NOTICE.

To whom it may Concern:

THERE will be a meeting of the holders of land in the Willow Creek Irrigating District, in the First Ward School-house of the city of Ephraim, on the 1st day of November, 1879, at 7 o'clock p.m., to vote "yes" or "no" upon the following questions:

1. Do you mutually agree to pay 10 cents per acre land tax?
2. Do you approve of the action of the mass meeting in the election of officers?

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in the city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cash rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, Cheaper than any other Watchmaker's in Salt Lake City.

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

CARL C. ANNUSSEN,

Per J. NEILSEN, Manager.

Lake City, Sept 4tm

For You,

Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

BRIGHTENING BUSINES'.

Figures Won't Lies.

NEW YORK, 22.—The splendid record of the Clearing House Exchange given below, surpassing in the rapidity of increase that of any other week for six years, and probably for a much longer time, is sufficient answer to all doubts as to the solidity and reality of improvement in business.

Only two cities out of nineteen show any decrease in the amount of exchanges. Six cities, and among them several of the largest, show gains of more than 50 per cent. The increase at New York, in part is due to speculative operations both in stocks and in grain, but the increase at other cities is large enough and general enough to remove all doubt as to the character of the movement.

The *Public's* weekly table, to be published to-morrow, shows the following:

LOSSES.

San Francisco	52.8
Syracuse	16.1

GAINS.

New York	84.8
Boston	41.1
Philadelphia	66.9
Chicago	53.5
Baltimore	46.3
Cincinnati	75.4
St. Louis	17.5
Milwaukee	96.4
New Orleans	66.3
Louisville	37.5
Pittsburg	29.5
Providence	12
Kansas City	41.6
Cleveland	35.3
Indianapolis	55.5
New Haven	16.8
Lowell	27.9

The *Public* thus comments: Looking at the startling increase in the volume of business at some cities, one is tempted to ask if a corresponding advance in the price of stocks and bonds of important railroads is, after all, wholly unreasonable. If the traffic of Milwaukee, for example is 95.4 per cent. larger in the aggregate than that of last year, would it not be stranger if there were not a similar increase in the value of roads by which the traffic of that city is mainly carried on? The increase here, exclusive of exchanges arising from stock operations, is about 54.5 per cent.

San Francisco is a point of exceptionally low exchanges, and the depression there is due to local and well known causes. We believe that the aggregate of exchanges has never exceeded $1,000,000,000 in any previous week since the clearing houses were first organized.

It is not strange that men in every branch of trade and manufactures are encouraged and confident when there is indisputable proofs that such marvelous improvement in almost every part of the country has already followed a return to specie payment.

The aggregate total of business transactions for this week, this year is $1,033,000,000 against $601,000,000 the corresponding week last year. San Francisco's business this week is little over $18,000,000 against $23,000,000 last year.

Wild Stock.

The stock market was buoyant and the wildest excitement prevailed around the Stock Exchange—in fact, nothing like it was ever before seen by the oldest inhabitants of Wall Street. Orders for stock from out of town, especially from leading western cities, such as Chicago, St. Louis, Cincinnati and Milwaukee, were simply enormous, and the brokers found difficulty in transacting all the business forced upon them.

The *Graphic*, referring to the extraordinary demand and remarkable advance in coal stocks, says: We are enabled to state after careful inquiry among officers and directors of coal carrying railroads, that the business of their roads at present is considerably in excess of anything heretofore experienced in their history. The diminished operating expenses by reason of the reduced cost of labor and materials more than compensates for the low price of coal with the present volume of demand, and it only needs a slightly higher price for coal and a slightly increased consumption to restore these great properties to the dividend paying position which they so long occupied before the panic of 1873.

The demand for anthracite coal, by reason of the reviving of industries of the country and opening of new and large markets in the west and south, is already fully equal to the supply, and the carrying facilities of the roads are taxed to their utmost. It is confidently predicted that at least two of the coal roads will be enabled to resume paying dividends within the next six months. Arrangements are now pending for taking the New Jersey Central roads out of the hands of the receiver.

In Party Line.

The *Evening Post*, with which the movement to scratch Cornell and Soule originated, follows the *Times* back into the ranks of straight republicans. Commenting on Evarts' speech the *Post* says: The independent republicans cannot fail to measure the magnitude of the work which they have undertaken to do. When men like Evarts and other members of the cabinet, and the President himself, with the strength which their positions give them, despair of fixing public attention upon their grievance in the face of the union which is running swiftly in another direction, the effort of other men to do so who are backed by neither affluence nor organization is rather hopeless. If the President and his associates refuse to scratch Cornell on their own account, republican voters will ask themselves why they should scratch Cornell on account of the President and his associates.

A Dry Goods Smash.

The affairs of Fest, Bant & Co., wholesale dry goods dealers of San Francisco, have been investigated by an agent of New York creditors, who reports that the firm's liabilities are $353,343.34, of which there is due for merchandise in the East $151,318 32; in Europe $10,000 and for loans in California $192,194.12. The assets are nominally $346,346,-77; of which there is merchandise, $220,881.89; bills receivable and accounts, $125,574 88. The report states that the stock is in good order, but that many book accounts are of no value. The creditors of the firm have been offered 15 cents on the dollar, and afterwards 30 cents, and have the matter under consideration.

Gold Pouring In.

The steamship *Wieland*, from Europe, brought $1,413,000 French gold. This makes a total of $4,-541,000 arrived from Europe since Saturday morning. Nearly $55,-000,000 in specie has come into the country since the resumption of specie payments, and nearly nine-tenths of the whole amount has arrived since August 1st.

Tilden's Taxes.

The suit of the government to recover from Samuel J. Tilden unpaid income taxes goes over till Monday next at the request of counsel for defendant, he not being ready to argue the demurrer to the bill of discovery filed by the government.

So Paupers.

Twenty-eight assistants in the Bellevue Hospital attempted to register to day. They were objected to on the ground that they are paupers. It is contended they give their services for their board.

Supreme Court Work.

WASHINGTON, 22.—In the case of Tennessee vs. James M. Davis, argument was continued by Attorney General Devens for defendant and concluded by James G. Field for plaintiff. In continuing the argument in behalf of defendant the Attorney General maintained both the judiciary act of 1879 and subsequent legislation now under consideration, providing for the removal of certain cases from State to Federal courts are valid and constitutional; that the right of a State to vindicate and preserve its peace, is subject to the grave rights of the United States to preserve and vindicate their powers; what was complained of was done by defendant in the performance of his official duty to the United States and that this fact constitutes the Federal ingredient which gives jurisdiction to the Federal courts. The right of the United States to protect its officer and to hear accusations against him, is indispensable to the enforcement of Federal laws. The gravity of the charge can make no difference to the right. No statutory process will authorize the removal of an indictment for an assault, as in the case of Jenkens, (Wallace, Jr., C. C. Reports). The existence of official return to duty and the claim that the alleged crime was committed in the performance of that duty, afford no requisite ground for the removal of the cause.

The Attorney General further maintained that even if under existing laws there could be no regular jury trial in the Federal courts it would by no means follow that the cause could not be removed. It would still be removable, and it would be for Congress to remedy the defect. Finally, the propriety and necessity of appeal to the Federal courts by Federal officers imprisoned for acts done by them under the color of office is everywhere recognized, and if this defendant cannot be tried in the United States Circuit Court, the truth of falsity of the facts alleged in his petition should be ascertained by examination upon habeas corpus, and he be either discharged or remanded, as the result may require.

To-morrow the court will take up the cases of the Maryland election judges, which involve the constitutionality of the Federal election laws.

Land Entries.

A statement prepared for the forthcoming annual report of the Commissioner General of the Land Office shows that during the last fiscal year 348 mineral patents were issued, embracing 13,963 acres of mineral lands. Six hundred and twenty-two mineral entries were made at the close of the fiscal year, and 1,642 remained undisposed of. Eight hundred of this number, however, had been examined and suspended for further proof or on account of contest. Four hundred and forty-seven agricultural claims or lands withdrawn as mineral remained undisposed of, but on 698 of them hearings have been ordered.

Five hundred and seventy-six agricultural claims on withdrawn lands were decided during the fiscal year. Fourteen thousand four hundred and thirty-three acres of swamp lands were certified to the State of California in the past 12 months, making a total of 1,735,-163 acres since that State was admitted into the Union. The swamp lands patented to all the States aggregate, up to July 1st, about 69,-000,000 acres.

A Revolting Story.

MILWAUKEE, 22.—The *Sentinel* of to-morrow morning will contain an account of the horrible atrocities in the Milwaukee House of Correction. This institution is used at the discretion of the court as a State prison. An intelligent convict, just released, whose character for veracity is vouched for by prominent persons, states he has been an inmate two years. All that time he was not allowed to write to his friends or counsel, and his family supposed him dead. He says the flour furnished the convicts, for which the county pays $6 a barrel, is damaged cow feed and cannot be baked. The meat is putrid. During his confinement embryos of calves and glandered horses were furnished as meat, and he brings the bones which are in the possession of the editor of the *Sentinel*. The details of the feed are horrible beyond expression. Of the brutalities of the keepers, he says they were beaten and put in the black hole, which is a filthy dog-kennel, five feet four inches by five feet. A man cannot lie at length in it; no ventilation, the floor covered with vermin. The men were placed there for twenty days and two died. A chair factory is connected with the institution. It is charged that the police are in collusion with the superintendent to kidnap men to work on chairs. The whole story is the most startling and revolting published in this country. It is claimed the charges can all be verified.

Hotel Princes.

ST. LOUIS, 22. — Warren and George Leland, of the noted hotel keeping family, are here examining the plans of the new Southern Hotel, with a view to making a proposition to Thomas Allen to lease it. They are much pleased with the plans and say they are an improvement on anything in the way of hotels in America. They will be applicants for the house, but as Allen will not be ready for six months yet to close a bargain with anyone, it cannot now be said they will become its lessees. Mr. Allen has decided to call the new hotel the Allen House.

The Strike Practically Ended.

Members of the Coal Exchange met to-day in secret session, and after a free discussion, their relations with the miners of the Belleville, Illinois, district, and the condition of the coal trade, decided to pay the advance demanded by the coal miners. This practically ends the strike, although it is not known yet what action the mine owners who do not belong to the Exchange, will take.

R. R. Accidents.

PITTSBURG, Pa., 22.—A freight wreck, near North Bridgewater, on the Pittsburg and Lake Erie road, last evening, resulted in the instant death of N. C. Lemmon, brakeman, and severe injury to H. L. Know, engineer, and Fulton, fireman. The accident was caused by a cow on the track, throwing the engine and train over an embankment.

Another freight [illegible] Connellsville road, two miles east of Connellsville, at 4 o'clock this morning, resulted in the instant death of Chester Linn, who, with three others, supposed to be tramps, were stealing a ride. The other parties escaped with slight bruises. None of the train men were hurt. The accident was the result of a broken rail, or axle.

Actresses Robbed.

CHICAGO, 22.—A concerted effort seems to have been made last night to rob the members of the Strakosch Opera troupe, while the opera was in progress at McVicker's Theatre. Diamonds and other valuables, said to be worth thousands of dollars, were taken from the room of Miss Teresa Singer, at the Grand Pacific Hotel, and the rooms of other members of the company at the Commercial Hotel, were entered and a considerable amount of valuables secured. No trace of the thieves yet. The police have been keeping the matter quiet.

Book Sale.

BOSTON, 22.—The auction sale of the private library of the late Caleb Cushing, commenced this morning, and attracted an unusual audience of book buyers, especially representatives of the more important public libraries. The collection is largely composed of works upon international law in various languages, laws of different nations, and books about China in the Chinese language. The large collection in Chinese was mainly purchased for the library in Congress. The bidding was spirited and good prices were realized.

Report on Commerce.

CINCINNATI, 22.—At the Steam Navigation Convention, General G. J. Negley read a statistical report of the amount of commerce last year, in which he said the cotton crop last year was the largest on record, 6,800,000 bales, 70 per cent of which was exported. Great activity has marked the exportation of breadstuffs and the movement of coal and iron. The shipment of provisions to Europe from this country amounts to 6,000 tons daily.

Discharged.

BALTIMORE, 22.—In the circuit court at Townsendtown, Baltimore County, to-day, in the case of Denwood B. Hinds, as principal, and his brother, Henry Hinds, as accessory, for the murder of Isaac James in this city, in April last, came up for trial, and after the examination of a number of witnesses, the State's attorney abandoned the prosecution and accepted the plea of self-defense by the accused, and the prisoners were discharged.

Starved and Neglected.

COUNCIL BLUFFS, 22.—An emigrant, supposed to be a Frenchman, died here this morning. He had $575 in his pockets, a ticket from San Francisco to St. Louis, and a small piece of paper bearing the name of Francis Giriga. He is held for identification. He died of starvation and neglect.

WESTERN.

Sa felde.

SAN FRANCISCO, 22.—M. E. Morton, a recently arrived agent of a New York firm, shot himself through the head at the Palace Hotel to-day, attributed to losses in stock in which he invested at a previous visit here some months ago.

As Just Reciprocity

The committee appointed by the Chamber of Commerce to consider Leon Chatteau's Franco-American reciprocity treaty, made a report taking strong ground against it. The chamber adopted the report.

Grant Gone.

General Grant left for Sacramento this morning, where he will remain until Friday.

WANTED.

A GIRL about 13 years old for the winter, to tend a child. Enquire at C. V. Spencer's. d to 25-10-9
