VOL. II.

SALT LAKE CITY, TUESDAY EVENING, APRIL 27, 1869,

No. 133

## BREVITIES.

T. T. Barnum is lecturing on the velocipede.

The area of London is 78,000 acres, or nearly 122 square miles.

"Greenland Bends" are a new style of shoes with curved toes, for young gentlemen.

M. Zodoo Kahn, lately appointed Grand Rabbi of Paris, is not yet 30 years old.

Not long ago a blacksmith in Hudson City thrust a hot iron into a can of nitro-glycerine, and blew himself through the roof in several places.

Chicago is being entertained with the play of Oliver Twist, and wants "more" of it. They can have it ad libitum when Lucille gets there.

The Duke of Somerset recently declared in debate that "each missionary sent from England requires a gunboat."

The volunteers in Great Britain number 150,000 men, and the Government contributes \$1,000,000 toward the general expenses. The regular army only numbers 135,000 men, and costs annually the nice round sum of \$70,000,000.

A correspondent tells of a Fifth Avenue mansion decorated with point lace curtains, Indian shawl coverings on the furniture, bronze doors and silver monograms on everything.

A donkey in the suburbs of London has attained a celebrity by showing a fondness for hearing the concertina played. At the sound of the instrument he will gallop towards the player, braying loudly. Perhaps he humanely wishes only to drown the sound of the concertina.

A correspondent describes Senator Sumner as "the Senate's father, dignified as a patriarch, polished as Gladstone, humane as Bright, fearless as Thiers; in the full stature and glow of perfect manhood and statesmanship."

The latest family murder is in St. Paul, where a man chopped off the heads of his four children and killed his wife. He then laid them in a row on the floor, and when arrested asked to be hung immediately. He is insane.

A woman in New York broke a kerosene lamp over her husband's head after unsuccessful attempts to scald him with hot water from a tea-pot and to brain him with a stove lid, but in so doing she burned herself so severely that she has since died.

Isaac Dunn Platt describes Mr. Motley, the historian, as "a stout healthy gentleman of square shoulders, with reasonable digestive apparatus, standing somewhat over the medium height, something of a man of the world, inclined to adipose. His face is a good dinner face, with well regulated features which light up like a lantern in conversation."

For a young man that follows accurately the "model letter writer" recommend us to the young man in the Fond du Lac jail, who commenced a letter thus: "My dear Uncle, it is with the greatest of pleasure that I take my pen in hand to inform you that I am here in Fond du Lac jail."

The newspaper press directory of Great Britain, for 1869, reports that there are now published in the United Kingdom 1,372 newspapers, distributed as follows: English, 1,039; Wales, 51; Scotland, 136; Ireland, 131; British Isles, 15. Of these, there are 63 daily papers published in England, 1 in Wales, 11 in Scotland, 13 in Ireland and 1 in the British Isles.

It is stated that Attorney General Hoar is a Unitarian, Secretary of the Interior Cox is a Swedenborgian, Secretary of the Navy Bore is a Catholic, Ex-Secretary of State Washburne is a Universalist, Secretary of State Fish is a Dutch Reformed, Ex-Secretary Stewart is a Presbyterian, and Post Master General Cresswell is a Wesleyan. The religious faith of Boutwell and Rawlins is not yet known to fame. Grant's family are Methodists.

An English paper relates that about five months ago a girl about twelve years of age became ill, and in a short time fell into a lethargic state, resembling that of a person in a trance. In this condition she remained for several weeks, but at length returned to a state of consciousness, and, calling upon her mother, related how she had been in heaven and seen numerous angels, and her brother, who died some time ago. This power of speech remained only for a short time, and the girl relapsed into her former state, or nearly so. She lies in a lethargic condition, but when a question is put to her she manifests her power of understanding it by a slight moving of the head. The only sustenance she has taken for fully fifteen weeks has been the occasional moistening of her lips with a little brandy and water or tea.

A Government surveying party, numbering 10 men, left Virginia City, Nevada, on the 27th ult. for the eastern part of the State, for the purpose of running what is called the Ruby Valley guide meridian line through to the Colorado river. The line will be commenced in the White Pine region, near the Newark Mill. One wagon belonging to the party left the day before for White Pine. The expedition is under the command of Colonel E. B. Monroe, a man who has had much experience in the business of surveying the wilds of this State, as well as a good deal in the Union army during the war. The party will number 12 men, all told, upon leaving White Pine, and every man will have his Henry or Spencer rifle. They go out equipped with every necessary for a trip of seven months' duration, and say they have no fear of being "gobbled up" by the Indians. —Territorial Enterprise.
