Important to Second and Third Class Passengers to or via New York City.

It is well known that the Erie Railway Company has for a number of years provided a commodious passenger boat, fitted especially for the transfer of its emigrant passengers and luggage direct from Castle Garden to their depot, from which trains depart for the West—thus effectually protecting those "consigned to their care" from unauthorized persons or outside influence, while passing through New York.

To afford similar protection to second and third class passengers from the West, going to New York, or passing through New York *en route* to Europe, they have now arranged for a *SPECIAL OMNIBUS TRANSFER*, starting from under cover of their Jersey City Depot, (the arriving place of through trains from the West), to convey passengers and their luggage direct to Steamships, Hotels, Boarding Houses, or wherever they may be consigned—thus affording them absolute protection, and freedom from contact with the "sharpers" who seek to prey upon strangers arriving in a great city. The Erie Company will perform this service with its own omnibuses, in charge of trusty servants, at cost price, for transfer of single passengers, families or parties, and their baggage. A trusty agent of the Company boards each incoming train from the West an hour or more before its arrival in Jersey City, and tenders to passengers the facilities above announced.

"Prices to suit the times," together with every comfort the most fastidious could ask or desire, and the most delicate attention to every want has made the Colonnade the hotel of Philadelphia.
