

# DESERET EVENING NEWS

## WEATHER REPORT.

Observations taken at 6 a. m. today, for previous 24 hours:

Salt Lake City—Barometer, 25.67 inches. Current temperature, 44; maximum temperature, 55; minimum temperature, 43; mean temperature, 50, which is 2 degrees above normal.

Accumulated excess of temperature since first of month, 15 deg.

Accumulated excess of temperature since January 1st, 724 deg.

Accumulated deficiency of precipitation since first of month, .16 inch.

Accumulated deficiency of precipitation since January 1st, 3.33 inches.

## FORECASTS TILL 6 P. M. SUNDAY.

Local forecast for Salt Lake City and vicinity:

Partly cloudy tonight and Sunday.

Forecast made at San Francisco for Utah:

Partly cloudy tonight and Sunday.

## WEATHER CONDITIONS.

Pressure has decreased along the Washington and Oregon coast and increased over Idaho, Nevada, Utah and Montana. A slight storm is apparently off the Washington coast, but no well defined area of either "high" or "low" appears on the map. It is colder in Nevada and western Montana, and warmer over eastern Montana, northern Utah, Minnesota, South Dakota and Nebraska. Generally clear weather prevails. Precipitation occurred only at Santa Fe, Omaha and St. Paul; the latter place reports 1.01 inch.

J. I. WIDMEYER,  
Temporarily in Charge.

## TEMPERATURE TODAY.

10 a. m., 52; 12 noon, 54; 2 p. m., 56; 3 p. m., 55.

## LOCAL BRIEFS.

A meeting of the Council committees was called for last evening, but Councilman Robertson was the only one who put in an appearance.

The Salt Lake Sketch club met at the office of Arthur Taggart this afternoon, where models posed in costume. The membership of the club is increasing, and all the members are very enthusiastic.

The Semi-Weekly News will cross the 15,000 line with colors flying on Monday. The 15,000 mark was passed on September 4, a gain of 10 days. At the same rate of increase, the 20,000 goal will be reached on Dec. 21st.

The members of St. Mark's lodge No. 100, A. F. and A. M. (colored) gave a banquet and ball in the Jennings' hall last evening. The affair ended with a cake walk, and the prize in this contest was given to A. A. Tucker and Mrs. B. Alred.

In last Saturday's "News" the sketch of the late E. L. Sloan gave the names of his sons as W. L. and Thomas W. Walter Sloan, who won the prize in the Mutual Improvement association oratorical contest is another son, whose name should have been given.

A scratch on the hand from the family cat has caused Robert A. Conham, a young man living at 835 Cannon street, serious trouble. The scratch has developed into blood poisoning, and now an abscess is forming. Dr. Root, who is attending him, says it will be several weeks before he will be around again.

The secretary of state has issued a certificate of incorporation to the Huntington Mercantile company, which has been organized by citizens of Emery county. The capital stock is \$25,000, in \$50 shares. Chris Johnson is president; Robert W. Hill, vice president; Jonathan H. Kilpatrick, treasurer. The other directors are Peter Johansen and Leander Lemmon.

A warrant for the arrest of John Larson, a smallpox patient at Murray, was issued yesterday, on the complaint of Dr. E. O. Jones, who alleges that the patient deliberately left his home on Thursday last, after it had been quarantined, in order to escape the pest house. Larson is again under quarantine, and as soon as it can be done safely, he will be given a trial before Justice McCombe.

Money to loan on first class security. Interest low. No commissions charged. Zion's Savings Bank and Trust company.

UTAH COMMERCIAL AND SAVINGS BANK  
Interest paid on savings. W. F. Armstrong, president. W. L. Madsen, vice president. J. E. Caine, cashier.

Castle Gate, Sunnyside and Clear Creek—Lump, \$5.00 per ton. Winter Quarters lump and all nut coal, \$4.75 per ton. Anthracite all sizes, \$9.50 per ton. 73 South Main St. Telephone, 429. D. J. SHARP, Agt.

String Harmonicas, in fact, everything in stock offered for one week below cost.

BEESELEY, Opp. Z. C. M. I.

# EASTERN MARKET IS ASSURED.

## Trans-Missouri Freight Bureau Decides on 50-Cent Rate on Utah Canned Goods and Sugar—Canners Will Open Agency in Kansas City.

At the meeting of the recent Trans-Missouri freight bureau session that was held in Denver at the beginning of this week, those present voted upon a proposition that is of the utmost importance to the industrial and commercial welfare of this State. The matter favorably acted upon on that occasion was the introduction of a fifty cent rate upon all Utah packed tomatoes, fruits and vegetables from the factories here to Missouri river points in carload lots, minimum 40,000 pounds. Although the rate has not yet been officially announced it will go into effect on the first of the month. As the consequence there is great joy among the packers and canners at large in this State.

Not only are the tomato canners affected by this innovation but the same rate holds good in regard to Utah sugar. Under this welcome change the problem of disposing of the surplus products of the factories at a profit is now solved and steps are now under way to establish a distributing agency for Utah canned products and sugar at Kansas City. The manufacturers realize that the introduction of the Utah products into the middle States will be fought tooth and nail by the Eastern producers, and every effort to drive the new comers out of the market, as consignments can be shipped in from Baltimore and other canning centers on the Atlantic seaboard to the Gulf ports and thence via the river to Kansas City at the low rates in vogue in cases of water transportation.

The Utah manufacturers, however, are sanguine in regard to the final outcome of the introduction of their goods upon eastern markets owing to the superiority of the soil and the irrigation facilities at the command of the farmers in the tomato belt, the Utah canned tomatoes have already gained the reputation of possessing the finest flavor of any in the United States today, and in the eastern markets the two-and-one-half can of the Utah product commands the same price as does the three-pound can of the Baltimore brand, or a premium of twenty per cent. The producers and manufacturers may rest assured that in the face of such figures that the Utah article will win out hands down against all comers.

The excellence of the sugar manufactured in this State is also too well known to need more than passing comment. It can hold its own against any competition when it comes to heating and setting on the purest sugar. In these two articles alone in Utah there have been more tons produced this season than there has ever been before and as the consequence, there is a surplus on hand which must be disposed of outside of the home market. The railroads have risen to the occasion in a fashion that is a refutation of the oft repeated statement that they always favor the importer to the detriment of the exporter when it comes to the matter of rates on carload lots of produce.

Just how many carloads of canned goods there are on hand at the ten factories that have been running in this State this season is not obtainable at the present time owing to the fact that the reports are not yet all in. The various plants are busily engaged at the present time in sorting out the good cans from the "awfuls" and as soon as this work is completed the returns will be in. In the meantime it is safe to assert that the surplus cases for export will run into several hundred carloads of the finest tomatoes that have been grown in the United States.

Some idea of the situation can be gathered when it is stated that the ten factories have been running at their full capacity this season are the Utah Canning company, Adams Valley Canning company, Salt Lake Valley Canning company, and Ogden Canning company, all situated in the immediate neighborhood of Ogden; Wood's Cross Canning factory at Wood's Cross, Syracuse; Canning company, Adams Valley Canning company, and Ogden Canning company at Hopper; the Roy Canning company at Plain City. These ten factories have a capacity of 7,000 cases (24 cans in the case) each day, and have run on an average for close upon fifty days before the season's crop was cleaned up.

Chicago Street Railway Franchise.  
Chicago, Oct. 7.—The Chronicle says: "The bills which the municipal street railway commission proposes to introduce at the coming session of the State legislature."

## WHY WHEAT IS LOW IN UTAH NOW.

## Enormous Yield in the Argentine Republic, Prospects of a Big Crop in India Where Rain Has Fallen, Scarcity of Transports, and High Freight Rates.

The price of wheat in Utah is lower now than at any time during the present year. Three conditions contribute to that fact. They are: The enormous wheat yield in the Argentine Republic, the prospects of a big crop in India, and high freight rates.

In an interview with the "News" today one of the best informed wheat men of the State said: "The price of good white wheat is 45 cents a bushel. Red, brings from 40 to 42 cents. The local mills have all they want for the present and are buying but very little. The export demand amounts to no demand at all. The extremely low rates that now prevail on the Pacific coast makes it altogether out of the question to ship at a profit."

"Not until the war troubles in South Africa, China and the Philippines are settled," continued the wheat man, "may we look for better conditions. These dangerous transports, except at rates that farmers as far east as San Francisco as Utah is, cannot afford to pay. It now costs 45 shillings, or \$11.75, to transport a bushel of wheat from San Francisco to Europe. It would cost the farmer in Utah from \$15 to \$18 per bushel, according to the place from where the shipment was made. Of course, it is very plain that the farmer cannot stand a tariff like that. Just as soon as the

THE BUILDING SOCIETY.  
It Increases Its Capital But Only Wants Money from Home Builders.

An event of importance which occurred in the local business world on Wednesday, was the action of the stockholders of Zion's Benefit Building Society in deciding to increase its capital from \$150,000 to \$200,000. At the meeting, about 12,000 shares out of a total of 15,000, were represented. Mr. T. G. Webber, president of the society, said to a "News" representative today, that the action was taken because so many applications had been received for membership that it became imperative, as the series expiring in 1901 and 1902 would not be sufficient to admit the

localists as the result of several months' exhaustive study of the traction situation are practically completed.

The first measure will confer upon the city authorities the right to own and operate street railways. Under its provisions, the city will be empowered to negotiate for the purchase of the present street railway plants within the city limits or as an alternative to build an entirely new system. The money for this purchasing or building street railways to be owned by the municipality is to be raised by the issuance of bonds within specified limits. Before such bonds can be issued the question must be submitted to a vote of the people.

The second measure provides for municipal ownership of a comprehensive system of down-town subways. It has the same provisions as the other bill regarding the financing of the subway system. It confers authority upon the municipality to build the subway system on a bond issue and like the other bill, makes an affirmative popular vote necessary before such bonded debt can be incurred.

The net result of the municipal street railway commission's labors is thus the adoption of the principle of municipal ownership, and at the same time the adoption of the plan of raising the money with which it is proposed to commit the city to an aggressive street railway campaign at Springfield next winter.

## Burlington Coal Fields.

It is stated in Cheyenne on good authority that as soon as the work on the Shortmont Hill tunnel, cut-off and completed that the contractors, Kilpatrick Bros. & Collins, will move to Quersey and commence work with all possible dispatch upon the Burlington coal fields. At that point, right through the middle of the coming summer. A large force of engineers and coal experts are now in the Elk mountain district proceeding to do the necessary work toward the opening up of the mines and the laying of tracks incidental to the yard facilities.

To Abolish Popular Excursions.  
Chicago, Oct. 7.—The Record says: General passenger agents of several railroads are said to have begun a campaign against the so-called popular excursion rates. In all the years that these reduced tariffs have been granted to the public the railroad officials declare that they have not shown a profit sufficient to warrant their being kept in effect. The passenger agents, in other words, say the abolition of these rates would result in the stimulation of regular passenger traffic.

SPRINKLER RAIL.  
S. W. Eccles is back at his desk.

H. B. Kooser, general agent of the Missouri Pacific, is in Boise.

No. 5 on the Rio Grande Western came in this morning in two sections owing to the heavy travel.

The remains of the Butte High school football team will return home over the Short Line at 10:50 tonight.

Charles Kennedy, first assistant general passenger agent of the Rock Island, will be in this city on Monday on his way through to Portland.

Hans Westgaard, western traveling agent for the American and the Red Star lines of steamships, leaves for the East this evening after staying in this city for the past few days in the interest of his company.

The following shipments of livestock have been secured by the Denver & Rio Grande agency: 100 head of horses, 12 cars sheep to Chicago; Swen O. Nelson, Fairview, 5 cars of sheep and 2 of cattle; F. S. Oxborn, Sage, Wyo., 25 cars sheep; George Oxborn, Colon, 6 cars sheep; Henry C. Oxborn, 7 cars sheep; Elko to Omaha; W. A. Oxborn, Idaho Falls, 7 cars of cattle; Oxborn Brothers, 15 cars horses, Amadese, California to South Omaha.

THE BUILDING SOCIETY.  
It Increases Its Capital But Only Wants Money from Home Builders.

An event of importance which occurred in the local business world on Wednesday, was the action of the stockholders of Zion's Benefit Building Society in deciding to increase its capital from \$150,000 to \$200,000. At the meeting, about 12,000 shares out of a total of 15,000, were represented. Mr. T. G. Webber, president of the society, said to a "News" representative today, that the action was taken because so many applications had been received for membership that it became imperative, as the series expiring in 1901 and 1902 would not be sufficient to admit the

war strife is out of the way, transports will become available, freight rates will fall, and Utah can find markets in Europe and the Orient."

"Of course this country has a formidable competitor this year, anyhow, in the Argentine Republic, which will have eighty millions of bushels of a surplus product to put on foreign markets. The Argentine is becoming an enormous wheat producer. The article can be raised so cheaply there, too. Not only can she unload her wheat on the coast but she can have it shipped to the interior for many hundreds of miles, right to the very edges of the great wheat lands themselves, for the product, thus doing away with much of the cost of transportation. But that is not all. India has been blessed with some very heavy rains of late, which insures a big crop there soon. It is now late spring there. Wheat has been sown and some big sales have been made at both Calcutta and Bombay, from the forthcoming yield."

Asked as to what Utah's yield and surplus would be this year respectively the gentleman said: "The yield will easily reach four million bushels. Utah's consumption amounts on the basis of 5 1/2 bushels per capita (population estimated at 270,000) to one and a half million bushels. Owing to the extremely low prices that now prevail, however, a good deal of wheat will undoubtedly be used for flour in being used for general feed purposes."

First Fire Sale of Sheet Music  
In Salt Lake. Will close out at 10c each copy. Music slightly damaged. Sold before the fire at 30c to 50c; now going at 10c.

## FOR MANY YEARS Physicians Have Been Seeking a Reliable Pile Cure.

For years physicians have experienced in vain seeking a remedy which would effectually cure piles and similar rectal troubles without resorting to surgical operations.

Many salves, ointments and other remedies were found to give only temporary relief, but none could be depended upon to make a lasting, satisfactory cure.

Within the past few years, however, a remedy called the Pyramid Pile Cure, has been repeatedly tested in hundreds of cases and with highly satisfactory results.

The first effect of this remedy is to instantly remove the pain and irritation and from that time on the cure rapidly progresses and before the patient is hardly aware of it he is entirely cured.

The Pyramid Pile Cure seems to act directly upon the nerves and blood vessels of the "arts" affected as it comes into direct contact with them and sets up a healthy reaction which is a perfectly natural way reduces the swelling and inflammation.

The Pyramid Pile Cure performs the cure without pain or inconvenience to the sufferer and is justly considered one of the most meritorious discoveries of modern medicine.

Piles is a most annoying and often times dangerous disease with which humanity is afflicted. If neglected it frequently develops into fistula or some fatal or incurable ailment, and where as by the timely use of this simple but effective remedy no one need suffer a single day from any form of piles.

The Pyramid Pile Cure is perfectly harmless, contains no mineral poison, and is not dangerous in any kind of use. It is in suppository form composed of emollient oils and astringents, and is applied at night and absorbed into the parts affected during sleep.

Druggists everywhere sell full sized tins of the Pyramid Pile Cure at 50 cents per package.

The uniform success of the remedy has made it the most popular and best known of any form of treatment for piles.

A number of new subscribers who had filed applications for shares. At the same time, he said that the board did not wish to encourage people to invest in the society unless they intended to build homes in the city. It was the prime object of its organization, and hundreds of homes in Salt Lake had been built through it by working people.

The tendency was of course, now that there was so much idle money accumulating in the city, to interest people so low, for people to invest their money in the Building Society to secure the high rate they had always paid, (8 per cent), but in amending their articles, the directors directed that they should not accept any application which might come from people who were depositing their money for the interest it brought them, and who had no idea of building homes.

Mr. Webber stated that the society now had applications from people who wished to build, which would require the income of the society for the next six or seven months to take care of.

It is important that you send your bundle to us, we do the up-to-date medium domestic mail. All new machinery. Give us your call.

AMERICAN STEAM LAUNDRY,  
123 to 125 East First South.
