Chicago, April 22 .- The great storm of wind, snow and rain which pre-vailed in the middle east Saturday swirled around unexpectedly Sunda. and swept over Lake Michigan leto Chicago. It did damage to property, blew down trees and shrubbery in the parks and boulevards, crippled electric wires and whipped the lake into the

heaviest sea of the season. Shortly after sunrise the wind raised and began to increase in specif until by neon it was racing over the city at the rate of 52 miles an hour. Early in the day the signal service foresaw trouble ahead. Warning signals were flung out to mariners in the city and all along the lakes. Obeying them saved mor than one vessel from what would certainly have proved disaster. It was fortunate for a large number of schooners and grain steamers that the warn ing came in time, for they were waiting in the river and intended to sail yester day. Instead, they were windbound throughout the day and night and will not move now until the wind has died down. Boats coming down the lake, making for Chicago, put in at conven-ient ports, so that no reports of mishaps have so far been received.

A distinguished visitor in Salt Lake yesterday was Sir John Swinburne of England, M. P., from Newcastle-on-Type and cousin of the famous English poet Swinburne,

He came preceded by a letter of Introuduction to C. R. Savage from the Oregon Short Line, requesting the latter gentleman to show the distinguished visitor what attention he could during his short stay in Salt Lake. During the afternoon he visited the Tabernacle, Fort Douglas and other points of interest under Mr. Savage's escort and expressed himself as being most favorably impressed with the city though he was disappointed in not seeing the streams flowing on both sides of the streets as had been pictured to him in previous descriptions.

He expressed himself as also disappointed at not hearing the Tabernacle choir, of which he stated he had heard much praise. He reached the Taber-nacle after the final number and therefore did not have the pleasure of hearing It.

To a "News" representative who asked him some questions in regard to his illustrious relative he stated that the poet lives in comparative retirement at Putney and does not now devote himself to any ambitious poetical work. He is quite old and lives very quietly. Asked to express an opinion upon the merit of the poet's work he haughed and said "I perhaps would be better able to give an intelligent opin-ion if I had ever been quite sure of what he means when he writes." He expressed himself, however, as agreeing with the almost universal opinion in literary circles in England that Swin-Interary circles in England that Swin-burne should have been laureate instead of Austin. "Austin is a great goose." he said laughingly, "and I think prob-ably his reign will end the laureateship in England. "I should think they have had enlough."

He said he was returning from a trip to Vancouver Island, B. C. and would shortly sail for England. He is a man of about 70 years, and gives the im-pression of a thoroughly courtly and polished gentleman.

On motion of Judge Powers, counsel for the defendant in the case against W. E. Hubbard, charged with rape, a containuance was granted by Judge Timmony until Friday morning at ten o'clock.

From all the facts in the case it appears that some days ago some ladies protested to the sheriff that Hubbard was enjoying too much liberty at the county jail, and he was removed to the rotary. Since that time he has been came such that he sent for his physician, Dr. E. W. Whitney. In argung the motion for a continuance, Judg-Powers presented an affidavit from the defendant Hubbard and also one from Dr. Whitney, setting forth that he was sick and not in a condition to attend court According to Dr. Whitney's statement

Hubbard is suffering from acute indi-gestion, and will not be able to leave the jail for several days to come.

"I am anxious to have this case dis-"I am anxious to have this case dis-posed of by the first of May." said Judge Powers, "ag I have to go to San Francisco at that time to attend to a case in the court of appeals. The Van Kuran case comes up Wednesday, and I would like this case to go over until the 25th and 30th." Assistant County Attorney Loof-bourow placed County Physician Mayo on the stand, and in answer to a ques-tion of counsel, the doctor stated that

"Do you think that his condition is such that he could not attend court this morning?" asked the attorney. "No," replied the doctor. "Then," said Mr. Loofbourow, "I op-pose the motion for a continuance. We

Judge Powers then arose and said that he, too, was ready to proceed with the case and had expected to go ahead with it until informed of the defendant's illness. Judge Timmony, without further ado,
