WHAT CRITCHLOW SAID.

Mr. Critchlow, who was the first speaker, and opened his remarks with "Ladies and Gentlemen, Fellow Citi-zens and Disgruntled Office Seekers: I zens and Disgruntled Office Seekers: 1 understand that is what we are. There was a meeting held here about two weeks ago in which, for the first time, the gathering storm of sentiment in this eity and in this state took definite form and many, perhaps, of your same mind, formed what you are pleased to call the American party. It was an an-omaly, ladies and gentlemen. It was an anomaly that in any state of this Union men and women should come to-gether merely to declare that they are American citizens. Whoever heard of American citizens. Whoever heard of such a thing before?

When Frank Cannon told the messen. gers of Senator Kearns that he would not join the A. P. It is evident that he had been seen during the day. He also did some-thing else. He removed his name from the editorial page of the State Journal. An effort was made in Ogden today to verify a rumor to the effect that he has sold his interest in the paper. But Mr. gers of Senator Kearns that he would sold his interest in the paper. In addition to the Mutual Improvement workers there were present the stake pres-idncy. Bishops of wards, members of the general board, and a number of specially invited guests, including Church workers from adjoining stakes. The reception opened with strains of nusic from the orchestra, after which Supt. Mathonihah Thomas made a speech of welcome and bade all present enjoy themselves. This they did in dancing and in purtaking of delicious refreshments, served by a bevy of handsome young ladies. The hall was beautifully decorated is the national col-ors and presented a most striking appear-ance. About 300 persons were in attend-ance:

At Bailey's Lake, John Mitchell of the Western Arms' company, got his full 40, while his brother, W. W. Mit-chell brought down 30. These were the record kills of the club there. FRANK J. CANNON.

Chairman Critchiow then introduced Former Senator Frank J. Cannon, who consumed considerable time in hunting for a A. P. U. emblem before he ovea-tually reached the stage. His appear-ance was greeted with considerable applause.

He said in part: "Mr. Chairman and Fellow Citizens-Is this party organized to make more trouble for long-troubled Utah? (Cries of "No. That is not right. That is wrong.") If so, then no man nor wo-man who hopes to live in this splendid state and who hopes to leave a beritage of fame for himself and glorious op-portunities for his children, should have may part in the movement. Is this party organized to make suffering for the "Mormon" people, to distranchise them, to put manaeles upon them, to add trouble in the future to the long-endured froubles of their past? Then, if so, no man, nor woman in this assemblage, or in the state of Utah, who now enjoy-physical comfort which comes from a great work that the pioneers did here in early days should take part in this movement. But if this party is organized that those who come after us ganized that those who come after us may have the blessings which were promised with statehood, then we all belong, or should belong, to that party. And if that be the motive and the hopes, I am proud to wear the badge of the American emblem. I cannot forget my hour of pride, that time of greatest sensation in my life, when the forty-fifth star was added to this may and for the first time I realized

That I was an American citizen. "This party will succeed just in pro-portion to the purity of its motives. If t goes into the great warfare in Utah without the hearts of its members it will attain no enduring success. Love begets love; and if we are organized here as a protest against injustice, if we are organized here in order to with to Americanism those who, for the mo-ment, are being led from its highest ideals, and we appeal to them with a common affection which all American citizens owe to the institutions of our common country, then they are wel-come to the freedom which the Ameriinst belong to any organization into which a "Mormon" cannot enter as willingly and as freely as any other citizen. At Bailey's lake the most novel way of hunting ducks yet on record was employed.
