HARD ON BUCKET SHOPS. Effect of Decision Made in Chicago

Board of Trade Cases.

The United States supreme court rendered an important decision yesterday in favor of the Chicago board of trade in the Christic Commission cases. The decision will put a stop to bucket shops over the country from using the quota-tions of the large exchanges of the country.

Pollowing the announcement of the

decision, James A. Pollock & Co.'s cor-respondents reported the failure of Haight & Freeze, a New York broker-ege firm that has been doing business in grain and other commedities for 20

Logan and Bryan say: The decision by the supreme court of the United States in favor of Chicago board of States in favor of Chicago board of trade is a great victory, not only for the members of the Chicago board of trade but all exchanges as it now proves to the New York Stock Exchange and other exchanges that they can control their quotations.

EXCITEMENT NEAR VEGAS. Prospectors Find Good Looking Gold Rock Near Nevada Town.

On Tuesday evening and Wednesday merning a fever of excitement dominated the town of Las Vegas, says the Times of that place. Men in bunches could be seen at every turn discussing the vich finds north, south, east and

west.
The most notable one was that some prospectors made south of the city about 15 miles. These prospectors came in Tuesday afternoon with samples that glistened with the pure native stuff. How this aroused the boys; how they How this aroused the boys; how they peeped and inquired in order to get an inking of where the spot might be found from whence these rich specimens were taken and when the lucky locators put some of their friends in on it then it became a case of wild fire. GOLDFIELD-SCORPION. Manager Friese Lets a 300 Foot Tunnel Contract.

John Freise, under whose management the properties of the Goldfield-Scorpion Mining company at Lida, Nev., are being developed, is in the city to confey with local associates. Mr. Freise has just returned from San Francisco, where, he states, he closed a deal for the sale of a large block of the company's stock, with the proceeds from which at his command for development purposes will return to camp in a few days. The topography of the country is such that the company can open the ledges crossing the property by means of a long tunnel and already a contract had been let to drive one into the mountain to the length of 300 feet, which will cut the contact vein at a depth of 250 feet from the surface the surface openings on which showed values in gold, copper and silver of about \$90 to the opper and silver of about \$90 to the

Manager Freise and associates are reatly encouraged over the outlook for he future and the fact that the Florida and Wisconsin properties, both of which have a production record, are located on the same contact makes the situation doubly assuring.

Cincinnati Syndicate Figures in the Purchase -Ground Said to be favorably Located.

A deal for the sale of a high interest in the Nikhthawk group of claims, located near Rhyolite, in the Bullfrog. Nev., district was closed up in the offices of William H. Tibbals in this city today. The transaction, it is said, involves a consideration of about \$10,000, The purchaser is a Cincinnatti syndicate and, in addition to putting up the cash consideration has placed on deposit a large sum which is to be drawn on for development purposes,

An examination of the property made

An examination of the property made recently by an engineer sent there for the purpose proved to be satisfactory to the Ohioans and they promptly decided to take a chance and notified Mr. Tibbais that their money was ready.

The property is to form the basis for another corporation, which is to have a capital stock of \$1,000,000, divided into ar. equal number of shares. One half the stock will be placed in the treasury. With ample funds on hand it is the intention to carry on a vigorous campaign of exploration. The ground is said to be very favorably located and the chances are good for the opening of a large producer.

Big Horn Basin Colonization Company to Unite in Pushing Shoshone Project.

MEANS MUCH FOR SECTION.

Will Bring Under Cultivation About 40,000 Acres of Valuable

Special Correspondence. Washington, D. C., May 5 .- An opportunity has now arisen for the extension of the Shoshone project and for the utilization of all the waters of the Sheshone river, which can be stored in the proposed reservoir about to be constructed by the United States under

the reclamation act. When Colonel Cody and the state rea linguished their claims to the Carey act selection along the river, it was deemed advisable to retain for private develop. ment the portion of the segregation lying south of the river, consisting of several tracts which were to be irrigated by the Big Horn Basin Colonization company, of which Byron Sessions is president and J. W. Crosby, Jr., vice president.

These interests have now become convinced that their lands can be most satisfactorily developed in connection with the reclamation project now about to be constructed by the United States reclamation service. Negotiations are under way to obtain the benefit of government construction for these tracts, amounting to about 46,000 acres. If this proposition is carried through, Wyoming will be materially benefitted, as it will insure the settlement of these lands, their cultivation and improvement to a very high state of efficiency, and under conditions promising more successful and valuable results than if successful and valuable results than if carried out by private capital.

The matter is now in the hands of the state officials and the officers of the corporation. If they act promptly and put the proposition in such shape as to eliminate any complications to affect the government operations, we shall doubtless see some of these lands irrigated from the government reservoir within the next two years.

RUSSIAN EMPIRE,

On Recommendation of Bouligan Commission to Take Form of Zemstvo Sovviet.

CONNECTS CZAR AND PEOPLE.

A Sort of National Assembly but Not Elected Directly by the People-Autecratic Power Remains.

St. Petersburg, May 9, 3:07 a. m .- A report defining the form and character of the new branch of the government to be created in accordance with the imperial circles here, according to which the friends of the Bouligan commission have taken the form of a recommendation for the creation of a zemsky soyviet, or council of zemstyos, elected indirectly through the zemstvos, to serve as a connecting link between the emperor and the people.

Emperor Nicholas is said to have accepted the report of the commission and the date of its proclamation has been tentatively fixed for May 18, The main features of the reported scheme are an organization comprising from 500 to 600 members, elected by the zemstvos, the system being extended to all parts of the empire. The auto-cratic power of the emperor will remain undiminished, the assembly's privileges being advisory, with the right of interpolating the ministers and discussing the budget when formulated, though the ministers continue to be responsible only to the emperor, whose will will remain the supreme law.

Elections will be held during the summer in order that the first session of the new assembly may open on New 15.

Though such a zemsky sovviet will fail to satisfy the Liberals who are calling for a full plunge into constitutionalism, universal suffrage, a respon sible ministry, etc., the recommenda-tion of it, if that really has been adopt-ed by the Bouligan commission, will go far toward meeting the wishes of the conservative Liberals.

VIGOROUS RALLY.

Clearing of the Political Atmosphere Ab ond Aided Stocks In New York.

CAINS WERE CENERAL RULE.

This at Opening -- Some Reaction but Not Much-Stagnation Marked Afternoon.

New York, May 9 .- The clearing of the political atmosphere abroad opened the way to a vigorous rally in prices on the opening dealings in stocks here, dains of number of the internationals, specialdes extended to I and 11/2. There were running sales of 6,000 shares of Union Pacific at 1194 and 119%, against the last sale at 118 last night. New York Central, Atchison, aknsas & Texas prefered, Ontario & Western Minneapelis, St. Paul and sault Ste Marie, People's Gas. Colorado Fuel and Rubber Goods rose I to 1½, Prices advanced to about the same extent as they had failen yesterday in the same interval, but on a considerably season yolume of business. In detail the list showed pretty general advances of between I and 2 points, with only a few conspicuous exceptions, including the Eries and United States Steel stocks. Northern Pacific celebrated the anniversary of its corner four years ago by making the largest gain, 34, Great Northern prefered, New York Central, Canadian racl.c. Atlantic Coast Line, Tennessee Coal and Rubber Goods rose 1½, Union Pacific touched 120. Realizing sales were only effective in spots and the market generally was firm at 11 o'clock.

The demand fell to normal prepertions on the advance but stocks were pre sed for sale and gains were held. There was a rise in Southern Pacific of 1½, N thwestern 1½, and United States Rubber prican Express fell's on one sale and rallied Sig on two succeeding transactions, Toledo, St. Louis & Western fell 1½ and Reading first preferred 1.

Bonds were steady at noon,
Minor reactions from the top figures occurred before moon but in no case were they in excess of a smail fraction, A .rop of 2 points in Rock Island preferred on half point stages had little effect on the market.

Little alteration occurred in the character, the Assistance of th Western, Minneapolis, St. Paul and Sault

nair point stages had little effect on the market.

Little alteration occurred in the char-acter of the dealings in the afternoon. The market was dult to the verge of stagna-tion and the fluctuations were unimport-ant.
