Important Convention of Its Confer ence Presidents.

one of the most important confernces of the Southern States mission washeld at Chattanooga, Tenn., May 19 3, 21 and 22. It was a conference of onference presidents. All of the 12 enferences of the mission were repreented by their presiding officers. Elder John Wells, of the presiding bishopric's office, President German E. Ellsworth of the Northern States mission and wife, President S. O. Bennion of the Central States mission and wife, Elder B. F. Cummings, editor of Lishona, the Elders' Journal, were in attendance, and added much to the interest of the meetings.

Everything conspired to make the meetings most pleasant and profitable. The conference was called to order by posident Ben E. Rich, at 12 m., Tuessy, the 19th. After the opening service ay, the 19th. After the opening service of song and prayer, President Rich made an opening address. Elder B. F. Cummings spoke briefly of the "Fore-runner," a little dodger used by the elders in cross country work, and then adverted to Liahona, the Elders' Journal. He spoke of the splendid progress made by the paper and urged the elders to rally to the support of the magazine in the future. President Rich intro-duced Elder John Wells, as the man who had been sent by the authorities of the Church to the different missions of the United States to investigate the methods of account keeping and record keeping in vogue in the missions. Elder methods of account keeping and record keeping in vogue in the missions. Ender Wells spoke briefly of the object of his visit and the importance of accuracy in keeping records. At this juncture the meeting was turned over to him and he commenced to examine the conference presidents' records. Elder Wells con-cluded his work of examining these rec-erds during the evening session. At the session held Wednesday, the ser president Elch spoke of the duties

The figures and facts presented indiated that the mission was never more prosperous. Two hundred and thirty enverts have been added to the Church dring the first four months of the year

converts have been added to the Church wring the first four months of the year 1998. The success which has attended the efforts of the elders in selling Books of Mormon is worthy of special men-tion. During the first third of the year we the elders disposed of 958 copies the Nephite volume of scripture. The sort of the disposition of other kinds (literature was equally flattering. At the meeting held on the 22nd, the matter of dealing with those who fail into transgression was adverted to. The elders were urged to be very charitable to all. President Rich gave a closing address in his usual earnest, candid way. He urged the elders to build up and not to tear down. He especially deprecated the practise of attacking the preachers. Before this session was brought to a close resolutions were read by President C. A. Callis of the South Carolina conference, and unani-mously adopted, expressing apprecia-tion of the labors of President Ben E. The elders are congratulating them-selves on the progress they are making selves on the progress they are making in the south. There are now 300 Mor-mon elders at work in the southern states. Chattanooga is their base of supply. These elders made nearly 1, 000 converts during the year 1967. They have already baptized 200 converts this year

One commendable feature of their work is the provision they make for the education of many of the children of their converts in the south who are de-prived of this advantage. A number of the elders conduct free schools in many sections of the south. These schools follow the public schools curriculum of the different states in which they are held, and are open to the children of

all denominations. In conversation with the Times re-porter, Mr. Rich said:

"Mormonism is preeminently a rell-gion of deed. It concerns itself as much with the amelioration of indus-trial and sociological conditions as with the worship of God. It holds the weekday as holy as Sunday. The real Mormon is a man whose motto is "To be good and do good." He despises cant and hypocrisy. His countenance is sunny and cheerful. NEW MEXICO CONFERENCE.

Elders of New Mexico met in confer-ence at Roswell, New Mexico, May 24, 1908. In the Majestic theater building. First meeting convened at 2 p. m., Con-ference President Francis Bingham presiding, who made the opening ad-drees of welcome to the saints and friends and spoke for some length on the Fall and Atonement. He was fol-lowed by an able address from Elder Thomas Wells on the "Plan of Salva-tion."

Evening session began at 8 p. n Elder James Greenhalgh was the first speaker of the evening and bore a strong testimony to the truth of the gospel. Elder E. E. Rigby spoke at some length on the first principles of the gospel and the divine mission of Jo-seph Smith.

McRae had been delayed on the railroad and falled to arrive in time for the public meetings. Mission President Joseph A. McRae arrived at 9:45 p. m. May 24, and held two priesethood meetings and gave the elders many good instructions and en-couraged them in their labors. FRANCIS BINGHAM, Conference President.

The spring conference of the New England states was held in Boston, on Sunday, May 17, and we are glad that it was a most enjoyable and suc-

cessful one in every way. The elders and most of the saints and a good number of interested friends were in attendance. Conference sessions were held in the morning, and afternoon in the Intercolonial building at 214, Dudley street. President John G. McQuarrie of this

President John G. McQuarrie of this mission, and Secretary A. B. Andrus were present, and we were also favored with the attendance of Sister Ida Smoot Duesenberry, one of the Gen-eral Presidency of the Relief Society who was visiting here for a few days. Their good discourses and instructions were very much enjoyed. The report of the conference show

ed that there are about 100 and a strong corps of working elders

Conference President, William C Hunter, has recently visited the scat-tered saints and friends in New Hamp-shire and Vermont, and reports that he was well received by the people there wherever he went and found a strong desire among them to know more of the truth. He expressed the wish that more elders were available that they might be sent into these parts. There is an increased spirit of investigation among the people here, and in what has among the people here, and in what has been accomplished and in the out-look for the future, the elders have much to feel encouraged in this field. In connection with our conference we held our usual party on Satur-ady evening. The intertainment con-sisted of vocal and instrumental mus-ic and dancing. In the musical part of our program we were greatly as-sisted by a number of Utah's talent-ed students who are here attending the New England Conservatory of Music. Refreshments were served to about 125, and the evening was one of enjoyment to all. On the afternoon of the 16th inst., a baptismal service was held at the "L" Street Baths, in south Boston, at which four baptisms were performed. Those

It is an established fact that an elder in the Swiss and German mission can do better work with little or no money than when he spends his \$20 or \$25 per month. Sensible people do not expect to get the gospel for nothing and if they are really looking for truth they are more than willing to care for its bearer. The next day, May 3, a conference for the sains and friends was held, but the regular Sunday school was not dis-pensed with, which is at present in a very good condition. It is divided into four classes, the theological and the primary classes being the best attended. Strangers and children of strangers are often seen in these classes. In the aft-ernoon meeting the hall was filled to overflowing. Elder C. W. Lindsay pre-sided over the meeting and Jesse P. hus conference embraces the southern half of Jylland and the island of Fyen, half of Jyliand and the island of Fyen, Denmark, having five branches, and a total membership of 530 souls. At its last conference, which was held last month, 28 elders were laboring therein, who, according to their reports, are enjoying their labors, and feel to ex-ert their energies in spreading truth, re-gardless of the carelessness, indiffer-ence and prejudice prevailing among ence and prejudice prevailing among the people in this land. Our conference was well attended throughout the dif-ferent meetings, and reports showed meetings, and reports showed ss in the work. President Soren progress in the work Rasmussen of the Scandinavian mission was in attendance. Elders, saints and friends enjoyed a feast spiritually. Aar-hus city is the headquarters of the consided over the meeting and Jesse P. Rich, B. F. Cummings, Jr., and Presi-dent Serge F. In the evening another meeting was held with a goat many present. Those who had not spoken then had the chance and hore their testimonies to the truth of the gospel. Also Sister Emma Lucy Gates, her volce not being in a condition to sing, added her testi-mony to the rest. Brother Best then took us to heaven for a few minutes while singing "O My Father." There were a great many friends present and such a good spirit was manifest that the people would hardly go home after the meeting was out.
