

AMERICANS VISIT BRITISH WARSHIP

About Five Thousand People Went
Aboard Rear Admiral Prince
Louis' Flagship Drake.

ALL CLASSES WERE ADMITTED.

Respectability of Appearance Only Re-
quirement for Admission—Visitors
Interested in Portable Ballroom.

New York, Nov. 12.—Five thousand persons visited the armored cruiser Drake, flagship of Rear-Admiral Prince Louis of Battenberg, between the hours of 1 and 4 o'clock today. A crowd numbering half as many more arrived after the ship had been closed to visitors for the day. The prince spent the morning quietly, went for an automobile ride in the afternoon and tonight was the guest of Mayor McCallan at dinner.

A mistake about the hour at which morning service began prevented the prince from worshipping in Old Trinity, as he had planned. Thinking service began at 11 o'clock, he made arrangements to leave the ship at 10:45. Just about that time he received a note from the British consul-general, informing him that 10:30 was the hour for service, and asking the cause of his delay.

The prince regretted the mistake and rather than put in an appearance when the service was half over, decided to remain on board, and spent the remainder of the morning answering some of the letters with which he has been flooded since his arrival here.

To the keen appearance of the prince, his remarks several days ago about the disastrous effect upon the tall buildings in New York of the continued fire of the warships, anchored in New York river have been misinterpreted as a criticism of New York defenses. In reply to the direct question, "Do you think the combined fleet of vessels from their anchorage in the North river could destroy the tall buildings in New York?" he prince said he certainly did think such a result would follow a bombardment directed from the fleet.

Naval officers of both squadrons regret that the remark should have been misinterpreted or incorrectly reported. "It is like asking, if you touched a match to a haystack, would it burn?" he prince said. "As a matter of fact, there is no reason why any naval force should seek to destroy buildings which could easily be reconstructed. I desire that this matter be put correctly, for an impression has been made which I had not the slightest notion of conveying."

The daily interviewing of the prince, although he had taken it patiently and good naturedly, is becoming irksome to him.

The admiral's quarters were the only part of the Drake which were not open to the crowds of visitors today. The officers on duty were most kind in their attentions to all visitors, and officers and men devoted a great deal of time to answering questions and showing the visitors all about the ship. When 1 o'clock came a double line of people was formed along half of the pier and was kept moving throughout the three hours the ship was open to the public. Practically everybody in the crowd was allowed on board, apparent respectability being the only requirement for admission.

The visitors were much interested in the portable ballroom which has been put in place of the continued fire of the Drake. It is enclosed in heavy red and white striped canvas and the interior is decorated with British and American flags. The first dance in the ball room will be given tomorrow evening, when the warrant officers of the Drake will entertain 200 warrant officers from the other American and British warships.

The grand ball which the prince gives on Tuesday night will be a brilliant affair. Tomorrow night the prince and Admiral Evans with their flag and command officers, will attend the dinner at Coney island, which the American bluejackets will give the British sailors. The commanding and junior officers of the British and American squadrons are being constantly entertained in New York by friends at luncheons, dinners and theater parties. The warrant officers of the American squadron are also entertaining the British warrant officers extensively.

Inter-Church Conference Opens.

New York, Nov. 12.—The Inter-Church Conference on Federation will open its sessions Wednesday at Carnegie hall. Among the speakers during the week will be Justices Harlan and Brewer, of the supreme court of the United States, and Bishop Henry W. Warren of Denver.

French Cabinet Changes.

Paris, Nov. 12.—The council of ministers reassembled today and made the following alterations in the new cabinet, which was rearranged yesterday: M. Thompson, upon his personal request, so that he can continue his work

CURE SICK HEADACHE.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained

When cheerful, brave, light-hearted woman is suddenly plunged into the perfection of misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts"

for some time; head has ached and back also; has slept poorly, been quite nervous and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her menstrual period she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right" and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Mrs. Rosa Adams, of 819 14th Street, Louisville, Ky., niece of the late General Roger Hanson, C.S.A. She writes: Dear Mrs. Pinkham:

"I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme nervousness, the blues, nervousness and that all-gone feeling. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it not only cured my female troubles, but has restored to me perfect health and strength. The buoyancy of my younger days has returned, and I do not suffer any longer with despondency, as I did before. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

In the execution of the new naval program, keeps the marine portfolio. Mr. Hubert, minister of commerce, becomes minister of the interior. Otherwise the new cabinet remains unchanged.

The Journal (official) tomorrow will publish this ultimate ministerial combination over the signatures of President Loubet and Premier Rouvier.

NAVY PAYMASTERS.

Competitive Examination for Them

To be Held in Washington.

Washington, Nov. 12.—A competitive examination will be held at the navy yard, in this city, during January next to fill 12 vacancies in the grade of assistant paymaster in the navy. Applications for permission to take this examination will be received by the assistant secretary of the navy up to and including Dec. 15.

The merit system recently inaugurated has been found so successful that the navy department has decided to secure the best material for navy pay officers that Secy. Bonaparte has determined to continue the plan and has filled all vacancies in the pay corps with men selected from the general merit and apparent aptitude of the candidate without reference to any consideration whatever. Applications are being received in considerable numbers from young men all over the United States, who realize that if they are within the legal age—more than 21 and less than 26—of fair education, good intelligence, perfect physique and untouchable character and are able to give even months will determine whether they pass and also the rank they secure.

An assistant paymaster is a commissioned officer in the third and second grades of seniority, which corresponds in grade and pay to a second lieutenant in the army, the pay of an assistant paymaster being \$1,540 per annum at sea, or \$1,320 per annum and quarters on commutation, therefore, a \$21 per month while on shore duty.

A MYSTERIOUS BURGLARY

At Besley Hall, Episcopal Theological Seminary, Gambier, O.

Mount Vernon, O., Nov. 12.—Sheriff R. S. Clements and Officer George Lewis were called to Gambier this morning to investigate a mysterious burglary at Besley Hall, the Episcopal theological seminary. Last night when John Brooks, a student here, and a son of Bishop Brooks of Oklahoma, returned to his room he found his roommate, J. E. McGavery, bound hand and foot and gagged with a towel.

McGavery, who is also from Oklahoma, according to the report told the sheriff, did not know that his room had been entered until he awoke and found himself helpless on the floor. He reports the loss of a small amount of money and a fine wrist ring.

On his breast was pinned a note which read: "This will do for this time, but if we come again it will be worse." The student says he does not know that he has any enemies. The whole affair is veiled in mystery.

Italy to Have Wireless.

Rome, Nov. 12.—Signor Gullerotti, minister of Posts and Telegraphs, has appointed a commission under the presidency of Senator Hazarna, to study the development of wireless telegraphy, with a view to the establishment of 10 wireless stations in principal commercial points of Italy, to be used for the public service.

American Mining Congress.

El Paso, Tex., Nov. 12.—Secy. Callbreath, several members of the executive committee and a number of delegates are already here to attend sessions of the American Mining congress, which opens Tuesday morning. The convention hall is in readiness, and the machinery displays in place. There is every indication that a big crowd will be here.

Uniform mining laws for all mining states and a department of mines and mining with a representation in the president's cabinet will be the principal matters acted on by the congress.

Oppose Selling Painting.

Brussels, Nov. 12.—Much opposition has developed to the reported intention of the authorities of St. Martin's church at Olost to sell to Andrew Carnegie for \$300,000 the famous painting by Rubens of St. Roch interceding with the Savior to appease a fine upon the town. Leading artists are seeking to induce the government to buy the painting. The

church authorities want money for the restoration of the edifice.

BRANCH'S DEATH.

Investigation Promises to Reveal

Pugilism is Encouraged.

Washington, Nov. 12.—The death of Midshipman James H. Branch at Annapolis as a result of injuries received in a prize fight with Midshipman Merriweather is expected to result in a sweeping investigation, which promises to reveal the fact that pugilism is encouraged and abetted in the navy by officers, from the rank of admiral down. Furthermore, the tragedy at the naval academy has called attention to the fact that President Roosevelt himself had done much to put prize fighting among the men of the navy on a popular standing.

Early in the president's administration he took up the question of physical exercise and athletic sports on board the warships, and had baseball, fencing, boxing and other gymnasium equipments placed on all the vessels. His well-known preference for boxing regulated in making the supply of boxing gloves especially liberal.

Naval officers freely admit that there is a regular code in the naval academy that has sanctioned prize fighting as a means of classroom obtaining satisfaction for students from other members of the academy. Admiral Robley Evans is cited as an enthusiastic patron of prize fights among his men. He not only attends these bouts according to the officers, but he has been known to have contributed to the purse and made side bets on the outcome.

If investigation as a result of young Branch's death is forthcoming it will disclose these and even more startling facts is the prediction here.

RHS MEMORIAL HOUSE.

Colorado Springs Women Con-

tribute to Raise Mortgage on It.

New York, Nov. 12.—A small purse of gold has been received at the Jacob A. Riis Neighborhood Settlement from the women of Colorado Springs, as a contribution toward the sum now being raised in memory of Mr. Riis wife to pay off the mortgage upon the house. From the middle-west and from the Pacific slope contributions have been received and the managers announce that half of the sum of \$30,000 known to have been contributed by Mrs. Riis wife to pay off the mortgage upon the house.

This is the condition imposed by John D. Rockefeller, who has promised, if this is done, to repair and remodel the two old dwelling houses on Henry street, which the settlement occupies, at a considerable cost.

BOIST BY ITS OWN PETARD.

Another Japanese Merchantman

Blown Up By a Floating Mine.

San Francisco, Cal., Nov. 13.—Another Japanese merchantman has been blown up by a floating mine adrift off the coast of China. News of this second disaster was brought here by the Pacific Mail steamer China which arrived yesterday from the Orient. The ship lost was the Mitsu.

The vessel struck the floating mine off Kinchow on Oct. 12. Only one seaman was drowned. News of the disaster was received by the officers of the China at Yokohama.

ADMINISTRATION CONCERNED

ABOUT SITUATION IN CHINA

Chicago, Nov. 13.—A dispatch to the Tribune from Washington, D. C., says: More concern is felt by the administration regarding the general situation of affairs in China than is understood by the American people. In spite of the assurance which Sir Chen Tung Lang Cheng, the Chinese minister, gave in his speech at Chicago Saturday night that his government and its subjects were "naturally most friendly inclined" towards Americans and their interests, Secy. Root has deemed it advisable to warn the authorities in Peking against further propaganda, such as that which was observed during the boycott agitation.

To impress the natives of the southern provinces, in one of which Kwangtung, five American missionaries were murdered some days ago, Rear Admiral Train, commander-in-chief of the Asiatic fleet is collecting a strong force in the vicinity of Canton. He cabled the state department Saturday that he had left Shanghai with the battleship Ohio and the transport General Alva, which has marines aboard.

A general uprising against foreigners, such as occurred during the Boxer rebellion, is not apprehended. But the boycott movement, initiated last summer, has gained such headway that it has been found almost impossible to check it.

BRUTAL TREATMENT.

Stood Man on His Head for Thirty

Hours to Aid Heart Action.

Chicago, Nov. 13.—A dispatch to the Tribune from Toledo, Ohio, says: After having been stood for 30 hours on his head to stimulate heart action, Frank Perry died last night from a large dose of arsenical taken by mistake for whiskey.

In their first efforts to assist him, his family discovered that when he was held head down the heart action was slowing.

So they kept the poisoned man in that position and kept on administering antidotes until he died.

CHURCH CLUBS.

Movement for Their Federation

Formally Inaugurated.

New York, Nov. 13.—Indorsed by Co-adjutor Bishop Greer, a letter from whom was read in all the Protestant Episcopal churches of this city, there was formally inaugurated yesterday a movement for the federation of church clubs which has some novel features. Not the least interesting of these is the

fact that the order of service for the meetings contains two special prayers, one for the nation and one for the city and a litany for the society.

At present the federation is sectarian in that the clubs which are being federated all belong to the Protestant Episcopal church. It is expected that ultimately, however, when its usefulness has been established, all the other denominations, including Roman Catholics and Hebrews, will join.

Forty parishes will be represented by clubs which will attend a meeting which will be held in Cooper Union next Thursday evening. Bishop Greer will deliver an address. Rev. Dr. Henry L. Votter of this city has been chosen president of the federation.

ALFRED BENJAMIN & CO. GARSON MEYER & CO. SUPERIOR TAILORED CLOTHES

Because they excel all others in quality of fabrics and workmanship. Correctness of cut and design and perfection of fit and finish. Stylish sack suits in single and double breasted design.
