty and youthful bloom. Its application cannot be detected, and it is absolutely free from all possible harm, warranted purely a vegetable extract from the flowers of Southern France.

Geo. C. FERGUSON, watch maker, 11, First South St., a few doors east of Commercial St.

WHAT a beautiful lot of **Baby Carriages** and so very cheap at Dinwoody's Furniture Store, d125

RED CANYON COAL.—Still the old reliable \$7.75 per ton at the yard, \$7.50 delivered. NO EXTRA CHARGE FOR DELIVERY. Full weight and quality of coal guaranteed. A lasting and true friend for the rich and poor. Try it one and all. Orders always met with promptness and ease. ROBERT SMITH, Agent, Office, 65 Main Street.

THE GREAT EXHIBITION at Santiago, Chili, recently awarded the goods of Frank Miller, Son & Co., New York, the Grand Diploma, over those of all European and American competitors. Frank Miller's Harnes Oil has a wide reputation as the best thing ever made for preserving Harnes and restoring its color. The "Crown" Dressing, for ladies' and children's shoes, and their Improved French Blacking should be used in every family.

LYON'S KATHARON is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Katharon properly.

UNITED ORDER RULES.—Having had frequent enquiries for copies of the "Rules that should be observed by Members of the United Order" since the first edition of the same was all sold, we have lately printed an authorized edition on fine fancy colored paper, on a sheet 12 by 20 inches, suitable for framing or mounting on a stretcher and hanging up in the houses of the Saints. They can be had at this office, or mailed to any address for 10 cents per copy.

GREAT BARGAINS IN DRY GOODS

Selling off at Cost

AT

SWARTZ STORE,

Opposite the Post Office, Dress Goods, Shawls, White Goods and everything in the line to make room for Fall Goods.

Remember all that at Swartz's Store, opposite the Post Office, is the place to secure Bargains.

R. G. NIXON,

MANUFACTURER OF

IRON FRONTS FOR BUILDINGS

Salt Shelters, Wrought and Cast Iron Railings, Stairs, and all kinds of Iron Work.

Also agents for the Metal Co. of Chicago.

215 Park Avenue, ST. LOUIS, MO.

## EVENING NEWS.

Monday, July 10, 1876.

## PRICE OF GOLD.

Varied daily by Denver National Bank. SALT LAKE CITY, July 10, 1876. Buying at \$1.30, selling at \$1.32.

## Local and Other Matters.

Thermometer 88 degrees F. in the shade at 1 p. m. to-day. Fine, some clouds.

Personal.—To-day we received a call from Marcus R. Mayer, Esq., business manager for Miss Rose Eytting, the talented actress, who will appear at the theatre on Thursday night. The lady arrived in the city last evening.

New Clerk.—On Saturday Mr. C. A. Gould, considered his resignation of the clerkship of the Supreme Court, which was accepted and Judge E. T. Sprague, U. S. Commissioner, was appointed to the position.

Sericulture.—The officers and members of the Deseret Silk Association are requested to meet at the Fireman's Hall to-morrow at 3 o'clock p. m. A full attendance is requested, to consider business of importance.

Mrs. ZINA D. YOUNG, President.  
R. SIMPSON, Secretary.

Returned Missionary.—Elder Theodore McKean, who has been on a mission to the eastern States, returned home last evening, after an absence of about nine months.

We made reference to his preaching among the people of various States a few days ago. While away his health was not very good, as a rule, but we hope he will soon recuperate.

Silk Culture.—Alvin Prows writes as follows, from Oak City, Millard county:—

"Being in the silk culture business this summer, I thought I would let you know what success I am having. I hatched out about three ounces of eggs. The work commenced hatching on the 15th of June. They are growing well and doing fine and none of them are dead. I wish to ask whether it would be better to let the millers hatch out and lay eggs, or save the cocoons whole. I wish to know whether the latter will be any safe for eggs this fall and at what price. I want to know what price cocoons are bringing."

Cocoons sold last year for \$2 per pound; the price however, like that of all marketable products, is liable to change, but it is not likely to vary much from that figure this season. We believe there is a good sale for cocoons. We should say that it would be better for the correspondent to lay his seed for next year, and for him to let the millers in the silk, in preference to keeping them for hatching purposes.

Tabernacle Meeting.—Yesterday afternoon Elder Orson Pratt delivered a most comprehensive discourse on the creation of the earth and its final destiny and that of its inhabitants. He clearly manifested the utter absurdity of the religious theory that the Lord created something out of nothing.

He then, in his explanation, given by the Lord to man in various ages he showed conclusively that the earth was created by combinations of existing elements, eternal in their character, and that the various stages of this work of organization were six days, or periods, quoting in this connection the statement of the Apostle Peter, that a day was as a thousand years with the Lord and a thousand years as one day. The seventh, or Sabbath period was a period of rest. These periods were in harmony with the seven thousand years of the temporal existence of the earth, the six of which was nearly terminated, and the dawn of the seventh would introduce the Sabbath period, concerning which all the prophets had spoken. Christ would come, the Saints who had slept would burst the portals of the tomb, clothed upon with immortal tabernacles, and those living in the flesh would undergo a partial change in their bodies, and sin and wickedness would have no place in this creation. The speaker also reasoned upon the final change that the earth would undergo when it would become a celestial body, the eternal habitation of those of its inhabitants who had conformed, in their probationary state, to celestial laws and touched upon the intelligence and happiness that would be enjoyed by the animals created. God had set the times and periods and provided the means of redemption for all his creatures, the plan of salvation being offered to every planet which comes into existence by the word of his power.

Territorial Normal Institute.—There will be a Normal or Teachers' Institute held at the University Building in this City, beginning at 10 a. m., Monday, the 7th day of August next, and continue for a term of two weeks.

The institute will consist of lectures and other forms of instruction upon the branches of study usually taught in our district schools, with special reference to the most successful methods of imparting a knowledge of them to classes, and of securing proper discipline in school.

Instructors for the occasion have been obtained from among the best teaching talent in the Territory, and every arrangement possible has been made for the accommodation and convenience of members of the Institute while in attendance. No charge will be made for tuition, and a reduction in the price of board will be made to members attending from a distance.

To those who come by rail, free return passes will be issued over the Utah Central, the Utah Southern, the Utah Western,

and Utah Northern roads, while return tickets, at one fifth the regular fare, will be sold on the Union Pacific road. It is hoped, if not expected, that every teacher, present and prospective, in the Territory, will be present, while school officers and friends of education are invited to attend.

The following general programme includes such instructions as have already been secured, together with the subjects of their lectures. Additions will be made to this programme of other lectures and subjects relating to education, if circumstances require, or time permits:

Theory and Practice of Teaching, by Prof. L. F. Monch; Reading, with methods, by Prof. Charles Davis; Arithmetic, with methods, by Prof. T. B. Lewis; Geography, with methods, by Prof. Charles Wright; English Grammar, with methods, by Prof. W. H. Rager; Orthography, with methods, by Prof. Milton H. Hardy; Penmanship and Book-keeping, with methods, by Prof. F. M. Bishop; History and Natural Science, by Prof. Karl G. Mauser; Music, by Prof. George Carless; Drawing, by George M. Ottinger, artist; Object Lessons by Miss Ida L. Cook; Elocution by J. L. Rawlins, Esq.

Dr. John R. Park is the director of the Institute, and he has done everything practicable under the circumstances to enable teachers and others in distant parts of the Territory, desirous of attending, to do so at as small an expense as possible. It is therefore to be hoped that all who are engaged in or who purpose operating in the teaching profession will manifest their appreciation of the facilities for aiding in obtaining proficiency thus presented. The Territorial Normal Institute can scarcely fail to give a strong impetus to educational matters if the attendance is large and the studies pursued are of the highest quality.

Gloomy Times Eastward.—Dr. Joseph M. Benedict returned from the east last night. He visited a large number of the principal cities and was greatly surprised to observe the change that has there come over matters generally the last few years. Most of the manufacturing in Connecticut have stopped and the distress consequent, in that State, is deplorable. In New York city the general business stagnation is visible everywhere and in everything. Business streets in which, not long since, one had to wait, on account of their crowded condition, for an opportunity to cross, are comparatively deserted, and pedestrians can walk over from one side to the other without difficulty. Take away the hacks and omnibuses from the streets and the latter would have a similar appearance to what they used to have on Saturdays.

The stagnation enters into every department of business, and money lenders who hold mortgage security on property are afraid to foreclose, notwithstanding they cannot obtain the interest on the money loaned, because the security of property would not bring the amount loaned. People who have been in the habit of depositing money in the banks for security are becoming uneasy and numbers of them are withdrawing.

Stewart's up town store presents a very different scene from formerly. Dr. Benedict visited it several times and he says that where the street in front was wont to be thronged with carriages, scarcely more than one can now be seen at one time, and in place of the one or two hundred customers formerly hourly waited upon by as many clerks, but few are seen at the counters.

Crops in the east are suffering from drought and those of the west from too much water.

Altogether the outlook is extremely gloomy, everybody feels it, and there is a general lack of hope as to the prospect for future improvement.

The Centennial, so far, has proved an unequalled failure financially. The heat is so excessive as to be absolutely dangerous to health and life, and musketoes are more numerous than ever known before, the white walls in sleeping rooms being almost rendered grey with them. The disagreeable combination of mosquitoes and heat places the obtaining of sound rest among the impossibilities.

Another War Meeting.—Another meeting to take into consideration the advisability of raising a regiment of volunteers to go to the seat of the Indian war to fight the Sioux, was held in the Federal Court House, on Saturday evening.

Mr. James B. McKean made a brief speech in favor of the movement, after which he left the chair, on account of another and prior engagement.

Col. Nelson was then called to the chair and Willis P. McBride was appointed secretary.

Col. Maxwell stated that he had notified the War Department that a regiment of cavalry could be raised in Utah, on short notice, of which it was proposed that General P. E. Connor should take command.

Major James H. Nounman and Judge Strickland announced their readiness to raise each company and take up the line of march on short notice, and Col. Farham, of Bingham, said he was empowered to state that 200 men from his camp were ready and willing to tender their services.

Col. Geo. R. Maxwell, Capt. S. A. McMillan and Mr. Frank J. Humphreys, having been appointed a committee for the purpose, reported resolutions of respect to the memory of General Custer, and of condolence with his bereaved relatives, which were adopted.

Broken Limbs.—A six year old son of Mr. William Wagstaff, nurseryman, accidentally broke his leg this afternoon. The same thing happened to a young son of Mr. Hadley, 4th Ward, to-day. Dr. Anderson was called to attend both cases.

Hall Storm at Soda Springs.—A correspondent of the Ogden Journal reports to that paper that on June 21 a severe hail storm visited Soda Springs and vicinity. Hailstones the size of hen's eggs fell for half an hour, making sad havoc of the gardens, killing birds and breaking windows. The heaviest losses were B. Folkman, C. G. Rose, Daniel Law, and the Street House.

Emigrants at New York.—Five hundred "Mormon" emigrants from Europe arrived in New York to-day, and in consequence of the destruction of Castle Garden building by fire, they also started from New York westward to day.

At Lindsey's.—The 7th Ward Sunday School is to spend the day at Lindsey's Gardens to-morrow. Mark invites all hands in the Ward to go free for the day.
