MARKET WAS QUIETER TODAY.

Exchange.

ANCHOR WAS VERY FIRM.

Ajax Weaker-Silver Shield Shrinks-Yankee Con. Firm-Mammoth Was Very Low

Business was much quieter on the exchange today when a weakening ten. dency was shown by several of the stocks. This was especially true of Mammoth and Ajax. The former fell off to \$2.05 on news that the car of sacked ore was not as rich as had been supposed. Ajax started out with the sale of 200 shares at 95, but a decline was recorded on every sale until 91% was reached on the clowing sale. A material advance is recorded in Ben Butler again today. Sales were made as high as 81/2 and the stock closed quite strong with 81% bld. Anchor was quite strong with 8½ bid, Anchor was also in good form around \$2.49, while Daly opened with the sale of 100 shares at \$1.57, and declined to \$1.52. Four Aces sold up to 3, while Galena of Fish Springs let go 200 shares at 2½. Ingot was active as low as 4, while May Day opened at 38½, and after dropping to 38, railied to 38½ at the close. Silver Shield declined to 24 today. Sacramentwas also in good form around 38. Shield declined to 24 today. Sacramento was also in good form around 38. South Swansea was active today around 31, while Star Con. sold around 79, a small lot of Valeo changed hands at 30, while Manhattan sold up to 3, and Yankee Con. found a buyer at 114.

Closing quotations were posted as follows:

LAND SCRIP LOCATIONS.

Mr. King Says Bill Concerning the Same Will Pass This Session.

[SPECIAL TO THE "NEWS."] Washington, D. C., Jan. 29.-Representative King said today that the bill for the location of certain land scrip in the name of Antonine Lapierre and others in Salt Lake City would pass this session. Mr. King attempted to have the bill considered today, but objection was made at this time by Rep-

resultive Geosvenor.
Chas. Weitfel has been appointed postmuster at Rudy. Fremont county, Idaho, vice Wm. Richards, resigned. J. Downing of Salt Lake is here and Representative King teday had inserted in the agricultural bill an appropriation for the continuance of the soil survey The amount to be expended

is \$50,000. SALT LAKE BUSINESS.

Dun's Review of January 26th, has the following to say of Salt Lake trade: "Weather conditions are unfavorable to business in some lines, but on the whole the volume of trade is fairly good for the season. Dry goods, clothing and shoes are quiet, but drugs, groceries, hardware and liquors are in good demand. The sugar market is good demand. The sugar market is firm but jobbers having loaded up be-fore the anticipated stiffening in freight, the movement is light. Bank freight, the movement is light. Sank deposits show some falling off, with little call for money, except a fair renewal demand. Local securities and mining stocks show little activity, and the ore movement is not heavy. Retail trade suffers from mild weather, and dull business has a tendency to retard collections."

BIG STRIKE IN THE RED WING.

Ben Butler Jumped to 81/2 on the Ten Feet of Fine Carbon ate Ore in Teachnor Lease.

THE BINGHAM CO'S SMELTER

Will Blow in Tomorrow - Lower Mammoth Shipment Drifting at the Honorine.

The most cheerful news that has come from the Red Wing of Bingham far a long time was brought to town last night by W. P. Price, who gives particulars of a big strike in the Teachnor lease. For some time past the lessees have been running a tunnel near the surface on the Columbia vein. Some excellent shipments were made recently but the ore body pinched some time ago. In the course of development some good ore was again encountered, which has widened to an ore body of magnificent proportions in the past few days, Mr. Price says the leasers have now a body of ore fully ten foot wide. Sixty tons of the ore is being loaded and the easers expect to ship 200 tons next month. The last shipments netted \$30.96 per ton, and if the present ore contains the same values a snug little clean up

About 18 inches of good shipping ore is reported to be in sight on the Williams lease on the Freeman side of the Red Wing property. This ore body is also in the Columbia vein and is similar n character to that mined under he Teachnor lease. A car of ore is re-ported to have been taken out in the past 10 days, which will shortly be on the market.

THE NEW SMELTER.

The Bingham Copper Company Will Blow in One Stack Tomorrow.

After many exasperating delays on account of structural material the Bingham Copper and Gold company has practically completed its new 300-ion smelter at Bingham Junction, the success of which means much for the Bingham camp and a great deal for the prestige of the State. The work is so far completed that the management expects to blow in one stack tomorrow. For this purpose about 5,000 tons of ore are now in the smelter bins. Of this amount, about 2,000 tons came from the Tesora and it largely constitutes the siliceous ore needed to mix with the sulphide ore of Bingham. Some purchases have also been made by the company of Centennial Eureka, Carisa and Columbia ores, so that everything is now in readiness for the test run, which will be in the nature of an experment, although it is pretty well decided that the plant will work like a charm. Mr. Wigginton, who has lately come from Colorado, says that the Blugham ore is an ideal one for the plant erected and, with a similar assurance from the veteran smelter man, W.H. Nutting, no doubt is felt regarding the result of tomorrow's work. For probably two weeks the management may operate only one stack having a capacity of 100 tons daily. The necessary adjustments and tests can be made just as well with one stack as with three. About 100 men at present employed at the mine and smelter but this force will be in-creased to about 250 men as soon as things are in full swing. Meantime un-til the Copper Belt Rallway company's tracks are extended to the mine the output from the Bingham mine will be limited to about 100 tons daily.

ORE IS GOOD GRADE.

Lower Mammoth Shipment Assays 10 Per Cent Copper and 92 ozs. Silver.

The last shipment from the Lower Mammoth of Tintic was sold today for \$5,125. The lot consisted of five cars of ore, three of which were copper and silver ore, and two silver ore. The for-mer were sold on controls showing 10.6 per cent copper and 92 ounces silver per ton, while the latter two cars assayed 92 ounces in silver per ton. The average as shown by the shipments is much better than was expected by a number of people. Before the shipments were started the silver values were estimated at from 40 to 50 ounces per ton. The mine is said to be looking well and reg ular shipments are now in order. Part of a carload of sacked ore is on the way to market which is expected to show sensational values.

WORK BEING PUSHED.

Drifting Going Forward at Honorine-Big Flow of Water.

Charles Whitecotton, who has charge of the pumping plant at the Honorin of Stockton, came in from the mine last evening and reports the work going dong quite satisfactorily. The management has now reached bottom in the shaft and drifting is now in order. Some 25 or 30 feet of this work has al-ready been done. The drift is being pushed ahead at the rate of 5 feet per day and within 200 feet Messrs. Kimberly and Filer expect to tap the first ore chute. Meantime the pumps are handling 1.000 gallons per minute, which is their maximum capacity. If a larger flow is encountered the drift will be flooded. Mr. Schen is hopeful that the country is pretty well drained, however, but it does not greatly lessen the anxiety that is felt at present by those most interested.

STOCK EXCHANGE.

Governing Board of Exchange Elects Officers and Selects Committees.

The new board of governors of the The new board of governors of the stock exchange met yesterday afternoon and elected the following officers, viz., D. H. Peery Jr., president; E. G. Wooltey Jr., M. S. Pendergast and W. H. Tibbals, first, second and third vice presidents, respectively; G. F. Clark, secretary, and W. J. Barnett, treasurer. The following standing committees

The following standing committees were also selected, the first named in each instance being the chairman:

The selections made meet with general approval as the impartiality and ability of the officers and members of committees are well known.

committees are well known.

IN LA SAL DISTRICT.

An Electric Road from Grand River to Miner's Basin.

A correspondent says that the La Sal district is forging to the front and it will not be many months before it will take its place in the front ranks of the gold producers. Large bodies of ore have recently been encountered giving as high as \$200 per ton in the yellow metal, outside of the copper values.

AN ELECTRIC ROAD.

The contract for 27,000 ties has been let for the new electric road, running from the Grand River to "Miners' Hasin," a distance of fifteen miles. The company will get power from the falls in the river. Many thousands of tons of ore can be shipped from the various properties, by this means, which will give good values in gold, sliver and give good values in gold, silver and

The International Copper company has a group of twelve claims in a choice location and great things are expected in the near future. Everything is quiet on the Gilsonite properties since the jumping has ceased.

Caused a Stampede.

A small stampede took place from Grangeville, Idaho, last week to a re-ported strike on some ledges about two and one half miles south of the town, where work has been in progress all winter. A four foot vein assaying \$86 was struck 16 feet below the surface. A days later a 20 foot ledge assaying dreds of feet from the first discovery. from here, and a number who received the news first were out at night staktop of Ore mountain has been staked

Joe Bowers Suit. The Supreme court has handed down

a decision in the case of Lorenzo Ewell vs The Joe Bowers Mining company, appellant, affirming the judgment of the

The action arose by reason of Ewell being injured while employed by and working in the defendant's mine at Diamond, May, 1898. For this cause Diamond, May, 1898. For this cause Ewell sued in the Juab county district court and obtained a judgment for \$15.500, and the higher court finds no reversible error. Justices Miner, Baskin versible error, Justices Miner, Baskin and Cherry, (district judge), jointly signed the opinion.

MINING NOTES.

Manager Weir of the Ajax left for that Tintic proposition today.

The Grand Central of Tintic reached the market today with ten cars of ore. A car of ore from the Shoebridge Bonanza of Tintic was on the market today.

Another car of ore was reported to-day from Don Maguire's El Dorado mine on Willard Hill.

No change is reported at the Silver Shield office in spite of the depreciation of the stock today.

Preparations are being made to resume work at the Young America property at Tuscarora, Nevada.

Eleven cars of ore from Tintic and one from Willard were reported today by the Taylor-Brunton sampler. David Evans says sinking and drift-

ing was resumed at the Black Jack today. The shaft is now down 450 Two hundred and fifty shares of On-

tarlo were sold on the New York exbetween \$7 and \$7.50 per share.

Another lot of ore is reported from the Buckhorn property of Dugway, which was sold on controls showing an ounce in gold and 60 ounces silver per James W. Cushing, for many years in

charge of the Ploneer sampler at Sandy, expected to leave tonight for Montana to take charge of the East Helena ampling plant. A good strike of high grade copper ore

is reported in the Jesse Ewing property in Ulniah county. The vein is said to be four feet wide and the pay streak is two feet wide. The strike was made by Heber Cloward. Judgment by default for \$319.63 and

costs was entered yesterday in the case of the M. S. Aschheim Mercantlie company vs Michael Fitzgerald. The judg. is secured by an attachment on Little Belle Mining company's stock. Jackson McChrystal, who came in from Eureka today, reports sinking in progress from the 300 level of the Eagle and Blue Belt. The winze is in ore but not of shipping grade. It is the

tention to drift again at the depth of At the meeting of the shareholders of the Dalton Mining company yesterday afternoon the old board was re-elected, consisting of T. B. Beatty, J. H. Lakin, A. H. Adkison, C. M. Garrison, B. A. McMillan, C. H. Dowse and O. R.

ST. PAUL AGAIN FEATURE.

It Opened With a Violent Broak Greatly Unsetfling the Market.

Stocks Went Down in Sympathy-St. P. Rullied, Heacted and Dragged the List Down.

New York, Jan. 29 .- The market was unsettled by a violent opening break in St. Paul and by the nervous tone of Steel and Wire. St. Paul on the sale 4,000 shares was quoted at 152% and 152 compared with 154% last night, and i quickly fell to 1501/2 on subsequent transactions. Northern Pacific and the grangers lost from 1 to 1½ in sympathy The dealings in Steel and Wire were large and the fluctuations feverish. In the general list changes were fractional and a good deal divided, a num-ber of important stocks showing gains National Steel and Pacific Mail were up a point each, When prices of 39 and 150 respectively

were made for Steel and Wire at St Paul, buying to cover railled them to 40% and 152%. The general market had sold off notably in spots, particularly Consolidated Gas and Federal Steel, which yielded two points each. Subwhich yielded two points each. Sub-stantial recoveries were subsequently made by Manhattan, Brooklyn Rapid Transit, Federal Steel and People's Gas, and some other stocks which had been depressed sharply made full recoveries St. Paul, after extending its rally to 153, reacted to 151 and dragged the other grangers down to the lowest again The general market was forced to yield

and especially for the tractions, Steel stocks, Northern Pacific, Kansas & Texas preferred. When the offerings of St. Paul decreased the stock worked up fractionally, as did the general market Some large blocks of Northern Pacific were taken around 86, and Mobile and Ohio rose 3%. Large absorption of Southern Pacific encouraged the advance in other mem-

bers of the group and in the grangers and Federal Steel was lifted to 42%. A few stocks were thus raised above yes-terday's closing level, New York Centrai to the extent of 2 points and South-ern Pacific, 1%. American Ex-press jumped 4½-points. Yielding spots developed on the advance. Mobile and Ohlo re-acted, 2%. The closing was dull and easy.

AMUSEMENT'S. ?~~~~~~~~~~

A brilliant and fairly large audience assembled at the Theater last night to greet the Boston Lyric Opera company, and its three Italian stars. There was not the crush usually seen on opera nights, doubtless because of the throng at the Knutsford, and the fact that there was quite a society sprin-kling at the first night of "Chumley" at the Grand. As far as the three stars, Collamarini, the contralto, Allessandroni, the baritone, and Russo, the tenor, are concerned, the verdict is distinetly favorable. For the first two, it might be called enthusiastic. The lady renders the wickedly voluptuous, bewitching, and at times somewhat suggestive role of Carmen, as the author drew the part, and certainly as an actress, she leaves nothing to be desired. She is a brilliant singer, too, for while her voice could not be called a deep contralto, it is highly cultivated, and she sings with admirable style and finish. The baritone had a big ovation after this rendition of the Toreador's song, and had to repeat it; this num-ber was the hit of the night, Russo, the tenor, has a very sweet voice, which he uses in the pure Italian style, but his stature is rather against him, and he should by no means essay the task of trying to lift the body of the prostrate Carmen at the closing scene. Whenever these three people were on the stage, dispite the fact that they sang in Italian, while all the others used the English tongue, the interest was kept up to a high point, and it can be said for them in all truth, that they are undoubted artists. Aside from them, there was not much in the pre-sentation that calls for approval. Th horus is very evidently organized for light opera, and on the comic opera nights it will no doubt shine, but with the single expection of the chorus to the Toreador's song it seemed working beyond its depth. There was an ab-sence of "business" on its part, too. which operated against it. The scenery and costuming were not what Salt Lake has been accustomed to in operatic presentations. The company has its own leader, but no orchestra, and as it was too much to expect Salt Lake musicians to prepare a work like "Car-men" with one rehearsal, there were numerous shortcomings in the accom-paniment, the planist, and Mr. Welhe, the first violinist, being the only instruments which did the work entirely

it should have been done. A special bit of praise is to be given to the soprano, Miss Davis, who has a full and charming voice, and who was greeted with decided favor. Tonight the company renders "Il Trovatore," and Collamarini, as the gypsy, Russo, as Manrico, and Allessandroni, as the count, will certainly be well worth seeing. The first light opera presentation by the company will be given with all the and lights, tomorrow evening, when "The Idol's Eye" will be the bill.
The Grand held the customary
Monday night house last evening when 'Lord Chumley" was rendered for the first time by the Cummings stock com-pany. This means that the attendance

was neither good nor bad, but probably all that could be expected in view of the heavy counter attraction at Theater and Knutsford, "Chum was originally brought out in Salt Lake by young Sothern who was aided Belle Archer and Herbert Archer. left a very pleasant impression and that impression bids fair to be revived by the presentation of the Cummings Stock company. Mr. Cummings, him-self, while he might copy Sothern a little more closely in his English accent gave a very clever and humorous delineation and the garret scene, especpassing the window, was well worked up. Miss Douglas caused unbounded laughter for her delineation of the "Angel of the Attic," and she and Mr. Gibiyn as Tommy Tucker, made an excellent comedy pair. Miss Hall had little to do except to look stately and act with dignity and she filled these requirements to the letter. Her dressing was thoroughly charming. Mr. Robert Cummings as the Frenchman was especially good, and Mr. Blackmore was careful as usual in a role hardly as important as usual. The staging was very handsome though it took a long time to set it, the last act being a rautiful creation of the painter's art. The

The bill next week will be the "Lit-tle Minister" with Miss Hall in the role of "Babbie," rendered famous by Maude Adams. * * *

same bill runs through the week.

Mr. Lee Townsend, advance manager of the company which plays the "Pris-oner of Zenda" at the Theater next week, is in the city. This is the com-pany of which Miss Ruth Eldredge, formerly a resident of this city, is a

member.

Over Half a Million Dollars' Worth of Property Was Destroyed.

Started in Frankel Bros' Department Store-Every Available Fireman. Ordered Out.

Des Moines, Iowa, Jan. 29.-Fire which broke out this morning in Frankel Bros, department store, corner of Sixth and Walnut streets, destroyed over a half million dollars worth of property. The fire was first discovered by a patrolman at 3:05 a. m. in the corner of the clothing department, coming direct from the basement. In a moment the whole building was in flames. Every available fireman in the city was ordered out, but the structure was doomed before they arrived, and their attention was largely devoted to saving the adjoining structures. By 6 o'clerk a solitary wall of the six story Frankel building was left standing, and the firemen pulled that down. Not a dollar of the \$250,000 stock was saved, and the destruction was complete. The First National bank building, which is directl- across the street, caught fire, but after a hard struggle was saved, although damaged to the extent of several thousand dollars. The Utica Clothing company, the Seeley department store, upon the adjoining corners,

suffered similarly in the damage to stock and fixtures, The loss to the Frankels is estimated at \$375,000, consisting of \$225,000 in the stock and \$125,000 on the building. The firm has announced already that they

The destruction of the electric light, telephone and telegraph wires as a consequence of the fire, caused a tem-porary abandonment of the street car ervice and the operation of many fac-

ories dependent upon power furnished them.
