Accident to a Brakeman.

On Friday morning during the time the freight train was en route to the Logan yard, brakeman H. E. Gable, of Ogden, received a painful injury that might have resulted fatally. He was making a coupling when the air brake, on a piece of it striking him on the forehead. He was knocked senseless, but fortunately fell outside of the track, or he would have been run over. An ambulance, four litters in length, was sent, which was used by Dr. Karlsson.

Mr. Gable is recovering rapidly and will soon be able to resume his dangerous occupation.

After a long search for some time, the lioness was driven from a small patch of brush by the boys and a great safety by shooting through another brush. One of the boys, named the animal's name at the first shot. It was found to weigh about 750 pounds. An indication which will give me made for its skin.
