

## MAKING PROGRESS ON TARIFF BILL

Senator Smoot Corrects State-  
ment Regarding the  
Price of Razors.

PARTY LINES WERE IGNORED.

Several Amendments Adopted—Some  
Decreased and Increased Duties  
Reported by Committee.

Washington, May 18.—After devoting the greater part of the day's session to debate the senate passed upon a number of important committee amendments to the tariff bill. It also rejected an amendment by Mr. Stone regarding the Dingley rates on razors. On that vote most of the progressive Republicans voted in the affirmative with the Democrats.

More than two hours were devoted to a discussion of a resolution by Senator Gore to investigate the cost of production at home and abroad and the relative price of commodities at wholesale and retail. The resolution was referred to the committee on finance.

Considerable progress was made in the adoption of several sections of the tariff bill that had formerly been passed over. Several of these amendments decreased duties formerly reported by the committee, but some of the other amendments adopted increased duties.

When the tariff bill was taken up Mr. Stone spoke at length in favor of his amendment to reduce the duties prescribed by the bill on razors to the rate of the present Dingley law.

Mr. Stone endeavored to show that the statement made by Mr. Smoot yesterday regarding the razor industries was incorrect and Mr. Smoot corrected his statement in some particulars. Mr. Stone read several telegrams exchanged between himself and a cutlery manufacturer which purported to show that imported razors costing 40 cents retail in this country for \$1. Mr. Smoot offered in evidence the razors and invoice showing that their cost was 40 cents each to the importer and that they were marked to sell at \$3 each at retail.

PARTY LINES IGNORED.

The Republicans voting in the negative with the Democrats on Mr. Stone's amendment were Beveridge, Bristow, Brown, Clapp, Chandler, Cummings, Gamble, La Follette and Nelson. On an amendment offered by Mr. Bacon, reducing the rates on the section relating to knives, razors, scissors, etc., nearly all the Republicans had voted in favor of reduction to the level of the Dingley rates voted on, the amendment being rejected by a vote of 23 to 21. Senators Clapp and La Follette, alone of the Republicans voting with the Democrats.

On table and butcher knives, etc., the committee had reduced the rates of the Dingley law about 30 per cent, and Mr. Bacon sought by amendment still further to reduce them. The amendment had no support from low tariff Republicans, being rejected by a vote of 23 to 23.

The requirement for making cutlery with the name of the foreign manufacturer on the importer was by amendment made to go into operation Oct. 1, 1909.

The section levying a duty of from one-quarter to one-half a cent a pound on wire nails was objected to by Mr. Oliver, who said the rates were too low. Mr. Aldrich said the finance committee was considering a further amendment which would be reported later.

The committee had increased the duty on needles to \$1.25 per thousand and 25 per cent ad valorem, which Mr. Gallinger declared was so low that foreign needles were driving the American ones out of the market. The paragraph was adopted. Mr. Aldrich said he would look into the need for additional duties.

An increase of 5 per cent on the house duty on steel plates, and increases on wood screws of various sizes were adopted. The adoption of committee amendments without any and any votes being called for, proceeded rapidly until the section relating to umbrellas and parasols ribs and stretchers was reached and then Mr. Dolliver objected to any increase.

Opening a package of umbrella frames Mr. Penrose stated that one of the classes of frames was sold to the trade for 4 cents and another for 11 cents.

drive the domestic manufacturer out of  
the market unless greater protection  
was afforded.

The committee rates were sustained.  
That the duty of 1 cent per pound  
on antimony contained in ore, and 1 1/2  
cents per pound on antimony, as recom-  
mended by the committee, was de-  
clared by Senator Dixon, who added  
that the duty ought to be higher.

Mr. Dixon said the antimony market  
was controlled by the trust in London  
and that the United States is dependent  
upon a foreign market for this metal,  
which it uses in its ammunition. The  
committee recommendations were  
adopted.

Mr. Aldrich moved additional amend-  
ments cutting the rates to 10 instead of  
12 cents per pound on bronze powder,  
etc., as provided by the house bill, and  
5 instead of 10 cents on tin wire, and  
5 instead of 10 cents per pound on  
bulion and metal thread.

The "Insurgents" and the Demo-  
crats seemed overjoyed at the tendency  
downward. Then came an amendment  
increasing a rate from 10, as formerly  
recommended by the committee, to 15  
cents per pound, and there was a gen-  
eral laugh at the expense of Mr. Aldrich,  
who was called upon to explain the  
change of direction of the rates he  
was reporting.

Mr. Aldrich said the articles on which  
the increase was proposed were gold  
threads used for ornament and he ad-  
ded that the rate on tin used on  
Christmas trees were included in the  
articles on which the rate was re-  
duced.

Section 151, dealing with metallic min-  
eral substances in a crude state, was  
passed over. Mr. Burton said he wanted  
an increase of the rates on the crude  
article.

The paragraph relating to watches  
was adopted with an amendment re-  
garding the name of the country of  
manufacture and the name of the man-  
ufacturer to be indelibly placed on the move-  
ments. Mr. Beveridge indicated that  
the provision would be contested when  
the bill was considered as a whole.

Additional amendments were reported  
to the section relating to zinc ore. In-  
stead of a duty of 1 cent a pound on the  
zinc in the ore without regard to the  
percentage of metal obtained, as for-  
merly proposed by the committee, a duty  
of 1/4 of a cent a pound to 1 cent a  
pound, according to the percentage of  
metal contained in the ore, was pro-  
posed. This section was adopted with  
the understanding that if any senator  
desired to reconsider it, that course  
would be pursued.

PRESBYTERIAN GENERAL  
ASSEMBLY IN DENVER.

Denver, May 19.—The Presbyterian  
general assembly will convene in the  
Central church here tomorrow, and af-  
ter a brief morning session, which will  
be entirely formal, will adjourn until  
8 p. m., when the election of moderator  
will take place.

For this office a lively contest is in  
progress, the six candidates actively in  
the race being Dr. William L. McEwan  
of Pittsburgh, Dr. James Morrison Bar-  
kley of Detroit, Justice Harlan of the  
United States supreme court, Dr. Robert  
MacKenzie of New York, Dr. Edgar  
P. Hill of Chicago, and Dr. Howard  
Agnew Johnson of Colorado Springs.

Should Justice Harlan be chosen, he  
will be the first layman ever elected  
moderator.

Though the general assembly proper  
does not begin its sessions until to-  
morrow, important preliminary meet-  
ings are taking place today. One of  
these is the foreign mission conference,  
which assembled at 9 o'clock this morn-  
ing in the First United Presbyterian  
church.

SPECIAL HONORS TO BE  
PAID ADMIRAL URIU!

Washington, May 19.—Vice Admiral  
Stookichi Uriu, chief of staff of the  
Japanese navy, a graduate of the United  
States naval academy and one of  
the world's most eminent naval au-  
thorities, will receive a royal welcome  
when he comes to the United States.

When he arrives at San Francisco,  
May 21, on the steamship Nippon Maru,  
the courtesies of the port will be ex-  
tended. Commander F. W. Eberle,  
commandant of the naval training sta-  
tion at San Francisco, has been desig-  
nated as special naval aide to attend  
him.

He will journey westward in a special  
car provided for him by a railway mas-  
sage. In Washington he will be the  
guest of the naval academy alumni at  
a dinner at the Metropolitan club May  
23. Congressman John W. Weeks of  
Massachusetts, a classmate, will give  
a reception in his honor May 31.

Vice Admiral Uriu will then go to  
New York, where he and Rear Admiral  
Sperry, U. S. N., will be the guests  
of honor at a banquet given by the  
Japanese society on June 1. On the fol-  
lowing day he will go to the United  
States naval academy, where he, with  
two other Japanese boys, studied in  
1877 to 1881.

He will attend the ceremonies in con-  
nection with the presentation of the  
bronze doors of the new chapel to the  
academy on June 1, and will return to  
Washington, where he will be the guest  
of honor at a banquet given by his  
classmates.

Baroness Uriu, who was one of the  
first Japanese girls to be graduated  
from Vassar college, is accompanying  
the admiral.

During the Russo-Japanese war Vice  
Admiral Uriu commanded the squad-  
ron that destroyed the Russian cruis-  
ers Varag and Koreitz in Chemulpo  
harbor. He commanded the Japanese  
vessels that did much destructive work  
before Port Arthur, and at the battle  
of the Sea of Japan he commanded a  
division of the fleet under Admiral To-  
go. Since then he has been in charge  
of the staff and administrative work  
at the navy yards at Sasebo and Tushima.  
The admiral is a member of the Con-  
gressional club.

BLAINE TAYLOR  
ARRESTED IN LOS ANGELES

Los Angeles, Cal., May 19.—Blaine  
Taylor, 26 years old, an attorney, son  
of the late T. B. Taylor, a capitalist  
and nephew of former Gov. Van Sant  
of Minnesota, was arrested last night  
on charges of having passed fictitious  
checks and forged others to the amount  
of nearly \$8,000. Taylor denies the  
amount of money he has obtained is  
anything like the sum charged and  
states that \$20 or \$30 will cover the  
entire amount.

ARTHUR P. MURPHY  
CONGRESSMAN WHO SEEKS TO  
IMPEACH FEDERAL JUDGES.

Representative Arthur P. Murphy of  
Missouri is the man who offered im-  
peachment resolutions in the house  
of representatives against Judge John  
P. Phillips of the western federal dis-  
trict of Missouri and Judge Smith  
McPherson of the southern district  
of Iowa. He contended in his state-  
ment that both judges were on intimate  
terms with Frank Hagerman, an  
attorney for the eighteen Missouri  
railroads concerned in the rate litigation.  
Governor Hadley insists upon  
an appeal of the rate decisions and  
wishes the United States supreme  
court to decide the question of juris-  
diction between the federal and state  
courts.

METALIZING HORNED  
TOADS FOR LADIES' HATS

Chicago, May 19.—Two thousand horned  
toads from Texas are going through  
the metalizing process at a metallic  
production plant at Waukegan and are  
being formed into hat pins. To make  
each pin, a fresh toad is needed. It is  
chloroformed before being put into the  
process. The company plans to put out  
50,000 toad pins. The idea of using  
them for hat pins is expected to appeal  
to women who like fads.

FILLMORE CHINA PUT  
IN WHITE HOUSE CABINETS

Washington, May 19.—Valuable addi-  
tions to the presidential china pieces  
owned by President Fillmore were placed  
in the White House cabinets today.  
Some time ago the widow of Presi-  
dent Fillmore's nephew wrote the  
superintendent of public buildings and  
grounds suggesting that specimens of  
the President Fillmore china, could  
doubtless be found in Buffalo, his old  
home.

Mrs. Abby G. Baker, who has charge  
of the White House collection for Mrs.  
Taft, went to Buffalo to see if any of  
the ware could be secured.

None of Fillmore's lineal descendants  
are living, but Mrs. Baker found a  
number of Fillmore's old friends and  
through them she located many relics.  
Two sisters, Mrs. R. B. Terry and Miss  
Cecilia Burdick, had purchased the Fill-  
more mansion with its furniture, and  
they generously contributed an old

TOOK CHANCES OF DEATH  
TO PREVENT COLLISION

San Francisco, May 19.—To avert a  
collision with a street car which would  
have imperiled the lives of its passen-  
gers, William Wonderlich, driver of  
chemical engine No. 2 of this city de-  
liberately overturned his apparatus.  
Wonderlich was severely injured and  
several firemen on the engine were  
bruised. Wonderlich was strapped to  
his seat and took desperate chances of  
being crushed to death by the heavy  
engine. The engine was returning down  
a steep hill from a small blaze when a  
street car heavily loaded passed at the  
intersecting street at the bottom of the  
incline. According to Fire Capt. J. H.  
Mitchell, who was on the apparatus,  
the motorman paid no attention to the  
going which was rung repeatedly by  
Wonderlich, and when a collision ap-  
peared imminent the latter turned the  
engine up hill, thus upsetting it.

Constable Wilken went out to arrest  
Porter on a warrant last week, but  
when the constable approached Porter  
disappeared into the woods, carrying  
his gun.

Porter then Wilken has been shot at  
and his home has been riddled by bul-
