STRAY cow notice. See advt.

COOL AND PLEASANT.—An elegant assortment of Gents' and Boys' Boots and Shoes for Summer wear, just received at Shoe Dept. Z. C. M. I.

THE TRUTHFUL TEST.—It requires no learned experts or scientific experiments to establish the fact that Dr. Price's Cream Baking Powder is not only the purest but positively the strongest. If any housewife will make a sweet, light and more digestible bread, biscuits, cakes, etc., with two teaspoonfuls of Dr. Price's Powder to one quart of flour than can be made with three teaspoonfuls of other kinds, is it not an incontrovertible proof of its purity and greater strength? Give them a fair trial, and also Dr. Price's Flavoring Extracts. If they please you, recommend them to your neighbor; if not, return them and have your money refunded, and denounce the articles as vile impositions. We have no fear of your doing this if you get Dr. Price's, and to be certain of this, buy them only in unbroken cans, as Dr. Price's Powder is sold by the manufacturers in no other way.

The party who took that shawl, just read that advt. about it.

DURVEY'S "Satin Gloss Starch" saves the housekeeper trouble and money, and gives a satisfaction that no other starch does.

The Best Starch.—Chicago, March 15, 1871.—I am using Durvey's Starch in my laundry, and I find it superior to all others that have come within my notice. It is the whitest, gives a clearer finish, and takes less starch for the same quantity of work than any I have ever used. I cheerfully recommend Messrs. Durvey's Starch to all starch consumers.

Proprietor Wilson's Laundry, 229 State Street.

NOTICE.—Parties knowing themselves indebted to the late John Hamer, deceased, are requested to come forward and settle immediately; and any one having accounts against said John Hamer will please present them.

ELIZABETH HAMER, 16th Ward, Salt Lake City. d190 3c

H. WALLACE, opposite the Salt Lake House, East Temple Street, has the best Ice Cream in town and the coolest saloon.

ARMSTRONG & BAGLEY'S Lumber Yard, at Little's old yard, one block east of Theat. Warehouse.

Common Lumber at \$30 per 1000 ft. Flooring and Finish.

Phone No. 1040. d190 3c

Common Sheet Metal \$30.00

Patents, \$32.50

Terms, Cash. d175 1m

MOTHERS.—Make your children happy. Buy them each a pair of the celebrated Shoes stamped on the sole, *Sellers & Co., Philadelphia*. d150 3m

DUNFORD & SONS keep full lines of the Latest Novelties in Ventilated Hats and Caps.

EVERY OLIVE OIL country on hand. Various brands of the genuine article imported directly from France, by Louis A. Bertrand, and for sale at his residence, one block west from the Temple Block, and at Messrs. Wilton & Sanger's, First South Street, opposite Z. C. M. I. Price from \$12 to \$16 per box, or 100 lbs.

twelve or twenty-four bottles, and from 75c. to \$2 per bottle, according to the size of the bottles, and or sale at the Co-operative Drug Store and at the Co-operative Retail Grocery Department.

—Brethren, buy no more melted lard for olive oil.

d102 LOUIS A. BERTRAND.

LOCAL AND OTHER MATTERS.

THERMOMETER 90 degrees F. in the shade, at 1 p.m. to-day. Fine day.

NOTICE!

With the view to accommodate the Sunday Schools in this City, after this date there will be only one meeting held in the New Tabernacle on each Sunday, at 2 p.m., till further notice.

BRIGHAM YOUNG, GEORGE A. SMITH, DANIEL H. WELLS. SALT LAKE CITY, June 29.

Unlicensed.—This morning Johnny Ah Cutt, a Chinaman, was fined \$100 for selling liquor without license. Johnny pleaded guilty and complacently handed over the amount.

The Waterloo, N. Y., Register.—This is a new four-page family paper, republican in politics, and published every Tuesday. It is neatly got up, and edited with ability.

Caught Him.—Charles Carr, who obtained a quantity of goods a short time since from a store, under pretence that he was purchasing for the Salt Lake House, and made off with the same, was arrested this morning by the police.

Wilson's Amphitheatre.—It will be seen, by an advertisement, that Mr. Wilson's troupe will re-visit this city and perform to-morrow night. We have already spoken of the excellent character of the entertainments given by this company. The performances speak for themselves.

For San Francisco.—Col. S. W. Beal, observer of the Salt Lake office of the U. S. signal service, was to leave this city for San Francisco this afternoon, having been removed to the office of the latter city. The gentleman whom he goes to relieve will take the position he vacated here. Col. Beal's official course here has been, according to our experience, gentlemanly and courteous.

Poland Barred.—Arrangements are being made to mould an immense bar of Utah silver, to be presented to Congressmen Poland, as a token of gratitude of the loyal people of the Territory without distinction of party, for his services in their behalf.

Without any reference to the Utah bill, Poland is likely to be presented with another bar that will effectively prevent his re-election, and that is the law for the press. That will likely keep Poland quiet, as the Russian bear does not like to see the unhappy country which bears his name.—*Pioneer Record.*

Montgomery Queen's Great Menagerie and Circus passed through this city at 3 o'clock this morning en route to Provo where they perform to-day. Their special trains, consisting of some forty cars, are a beautiful sight, loaded with a long line of new cages, dens, etc., all painted in gaudy colors, with billiard designs, panoramic views, etc. This mammoth show will arrive in Salt Lake City on Friday morning and none should fail to witness the grand street parade at ten o'clock a.m., which is pronounced among the finest ever witnessed.

Clarence Williams, their agent, has to-day secured the Camp Douglas brass band to join the procession, which will prove an additional attraction.

Remember the price of admission is only one dollar to all the tents, children half price.

Attempted Rape Case.—At the conclusion of the taking of the evidence in the case of Adolpho or Abram Razin, charged with attempted rape upon Mrs. Olsen, of the 17th Ward, Judge S. W. Richards held the defendant in \$1,000 bonds to the District Court. The complaining witness, her husband, John Olsen, Louisa Olsen and Paula Olsen testified for the prosecution, the evidence showing that Razin had conducted himself very indecently towards Mrs. Olsen, some of the testimony being entirely unfit for publication.

Helen Reed, Sophia Bjorkholm and G. P. Carlson were witnesses for the defense, but their evidence had but little real bearing upon the case, mostly going to prove that the complaining witness was not any better than she should be, and that the principals in the affair were spiritualists, and imbued with free-love ideas. Altogether the affair is of a singularly disgusting character.

Diabolism.—The other night Brother John Lyon, of the 20th Ward, an aged and much respected citizen, was a valuable cow poisoned by some malignant person, who committed the deed out of petty spite to that gentleman. The first symptoms of the animal's being poisoned was its appearing to be drooping and unsteady while being milked, and then shortly afterwards it lay down and appeared very sick. When Sister Lyon, having an impression that it was poisoned, very wisely threw away the milk. The cow shortly afterwards died and subsequently a crumpled piece of paper was found in a corner in the stable, with a few badly written words in pencil, on it, by which the writer informed Sister Lyon that his cow would die; that it had been poisoned, and that the writer had intended his spite.

This is one of the meanest, most malicious and spiteful acts that have come to our notice for a long time, and the perpetrator, if discovered, ought to be hanged with a chain round his neck, and his head on a pole.

Swamp Accident.—A man, who was in the city of the City, his great weakness being a severe cold, was struck by a horse, and fell into a ditch, and was killed.

City Council.—At the regular meeting of the Council last night, Mayor Wells presiding, a petition was received from Dr. J. M. Benedict and half a dozen other physicians, representing a number of persons were practicing physic in this city without having received a certificate from the examining board and without the requisite license, and asking that the ordinance regulating the matter be either repealed or enforced.

The committee to whom was referred the petition of E. F. Sheets and others, in reference to Washington Square, recommended that the sheds and corrals on the grounds be torn down, and that the Deseret B. B. Club be permitted to play there; adopted.

The committee appointed by the Council and empowered to employ a person to act as street supervisor, reported that they had appointed Mr. Wm. Hyde to fill that office temporarily; and recommended that that gentleman be authorized to purchase the necessary tools for the city prisoners to work with, that a span of horses, harness, wagon and a couple of carts be purchased and kept for street work, and that the animals be used to haul the fire engine, in case of fire.

The assessment roll for the present year, and a plat of the city were presented by the assessor and collector. The roll places the value of city property at nearly \$7,000,000. Tuesday, August 25th, at 2 p.m. was selected for a special meeting to be held for hearing complaints, and making any necessary corrections in the roll. Considerable other business of minor importance was also attended to.

The Emigrants.—We are enabled, by courtesy of President Young, to publish the annexed dispatch—

"New York, July 7.

"Brigham Young:—

"Carestensen [Christensen] left at four p.m., with seven hundred and sixty souls; all well.

"W. C. STAINES."

We should judge, from the time of starting from New York, that the company will reach here on or about one week from to-morrow.

Military Guard House.—The Camp Douglas post commander has established a guard-house in this city, a small house on the north-west corner of Mr. Permarz Little's lot, First South Street, having been rented for that purpose. Col. Nugent took possession of the quarters to-day. We understand that a provost guard, consisting of a commissioned officer and three or four men, will be stationed there constantly, whose duty will be to look after disorderly soldiers.

Something New.—This afternoon some small boys discovered a genuine live porcupine in the 11th Ward, and kept up a lively chase after it for a considerable time. Finally a man took after it and shot and killed it. It was covered with quills three or four inches long and hair six or seven inches in length, and it weighed about twenty-five pounds. That is surely something new for this part of the country.

Horticultural Exhibition.—We have received the premium list of the First Exhibition of the Deseret Horticultural Society, which is to be held in the 18th Ward Assembly Rooms, July 15 and 16. Premiums are given, in shares in the Society, for plants in bloom, cut flowers, fruits, and vegetables.

Sericulture.—Sericulture is destined to become one of the most important and staple industries of Utah. Experiments are constantly being made, and the climate of the Territory is admirably adapted for it. When Brother Paul A. Schettler was on his Palestine trip he visited the principal silk manufacturing countries of France, Italy and Spain, where he exhibited specimens of cocoons raised in Utah, which were always pronounced first-class.

While in Florence, Italy, Brother Schettler got an order for 4,000 pounds of cocoons merely as a sample, with the encouragement that all that could be raised in Utah would be readily purchased, whether cocoons, reeled silk, or eggs. The cocoons, pressed, would bring from \$2.50 to \$3 per pound, and reeled silk higher in proportion. The best form in which to send the silk, however, is reeled, as considerable is thus saved in the matter of freight, and also in keeping here the labor of reeling, instead of having it done abroad. Reels can now be purchased in this Territory.

On application to Brother Schettler all necessary information can be obtained regarding a suitable market for the silk products of Utah. The profits arising from this industry are considerable, and it is a branch the general details of which can be attended to by children and aged persons. Care should always be taken not to crowd too many of the worms into one room, as fresh air and free ventilation are essential to keep them alive and from being sickly.

The mulberry trees, on which the worms are fed, should always be raised on bench land, as it has been proved that those raised on low, damp lands are not so good. After getting a fair start in growth they need but little and, in some seasons, not any water. Brother Schettler has 2,000 of these trees, well matured, on his farm, a short distance north-east of the City, besides a nursery of between 1,000 and 5,000 young trees.

Eggs destined for the French or Italian markets should leave here not later than early in the Fall, as the season there commences early in the Spring.

An Association of the silk-growers of the Territory, for the diffusion of salutary information and the facilitation of business would be an excellent thing, and there appears to be no valid reason against the formation of such a society.

Swamp Accident.—A man, who was in the city of the City, his great weakness being a severe cold, was struck by a horse, and fell into a ditch, and was killed.

He was liberated only this morning and in a few hours was very drunk. While in this condition he entered the drinking saloon of A. W. Smith, First South Street, where he lost his balance and fell, striking the back of his head against the edge of a case, inflicting a deep gash, from which the blood flowed copiously. He was conveyed to the City Hall, where he received surgical aid.

When Rogers is not in liquor he is industrious and orderly, but that is when he is under the supervision of the police authorities, for when he has money and is from under restraint he seems incapable of resisting temptation.

BY TELEGRAPH.

PEEL WESTERN UNION TELEGRAPH LINE.

TO-DAY'S DISPATCHES.

EASTERN.

Havemeyer Alarmed—Eight Millions Indemnity Demanded.

New York, N. Y.—The action against Mayor Havemeyer having been pushed with so much vigor, at a late hour last night he concluded that "discretion was the better part of valor," and accepted the resignations of Charlick and Gardner, and appointed Geo. W. Matzell, superintendent of police, and John R. Voorhees, ex-come commissioner, fill the vacancies.

The Governor will be memorialized to-day to remove Havemeyer, notwithstanding this action.

It is stated here that the British government has demanded eight millions of dollars from Spain, for the massacre of sixteen English subjects, captured on board the *Virginius*, and executed in Santiago de Cuba.

FIGHT WITH INDIANS.

CHICAGO, Ill.—Authentic information has been received here that a war party, supposed to be Northern Sioux, were followed out of Wind River valley by the Shoshone scouts and trailed to their camp, 75 miles east of north from Camp Brown. A party of troops and Shoshone scouts was organized under Capt. Bates and Lieut. Young, of the Fourth Cavalry, to destroy the scouts; they followed the trail and on the morning of the third day came up to and attacked the Indians, killing and wounding about fifty, and capturing over a hundred head of horses. Three soldiers were killed and three wounded. Lieut. Young wounded, but not seriously. These Indians have been committing depredations along the frontier for some time.

Military After the Indians.

WASHINGTON, D. C.—In answer to the application of Agent Miles, the War Department to-day telegraphed to Gen. Pope, Commanding the Department of the Missouri, directing him to use such of the Sixth Cavalry as is in Kansas and the Indian Territory, to break up the raids of hostile Cheyennes, Comanches and Kiowas, and to force them upon their reservations.

FOREIGN.

GREAT BRITAIN.

The "Standard" on Reciprocity.

LONDON, S. E.—The Morning Standard reviews the prospect of a reciprocity treaty between the U. S. and Canada, and says that if adopted it will establish a state of North American sovereignty in regard to all the essential articles of trade between the States and the Dominion, including England, and their markets, like the foreign and those of the less favored portion of the Canadian frontier, will be obliterated.

It is pointed out that the British North American provinces by the U. S. will become only a question of time.
