CLOSE OF SUGAR SEASON.

Lehl Plant Finished Most Successful Run Yesterday-Other News Notes.

Special Correspondence.

Lehl, Utah County, Jan. 6.-The Utah Sugar factory here completed its season's run yesterday, having cut all beets and made same into sugar, to-gether with what brown sugar it had on hand, and have closed down for the season after one of the most successful campaigns in its history, both in the amount of beets sliced and the number of pounds of sugar produced. The great success that has been made this seasan has been due in a large measure to the able efforts of Mr. Chas, Crabb, local superintendent, who has worked unceasingly in keeping the mill going at full capacity and in making such a high grade of granulated su-gar. At Lehi there have been employed about 200 hands, nearly all of whom are Lehi men, which has added materially to the prosperity of the town. The farmers have also made an excellent showing at Lehi, as well as throughout the whole district, the aver-age tonnage of beets per acre is very flattering. The farmers had ideal weather to harvest their crops and are well satisfied with the results obtained. A better run of the mill could hardly be asked for as the whole tonnage was sliced in about 97 days, running full capacity.

Complaint comes from Rigby station that excursion rates were not granted by the railroad company, and that guite a few people mained away for this reason. Less than four months since a disastrous fire occured at Idaho Falls, destroying the greater part of the business district, the heaviest loss was sustained by the Consolidated Wagon & Machine Co., whose retail premises, 150 feet square, were completely burned with all contents. While the fire was in progress the board of directors met and authorized the erection of a new building, which was to be reasonably fire-proof. The building committee, through its chairman, Mr. George Romney placed the responsibility and manage George Romney ment of construction in the hands o G. G. Wright, local manager for the company at Idaho Falls, and well he has done the work with the assistance of Messrs. Keefer and Sweeney, contractors. A SIMPLE LIFE.

One of the first things of importance in living a simple life is in using a sim-ple diet. This does not mean that you must eat the coarsest food and that which is unpalatable to you; but, for you to eat the very best you can get you to eat the very best you can get of the ordinary necessities. First atnong these is good bread and butter. Poor indeed is the family which cannot afford the best of this! It is not ex-travagance to pay an extra price for butter extra in quality, as it makes you cat more bread. Poople do not eat butter alone, and when they are eating good bread and butter, they will not eat so much of other foods less healthful and more expensive. There is only one best more expensive. There is only one best sold in this market and that is Hazel-nut Brand Butter. Your grocer can get it for you.

WHAT WHISKEY COSTS THE DRUNKARD.

Cure the Drink Habit With Orrine and Save Money.

Whiskey drinking does not pay. Take, the howest possible view, without count-iness, the loss of friends, the loss of busi-ness, the loss of manhood that comes to the drunkard; consider simply the ac-tual money paid out, and see what 't costs in dollars and cents. Good author-ity states that nearly one-third of the wages of the isboring man goes over the prigure up for one month how much you take from your wife and children and any out in exchange for drink. The total will atonish you, and you will swear off. Will-power alone will not cure the habit. The orrine, the only suscatained cure for the habit. It can be used without pub-iety or loss of time. It strengtheus the perces, gives a good appetite and re-tresping sleep. The cost is small, it per box.
