

REPORT HELD UP BY "AMERICANS"

W. Mont Ferry's Return Serves To Hinder Rather Than Hasten Matter.

WOULD BE UNSATISFACTORY.

Not So Much to People, But Might Cause Kearns Crowd Some Bad Dreams Before Election.

The Cook Knows

or should K N O W that his reputation is safe when he prepares a cup of Ghirardelli's Ground Chocolate. He may be sure that its delicious fragrance will please the most exacting guest. With his own breakfast, also

he drinks a cup of

come out "AT THIS TIME"—using the words of Mr. Ferry.

WILL MAKE IT NECESSARY.

"Infiltration" was hinted at when Councilman Barnes introduced a resolution asking that the chief of police be given authority to appoint two special policemen to act without pay or compensation at each of the 110 precincts in the city. Councilman Fernstrom asked for an explanation from the father of the resolution and no sooner had he done so than the entire "American" crowd set up a howl. They cried "the law respects it." When the law was looked up, however, it was seen that the officer in charge of the election is required to protect the voting machine in such manner as may be necessary.

"We'll make it necessary in every district," declared a deputy from the recorder's office.

The resolution was amended to read "wherever necessary," and was adopted on roll call. Boosters for the party of corruption, lost and graft will be on hand then, two by two, in every voting booth in the city. The "American" Police" ruffians will obey the mandates of their bosses. After election they may be appointed "Inspectors" for the board of public works—that is if the dream of the Kearns crowd should come true, their dream of success at the polls.

COUNCIL ROUTINE.

From Camp's lane came another protest against the flooded conditions prevailing there. James Gibson is asking that some steps be taken to drain his land, which has been flooded to a depth of two feet. The matter is in the hands of the city engineer and the committee. The letter of the regents of the University of Utah in connection with their controversy with the Telluride Realty company was referred to the streets committee.

C. E. Patterson notified the council that he would hold the city responsible for damage done to large shade trees in the vicinity of the street between Fifth and Sixth avenues, which were cut in grading for the sidewalk. His communication is with the streets committee.

Maren Hargan applied to the council for a refund of \$18.50 paid on sidewalk assessment. His claim is that he was not put in a material appearance. His claim is being investigated.

George Walter, a new man on the fire department, broke rule 49 of the department, which prohibits interlocutors during exercises with neat trays laden with the delicacies of the season, including ice cream, cake and several kinds of fruit, and distributed one to each of those present. After this pleasant feature of the program was over, a short time was devoted to handshaking and social converse, when the delightful affair was brought to a close with singing by the congregation and organ recital by Elmer Bryan Coulton, senior president of the seventy quorum of the ward. It is expected a similar reunion will be held annually hereafter.

The council awarded the contract for

REPORT WOULD HURT THEM.

In the continued suppression of the special auditors' report, the Kearns majority in the councilman ring know that they are working to their master's best ends. They know that the report if given publicity would defeat them at the polls at the election which is so near. Therefore, it is being suppressed "until after election."

In the order of President A. J. Davis, the councilman has gone to the committee that it shall present its report on the Fernstrom resolution at next Monday night's session of the council. Promises without number have been made before that the report would soon be forthcoming. None of those promises have materialized and the people may expect the same of this last one. The report will not

SPECIALIST PRESCRIBES CUTICURA

A Famous French Specialist on Diseases of the Skin Prescribes Cuticura as the Most Effective Remedy Known to Him, Charging as His Fee 100 Francs (\$20).

ALSO PRESCRIBED IN HOSPITAL SAINT LOUIS

"Gentlemen: You may be pleased to learn that a patient suffering from an irritation of the skin, caused by motoring, on consulting a noted physician in Paris, for which a fee of one hundred francs (twenty dollars) was charged, was advised to use Cuticura, which advised him to go to the Hospital Saint Louis, Paris, one of the largest and most famous hospitals in the world described especially in the treatment of diseases of the skin.

Mother Of Ten
Always Kept Cuticura Ready
for Children's Skin and
Scalp Troubles.

"With to add my word to the praise of Cuticura Remedy. I am the father of ten children, whose mother is dead, in some homes in England and America, the home in little medicine chest always on hand and used to treat children's diseases, and they brought the best of results in children's skin and scalp troubles. The Cuticura Remedy is the best and the only one that I can recall any specific case of cure, but I do know that I have spent remarkably little in Cuticura fees. George W. Rupley, 62 N. Clark, Chicago, Ill., Oct. 26, 1906."

French physicians, particularly those making a specialty of the treatment of skin diseases, have for many years regarded Cuticura as the best and have prescribed it freely. It enjoys the rare distinction of being prescribed in the Hospital Saint Louis, Paris, one of the largest and most famous hospitals in the world described especially in the treatment of diseases of the skin.

For Cuticura see page 10 of this issue.
