A. W. STREET.

Postmaster.

Kentucky, according to the report of the Agricultural Bureau, has raised 60,000,000 pounds of tobacco in a year, or nearly enough to furnish two pounds to each person in the United States—men, women, and children. Many boys smoke or chew, or both; but we are glad to know that comparatively few women do either. Well, two pounds a head ought to be sufficient, and hence Kentucky should supply the whole country. But she does not. Millions of pounds are consumed in the United States beyond her production. It is a serious reflection that every pound of this material is not only a waste in itself, but a sad waste of health. If men used only what they need for health and enjoyment, they would not be the slaves they are to employers and tax-gatherers. —[The Occident.]

THE RIGHT KIND OF RELIGION.—"I want," says Uncle Nick, "and we all want a religion that not only bears on the sinfulness of sin, but on the rascality of lying and stealing—a religion that banishes all small stalls, pebbles from cotton bags, sand from sugar, chicory from coffee, alum from bread, lead from butter, strychnine from wine, and water from milk cans. The religion that is to advance the world," says Uncle Nick, "will not put all the big strawberries and peaches on the top and all the bad ones at the bottom. It will not offer more baskets of foreign wines than the vineyards ever produced in bottles."

JOY TO THE AFFLICTED!

LAUGHING GAS!

FOR the Million! I take pleasure in informing my numerous friends and the Public, that I have been to great expense and trouble in buying the Patent Right for Salt Lake City for the best Nitrous Oxide Gas Apparatus that is in existence, as is proved by its being used by the Royal Families of England, France and Belgium, also by Dr. Colton, in the Dental Institute, New York.

The Gas made by this Apparatus only is absolutely pure, and no unpleasant choking or strangling sensation is experienced, or any disgusting bag used in taking it, but you can breathe perfectly natural every way, and you would not suspect that you were breathing anything but the purest air. It is, in fact, the ne plus ultra of all methods for the painless extraction of Teeth.

I have a large supply of the same Teeth which took the First Premium in Paris last summer.

Also five different kinds of Rubber for inserting Teeth, including the kinds used in England and France.

Particular attention given to preserving the natural Teeth. Terms moderate. Call and see. Dr. Wm. H. GROVES, 2d South St., d66-1m
