

Some Changes in Amusements as Planned to Catch the Volatile Pleasure Seeker.

### NEW FEATURES AT SALTAIR.

### Local Company to Operate an Amuseanent Venture-Wandamere, Lagoon and Other Propositions.

As the summer season approaches, the matter of amusement offerings by the various pleasure resorts begins to demand attention. It may safely be forecasted that the coming season will be the hanner one in the way of amusements in the experience of Salt Lake, and the question will not be where one can go to enjoy a day's outing, but which shall be the one to choose from, as preparations are under way to make of every resort a place where the citizen may take his family for a pleasant day's outing.

At the head of the list easily stands beautiful Saltair. With the water in the lake at a higher point now than it was last July, with the building of 200 new bathhouses which Manager Langford says is now in progress; with the erection of 1,500 square feet of fine 2-inch fir platform; with a new skating rink resort, a world's touring car for a new special feature, and the further fact that a boat may be haunched from the pavilion fusiead of tramping out to the end of the pier for the purpose, gives prospect for a suc-cessful season at the resort on the shores of the lake. To care for the additional business anticipated. Man-ager Langford says two fine new up-holstered cushion coaches and two new chair cars have already been added to the equipment, and while the schedule of trains has not yet been made up-there will be a sufficient number of trains to properly handle all the busi-ness that may come to their hands. The Saitair season will open up with taken that the moral tone of Saltar will be preserved, and nothins of a rowdy or disorderly mature will be tolerated at the resort. further fact that a boat may be

At the resort. A new feature at Saltair this season will be the world's touring car, to be put in by a company of local anuse-ment people. The company is incorpo-rated for \$19,000, fully paid, and the entire capitalization has been employed to establish this feature, which will be rated for \$10,000, fully paid, and the entire capitalization has been employed to establish this feature, which will be first class in every respect. J. Q. Critchlow is president of the company. Willard Scowcroft vice president, and J. H. Garrett, secretary and treasurer, and these, with Stephen L. Richards and G. E. Garrett, form the director-site. The new touring car is built on the latest plan of palace buffets, and contains seats for 85 people. The effect of traveling is produced by vibration under the car, and kinodrome views of different parts of the world are shown, with appropriate lecturer. Mr. John Boulby, of indianapolis, who has had charge of some of the largest parks and amuscincipt enterprises in the country will have charge of this feature. All the enterprises of this firm, in-cluding the Old Mill, the Figure S, etc., will be maintained in a manner worthy the patronage of all. the patronage of all.

WANDAMERE. Enchanting Wandamere will come in for its share of the public patronage this year. The beautiful wooded bow-ers and romantic lakes of this pleasing place will offer an ideal place for an atternoon's recreation in the hot sum-mer days and the management bas

PROMINENT PHYSICIAN Secures New Pine Product-A Boon to Consumptives and People With Severe Coughs and Colds-Heart of Tree is Cut Into Small Blocks.

The heart of the tall pine tree is cut into small square blocks. This is the varied pursued by a prominent phy-sician in his process of obtaining what is known to druggists and doctors as Concentrated oil of pine. Subsequent-by the vital juices are extracted by indraulic pressure and go through a refining and condensing process, and yield this wonderful curative oil of which a great deal has recently been written. It has proven a most certain remedy for lumbago and uric rheuma-tism. It also makes a splendid salve to be applied externally by mising it with lard or vaseline. But for the quick cure of coughs and colds it has no equa. For this purpose one-half curace of the Concentrated oil of vine is united

To this purpose one-half ounce of the Concentrated oil of pine is mixed with two ounces of giveerine and half pint of good whisky. Must be well shaken and used in tablespoon doses

shaken and used in tablespoon doses every four hours. It should be borns in mind that the real Concentrated oil of pine comes put up in small half-ounce bottles, each enclosed in a round screw top case and sailed. This case is intended to pro-teet the contents from the atmospheric changes. There are several patent medicines put out by chemical houses that use a similar name and package. These a similar name and package. These are frequently dangerous but can be avoided by inaking sure to get the "Concentrated" oil of pine. It will be found in the prescription depart-ment of every first-class druggist.

## G. L. HICKEY GOES TO S. P.

#### Well Known Salt Laker Joins Purchas ing Department Forces.

George C. Hickey, formerly chief clerk to E. E. Celvia, car accountant and later trainmaster of the Montany division, Oregon Short Line, has been appointed to a position under General Purchasing Agent Ira O. Rhoades of the Southern Pacific at San Francisco Mr. Hickley is well known here and only recently returned from Peru where he was assistant superintendent Cerro de Pasco railroad under H. S. Kerr

### SURVEYORS AT ORCHARD.

#### Short Line Engineers Working on Boise Main Line Proposition.

(Special to the "News.")

(Special to the "News.") Bolse, March 25.—For several weeks past a parity of surveyors has been lo-cated in south Bolse making surveys of the proposed line of the Oregon Short Line railroad, which has for its object the putting of Bolse City on the main line. This proposition how seems to be quite a sure thing. The aurveying gang is now moving to Or-chard, the point where the diversion from the present line will be made to sweep around through Bolse. Of course, it is not anticipated that the present line through Nampa will be abandoned. Through breight trains will travel that line, while the pas-senger trains and freights designated for Bolse will all run into the capital city.

# THROUGH FLOODED DISTRICT.

#### Passengers Arriving From Los Angeles Have Thrilling Stories.

Passengers who are now beginning to come through from the coast re-port landslides, floods and washouts galore. Some have been on the road from Los Angeles since last Monday from Los Angeles since last Monday and are utterly worn out with their experiences. Among the first to get through was Tudor Cameron, together with three of the Orpheum acts on this week's bill. Mr. Cameron who is quartered at the Wilson states that the railroads in California were demoral-ized when he left Los Angeles with re-ports of cave-ins to tunnels and other incidents. Tourists are in Los Angeles he says, chamoring for berths on trains that are not running and thight gen-erally are in bad shape. that are not running and ingus generally are in bad shape. "The worst stretch we passed through," he said, "was after we left Sacramento, where the lines run through the lowlands prior to starting on the mountain climb. For miles we went at a snall's pace through water and as far as one could see on either on the mountain climb. For miles we went at a small's pace through water and as far as one could see on either hand was water with trees, barns and houses sticking out. For a long stretch we went through water that was up to the second step of the Pull-man and the fashion in which that car swayed made us all very nervous. If it was only going at five miles an hour After we left the lowlands the climb up the mountains this rold in com-parison, even in the face of the fact that we had trouble in the snowsheds "Coming down the eastern slope we ran into more water and gazed on the Truckee river that was raging beside the track. At Reno thousands of men were at work dumping rock and build-ing temporary tracks over the wash-outs while all hands were tinkering around the steel railroad bridge that had shifted slightly and threatened to go by the board. "Across Nevada the train made good progress, but at the Lucin cut-off there was more trouble with a hive of men dumping rock on the west shore of the lake, where the big waves driven by the south wind were booming in great shape and smashing against the grade."

SERVICES AT THE TABERNACLE

DESERFT EVENING NEWS MONDAY MARCH 25 1907

Elder B. H. Roberts Addresses a Large Congregation on Development of America.

## HERITAGE OF JOSEPH OF OLD.

Speaker Affirms Western Hemisphere Is Zion, and Goes on to Tell Why it is So.

That the whole of North and South America is Zion, and that the same is the horitage of Joseph, son of Jacob, was the contention of Elder B. H. Roberts in a discourse delivered at the Tabernacle vesterday afternoon. There was a very large congregation in attendance, and the speaker commanded the undivided attention of his listeners throughout an address that lasted upwards of an hour. President John R. Winder presided over the services, and the choir sang "Tho' Deep-"ning Trials Throng Your Way," "An Angel From On High," and "Unfold Ye Portals Everlasting," Elder John M. Knight affered the invocation, and Elder Hyrum M. Smith pronounced the

benediction. Elder Roberts said that from September to December of last year he had traveled some 11,000 miles, chiefly within the confines of the United States. The first 3,000 miles of his journey was in the arid and semi-arid regions of the west, and the area traversed was so extensive that one might imagine that the whole of the United States was

more or less barren. He next passed through the fertile sections lying east of the Rocky mountains, and as the fast train carried him for days and nights past well tilled fields, fruitful gar-dens and verdant meadows, it seemed as though the whole face of the land was fertile and yielding abundanily. Soon the manufacturing centers were reached in the middle, New England, Atlantic and southern states, where the glow of furnaces and the hum of re-volving wheels told of unceasing ac-tivity and prospectiv on every hand. Great as is the development of the west, that of other portions of the coun-try is no less satisfactory, he said. through the fertile sections lying east

oreat as is the development of the west, that of other portions of the coun-try is no less satisfactory, he said. The agricultural condition of a com-mon wealth is ever a test for other in-dustries, declared Elder Roberts. He proceeded to show the vast gains that had been made during the last three or four decades, along industrial lines. In the value of farm products, in the out-puts of coal, iron and steel, and in rail-road mileage, the increase had been astounding, and the United States is today easily in the lead of the world in the directions indicated. If the present ratio of increase in popula-tion is maintained, by the mildle of the present century the people of this na-tion will number 200,000,000. And it must not be forgotten, said Elder Rob-erts, that in all this material prosperi-ty and growth. South America, Mexi-co and Camada are close rivals to this republic.

ants.

What have these facts and figures to do with a congregation met on Sabbath day to receive religious struction?" asked Elder Roberts,

answered the question by saying that since his return from the journey partially described, he had a higher conception of and more appreciation Conception of and more appreciation for the great country of his adoption— Zion, the land of Joseph. He told the story of the son of Jacob who was sold into slavery and of his rise to promi-nence after having passed through much tribulation. Reference was made to the blossing personneed by Jacob

Lovers of good music will be glad to hear that the management of the coming music festival has extended the time for securing season tickets at subscribers' rates for one week more, ending Saturday of this week. The sale has been going at the Clayton Music company, and has been quite gratifying. Seldom in the history of this city have we had the opportunity of hearing such music, by such artists, as that arranged for this great musical event, at such low prices of admis-sion. On the first night (Monday, April 8), "Hiawatha" will be given by the Chicago Symphony orchestra, and soloists, and the festival chorus. The second night, the "Messlah" will be rendered by the orchestra, and solo-ists, the great organ, tabernacle choir and the Festival chorus. On the afternoon of the second day a miscel-laneous program will be given at 2:15 by the orchestra and soloists. The sale has been going at the Clayton Leaves an Estate Valued at \$50,000 to The will of James Hegney together with two codicils was filed in the dis-trict court today. The petition for etters testamentary was filed by Mrs. Hegney on Saturday. The estate con-sists of real and personal property valued at \$50,000. The will and the codicils provides that the property shall be held in trust by Mrs. Hegney and Bishop Lawrence Scanlan for the

atterpoon's recreation in the not sum-mer days and the management has taken care that nothing but first class attractions and high class amusements will be offered to the public. Under the new regime, Wandamere has descryed and will continue to receive a large portion of the favor of the Salt Lake public. public.

#### LAGOON.

A lot of men are working on Lagoon to bring it into shape to keep up its en-viable reputation as a high class sum-mer resort, and to repair the damages done by the high winds of last fall. All done by the high winds of last fall. At the buildings are being repainted and brightened up, new features are to be added, including Hale's touring cars scenic railway, etc., and the same or-chestra that made the dancing at La-goon famous iast year, under the direc-tion of Prof. Youngdale, will again oc-cupy the bandstand at that resort this year. The Salt Lake & Ogden Railroad has added to its equipment and all the cars to be used in the Lagoon business have been painted and spruced up and will be ready for business on the open-ing day of the season Decoration day. SALT PALACE.

#### SALT PALACE.

SALT PALACE. As of yore, the chief feature of this popular resort will continue to be the saucer bicycle track and the big bike races to be publed off during the season. The management is making all prop-arations for a heavy season's run, and the track has been repaired and put into good shape for the fastest time possible to be made by riders of the wheel.

wheel. Altogether it would seem that the Salt Lake public will experience no lack of choice when it comes to summer amusements, and this is a source of congratulation to said public, as well as the various resorts, and all indications point to a prosperous and enjoyable summer season. nence after having passed through much tribulation. Reference was made to the blessing pronounced by Jacob upon Joseph and upon his sons, Ephraim and Manasseh: also to the subsequent blessing given by Moses to the tribe of Joseph. His heritage was greater than that of all his brethren combined. But where are to be found evidences of the fulfilment of the prophetic utterances concerning Jo-seph? All the tribes are supposed to be lost, except that of Judah, and he is known mostly for what he has suffered. Is Joseph with his seed, annihilated and are the promises vain that were made to him? The Latter-day Saints proclaim to the world, said Elder Roberts, that de-scendants of Joseph were planted upon the western hemisphere, upon the soil given to their father as an everlasting inheritance. Here they built cities as great as ever existed in the old world, and here arose men who rivaled in wisdom and valor the sages and war-riors of the east. If the promises made to Joseph have never been fuifiled at all, and there can be no hope of their consummation in the fu-ture said the speaker. The gospel is for all nations, but it has a special blessing for the house of Israel-the gathering of the scattered ribes. It is meet that he who through faithfutness became the first born should first be gathered. It was said of him that he should push the people to greatness and grandeur of Ameri-ca above all other lands are comparable to those received by his brethren.

The greatness and grandeur of Ameri-ca above all other lands are comparable to the superiority of Joseph's heritage at the superiority of Joseph's heritage to those received by his brethren. The Prophet Joseph Smith pro-claimed, as did also his brother Hyrum, that Zion comprises North and South America. Elder Roberts said that he sometimes wonders if too narrow a view is not generally taken regarding what Zion really is. Why should stakes not be formed in eastern and southern states, as well as in the west and in Mexico and Canada? The pres-ent is a period of industrial expan-sion and it should be also a time of religious expansion in this great coun-try. The work of God is for the up-lifting and redemption of mankind, and schemes and conceptions for political control have no part nor parcel there-in.
