DOREMUS WILL HELP ENGINEER.

City Council Authorizes Mayor Morris to Employ the State Official.

ILLUMINATED STREET SIGNS.

Ordinance Regulating the Hanging of Big Incandescent Advertisements-Small Theaters Receive Attention,

The city council last evening adopted the report of the special water committee, recommending that Mayor Morris be authorized to employ State Englneer A. F. Doremus as consulting engineer to City Engineer Snow during work on the proposed water improve. ments to be made by the city for the substantial increase of the water supply. The committee's repot stated that Mr. Doremus had been called in with the consent of Mr. Snow and had given the committee valuable assistance for several weeks past while it was formulating its plans,

ELECTRIC SIGNS.

Chief Bywater of the fire department and City Building Inspector Lewis are responsible for the introduction of an responsible for the introduction of an ordinance regulating the hanging of electric signs on the streets. The ordinance was drawn by Assistant City Attorney Hramel and is modelled after the chicago and Cleveland ordinances on the same subject. Following is the main portion of the measure which was received by the council.

main portion of the measure water passed by the council;
Signs in which all or part of the letters of which are made in an outline of incandescent lamps, transparent glass signs illuminated with electric lamps, and signs with painted or raised letters having a border of incandescent lamps.

The number of incandescent lamps on of incandescent lamps or such sign shall not be less than one lamp to each one and one-quarter square foot of sign surface on each side exposed: provided, however, that no sign shall project from the building to which it is attached across any sidewalk, etreet, avenue or alley to a greater distance than 10 feet. No signs now er distance than 10 feet. No signs now in position or hereafter placed in position on a building shall exceed in width four feet, including all guys and brace rods. All signs must be put up under the supervision of and to the satisfaction of the building inspector, who will issue permits for the same, and collect the following fee therefore. Efficient controls. he following fee therefor: Fifteen cents per square foot for each and every il-juminated side of such electric sign.

The ordinance provided for the signs to project out 13 feet but Neuhausen's amendment changing it to 10 feet was passed and the ordinance was changed

THEATER FIRE PROTECTION.

An ordinance was introduced by Hartenstein amending the measure reg-ulating fire protection in theaters and other public places. The former ordinance applied to places with a seating capacity of 500 or over. The substitute inance includes theaters and other places with a capacity of 200 er. By the change it will be seen that the vandeville theaters will be in uded. The ordinance was referred to the committee on fire department with

ASSISTANT CITY PHYSICIAN.

Hartenstein also introduced an orfinance providing for the employment of an assistant city physician at a sclary of \$50 per month whose duty will be to assist City Physician Wilcox and attend to emergency cases at the city jail. E. H. Davis opposed the or-dinance and wanted it filed. After some argument on the matter the ordinance vas referred to the committees on mu picipal laws and sanitary regulations. WANT J. H. BAILEY TO PAY.

Upon the recommendation of City At torney Dey, the council voted to pay the judgment of \$4.408.06 secured by Minnie V. Cannon against the city for injuries received by falling over an obstruction on the sidewalk. The case was appealed to the supreme court where the judgment of the lower court was affirmed. The attorney also stated that he had taken steps to hold J. H. Balley liable for the amount as the injury was caused by a gate falling

across the walk in front of his prem-SALOON A NUISANCE.

complaint was received from the Old Fellows against the saloon on the corner of East Temple and Market streets which, it is claimed, has become a nuisance because of the indecent conduct of persons who frequent it. The matter was referred to Chief of Police Lyach for investigation.

SECOND AND O GRADE. resolution was introduced by Tudenham providing for the grading of Second and O streets down to the grade established for the sidewalks on rner. At present the walks are in a hole five feet below the The resolution also appropriated \$25 for putting in steps from the walk to the property of J. F. Cowan. The resolution was laid over for one week to allow the councilnien an opportunity to visit the location, as some of them were of the opinion that the grade of the sidewalk should be filled

MORE CLAIMS.

The claim of Eugenia Kimball and others for \$6,500 for injuries to their property by reason of the change in grade on north East Temple street was eferred to a committee for considera-

An appropriation of \$500 was asked by City Engineer Snow to defray the expense of revising the street and sidewalk grades established a number of years ago. He also reported the re-calpts of his office for the first 10 months of the year to be \$4,810.39. Dr. C. M. Benedict submitted a claim. of \$100 for emergency calls made by aim for the city from March 15 to Nov.

At the conclusion of the session the council took a recess until Wednesday evening at 7:30 o'clock when the payrolls will be approved.

Judge Lewis' court yesterday afternoon, and was sentenced to four months and three days in the county jail. Burns pleaded guilty to the charge before Judge Diehl in the city court on Oct. 1, and was sentenced to six months, and as he has served time since that date, Judge Lewis made the sentence the same as Burns received in the lower court. The attorney for the state, Assistant County Attorney Dana T. Smith, objected to the case being tried. date, Judge Lewis made the sentence the same as Burns received in the lower court. The attorney for the state, Assistant County Attorney Dana T. Smith, objected to the case being tried on appeal from the lower court for the reasons that the defendant had pleaded reasons that the defendant had pleaded gullty and had filed no bond on appeal. The objection was overruled by Judge Lewis, and Burns was tried, with the result stated above. The defendant and a man named Baxter received some clothing and other property which had been stolen from D. H. Peery and others by C. G. Raymond. Raymond is now serving a term of six years for burglary.

PUBLIC SCHOOL SYSTEM.

Judge Frick Makes Address on Subject at Congregational Church.

Judge J. E. Frick made an address last evening before the Men's club of the First Congregational church on the relation of the jubile school system to the American citizen. The speaker held that the only cure for certain increasing national evils is to be found in the public school system, and urged that it he developed and protected from unduo religious influences. In the past the foreigner has had an incentive to become a good citizen by being given a share in the public domain, but if will not be many years before the public domain will be exhausted, and some other agency must be found for the assimilation of the foreigner. The start should he made with the child, and so it is in order for the passage of ordinances requiring the attendance of children at school between the ages of 8 and 11 if a child is seen on the street during school hours, it should be the duty of citizens to ask why is not that child in school.

Judge Frick suggested that children in and above the fifth grade be instructed the jublic school system to the American

Best Liniment on Earth. Henry D. Baldwin, Supt. City Water Works. Shullsburg. Wis., writes: "I have tried many kinds of liniment, but I have never received much benefit until I used Ballard's Snow Liniment for rhaumatism and pains. I think it the best liniment on earth." 25c, 50c, \$1.00. Sold by Z. C. M. L. Drug Dept.

AUDIBLE GUM CHEWING

Practical Demonstration of Wonderful Acoustic Properties of Tabernacle.

The acute acoustic properties of the Tabernacle were illustrated at last evening's concert in a somewhat striking, if not annoying way. Two couples chewing gum and laughing and talking, sat by themselves in the middle of the south gailery. They probably did not realize it, but their noise was heard over the rear galleries and sadly married the beautiful violin solo in the first part of the program. Finally the outfit got so bad that an usher had to go over where they were and war them to dealst. They had the good sense to obey.

A NATURALSANITARIUM.

What a Scientific Observer Has to Say About California. Lieut. John P. Findley, while in charge of the United States weather bureau at San Francisco, contributed an article to a prominent magazine on the climatic conditions of California, in which the following statement ap-

Theoretically, California should furresert and sand most varied health resert and sandarhums in the United States. Within her borders almost every form of wasting disease should find the means of temporary, if hot perma-

This theoretical statement, from an unbiased, scientific standpoint, is abundantly confirmed by experience. The cool and bracing coast climate, devoid of any trace of malarla, extends from the northern part of the state to the extreme south. There is the choice be-tween this cool, humid atmosphere and the dry, warm atmosphere of the inland valleys.

Of altitude there is yet a greater difference. From Plain Valley, 300 feet below sea level, to the upper Sierras, 7,000 or 8,000 above, any altitude can be selected, and comfortable homes be

The peculiarity of an almost rainless summer, during which the injurious germs of animal and vegetable decay are destroyed by thorough dessication, one of the striking features of California climate.

During the rainy season it is usually too cool to facilitate fermentation, and the result is, except along some of the river vaileys, an absolutely pure at-mosphere. The ocean winds entering mosphere. The ocean winds entering through the several coast openings, are tempered by the intermediate area passed over, and often receive desirable healing properties by taking up the resinous odors of the pines and redwoods of the coast range.

woods of the coast range.

The skilful physician, acquainted with the cimatic conditions, should find little difficulty in selecting a locality where climate and environment will do all that these agencies can ever do toward the restoration of health. There is crough of wildness to keep the mind constantly engaged, and enough of civ-likation to satisfy the most exacting. People whose systems are charged with malaria, or are "run down" by overwork, find immediate and in many cases permanent relief in this invigor-
