

LOAD LIFTED OFF COUNT WITTE.

Crushing of the Great Mutiny
Of Sailors at Sebastopol
Did It.

NOW FACES OTHER PROBLEMS

Strike of Telegraph and Postal Em-
ployes Greatest Present One—
Many Wild Rumors.

St. Petersburg, Dec. 1, 3:20 a. m.—
The official dispatches announcing the
decisive crushing of the great mutiny
at Sebastopol and the capture of all
the mutineers, including the fanatical
commander, Lieut. Schmidt, has raised
a great load from the hearts of Count
Witte and his associates in the govern-
ment.

At a protracted cabinet council yester-
day long and serious consideration
was given to an even graver problem,
the general strike of the telegraph and
postal employes, which has completely
paralyzed the interior communication
of the empire and which, if continued,
will mean nothing less than the economic
and industrial death of Russia.

Rumors were flying thick and fast
last night that Count Witte had decided
to sacrifice M. Durnova, the acting
minister of the interior, whose action
in discharging the leaders of the
employes brought on the strike. It is
believed, however, that M. Durnova will
be given a final opportunity to rectify
his error.

According to telephonic information
from Moscow the telegraphers there
approached Baron Milden, the president,
who promised to present a petition for
the re-employment of those who had
been discharged if work was immediately
recommenced. The government perhaps
will accept this offer from its
difficulties in this regard.

The interruption of telegraphic com-
munication with the interior is com-
plete and the Associated Press is able
to forward foreign dispatches only by
special arrangement.

The situation at St. Petersburg was
extremely tense yesterday. In the ab-
sence of definite information from Se-
bastopol the wildest rumors were in
circulation in the city. The revolution-
ists eagerly seized the opportunity to
spread reports that the mutineers had
been completely victorious. They
worked especially among the troops,
buttonholing every soldier and sailor
whom they encountered in the streets.

A panic spread on the bourse, and
government bonds dropped heavily.

The government finally recognized
that it was a tactical mistake to hold
up the news, but the official announce-
ment of victory at Sebastopol came too
late to undo a great harm.

The dispatches show that the resist-
ance of the mutineers when they were
convinced that the government meant
business and could count on the active
support of the troops in the city was
faint hearted. As the Orichakoff fired
only half a dozen shots before hauling
down its flag the damage to the city
of Sebastopol may be far less than
had been expected.

Lieut. Schmidt and other leaders of
the mutineers probably expect a short
shift and it is certain that the govern-
ment will show them no leniency.

Lieut. Schmidt for a short time com-
manded one of the torpedo boats built
for Russia by Lewis Nixon. He is well
known to Mr. Nixon, who says he is
rattle-brained and incompetent. The
lieutenant was retired a few weeks ago
on account of his participation in the
revolutionary propaganda.

"We were compelled to tolerate such
doings inasmuch as the fleet had been
disarmed in view of the dangerous
attitude of the sailors."

"One after another the craft on the
eastern shore of the southern bay were
seized by the mutineers and red flags
hoisted. The plan which was first pro-
posed was abandoned and it was re-
solved to adopt energetic measures to
prevent the situation from becoming
worse."

"The officers captured by the muti-
neers were taken on board the Orichakoff
in the belief that the mutineers
would prevent the vessel from being
opened on it. Lieut. Schmidt informed
the assembled officers that he would
hang them if the troops on shore took
action."

"At 3:30 o'clock in the afternoon of
Nov. 29 fire was opened by field artillery
on the ship in the southern harbor
firing red flags. These flags were im-
mediately lowered and Lieut. Schmidt
signaled:

"I have captured officers."

"The Orichakoff then opened fire, to
which the north shore battery and the
loyal ships, whose breech-blocks had
been restored, replied. The Orichakoff
advanced to the attack, but was met with
a strong fire from the two cruisers, the
Captain Sacken and the Pamyat Mer-
kuria, and from the battleship Rostislav.

"The Orichakoff was immediately put
out of action, as were also two other
torpedo boats, one of which sank.

"The Orichakoff had fired barely six
shots when the battleship Rostislav
and the squadron ceased to fire.

"A conflagration broke out on the
Orichakoff and the boats were sent to
rescue the survivors and to transfer
those who had been wounded.

"Lieut. Schmidt, who was dressed as
a common sailor, escaped, but was ap-
prehended later.

"When the firing began a mining ves-
sel which had on board 300 mines, fear-
ing an explosion, was sunk by the com-
mander.

"Gen. Slavovskinsky, commanding the
Seventh naval corps, started for the
mining ship, but was severely wounded
while on the way.

"During the fighting against the Orichakoff
the field batteries bombarded the
naval barracks, which replied.

"The number of wounded has not yet
been ascertained.

"The Orichakoff is still burning and it
is impossible to extinguish the fire."

MUTINEERS SURRENDER.
Gen. Kaulbars telegraphed later that
he had just received a telegram from
Capt. Berget, chief of Admiral Chouk-
nin's staff, saying that during the night
of Nov. 29 the mutineers had surren-
dered with 10 quick-firing guns, to the
first regiment, and that the barracks were
completely victorious.

Gen. Kaulbars' dispatch says that the
mutineers who surrendered, together
with those captured on the Orichakoff,
number 2,000, the majority of them being
reservists who were sent to the bar-
racks at the time of the mutiny.

A torpedo boat which was supposed to
have been sunk was found today on
the shore. It was on fire.

The Orichakoff is floating but her in-
terior is gutted. The town is quiet.
Capt. Berget telegraphs that Capt.
Slavovskinsky has died of his wounds.

ROBBER CHIEF IS CAPTURED.

Loot of His Gang in Last Two
Months Amounts to
\$25,000.

HE PUT UP DESPERATE FIGHT.

When Police Raided His House He
Appeared at Window and Opened
Fire on Them.

Chicago, Dec. 1.—Henry Hockemo,
leader of a gang of robbers, whose loot
within the last two months aggregates
\$25,000, mostly stolen from freight cars
of the Chicago Transfer company near
Lemoine, Ill., was captured yesterday
after a desperate fight. The police
found silverware, silks, laces, shoes,
firearms and almost all conceivable
sorts of merchandise stored away in
Hockemo's house. The value of the
loot recovered is said to be \$10,000.

Hockemo lived with his wife in a
house in Archer avenue upon which a
raid was made by the police.

When the police demanded admis-
sion Hockemo appeared at a window
with a rifle and opened fire on them.
A railroad detective who accompanied
him, a case was made when a person
let, but not seriously wounded. The
police then drew their revolvers and

returned the fire. Hockemo surren-
dered and his wife was also taken into
custody.

The prisoner is said to be the lead-
er of a gang of nine persons who have
been robbing freight cars for several
months.

**SURRENDER OF THE
MUTINEER SAILORS.**
St. Petersburg, Nov. 30.—The admir-
alty announces that it has received
from Gen. Kaulbars, governor general
of Odessa, the following telegram ad-
dressed to him by Vice-Admiral
Chouknin at Sebastopol, dated Nov. 29:

"We wished to terminate the affair
on Nov. 29, by surrounding the mutin-
ous division with troops and issuing an
ultimatum for unconditional surrender.
The mutineers, however, commenced to
attack on the night of Nov. 29, seizing
the torpedo boat Orichakoff and three
others which had drawn near the cruiser
Orichakoff."

"All these vessels hoisted red flags,
after which the Orichakoff flew the sig-
nal that Lieut. Schmidt was in com-
mand of the fleet. Then the lieutenant
who was on board the Orichakoff, sailed
along the squadron, his crew cheering,
but the other vessels did not respond to
these cheers. Lieut. Schmidt after-
wards proceeded to the port and re-
fused to accept of any terms of surren-
der."

"Armed detachments of mutineers
continued to seize the small craft in the
harbor which were not guarded by
troops."

"Armed parties in sloops from the
Orichakoff went to the Panteleimon,
captured the officers and took them on
board the Orichakoff."

IOWA PIONEER DEAD.
Marshalltown, Ia., Nov. 30.—Henry
Anson, founder of this city and one of
the earliest settlers of central Iowa,
died today of pneumonia. He was the
father of Adrian C. Anson of Chicago,
who was the first white child born in
Marshalltown.

How Rapid Life is Killing Our People.
UNPRECEDENTED NUMBER OF DEATHS RESULT FROM HEART DISEASE.

The fact that 125 persons died recently
in one week in New York City, from
heart disease, when the death rate
corresponding week in 1904 was only 50,
has given rise to the belief among phy-
sicians that New York residents, and
American people generally, for that mat-
ter, are living too rapidly. The strain of
business and career attending the pace
of competition and the very attempt on
anxiety to gain wealth are given as an
explanation by physicians of the condi-
tions which exist today.

Doctors have established the fact that
the nerve forces which control the stom-
ach and the heart, are affected by the
hurry of the daily scramble for exist-
ence. The result is that the stomach
boils their food, in order to quickly resume
their exerting careers. Many young men
now succumb to heart disease, where 50
years ago, a case was rare when a person
lived to 30 years of age died from this
malady.

Women are also victims. This is at-
tributed to the fact that they are too
worry over social engagements, also to
overwork. Worry and excitement, to-
gether with many nerve shocks which
come to all in their daily life, of busi-
ness and the struggle to get on, and
hurry, are the principal causes which
strain the heartstrings.

We Americans, both men and women,
are living too fast. We work too hard
and worry too much. How can the strain
be best contracted and the damage done
be quickly repaired? Only by humo-
rizing and assisting the stomach to let in a
more healthy manner. Thus will the
blood be enriched, the nerves invigorated
and the action of an enfeebled heart
strengthened and regulated. Dr. Pierce's
Golden Medical Discovery contains just
the right ingredients to do this, as will
be seen from what eminent medical
authorities say of the different ingre-
dients composing it. To make the weak-
ened stomach strong that it may prop-
erly digest the food and thus manufac-
ture rich, red blood. Golden Seal, a
prominent ingredient of the "Golden
Medical Discovery" is pre-eminently the
article needed. The late Prof. John M.
Snyder, M. D., of Cincinnati, author of
"Specific Medication," says of it:

"It stimulates the digestive processes,
increases the assimilation of food.
By this means the blood is enriched."
"The consequent improvement
on the nervous and glandular systems
are natural results." He further says:

"In relation to its general effects on the
system, there is no medicine in use about
which there is such general unanimity of
opinion. It is a remedy regarded as
the tonic useful in all debilitated states."

THE UNITED STATES DISPENSARY
says of Golden Seal root: "As a local
remedy, Hydrastis (Golden Seal) has a
remarkable effect upon the mucous
membranes. Used in gastro-intestinal
diseases, it stimulates the nervous
system. This agent (Golden Seal), has
stimulating properties, affecting respiration
and circulation, imparting tone and
increased power to the heart's action."

Then besides Golden Seal, which, ac-
cording to the best medical authorities,
stands at the head of all stomach and
heart tonics and invigorators, there is
Stone root (Collinsonia Canadensis), which
enters largely into the composition of
"Golden Medical Discovery," and it is an
acknowledged stomach and heart tonic,
especially superior to all other remedies
in valvular and other affections of the
heart. The late Prof. Wm. F. Fiske, M. D.,
of Philadelphia, says in his work on Con-
centrated Medicines:

"I, not long since, had a patient who
was so much oppressed with a valvular
disease of the heart that his friends were
obliged to carry him up-stairs. He, how-
ever, gradually recovered under the influ-
ence of Collinsonia (the active medicinal
principle of Stone root), and is now ac-

tending to his business. Heretofore phy-
sicians knew of no remedy for the re-
moval of so distressing and so dangerous
a malady. With them it was all guess-
work, and it is only within the last few
years that Dr. Collinson has been unques-
tionably affords relief in such
cases, and in most instances effects a
cure."

"Golden Medical Discovery" so strongly
and faithfully represents the active med-
ical principles residing in both Golden
Seal and Stone root that it can be de-
pended upon to produce their combined
and best curative effects. It must not,
however, be expected to perform miracles.
Those who have abused themselves by
overwork, and thus invited stomach and
heart weakness must not expect a cure
from the "Golden Medical Discovery."
They must let up on their strenuous labors and
not over-tax their brains, nerves or
muscles, take rational exercise in the
out-door air, and sleep and rest too
much of it—never gourmandizing or
overloading the stomach. Get to sleep
early and take plenty of rest in bed.
Golden Medical Discovery strengthens the
broken-down one may confidently ex-
pect relief and cure from the use of
that great stomach, nerve and heart
tonic and invigorator, "Golden Medical
Discovery."

It is a trite saying that no man is
stronger than his stomach. Dr. Pierce's
Golden Medical Discovery strengthens the
stomach—puts it in shape to make
power, rich blood—helps the liver and
kidneys to expel the poisons from the
system, and thus restores the health of
the blood. If you take this natural
blood purifier and tonic, you will assist
your system in manufacturing each day
a pint of rich, red blood, and thus in-
crease the power of the blood. It is in-
vigorating to the brain and nerves. The
weak, nervous, run-down, debilitated
condition which many people suffer from
is usually the effect of poisons in the
blood. It is often indicated by pimples
or boils appearing on the skin, the face
becoming sallow, and the feeling "blue."
Dr. Pierce's "Discovery" cures all blood
humors as well as being a tonic that
makes one vigorous, strong and forceful.
It is the only medicine put up for sale
through druggists for like purposes that
contains neither alcohol nor harmful
drugs, and the only one, every ingredient
of which has the professional endorse-
ment of the leading medical writers of
this country. Some of these endorse-
ments are published in a little book of
extracts from standard medical works
and will be sent to any address free,
on receipt of request therefor by letter
or postal card, addressed to Dr. R. V. Pierce,
Buffalo, N. Y. It tells just what Doctor
Pierce's medicines are made of.

The "Words of Praise" for the several
ingredients of which Dr. Pierce's med-
icines are composed by leaders in all the
several schools of medical practice, and
recommending them for the cure of the
diseases for which the "Golden Medical
Discovery" is advertised, are given in a
small book of extracts from the medical
writings of the leading writers of this
country. Some of these endorse-
ments are published in a little book of
extracts from standard medical works
and will be sent to any address free,
on receipt of request therefor by letter
or postal card, addressed to Dr. R. V. Pierce,
Buffalo, N. Y. It tells just what Doctor
Pierce's medicines are made of.

Dr. Pierce's Common Sense Medical
Adviser, containing more than a thou-
sand large pages, is sent free on receipt
of stamps to pay expense of mailing
only. Send 31 one-cent stamps for the
cloth-bound volume, or only 21 stamps
for the book in paper covers. Address
