From Illinois.-We had a pleasant call this morning from David R. Monteith and son, of Wilmington, Illinois who are paying our city a visit whill on their way to the Pacific Coast. Mr. Monteith tormerly lived in Montana, and visited this city about sixteen years ago. He enjoyed what he saw here upon that occasion so well that he could not resist the temptation to come again. He notices many im provements which have taken place here since then, and expresses himself as pleased therewith. He will continue his journey on Saturday next We wish him a pleasant stay.

----Plenty of Snow.-From, Bishop V A. Hammond, of Huntsville, who is on a brief visit to our city, we learn that the snow is fully two feet deep on the level in Ogden Valley. It was still deeper before the recent rain, which Mr. Editor tended to settle it somewhat. THE FIREMEN'S REUNION.

THE CHIEF ENGINEER REVIEWS THE HISTORY OF OUR FIRE DEPARTMENT. The Firemen's Reunion, given last evening in honor of Chief Engineer Ottinger's birthday, was in every way a success. Preparations for the event have been in progress for several weeks, and nothing was left undone that would conduce to the enjoyment of those who participated in the affair. The programme of musical and literary exercises was well rendered, and won the hearty applause of all pres-

The address of Chief Engineer Ottinger was particularly interesting, and formed one of the prominent features of the evening. He briefly reviewed the history and growth of the fire service in the United States and showed that as cities grow in size, wealth and population, it necessitates a corresponding growth in the 1,143. size and efficiency of the fire departments. He said that over fourteen Wells, Fargo & Co: New, York 107%; years ago there was a volunteer fire department organized in our city, and for nearly thirteen years 110 good firemen had responded promptly to the alarm bell, freely giving their services

without remuneration, and made a record of which they might well be proud. Their energy, generosity and public-spiritedness justly entitled them to the praise and gratitude of ED. NOONAN, who was charged with their fellow citizens. It is difficult to estimate the value of the property which they have saved. The growth of our city made it necessary to make our fire department more efficient and for about one and a hall years the firemen have received remuneration for actual service. Th apparatus and equipage of the departenthave also received valuable add tions, and, as the fire record of ou city will show, these improvements vere made none too soon. The de partment was first organized March 27th, 1871, and since that time ther signed his position. The name of his have been 295 fire alarms, 226 of which were responded to by the volunteer department during the 13 years of its exstence, and 69-about one fourth of the whole number-have been met h the efforts of the paid department during its one-and-a-half year's exis-

OGDEN CITY ELECTION,

Owing to Ogden having such a large election for city officers which occurred there yesterday. The besult of the was a great victory for the People's Party, and did not prove anything like sorclose a contest as was generally expected. The following is given as the result of the election:

PEOPLE'S PARTY TICKET. Mayor-David H. Peery, 1,129. Aldermen-First Ward, Angus T Wright, 1,116; Second Ward, Robert McQuarrie, 1,187; Third Ward, David Eccles, 1,147; Fourth Ward, Thomas S. Marshal William Brown, 987. It will be observed that the closest ontest was between the two nominees or the office of Marshal. This may be ecounted for by the fact that Brown who was nominated by the "Liberals" has already served in that capacity for a number of years, is well qualified in ome respects for the office and has many friends among the People's Party. The "Liberals" doubtless countd on his popularity, in view of past ervices, when they nominated him.
