

AUTHORITY IS SPREADING.

Harriman's Power Already Felt in Official Cricles of Illinois Central.

Chicago, Feb. 1 .- The Record-Her-Chicago, Feb. 1.—The Record-Her-ald today says: Edward H. Harriman has begun to extend the jurisdiction of Harriman system officers over the Illinois Cen-tral. An official circular has been is-sued announcing the appointment of H. P. Thrail to be superintendent of mails for the Illinois Central. Mr. Thrail has been superintendent of mails for the Southern Pacific, Union Pacific, Oregon Railroad and Naviga-tion company and Oregon Short Line about two years.

about two years. This appointment as an illinois Central official was made yesterday and the circular announcing the fact and the circular announcing the fact has not yet been given out for pub-lication. It was impossible yesterday to ascertain whother there is a plan to extend the jurisdiction of the Har-riman officers to include Illinois Cen-tral. There is, however, an unconfirm-ed rumor that E. R. E. Long, J. C. Stubbs and Julius Kruttschnitt may have authority over the traffic, and the operation, maintenance, respec-tively, of that road.

POCATELLO RAILROAD NEWS.

Merchants Are Jubilant Over Estab-

(Special to the "News.")

Pocatello, Feb. 1.—The merchants of Pocatello feel jubilant over the new reight rate schedule of the Short Line, which goes into effect tomorrow. If the The goes into energy to morrow. If the rate remains permanent its effect will be to make the Gate City a jobbing center for a large immediate territory. A direct rate from the east allows quicker delivery of car Joad lots and, ou 100 pound freight or retail sales there is a saving of 40 or 45 cents per hun-dred.

dred. The Pocatello Commercial club, to whom this rate is mainly due, held what may be termed a "jollification" meeting last night at the Brady office and adopted a resolution condemning the railroad commission bill now before the legislature. Bannock county's rep-resentatives and senator were urged in resentatives and senator were urged in these resolutions to oppose said mea-sure as being chiefly ill-timed, imprac-tical and more expensive to conduct tical and more expensive to conduc than the actual conditions warranted. George Stein, employed as news agent on the trains by the Gray News Co. of his clty, died today in the office of Dr. J. A. Alguire during the latter's ab-sence.

sence. Mr. Stein was subject to heart disease, for which he was taking treatment. He was found dead by one of his fellow news boys. A post mortem examination will be held this evening to determine eccentric the second

was sent to the L. D. S. hospital a few days ago with a case of appendicitis, Ray Cammonile is convalescing nice I hay cannot be solvelescing nice-ly from an injured arm, and has re-turned from the hospital. The metal workers have gained a concession from the company in the waiving of the physical examination, which will not be required hereafter of this kind of workmen.

SPIKE AND RAIL.

The Western Retail Lumbermen's as sociation convenes in this city, Feb. 13 16 inclusive. The northwest will be represented by a large delegation.

Effective today all round trip excur-sion tickets sold by the Union Pacific for Chicago, St. Louis and other river points will have a transit limit of 40 days in each direction. This will afford travelers excellent stop-over privileges between Salt Lake and their destina-

SUIT TO QUIET TITLE.

2.17% Supreme Court Affire / Judgment of a Lower Tribunal.

> supreme court today handed The down an opinion affirming the judg-ment of the lower court in the case of W. A. Worthen and William Drury of W. A. Worthen and William Drury against the Peruvian Consolidated Mining company, appellant. The ac-tion was brought to quiet title to the area in conflict between the Hobson claim owned by plaintiffs, and the J. P. No. 1 lode claim, owned by de-fendant, located in the Little Cotton-wood district. The lower court found the issues in favor of plaintiffs and quieted their title to the area in con-flict. The defendant then appealed. The supreme court now holds that the lower court committed no preju-

It is the intention of the management to utilize this equipment to move ma-chinery and supplies to the mine and to bring out ore on the return trip. Mr. Orem states that the engine has capacity to bring out from 50 to 60 tons of ore at a time. SEARCHLIGHT IS ACTIVE.

Bullion Tax Reports Showed a Good Record Last Year. Special Correspondence.

Searchlight, Nev., Jan. 23.—Search-light is enjoying a period of activity never before known in the district. The producing mines are being increased in number as recent strikes on the "flat" and inside the proven belt are showing up better with each round of shots. The ore production of the Searchlight dis-trict, as per official bullion tax repor-at Carson City, was the largest in the

placed in commission in the near future.

HAS DISTRIBUTED BILIONS

HAS DISTRIBUTED BILIONS. Under the present system the average annual cost of payment is about 43 cents per pension. This cost varies in accord ance with the number of pensioners paid at each agency. At the Topeka agency-which is the inress in the United States - the annual cost is about 40 cents per pensioners: while at the Concord agency - which is the smallest--the cost is 74 cents per pensioner. The number of clerks required at the Topeka agency is 39, or an average of Ce clerk to every 2500 pensioners, while at the Augusta the proportion is one clerk to every 1477 pen-sioners. Payments are made as prompt-by at the larger as at the smaller agencies such as Topeka. In this connection the committee on appropriations has furnished a very in-teresting statement showing the amount which the United States has paid out for are as follows: War of the Revolution (esti-

INGOT ANNUAL.

Shareholders Will Meet Monday to Select Board of Directors.

The annual meeting of the Ingot Gold Mining company is scheduled to take place next Monday, at which time a board of directors will be elected to serve during the ensuing year. It is likely that the new board will decide

the lower court committed no prejuthe lower could committee ho predu-dicial error in its findings and hence the Judgment is affirmed. Chief jus-tice McCarty wrote the opinion of the court and it is concurred in by jus-tice straup and Dist. Judge Lewis.

NEW BINGHAM COMPANY.

NEW BINGHAM COMPANY. The Bingham Argentine Copper company of this city filed its articles of incorporation with the county clerk today. The capital stock of the company is \$1,000,000, divided into shares of the par value of \$1 each. Angus T. Wright is president; John Dern, vice president; L. H. Farns-worth, treasurer; William Igleheart, secretary. The officers, with Charles R. Hollingsworth, constitute the board of directors. The company owns the Mono lode and nine other claims lo-cated in the West Mountain and Tooele districts.

UTAH APEX TRAMWAY.

Supt. Orem Says System Will Go Into Commission Today.

Supt. A. J. Orem, Jr., of the Utah Apex Mining company, telephoned in from Binghom yesterday that the new aerial tramway to operate between the mouth of the Andy tunnel and the ore

bins in Car Fork canyon was practical-ly completed and would probably be placed in commission today. With this tramway in commission the company will be in position to greatly increase its ore shipments.

GOLD BUTTE'S FINE SHOWING.

Remarkable Values Found at Grass

Roots in This Property. There was considerable rejoicing around the offices of the Gold Butte Mines company late yesterday after-noon when a local assayer, sent in his report on a sample of ore delivered to

Mines company late yesterday after-noon when a local assayer, sent in his report on a sample of ore delivered to him early in the day for assay. The ore represented al. average sam-ple taken along an eight-foot trench across a veln found to crop near a 14-foot shaft put down some time ago on the Eureka group owned by the above named company and was found to con-tain \$17.40 in gold and 3 of an ounce in silver. The strike is emsidered by those interested to be one of the most important reported from southern Ne-vada for some time, and the result of this assay shows that Director J. B. Graham fully, recognized the import-ance of the vein system of the Eureka group when he wrote one of his as-soclates a few days ago and made the

sociates a few days ago and made the statement that "barring the Mohawk there is every reason to believe that we have a gold property that will de-velop into mine as large as any in Nevada." Nevada.

Nevada." To get \$17.40 right at the grass roots along a trench for a distance of eight feet certainly makes a wonderful showing. How much wider the vein is was not known when the last report from the mine was mailed, for at that time only lone of the walls had bees exposed on which a drift is being run and which has been sampled three times, showing average values of about \$20 to the ton. Local officials of the company believe that a cross-cut from that point into the surface will reveal much better values than those indicated. In yesterday's assays. in yesterday's assays. ----

All printing specially attended to a, the Deseret News Office. Estimates promptly furnished. Rush orders a specialty,

ore production of the Searchlight dis-trict, as per official bullion tax repor-at Carson City, was the largest in the state of Nevada during the year past. The infusion of new blood into the management of the older mines, that were formerly governed by the ultra-conservative element, has been the cause of the remarkable resume of en-forced activity. Miners in demand and at the present time there is not an idle man in the district. From the Goldyke on the north to the Greene group on the south, a distance of five miles, and from the Stanley Forbes on the east to the Santa Barbara on the west, a distance of nine miles, by actual count there are 97 properties actually developing. This merely shows the amount of interest that is taken in the properties of the Searchlight district as the first failur has yet to be recorded where depth has yet to be recorded where depth was attained.

CONCENTRATES.

P. C. Thompson, the well known broker, has returned from a three weeks' business trip east.

W. C. Wilkinson, president of the Nelson-Queen Mining company, has returned from a trip to California.

Word has been received that F. Augustus Heinze has arrived in Butte, and it is likely that he will reach Salt Lake within the next few days.

A. E. Howes of the Chicago-Utah company, operating in Morgan county was in the city yesterday with a nice looking lot of samples of copper ore.

The ore and bullion settlements re-ported late yesterday by McCornick & Company were: Crude ore and con-centrate, \$100,000; base bullion, \$50,000.

T. S. Wolcott, a prominent mining operator of Phoelite, Nev., which is located in the northern part of Nye county, is in the city on a brief busiiess trip.

In the dividend list printed in yesterday's "News" a typographical error made it appear that the Daly Judge company had made a distribution of \$115,500. It should have been \$112,500.

M. H. Walker, J. Fewson Smith, Jr., J. P. Belcher and P. W. Maughn have zone to Denver to attend a test of the new Karns tunnel boring machine at the India mine near Denver.

Jamés C. Bennett, representing the Risdon Iron Works company of San Francisco, is here looking after the in-stallation of a lot of concentrating squipment at the new Garfield mill of he Utah Copper company. His firm vas given an order for 1.184 vanners by he Utah Copper management. Also an order for 20 Heine boilers.

order for 20 Heine bollers. The regular monthly meeting of the Western Association of Technical Themists and Metallurgists will be held this evening in the chemistry lec-ure room of the Physical building of the university at \$15. Dr. W. C. Ebaugh, president of the local associa-tion, will read a paper on "Gases Ver-ms Solids, an Investigation of the In-urious Ingredients of Smelter Smoke." Or, Ebaugh discussed this subject at he annual meeting of the American hemical society last December. He is said to be qualified to handle the uestion as he has been working along his line for the last three years. He tase Smelting & Refining company tits to be investigation of the United tates Smelting & Refining company with slides prepared from photo-risphs taken in the field. A general invitation is extended to the public and all interested in the subject.

War of the Revolution (esti-mated) 70,000,000.00 45.542,069.24 8,260,143.3 38,059,245.23 3,259,195,306.6J

15,438,355 Regular establishment ... Unclassified 7.229,312.8 16.135,878.8

Total disbursements for revelops......\$3,459,860,311.23

Of the above amount \$96,445,440.08 was paid from July 1. 1780, to June 30, 1885. It is almost certain that the senate will restore the agencie, ricken from the bill by the house, and almost equally certain that the conferees will support the action of the senate.

Harriman Road Places Oroville on Its Main Line Northward.

San Francisco, Feb. 1.—The South-ern Pacific is to build a branch lin-in Butte county from Oroville to Nel-son, a station on the main line be-tween this city and Portland. By this means the company will have a road from Marysville, which is also on the main line, via Oroville to Nelson. By extending from Oroville to Nelson, Oroville is given a direct outlet north-ward. ward.

A FINE PICTURE.

The Colorado-Midland office in this city has received an oil painting of the famous "Seven Castles" on the Mid-iand's main line. The picture is from the brush of James H. Harmon, the well known scenic artist of Denver and pocal lovers of art declare the work a gem. It is a rather large gem, too, being four and a half feet high and five and a half feet wide, set in a heavy gilt frame. The red burtes, prominent along the line, are pictured in natural colors, wit the Fryingpan rive tumbling through its rocky nar-row channel on the left. The outlines of the mountains at the entrance of Red Rock canyon are dim and hazy. The Colorado-Midland office in this
